SEASON UPDATE

IEWS OF THE MANAGER

Over the summer we lost 8 players due to various reasons such as the travel to matches, moving to uni etc and I took the view of taking our time to replace them and to get quality In and finding the right players for how we play. We started the season with a top half finish as a target in our first season in championship league one. We quickly found ourselves top of the league after winning our first 3 games and drawing the fourth after being in a winning position. 2 tough games against good opposition ended in defeat and saw us drop to fifth and 8 points behind the leaders. An excellent run of 5 wins beating the top 2 teams included in them, has seen us rise to 4th just 2 points off top. Our Scottish cup came to an end at the hands of Inverness Caledonian Thistle, a team sitting 2nd in the league above, in a game which could have gone either way.

We did finally beat a championship team in a competitive game, beating Dryburgh to get us through the SWF national league cup semifinal to be played next year.

A great start to our life in the new league but with 3 other teams around us being very consistent and every game being very competitive, we need to keep improving and showing the same application if we want to progress this season. I believe we have a squad that can do it as long as we keep working hard to do this. We have a very young squad with the majority of the team 19 years of age or younger, so we will have dips but I always feel it is how we react to these that defines the team.

I'm looking forward to an exciting 2nd half of the season to see what it brings

Stuart
