About FUSION OF IDEAS

At FUSION OF IDEAS, we are tech specialists and brand experts who help small to large companies maximize their exposure with customized technology. Our quality and ingenuity are unmatched on every project we touch! We are looking forward to working together and elevating your brand!

CUSTOMIZATION PIONEERS

For more than 15+ Years, our innovative customization services and business solutions have helped start-ups as well as some of the most notable companies on the planet, and here are just a few:

LIONSGATE

la prairie
 SWITZERLAND

Davita
petco

Gibson

DELTA

Customization Options

We would love to help maximize your brand's visibility with our high-tech customization services. FUSION's technology experts leverage our proprietary Stealth Armor Film, Laser Etching, and UV Color Printing techniques to give our partners and clients exceptional quality and unparalleled customization options.

UV Color Printing

A permanent and durable full-color process that is suitable for a wide variety of high-tech products and devices.

Laser Etching

A permanent and precise process that uses lasers to etch designs into specific metals and plastics. Laser etching is an excellent option when refined and subtle customization is desired.

Stealth Armor Film

A proprietary, semi-permanent, full-color, process which bonds a precisely fitted protective film to a product or device.

Digital Content

Computers, tablets, smartphones, etc., are set up and ready to go with mobile apps, custom logins, content, wallpapers, and security features.

Complimentary Digital Renderings

Custom Concept Book

If you are not quite sure which device(s) you would like to customize, simply email your logo, and we will provide you with a complimentary Custom Concept Book displaying your logo on some popular tech devices.

Mockup

If you have a specific device(s) in mind, simply contact our sales department to discuss your project details, pricing, and delivery. Next, forward your high-res (300 dpi) vector logo or artwork. Please be sure to include fonts, Pantone colors, or any other design elements that will be needed to complete your project.

CUSTOMIZED BY FUSION OF IDEAS

Final Proof

Once your logo/artwork is sized and placed in the perfect location, you will receive a final digital proof. We also offer press match proofs (on paper) and actual product sample proofs for a fee. When FUSION receives your final proof, we will get busy customizing your job.

Overview of Services

Let's Elevate the Visibility of Your Brand!

Custom Sleeves

Expand the gifting experience with high-quality, fully customizable sleeves. Eye-catching and durable sleeves are designed to fit perfectly over OEM packaging.

Gift Wrapping

We design, print, and perform all gift-wrapping and packaging services in-house. Our professional gift-wrapping team will ensure that every package is perfectly wrapped and tied with a beautiful bow.

Custom Boxes & Kitting

At FUSION, we carefully design, construct, and assemble kits that represent the quality of your client's brand and the value of their gift.

Inventory Management

FUSION manages products and inventory long-term. And with a custom portal, clients can quickly place orders at their convenience.

Gifting Portal

Empower recipients to choose their perfect device or product with FUSION's secure online portals. This convenient virtual marketplace allows items to be quickly reviewed through the portal, selected, customized, and shipped.

Shipping

Save your clients time and money! At FUSION, we can take projects all the way to the recipient's doorstep with our bulk and drop-ship services.
