RODO B2B WEBSITE

Launching mid-2025, our new website enables Rodo stockists to order both our PPE products and the wider Rodo product ranges 24/7. It features live stock information, order tracking, a wealth of information relating to your account and much more.

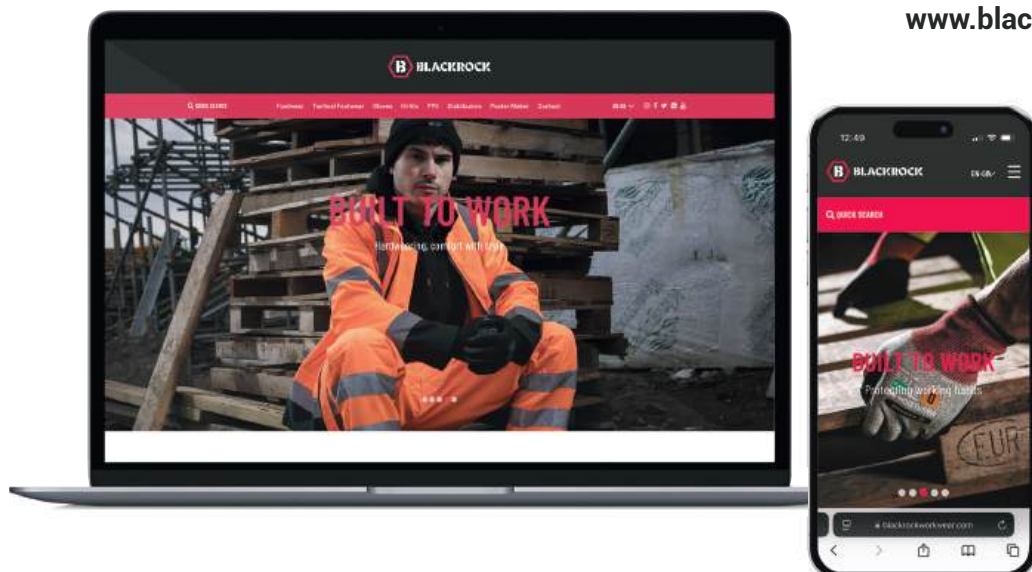

www.rodco.co.uk

BLACKROCK CONSUMER WEBSITE

A complete resource for your customers for all things Blackrock, our consumer website features the entire product range, news articles and blogs, plus a poster maker.

www.blackrockworkwear.com

WHY CHOOSE BLACKROCK?

Blackrock has over 20 years' experience in designing and manufacturing PPE and our products keep hundreds of thousands of people safe every year. Here are some key reasons our customers trust us:

CERTIFICATION

Blackrock works with leading internationally accredited organisations to test and certify our products to the correct safety standards during development, long before they go into first production.

DUE DILIGENCE

A certificate doesn't mean the end of testing – it means the start of quality assurance, and through both our in-house QA team and internationally recognised third parties we continuously check our products to ensure the latest batch is as good as the first.

STOCK

With over 150,000 sq ft of UK warehousing, you can be sure you can get what you want, when you need it. We offer parcel and pallet shipping options to all corners of the UK and Ireland, with rapid order turnaround.

SUPPORT

We can offer various levels of support to help you sell to your customers, including joint visits, bespoke emails, product training and in-store solutions.

MERCHANT SUPPORT

Space-efficient merchandising solutions are available for our range of Blackrock PPE, developed to ensure easy selection and effective in-store presentation.

With free standing units for high volume gloves, footwear ranges and layouts for in-store display, our PPE range is compact yet offers the key products in each category.

HAND PROTECTION

Protective gloves are designed to prevent injury and enhance performance and, in common with other PPE, there are international standards designed to ensure they are fit for the purpose for which they are intended. Our hand protection range is rigorously tested and variously encompasses certification for EN ISO 21420:2020, EN388:2016+A1:2018 and EN511:2006.

All Blackrock gloves are categorised into task-related families to help you quickly identify which are suited for the work being carried out.

