Food Packaging Product Guide

# Foreword

**M**ore than 1/3 of the domestic waste produced in cities is packaging waste, and the volume of packaging waste accounts for about 50% of solid waste.

The world consumes an average of 1 million plastic bags every minute, and about 8 million tons of plastic waste enter the ocean every year, all of which add up to 420 circles around the earth. Every year, more than 100,000 marine animals die from being entangled in plastic bags or eating plastic by mistake.

Protecting the environment has become the common mission of the times for all mankind.

## One-stop solutions to meet individual needs

All products can be customized according to your requirements.

We have our own factory, which can control quality and production environment, and keep track of production progress.

Provide exclusive comprehensive transportation services and solutions.

# About us

**F**ounded in 2006, Jiurong Packaging adhering to the green development

concept of health, low carbon and environmental protection, has always focused on the design, development and manufacturing of environmental protection food packaging, driving the comprehensive solution of environmental protection packaging with innovation, and leading the public to embrace green and healthy life.

# Our Achievements

Committed to reducing the impact of disposable plastic products on the environment

**Jiurong Packaging promotes the green lifestyle development of "paper instead of plastic" and advocates that eco food packaging originate from nature, return to nature.**

## Corporate Culture

### Brand Values

#### Honesty

The industry is not prosperous without honesty. Honesty is the life of the brand. Only by keeping honesty can we win the market and users.

#### Responsibility

Regard the environmental protection of energy conservation and emission reduction as our own responsibility, devote ourselves to the recycling of resources, shoulder the heavy burden and move forward.

#### Innovation

Insist on taking innovation as the growth momentum, respond to the trend, take the initiative to change, and promote high-quality development.

#### Win-win

Build a win-win cooperation platform for partners, focus on common development and win-win future.

### Brand Vision

**To be a global leader in environmentally friendly food packaging industry.**

Jiurong Packaging is based on the original ecological packaging industry, guided by science and technology, adheres to people-oriented, harmonious integration, advocates and leads a green low-carbon lifestyle, and goes all out to protect the sustainable development ecology.

### Brand Concept

**Ingenuity, perseverance, sincerity and honesty.**

### Brand Mission

**Deeply cultivate environmental protection packaging and lead low-carbon life.**

Manufacture food packaging with ingenuity;    Defend food safety with perseverance.  
Obtain customer satisfaction with sincerity;    Create employee happiness with honesty.

## Our Factory

Jiurong Packaging has 60,000 square meters of international standardized production base, the world's advanced environmentally friendly food packaging production equipment and class 1000 dust-free purification workshop, with sophisticated equipment and technology to promote production capacity, the concept of energy saving and emission reduction and circular economy, into every link of packaging products.

Over the years, Jiurong Packaging has been focusing on the research and development of professional technology, developing in the rapidly changing field of environmentally friendly food packaging and rising in the market.

# Company Certification

**FSSC 22000**  
FSSC 22000 is a food safety certification scheme that creates a framework for food safety management, total supply chain management, and control of food safety hazards.

**BRCGS A+**  
The standard is designed as a “total quality management” program, and includes both Packaging materials requirements and quality requirements.

**BSCI**  
The amfori Business Social Compliance Initiative (BSCI) is an industry-driven movement that aims to monitor and assess workplace standards across the global supply chain.

## Quality Management System Certification

Our integrated quality and environmental management systems are ISO9001:2015 and ISO14001:2015 certified, which allow us to identify the key aspects guaranteeing service of the highest quality and the areas that impact on the environment in order to create continuous improvement objectives and an action plan to achieve them.

**gmp**  
Good Manufacturing Practices or GMP is a system that consists of processes, procedures and documentation that ensures manufacturing products, such as food, cosmetics, and pharmaceutical goods, are consistently produced and controlled according to set quality standards.

**HACCP**  
HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.

**FSC**  
An obvious choice for manufacturers of FSCTM certified card and paper ensuring that the products come from responsibly managed forests. Search for our FSCTM certified products.

**EUTR**  
The EUTR (European Union Timber Regulation) has been in force since 2013. It is an EU-wide regulation (which is replicated in the UK since Brexit, UKTR) that also has international implications.

# Product Certification

**FDA**  
The FDA means that a company must demonstrate that its drug or biological product is safe and effective for the intended use, and that it can manufacture the product to federal quality standards.

