

Part-Time Staff Pharmacist

(Retail & Compounding)

About Us:

Volunteer Pharmacy is a locally owned, independent pharmacy known for its personalized service and custom-made medications. Our team specializes in non-sterile compounding for both human and veterinary patients, creating individualized solutions that help improve patient outcomes.

We're expanding our compounding department and looking for a full-time pharmacy technician who wants to be part of an innovative, supportive team dedicated to quality and care.

Position Overview:

We're seeking a part-time pharmacist who enjoys variety and patient interaction. This role blends traditional retail practice with the opportunity to learn and participate in compounding.

Whether you're an experienced pharmacist or a new graduate eager to learn, we'll provide hands-on training and mentorship to help you grow your skills in both areas.

Responsibilities:

- Verify prescriptions and ensure compliance with all pharmacy laws and regulations
- Provide patient counseling and answer medication-related questions
- Oversee and assist pharmacy technicians in daily workflow
- Participate in the preparation of customized compounded medications
- Maintain accurate records, documentation, and inventory control
- Deliver excellent customer service and contribute to a positive team environment

Qualifications:

Doctor of Pharmacy (PharmD) degree
Current Tennessee pharmacist license (or eligibility for licensure)
Excellent communication and interpersonal skills
Attention to detail and commitment to quality
Interest in learning compounding (experience preferred but not required)
Dependable, adaptable, and team-oriented

Schedule & Compensation:

Part-time: approximately 16–24 hours per week
Flexible scheduling
Competitive pay based on experience
Training provided in both retail and compounding operations

Why You'll Love Working Here:

Supportive, close-knit team
Opportunity to gain compounding experience in a growing area of pharmacy
Great environment for new grads looking to expand their skillset
Focus on patient relationships and individualized care
