⌘ What Sets Us Apart

01 Curriculum

Our education standards ensure our students are equipped to thrive. Excellence in Education: Emphasising small class sizes and high-quality teaching, with educators encouraging every child to achieve their best. We strive for the highest standards in teaching and learning. A full curriculum — GCSEs ensures every student has a meaningful pathway to university, apprenticeship, or employment.

02 Personalised Learning Approach

Every student is unique. We maintain a manageable school size to offer individualised attention, tailored learning plans, and mentorship that celebrate each student's unique strengths. Your child, not a category. Every student's EHCP is translated into a bespoke learning and support plan, co-produced with the family. Small class sizes mean teachers truly know each pupil.

03 Experienced and Passionate Educators

Our staff are guided by *Rosenshein's Principles of Instruction*, embedding high-quality relationships, evidence-informed pedagogy, and adaptive practice into every lesson. We cultivate a dynamic relationship between learning, teaching, and school culture, ensuring that each student benefits from an engaging, structured, and ambitious educational experience.

04 Diverse and Inclusive Environment

We are committed to developing the whole child — academically, socially, and emotionally. School-wide interventions in Reading, Mathematics, English, and Critical Thinking build essential knowledge and close gaps in learning. Our behaviour curriculum places self-regulation and personal growth at its core, promoting a calm, secure, and purposeful environment in which students feel safe to learn and grow.

Testimonials

Testimonials from parents

An understanding and supportive learning environment

My eldest child faced the prospect of being ‘out of education’ until I found this wonderful and understanding environment. Having faced extreme difficulties in mainstream education, and despite being a very troubled and difficult individual, he attended every day and finished his school journey. He is now a successful, well-rounded individual with a successful career ahead of him.

My youngest child, with additional needs and a quite serious health condition, has gone from being approximately 2 years behind his peers, to thriving. This is all thanks to the supportive, nurturing staff and the special nurturing environment that the school runs.

Both my children felt safe and cared about. Their confidence has grown along with their academic ability and understanding of the wider world around them. Thank you for being amazing!

My daughter is happy here

My daughter attends Lords and she is happy and settled here. When she was going through primary school she was behind other children in her class and I was worried she’d be lost and over looked if she went to a mainstream school. Since being at Lords she’s flourished. She’s no longer behind, she enjoys school and has a good relationship with her teachers, this is down to the dedication of the teachers and the smaller class sizes.

Brilliant school

My child had gone backwards on his educational journey after going into secondary school due to inadequate education and bullying, After joining Lords school, he has not only caught up, but is now excelling in subjects. The school prides itself on the motto ‘each child matter’s’ and that is evident in the way the pupils progress and how they have respect for the teachers as they clearly enjoy learning here, in a tranquil environment. Class sizes are small but this allows teachers to focus more attention on those pupils. Honestly, this is the best school I’ve ever encountered, and they are very approachable. Top marks from me.
