MARCH 2026

# When nothing but the best will do.

## **Our mission**

**Making a positive difference in the Painting and Decorating industry by listening to our customers.**

We were unsatisfied with using the same old paint rollers that weren't up to our standards. We wanted something better—something that could make painting easier, faster, and more enjoyable. So we set out on the adventure of developing products for ourselves.

We believe in creating products that are as high-quality as possible, so that fellow painters and decorators can get the job done quickly and efficiently. All products in this catalogue were designed with passion, expertise, and attention to detail that reflects our commitment to delivering the highest quality tools available.

Yes, we're are fussy but that's just how we roll.

**Peter Sychala & Chris Pilipczuk**  
aka Two Fussy Blokes

# 5MM NAP MICROFIBRE PAINT ROLLERS

## 5MM NAP MICROFIBRE MINI PAINT ROLLERS

Best for painting the likes of furniture, kitchen units, window frames, and door frames – essentially anything small that requires a smooth, spray-like finish. The shortest nap in our mini-roller range, the 5mm is gaining huge popularity within upcycling communities and with well-known furniture painters.

### PRODUCT BENEFITS

- Perfect for water-based paints. Recommended for primers and topcoats.
  - Ideal for doors, trims, cupboards, furniture, smooth surfaces.
- Spray like finish, excellent paint pick up and release, no need to lay off, excellent coverage.

# 10MM NAP MICROFIBRE PAINT ROLLERS

## 10MM NAP MICROFIBRE MINI PAINT ROLLERS

This particular roller holds a considerable amount of paint, washes out easily, and is ideal to cut in walls and ceilings in conjunction with our 10mm-nap big rollers, as doing so will result in a uniform finish with no picture framing. Perfect for use on radiators, exterior weatherboards, and previously painted surfaces, these mini rollers eliminate the need to lay off your paint.

### PRODUCT BENEFITS

- Perfect for water-based paints. Recommended for primers and topcoats.
- Ideal for weatherboards, MDF, plywood, cement boards, metal bannisters and gates.
- Excellent paint pick-up and release, superior finish, no need to lay off, excellent coverage.

## 10MM NAP MICROFIBRE PAINT ROLLERS

This mid-sized nap roller is the most versatile of our rollers, offering excellent paint pick-up, finish, and release. Able to be used with all water-based paints, the 10mm-nap big roller is commonly used to achieve a top-of-the-line finish on medium- to large-sized surfaces such as walls and ceilings

### PRODUCT BENEFITS

- Perfect for water-based paints. Recommended for primers and topcoats.
- Ideal for top coating interior walls and ceilings, MDF, timber, and plywood.
- Excellent paint pick-up and release, superior finish, excellent coverage.

# 15MM NAP MICROFIBRE PAINT ROLLERS

## 15MM NAP MICROFIBRE MINI PAINT ROLLERS

15mm long pile Mini Microfibre Rollers are the longest nap in our mini-roller microfibre range. We designed our mini microfibre 15mm NAP/Pile for reaching into the nook and crannies spots when you're painting. They are great for textured plaster, concrete blocks, bricks, fences or embossed wallpaper. Our 15mm Minis are ready for your toughest painting challenges!

### PRODUCT BENEFITS

- Perfect for water-based paints. Recommended for primers and topcoats.
- Ideal for weatherboards, textured plaster and surfaces, bricks, fences, and gates.
  - Excellent paint pick-up and release. Finish close to 10mm Microfibre.

## 15MM NAP MICROFIBRE PAINT ROLLERS

This roller features the largest NAP we stock and is great for those slightly textured surfaces, patterned wallpapers and rough ceilings or walls. Our 15mm high nap paint roller holds a larger quantity of paint which you need to get the job done 2.5 times faster than the average 10mm. But don't worry, they still provide a consistent finish and are ideal for water-based paints.

### PRODUCT BENEFITS

- Perfect for water-based paints. Recommended for primers and topcoats.
- Ideal for top coating interior walls and ceilings, slightly textured surfaces.
- Superb paint pick-up and release, fast paint speed with a finish very close to 10mm Microfibre.

# 10MM NAP DACRON PAINT ROLLERS

## 10MM NAP DACRON MINI PAINT ROLLERS

Our Dacron mini roller sleeve is intended for use exclusively with water-based paints. Thanks to its superb coverage and excellent paint release, these rollers are perfect for tackling challenging color schemes and for applying water-based sealers. They excel in creating an exceptional film build on new plaster walls, fresh timber, and cement board surfaces. While you may not achieve the same level of finish as you would with our 10mm microfiber roller, rest assured that you'll easily attain your desired results regardless of the color you're working with.

