THE CONNECTED SHOP

1. SET UP

a. Remove all items from their original box

b. Keep the device plugged in when in use

d. Proceed to the video below to learn more about setting up the device via the mobile app

e. Make sure to test the controller afterward
2. FUNCTIONS

a) Activate Device

- To activate the device or set an alarm, open the mobile app to create a Smart Scene
- Select 'When device status changes' and enter your preferred pH value or temperature
- Click 'Send notifications' to receive real-time updates when a change occurs in your pool water
- You will also be able to view historical records and manage the device's settings

3. MOBILE APP CONNECTION

a) Downloading the App

Download the application on the Google Play Store or Apple AppStore by searching "Tuya Smart" or by scanning the QR code below
b) Logging in and Registering

After Downloading the App

- Select the country from which you will be using the device, usually the app will prompt it automatically
- You will be redirected to register via email where a verification code will be sent and proceed to enter it on the app in the allotted time limit
- Once the verification code has been entered into the app, you will be asked to set your password
- You will then have full access to the Tuya Smart Platform

Verification Code

Verification code has been sent to: 86-15219500857,
Resend(57s)

Set Password

Password must contain 6-20 letters and numbers

Done

- You will be prompted to enter the email where a verification code will be sent and proceed to enter it on the app in the allotted time limit
- Once the verification code has been entered into the app, you will be asked to set your new password
- You will then have full access to the Tuya Smart Platform

In the case that you would like to change your password from the app, please follow the steps below:

- Tap the 'Me' tab on the bottom right hand corner of your screen
- Click 'Change Login Password'
- You will be taken to the 'Account Verification' page and then tap 'Get Verification Code' button
- This will send a verification to your registered email
- Enter the code in the app
- Proceed to enter the new password

3. MOBILE APP CONNECTION

d) Adding Devices

To add devices on the app, please follow the instructions below. Your devices and phone must be connected to the same 2.4 GHz Wi-Fi network in order for this to work.
- To add a device, click the 'Add Device' or tap the 'Plus' button on the top-right corner of your screen and select 'Add Device'
- Enable Bluetooth and phone location to proceed
- The app will automatically detect a nearby device. Select it when it pops up on the screen

- Wait for the app to finish searching for the device
- Finish adding your device. Once this has been done successfully, you can go on to change the name of your device and control its functions
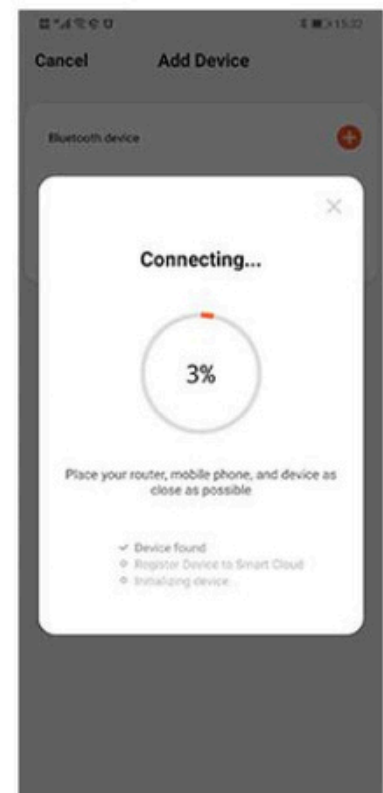

Congratulations!

You have successfully set up your very own Smart Pool Water Controller.

Thank you for being a valued customer of The Connected Shop.