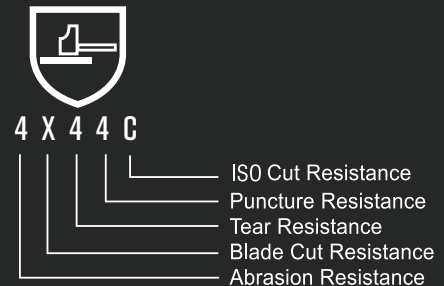

HAND PROTECTION STANDARDS

EN ISO 21420:2020

This standard sets out general requirements and test methods. As a specifier, buyer or user of protective gloves you need to be assured that gloves certified to EN 388:2016 have also passed EN ISO 21420:2020 in order to achieve a Mechanical Hazard Rating (MHR).

EN388:2016+A1:2018

To help support your choice of gloves once a risk assessment has taken place, EN388 is the standard which is designed to assess the performance of the materials used in glove manufacture against the mechanical hazards of abrasion, blade cut, tear, puncture and, if applicable, impact. Gloves which conform to the standard are marked with a shield and the numbers and letters which relate to the levels of protection afforded to that glove once tested.

LEVEL	1	2	3	4	5
Abrasion	100	500	2000	8000	
Blade Cut (Coupe Test)	1.2	2.5	5.0	10.0	20.0
Tear	10	25	50	75	
Puncture	20	60	100	150	

LEVEL	A	B	C	D	E	F
ISO Cut	2	5	10	15	22	30

EN 511:2006

Gloves certified to this standard are intended to protect the wearer from convective and contact cold.

The different performance levels are marked under a pictogram showing the standard plus the performance levels 1-4, where 4 denotes the highest level.

TEST	LEVELS
Convective Cold*	0-4
Contact Cold**	0-4
Water Permeability	0 or 1

* Convective Cold (cold that penetrates)

** Contact Cold (direct contact)

PRECISION HANDLING

ENGINEER'S GRIPPER

Nitrile foam palm for optimal dry and oily grip

15-gauge nylon liner for excellent dexterity

DextraFit ergonomic stretch fabric technology

Sizes: 9/L-10/XL (card) 7/S-11/2XL (polybag)

Code: BRG101C (card) BRG101 (polybag)

EN388
4.1.2.1.X

ULTRA-LIGHT GRIP

Ultra-thin PU palm

Ultra-lightweight 18-gauge nylon liner maximises dexterity

Smart touch technology for use with touch screen devices

Sizes: 9/L-10/XL (card) 7/S-11/2XL (polybag)

Code: BRG301C (card) BRG301 (polybag)

EN388
2.1.2.1.X

PRO GRIP

Latex crinkle palm for outstanding dry and wet grip

15-gauge nylon liner for excellent dexterity

DextraFit ergonomic stretch fabric technology

EN388

3.1.2.1.X

Sizes: 9/L-10/XL (card) 7/S-11/2XL (polybag)

Code: BRG202C (card) BRG202 (polybag)

WATERPROOF HANDLING

WATERTITE

Sandy latex palm for excellent dry, wet, and oily grip

Fully waterproof nitrile coating to wrist level

13-gauge nylon and elastane liner improves comfort and dexterity

EN388

2.1.3.1.X

Sizes: 8/M-11/2XL

Code: 54309 (card)

WATERTITE THERMAL

Sandy latex palm for excellent dry, wet, and oily grip

Fully waterproof nitrile coating to wrist level

EN511 certified 10-gauge brushed terry liner adds essential warmth

Sizes: 8/M-11/2XL

Code: 54310 (card)

EN388
2.2.4.2.X

EN388
X.2.X

WATERTITE CUTSAFE

Sandy nitrile palm for good dry, wet, and oily grip

ISO cut level D protection

Fully waterproof nitrile coating to wrist level

Sizes: 8/M-11/2XL

Code: 54319 (card)

