## Curaprox Perio Plus Zero Mouthwash

Available 1<sup>st</sup> January to 28<sup>th</sup> February

Next generation formula without CHX.

Features a next-generation formula that provides powerful protection against harmful bacteria while maintaining your mouth's natural balance. It specifically targets Streptococcus mutans, the bacteria responsible for tooth decay. The formula uses a unique biohacking method to disrupt bacterial communication, preventing them from forming harmful colonies and attacking your teeth and gums. This process, called Quorum Quenching, blocks the signals that bacteria use to work together, stopping them from creating sticky plaque and causing oral health problems.

Palodent matrix systems help you achieve reliable isolation with a tight gingival seal. With Dentsply Sirona's advanced designs, recreating accurate interproximal contacts has never been so easy and predictable. And the anatomically shaped matrices deliver natural contours for better clinical outcomes—without bulky equipment, obstructions to your working room, or the need for extensive interproximal finishing.

## TEMPSMART DC

TEMPSMART is an innovative, dual-cured, bis-acrylic composite temporary crown and bridge material using micro-filled resin (MFR) and nano-filler technologies. It maintains a smooth surface after polishing because of this revolutionary combination. The high density polymer network for TEMPSMART makes it a strong material ideal for any sized provisional. This product is ideal for temporary crowns, bridges, inlays, onlays and veneers, as well as long-term temporary restorations.

## SDI Riva Self Cure and Light Cure

A versatile glass-hybrid restorative system offering both self-curing and light-curing options. Comes with:

- Strong fluoride release and ion exchange to support remineralisation
- Chemical bond to tooth structure (no separate bonding needed)
- Excellent handling, wear resistance, and aesthetic match
- Radiopaque formulation for clear radiographic contrast

Choose Self Cure for bulk-fill convenience and chemical setting without light.

Choose Light Cure for controlled working time, enhanced aesthetics, and higher flexural strength.
