SLICE

Solid French walnut cutting board

STOCK ITEMS

series production

+/- 40x20xh1cm

750 € for set of 5p

VI. MAINTENANCE

Important information:

Relative humidity should ideally be between 50% and 60%.

Less than 40% can lead to various types of damage, mainly cracks.

Particularly during the winter, but also when using air conditioning, relative humidity must be kept in mind.

1. **Finish varnish:** Damp cloth.

2. **Finish Woca oil:** Clean with Woca soap regularly – follow instructions producer.

After 6 months apply a new coat of Woca Masteroil Natural – follow instructions producer.

Woca products are sold by drugstores selling maintenance products for wooden floors, and also via the internet.

3. **Finish Monocoat oil:** Damp cloth + green soap.

Once a year, treat with Rubio Monocoat Maintenance Oil.

Oregon wood: resin beads can be removed with Rubio Monocoat Grease Remover.

Abundantly moisten rag with Rubio Monocoat Grease Remover and wipe surface. Repeat if necessary.

4. **Finish hardwax:** Damp cloth.

5. **Finish soap:** Regularly wipe off with a damp cloth soaked in water + Marseille soap mixture.

6. **Natural – No finish:** Damp cloth + green soap.

To remove grease or oil stains: oil remover Oil-out (Boma Antwerpen: +32 (0)3 231 33 89).

7. **Leather:** From time to time wipe with damp cloth and apply sparingly some colourless leatherfat (EFFAX Colourless). Leatherfat can be bought in any equestrian shop.

If you have some scratches: rub vigorously with your thumb over the scratch till it disappears.

If you have many scratches: generously apply leather fat over the entire table top and carefully warm the scratched leather with a hairdryer. Then wipe with cloth.

8. **Messing:** Clean regularly with a mixture of 10% vinegar and 90% liquid dish soap.

This will create a slight patina. The more often cleaned, the more explicit patina will become.

9. **Natural stone:** No treatment necessary when used outdoors. Rain will make most stains disappear after a while. When used indoors, the table top can be treated with a stone protectant, available in a specialised dealership.

Grease spots on an untreated table top can be removed by using Oil-out.

(Boma Antwerpen: +32 (0)3 231 33 89).

10. **Metal outdoor base:** Not suitable for maritime environments.
