New Ultra-Series Cameras

More Intelligence, Sharper Night Vision

IR ⟷ White light

DarkFighter S

HEOP

Experience next-level security with:

· Super Confocal Lens

· Flexible Lighting Options

· Variable Intelligence for Various Scenarios
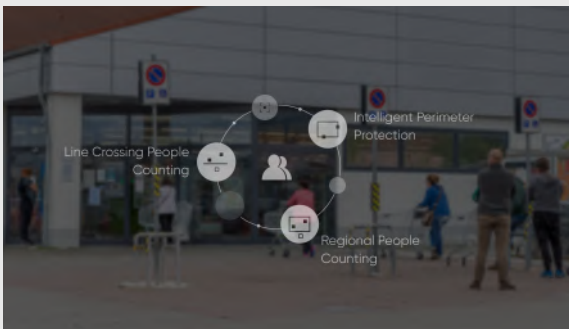

HIKVISION®

▌*Product Highlights*

Sharper Night Vision

Enjoy surprising color reproduction in low light with DarkFight-erS technology. Super Confocal Lens with F1.0 sets the standard for always sharply-focused images.

Smart Hybrid Light

Three supplemental lighting modes available – infrared, white light and smart modes – to meet the needs of different environments.

Switchable Intelligence

Switch between embedded AI algorithms for People Counting, Perimeter Protection, and more, with the ability to optimize accuracy to best suit the environment.

Third-Party Applications

Load and run deep-learning algorithms from third-party developers or providers with ease through the Hikvision Embedded Open Platform (HEOP).

▌*Product Showcase*

4 MP

Fixed lens models (2.8 / 4 mm)

· DS-2CD30x6G2H-LIU   · DS-2CD31x6G2H-LIS(U)
· DS-2CD33x6G2H-LIS(U) · DS-2CD3Tx6G2H-LIS

4 / 8 MP

Varifocal models (2.7-13.5 mm)

· DS-2CD36x6G2HT-LIZS   · DS-2CD37x6G2HT-LIZSU

· Color imaging with ambient light down to 0.0005 lux

· Smart Hybrid Light

· Built in with 4 types of AI algorithms

· HEOP third-party integration

· IP67, IK10 protection (domes only)

· With S: Built-in audio & alarm in/out port

· With U: Built-in microphone for real-time audio security
