

MIDNIGHT REVUE

Midnight at Phipps, where closing time never quite arrives.

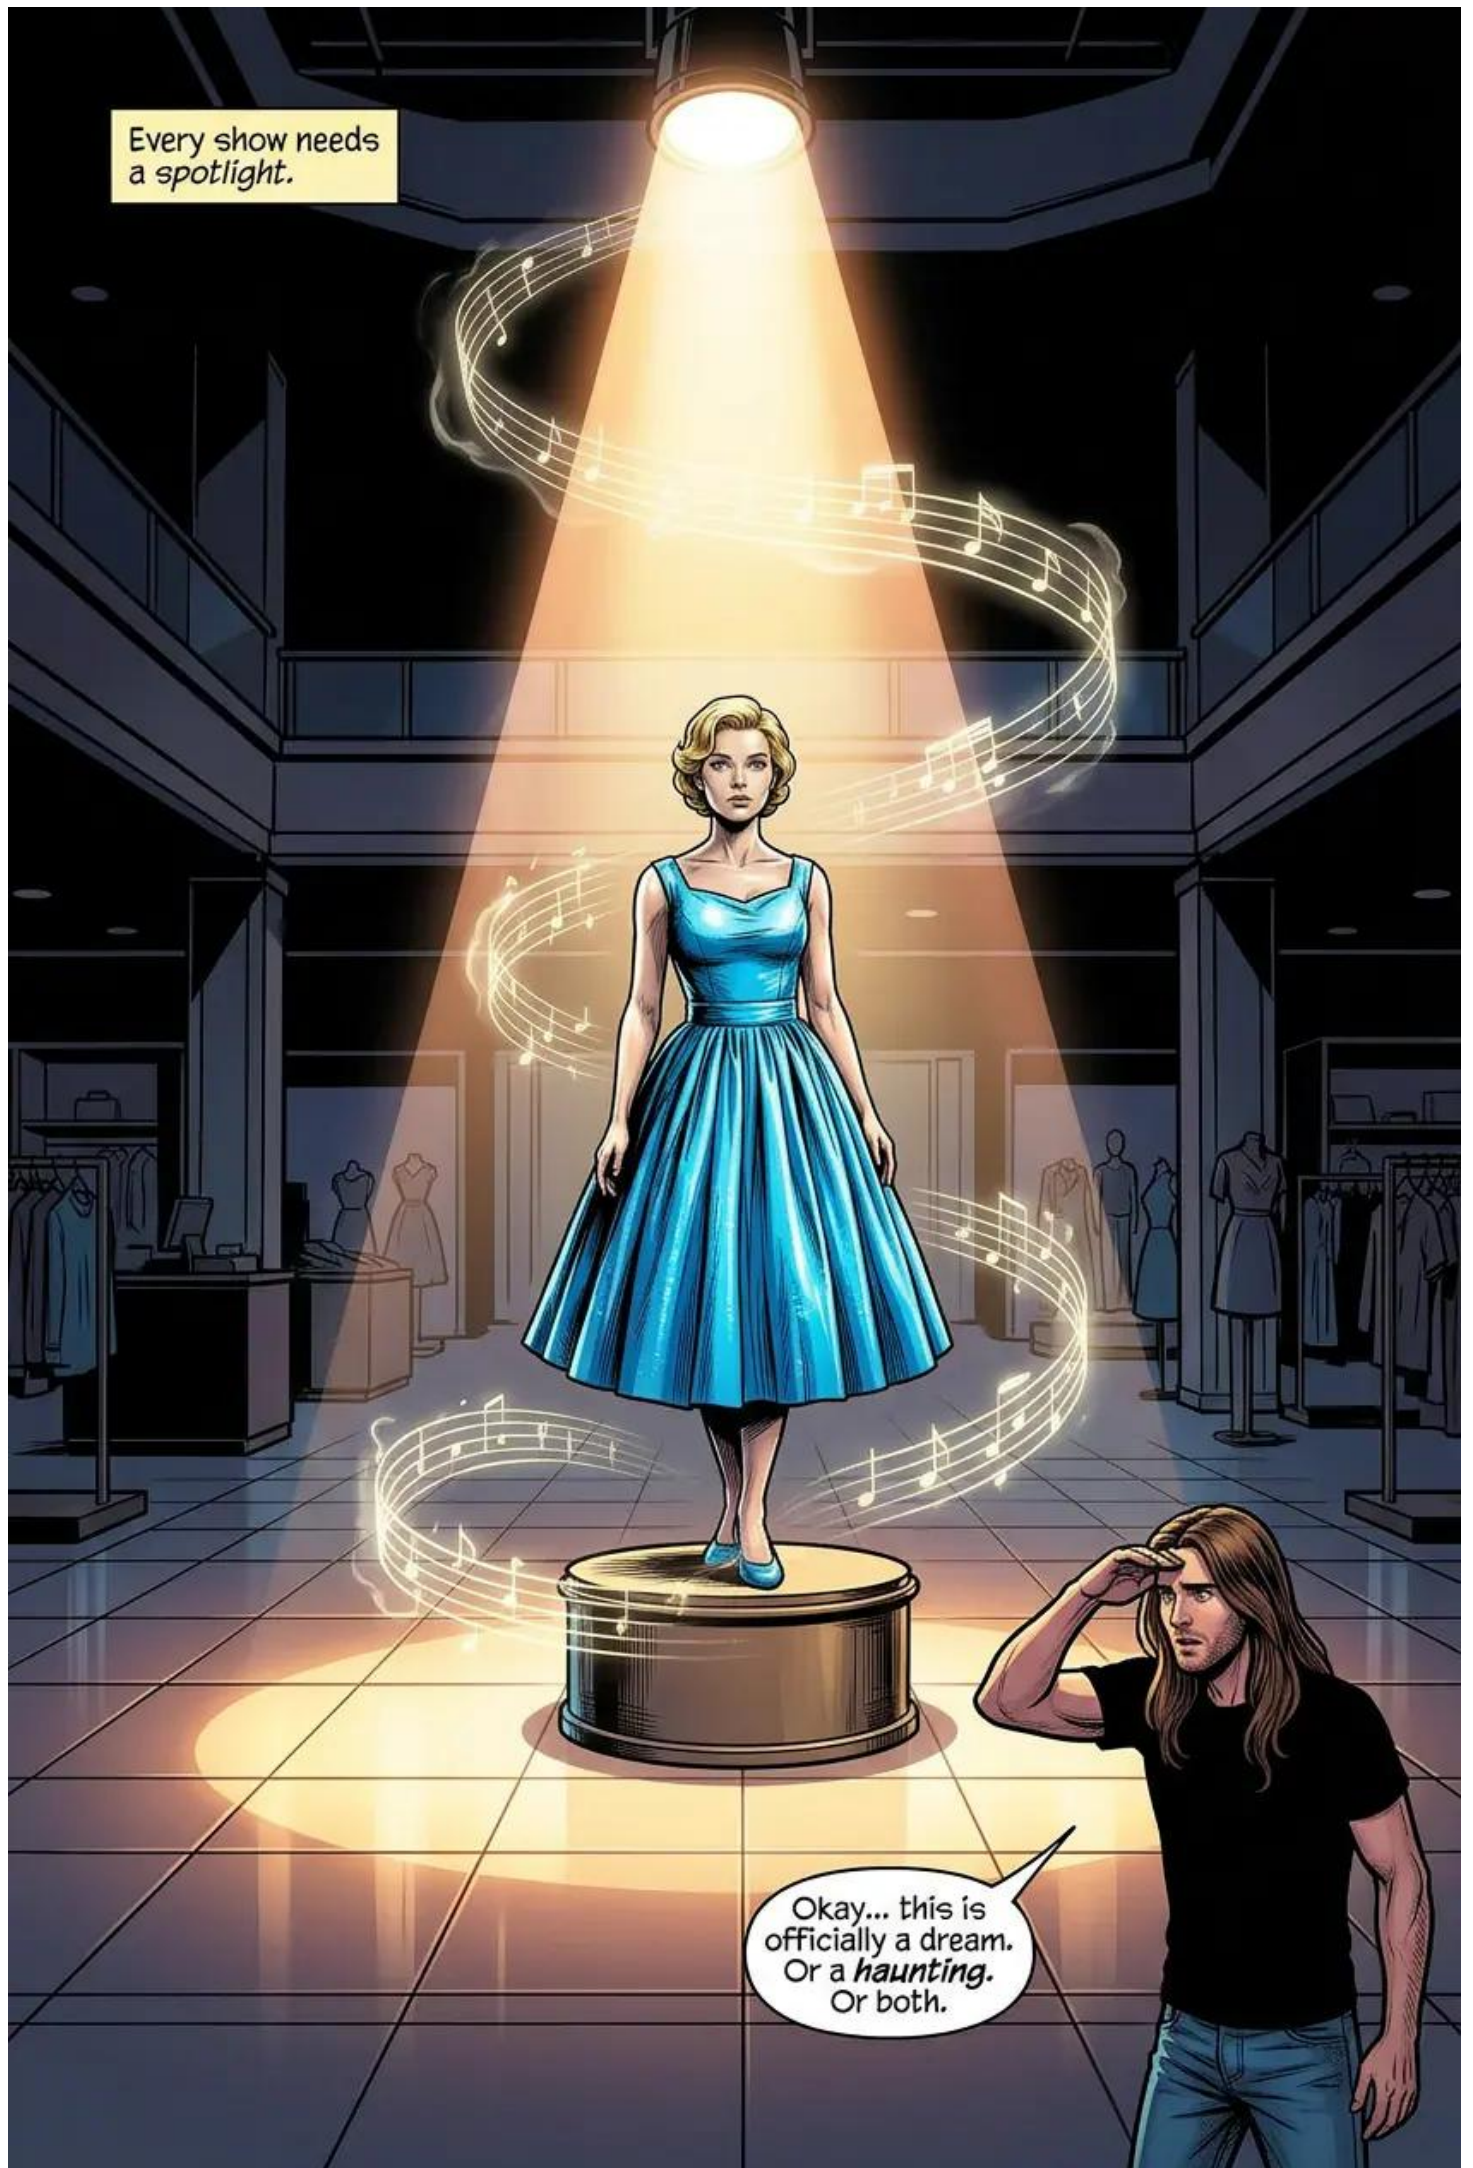

...I didn't even come in through the door. I just... woke up here.

Every show needs
a *spotlight*.

Okay... this is
officially a dream.
Or a *haunting*.
Or both.

The midnight mannequin takes her first step into the music.

...That's impossible...

When in a dream, do as dreamers do! Danny takes the hand of the beautiful woman and they dance as the whole store seems to come to life!

The setting begins to change as Danny realizes he's snapping out of his fever dream, leaving this strange place and returning to the present day!

What's happening to me? I can't move my fingers!

Danny...!

We must get to the front window before the sun rises!

They reach the main display window. The "Gray Static" is inches away.

Danny knows that once he steps on to the pedestal, there is no going back

This is where I belong!

As the chaos subsides and the music dies, the couple freezes into place, FOREVER

"...a frozen work of art, perfectly still, perfectly true, always holding on, and being held by you..."