EN388
4.X.4.4.D

MULTI-PURPOSE HANDLING

MULTI-PURPOSE GRIPPER

Sandy latex palm for excellent dry, wet, and oily grip

Breathable 13-gauge polyester liner for all-day comfort

Neon yellow liner enhances visibility in lowlight conditions

Sizes: 9/L-10/XL (card) 7/S-11/2XL (polybag)

Code: BRG201C (card) BRG201 (polybag)

EN388
2.1.2.1.X

LATEX GRIPPER

Latex crinkle palm for excellent dry and wet grip

Durable 10-gauge polycotton liner

Elasticated wrist for a secure fit

Sizes: 9/L-10/XL (card & 6 pair pack)
8/M-11/2XL (polybag & box of 30)

Code: 54012 (card) 85000 (polybag)
85000P6 (6 pair pack) 85000B30 (box of 30)

EN388

VIPER GRIP

Unique zig-zag rubber palm for optimal dry grip

Durable moulded rubber extends working life

Breathable 13-gauge polyester liner

EN388

2.1.3.1.X

Sizes: 9/L-10/XL

Code: 54317C (card)

TEXTURED PALM & FINGERS

SUPER GRIP

Flat nitrile palm maximises grip in dry conditions

Breathable 13-gauge polyester liner gives all-day comfort

Elasticated wrist for a secure fit

Sizes: 9/L-10/XL (card & 6 pair pack)

7/S-11/2XL (polybag)

8/M-11/2XL (box of 48)

Code: 54008 (card) 84302 (polybag)

84302P6 (6 pair pack) 84302B48 (box of 48)

EN388
2.1.2.1.X

LIGHTWEIGHT GRIP

PU coated lightweight palm enhances light handling

Breathable 13-gauge polyester liner for all-day comfort

Elasticated wrist for a secure fit

Sizes: 9/L-10/XL (card & 6 pair pack)

7/S-11/2XL (polybag & box of 48)

Code: 54011 (card) 84301 (polybag)

84301P6 (6 pair pack) 84301B48 (box of 48)

EN388
2.1.2.1.X

PAINTER'S LIGHTWEIGHT GRIP

PU coated lightweight palm enhances light handling

Breathable 13-gauge polyester liner for all-day comfort

Elasticated wrist for a secure fit

EN388
2.1.2.1.X

Sizes: 9/L-10/XL

Code: 54010 (card) 84308 (polybag)
84308P6 (6 pair pack) 84308B48 (box of 48)

CUT-RESISTANT HANDLING

LITHIUM FLAT NITRILE

Flat nitrile palm maximises grip in dry conditions

Glass fibre ISO cut level C protection

Blended 13-gauge stretch fabric nylon liner

Sizes: 8/M-10/XL

Code: 84307 (card) 54307 (polybag)

EN388

4.X.4.4.C

LITHIUM SANDY NITRILE

Sandy nitrile palm for good dry, wet, and oily grip

Glass fibre ISO cut level C protection

Blended 13-gauge stretch fabric nylon liner

Sizes: 7/S-11/2XL (polybag)

Code: BRG151 (polybag)

EN388

4.X.4.4.C

LITHIUM POLYURETHANE (PU)

PU coated lightweight palm improves dexterity

Glass fibre ISO cut level C protection

Blended 13-gauge stretch fabric nylon liner

EN388

4.X.4.4.C

Sizes: 8/M-10/XL

Code: 84306 (card) 54306 (polybag)

DISPOSABLE HANDLING

DIAMOND-TEX

Diamond textured profile for excellent dry, wet, and oily grip

Non-sterile nitrile (latex and powder-free)

Industrial strength 8.0 mil thickness and 6.5g weight for excellent puncture and tear resistance

Sizes: 8/M - 10/XL

Code: TGPFG50 (box of 50pcs / 25 pairs)

HEAVY DUTY DEXTRA TOUCH

Ambidextrous design

Non-sterile nitrile (latex and powder-free)

Heavy duty 4.0 mil thickness and 5.0g weight for outstanding puncture and tear resistance

