ALBATROS

Spring/Summer 2025

smart books
smart kids

Our books are playful like a toy but educational at the same time,
aiming to develop young readers' curiosity and thirst for knowledge,
helping with first words but also with first exams.

Original, innovative, and funny formats—and children all around
the world just love them! — evident by the fact that our books have
already been published in more than sixty countries, forty languages,
and five continents. Our books are looking forward to being
discovered and read by curious children.