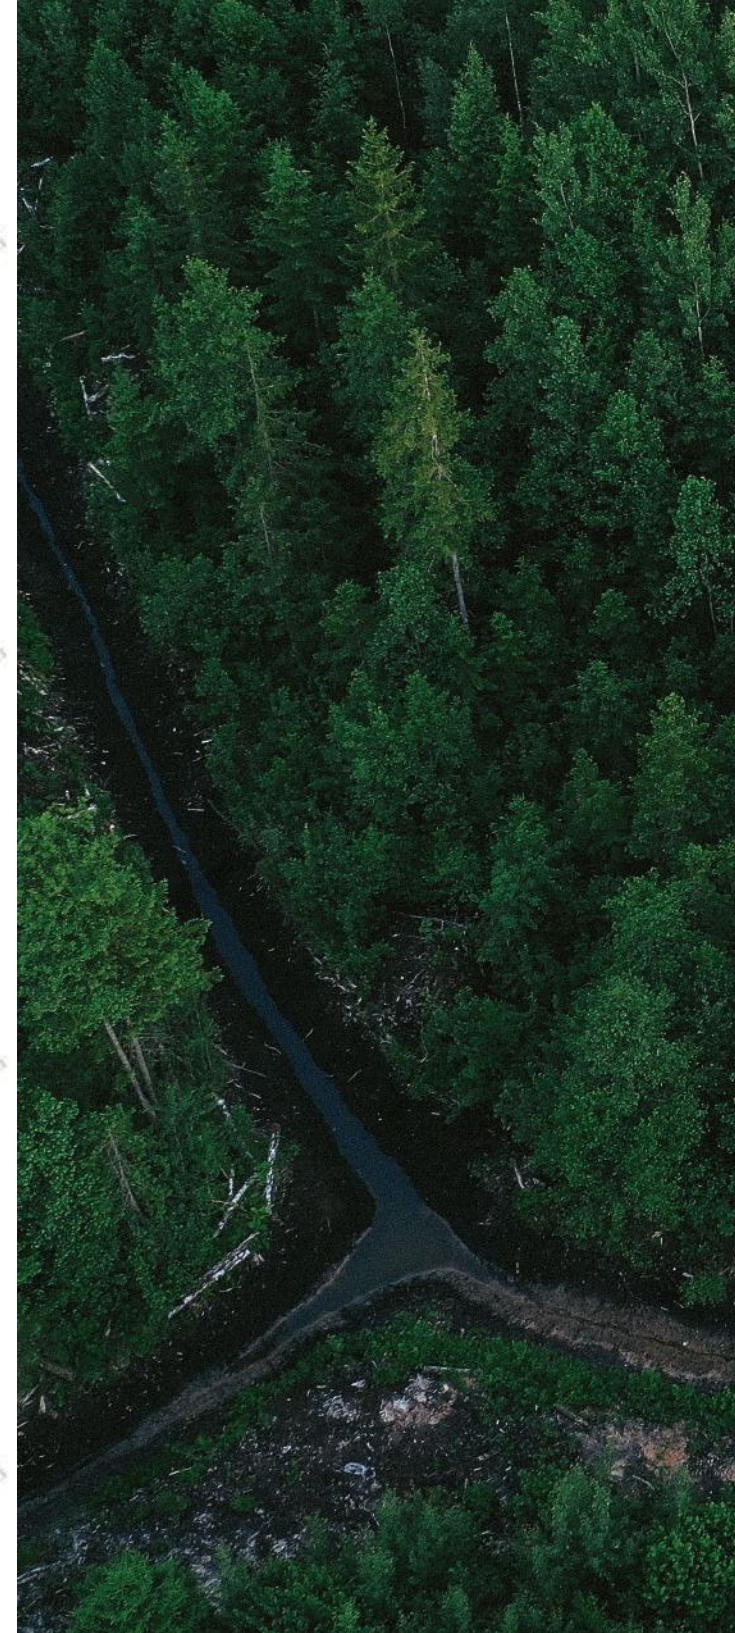

**LFGB**  
The LFGB standard ensures that products coming into contact with food are compliant. This standard is mainly required for Germany. LFGB is based on European directives 76/769/EEC and EC 1935/2004.

## OK compost INDUSTRIAL OK compost HOME Seedling

TÜV AUSTRIA (formerly Vinçotte) is a certification body authorized by European Bioplastics and may therefore award the Seedling logo to products that are in compliance with EN 13432. By awarding both the OK compost INDUSTRIAL and the Seedling logo, TÜV AUSTRIA's certificate holders are able to have their compostable products recognized throughout the entire European market.

## Raw Materials Produced

### PLA

Polylactic acid is a polymer obtained by polymerization of lactic acid as the main raw material.

### Paper

Can be widely used in various paper products packaging.

### Bamboo

Bamboo has a short growth cycle. After processing, it can maintain the toughness and durability of bamboo. Products made of bamboo are biodegradable.

### Sugarcane pulp

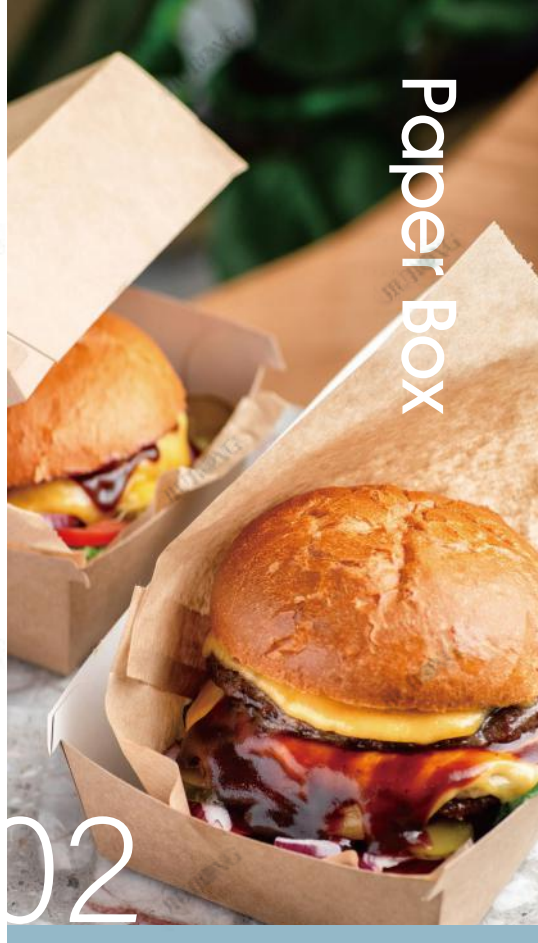

Sugarcane pulp is mainly made of bagasse, which is degradable and compostable. It is a suitable material for making lunch boxes.