Sizes: 8/M - 10/XL

Code: HDPFG100 (box of 100pcs / 50 pairs)

DEXTRA TOUCH

Ambidextrous design

Non-sterile nitrile (latex and powder-free)

2.7 mil thickness and 3.5g weight ensures good puncture and tear resistance

Sizes: 8/M - 10/XL (box of 100pcs / 50 pairs)
10/XL (10 piece pack)

Code: BRPFNG100 (box of 100pcs / 50 pairs)
BRPFNG10PXL (10 piece pack)

POWDERED VINYL

Ambidextrous design

Medical grade AQL 1.5 quality

3.0 mil thickness and 5.0g weight ensures good puncture and tear resistance

Sizes: 8/M - 10/XL (box of 100pcs / 50 pairs)
10/XL (10 piece pack)

Code: BRPDG100 (box of 100 pcs)
BRPDG10P (10 piece pack)

GENERAL PURPOSE HANDLING

PVC CRISS-CROSS

Clear PVC criss-cross coating gives excellent grip in dry conditions

Machine knitted breathable liner for comfortable working

Optimal tear resistance & durability

Sizes: One size

Code: 5400100 (card)

EN388
2.1.4.X.X

COTTON DRILL

8oz high quality cotton drill for light duty applications

Clute cut back for added comfort and flexibility

Knitted wrist for a comfortable fit

Sizes: One size

Code: 5400200 (card)

LEATHER RIGGER

Traditional leather rigger glove for heavy duty handling

1-2mm thick leather with a heavy drill backing

Reinforced thumb, first finger and knuckle areas

Sizes: One size

Code: 5410100 (card)

EN388

3.1.3.3.X

PVC KNITWRIST

Fully waterproof to wrist level PVC coated glove

Knitted wrist adds enhanced comfort

Ideal in wet & oily conditions

Sizes: One size

Code: 5400600 (card)

EN388

4.1.1.1.X

MACHINE GLOVE

Fingerless index finger & thumb gives improved dexterity when handling small components

Reinforced patches enhance hand protection

Hook & loop wrist adjust ensures a secure fit

Sizes: One size

Code: 5400400 (card)

FINGERLESS MACHINE GLOVE

Fingerless on all fingers & thumb gives maximum dexterity when handling small components