### PRODUCT BENEFITS

- Perfect for water-based paints. Recommended for primers and topcoats.
  - Ideal for priming new plaster walls, textured surfaces, wallpaper.
  - Excellent paint pick up and release, excellent coverage.

### 3 PACKS - 100MM LENGTH

## 10MM NAP DACRON PAINT ROLLERS

With superb coverage, these rollers are ideal for painting with difficult colours, as well as for use with wallboard sealers. They'll provide you with exceptional film build on new plaster walls and while you won't see the exact level of finish you would with our 10mm microfibre roller, you'll easily achieve your desired result regardless of the colour you're working with.

### PRODUCT BENEFITS

- Perfect for water-based paints. Recommended for primers and topcoats.
  - Ideal for priming new plaster walls, textured surfaces, wallpaper.
- Excellent paint pick up and release, no need to lay off, excellent coverage.

# FILLERS & COMPOUNDS

## FUSSY FILLA

Fussy Filla is a ready to use water based filler suitable for interior and exterior use. Smooth consistency makes the application a breeze. Fussy Filla can be used on many surfaces such as timber, plasterboard, fibre cement and brick. Small or medium holes are a perfect match for this fast drying filler. If there is a need to fill holes larger than 8mm in depth you may need to double fill it. Priming the surface and proper application (do not underfill) will assure that there will be no sagging on small and medium size cavities. We made the filler easy to sand and at the same time it dries hard ready for your primer to go over it. Fussy Filla formula is made to reduce wastage so you can get more filla for your dollar.

Fussy Filla is available in four sizes: a handy 200ml tube for convenience, 500ml & 1L for small to medium projects, and a 4L trade size for larger projects.

### PRODUCT BENEFITS

- Interior & exterior
- Easy to sand
- Fast drying

# EASY FLOW PLUS

This ready-mixed, air-drying compound is a versatile, lightweight solution designed to deliver both taping and finishing performance in a single product. Formulated for interior plasterboard applications, it provides excellent workability, smooth application, and strong adhesion.

Ready to use straight from the pail, the compound eliminates the need for mixing and ensures consistent results across joints, corners, and fastener heads. Its lightweight formulation makes spreading, feathering, and sanding easier, reducing labour time while achieving a high-quality, professional finish. Ideal for most drywall and plasterboard applications, it dries evenly to create a smooth surface ready for painting or decorative finishes.

## PRODUCT BENEFITS

- Ready-mixed formula – Ready to use straight from the pail with no mixing required.
- Taping & finishing in one – Combines both stages into a single, versatile compound.
- Smooth spreading – Delivers superior feathering for clean, seamless joints.
- Low shrinkage – Helps reduce cracking as the compound dries.
- Easy sanding – Sands smoothly for a fine, professional finish.
- Air-drying formula – Dries naturally without the need for additives.
- Multi-purpose use – Ideal for joints, corners, and fastener heads.
- Interior application – Suitable for most interior plasterboard projects.

# ROLLER FRAMES

## MINI ROLLER FRAMES

Featuring a stylish wooden handle crafted for optimal comfort, our mini-roller frame swaps plastic for a more sustainable and environmentally friendly black finished frame. One of our more recent products, it's made and tested to our rigorous standards in order to allow your mini rollers to spin freely and to make painting quick and easy.

# ADJUSTABLE ROLLER FRAME

Two Fussy Blokes adjustable roller frame is designed for smooth, efficient painting on floors, walls, ceilings, and large surfaces. Durable and easy to use, it fits various roller covers. Easy length adjustment with the size guide on the arm of the frame.

### PRODUCT BENEFITS

- Adjustable frame length – Designed to suit 305mm/12” – 455mm/18” roller sleeves.
- Built-in size guide – Makes it easy to set the correct length quickly and accurately.
- Standard pin compatibility – Fits standard roller covers with a 6mm pin.
- Strong, durable construction – Built for long-lasting performance.
- Secure roller lock – Keeps the sleeve firmly in place while painting.
- Lightweight design – Helps reduce hand and arm fatigue during extended use.
- Smooth rotation – Supports an even, consistent paint finish.

Product Name	SKU

Adjustable Shipper Box of 24 Units	AFR-305-460-SGL-SHIP24

# PAINTING TOOLS

## GLASS SCRAPER

A must-have tool for the effortless removal of dirt, paint, adhesives, and more. Comes with three blades total — one already installed and two spares in a compartment conveniently hidden in the handle. Features a razor-sharp blade that easily rotates from the sharp edge to the safe edge, allowing you to clean glass with minimal effort whilst mitigating the risk of cuts or injury.

### PRODUCT BENEFITS

- Effortless removal of dirt, paint, adhesives, and more.
- Designed with safety and ergonomics top of mind
