WOMEN'S FITS

Gone are the days where women have to wear the same cut as men. Classic Sportswear has put women's performance front and centre, conducting working groups with elite female athletes to develop products specifically designed for women. We proudly offer new & improved kit that enhances comfort and performance.

Our women's fit jerseys are tailored to a woman's shape, with contouring in the shoulders, waist and hips resulting in an athletic, performance fit that is still feminine in appearance.

Our women's fit shorts are crafted to sit higher on the waist and are tapered through the hips, with the end product being a look and feel that is both modern and high performance.

RUGBY LEAGUE

When it comes to Rugby League apparel, Classic has rightfully earned its place at the top of the ladder.

Our apparel is technologically advanced and popular with both players and fans. Classic is proud to be the **largest apparel provider in the NRL competition.**