Reinforced patches enhance hand protection

Hook & loop wrist adjust ensures a secure fit

Sizes: One size

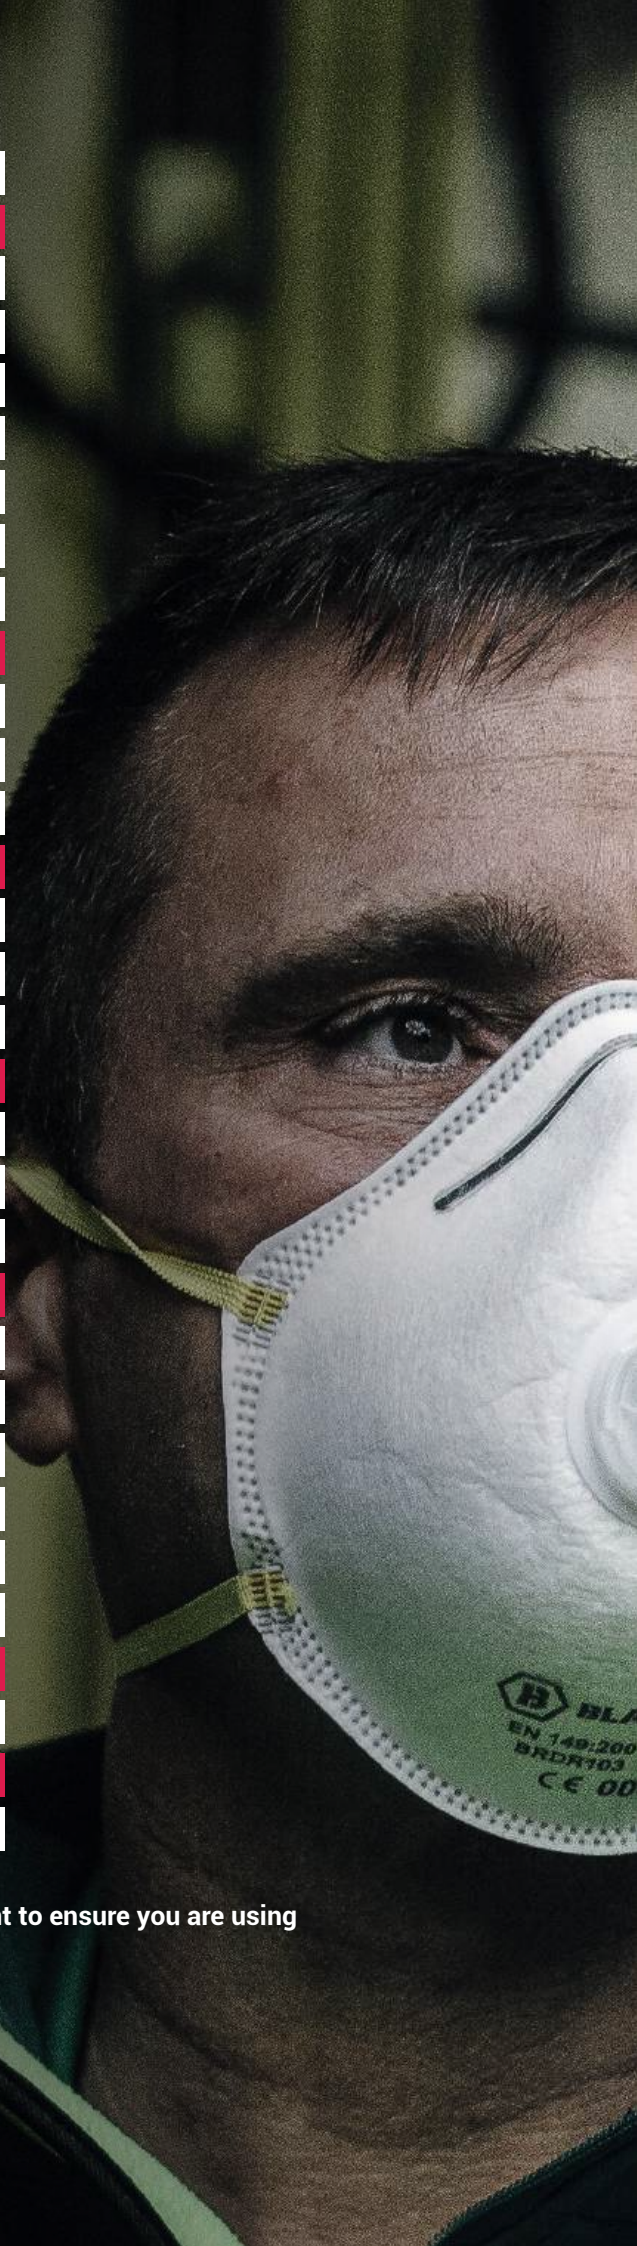

Code: 5400500 (card)

For indication only - you must carry out a risk assessment to ensure you are using the correct mask with required APF

MASKS & FILTERS

Our range of dust masks ensures you're protected in every situation where you encounter hazardous substances, fumes and particles. With advanced 3 layer filtration materials and new technology like our Turbo exhalation valve, Blackrock masks keep you safe when it matters.

Our Eazi-Breathe respirators have an Assigned Protection Factor (APF) of 10 for FFP2 respirators and 20 for FFP3 respirators.

What does APF mean and why is it relevant?

The Assigned Protection Factor is the level of respiratory protection that a respirator is expected to provide employees in the workplace.

An APF of 10 means that no more than one tenth of the contaminants to which a worker is exposed will leak into the mask, equivalent to 94% filter effectiveness. APF of 20 gives you 99% filter efficiency.

PROTECTION LEVEL	FFP2	FFP3
ASSIGNED PROTECTION FACTOR (APF)	10	20
HELPS PROTECT AGAINST	Low to average toxicity fumes and water or oil-based mists and aerosols	High toxicity fumes, water or oil-based mists and aerosols
IDENTIFYING FEATURES	Yellow straps or markings on packaging	Red straps or marking on packaging

EAZI-BREATHE FFP2/FFP3 FOLD FLAT MASK

Fold2Fit sculpted panels mould to the face for optimum fit and comfort

TWIN FILTER RESPIRATOR WITH A1/P2 CARTRIDGES

Protects against fumes and gases, dust and particles

Non-odour, non-allergenic silicone material

Adjustable head strap for comfort

Easy change screw-in A1/P2 cartridges

Certified to EN140:1999 and EN14387:2008

Sizes: One size

Code: 4310000 Twin Filter A1/P2 Respirator
4320000 Replacement filters - A1/P2 pack of 2

EYE PROTECTION

Our safety eyewear undergoes stringent testing and all achieve both UK and international safety standards of EN166:2001 and EN170:2002, so you know functionality, durability and comfort are all covered.

Lens markings are usually made up of the name of the manufacturer, radiation protection, light transmission, optical quality and lens properties. You need to choose what type of protection you need, highlighted in your risk assessment.

DOUBLE ARM ADJUST SAFETY SPECTACLES

Adjustable arm length and lens angle

Wraparound style for all-round protection

Durable polycarbonate lens with impact and scratch resistance

Certified to EN166:2001

Sizes: One size

Code: 4110200

Code: 4100200

DUST PROTECTION GOGGLES

Direct vent protects against dust

Durable polycarbonate lens

Soft PVC frame for comfort

Certified to EN166:2001

Sizes: One size

Code: 4100100

HEAD PROTECTION

An essential part of your PPE - if you've identified the potential risk of impact from falling objects in the workplace - is head protection. All our safety helmets and bump caps comply with relevant safety standards EN397 and EN812, with adjustable inserts or fastenings to make sure your head protection fits well and vents to circulate air to ensure your comfort.

Protective headwear needs to absorb the shock of a blow, stop any penetration by objects, resist water and burn slowly – the shell, harness and headband will all help with making a more comfortable wearer experience.

6 POINT SAFETY HELMET

HDPE shell for protection

6 point multi-position adjust suspension harness

Integral sweatband for comfort

Chin strap and ear muff attachment points

Certified to EN 397:2012 + A1:2012

Sizes: One size

Code: 7000600 (White)

7001300 (Orange)

SPORTS BUMP CAP

High quality plastic shell provides protection against low impact bumps

Soft pad for comfort and shock absorption

Hook and loop adjustable

Certified to EN 812:2012

Sizes: One size

Code: 7001100

HEARING PROTECTION

Any loss of hearing can have a significant effect on someone's life, and it's why having a risk assessment which includes noise meter readings is crucial to ensure sound levels aren't excessive. Our range of hearing protection is concise but covers you for all levels of noise reduction.

What is SNR? Standard Noise Reduction value is a European standard. This gives you an indication of the comparison between different ear defenders and ear plugs. The higher the value, the greater the noise reduction, it's essentially an indication of the functionality of a device and the ability of that device to protect your hearing in noisy environments.

COMFORT EAR DEFENDERS

Padded headband for enhanced comfort

Soft foam pads and adjustable headband ensure the optimum fit

SNR 38db

Certified to EN352

Sizes: One size

WORKWEAR

A compact range of clothing, workwear and waterproof protection to give you the basics for getting on site, keeping you comfortable in any environment.

Our trousers and shorts are manufactured from strong, durable polycotton with added reinforced high wear areas to ensure your workwear can endure tough working conditions. Available in a range of colours and lengths to suit even stringent uniform requirements.

The Cotswold waterproof range has been engineered using thermo-sealed taped seams that maximise waterproof and wind protection, defending you against all of the elements.
