## NITTO EPTSEALER

**NITTO EPTSEALER®** contributes to enhancing the reliability of products with superior properties.

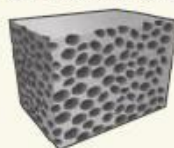

NITTO EPTSEALER® fills various types of gaps, whether the purpose is to shut out heat, water, sound or vibration, and serves well as a sealing material. Highly functional sealing properties have been developed by blending EPDM rubber foam, which offers the best durability and weather-resistance among general rubber materials, as well as Nitto's unique adhesive technology. Superior resistance to heat and chemicals allows stable and consistent performance over a long period of time. Since NITTO EPTSEALER® is manufactured in four main regions, speedy delivery and stable supply are available worldwide.

### Features

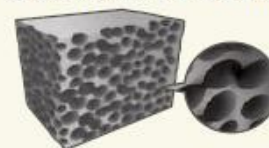

- The main constituent is EPDM rubber foam.
- Offers superior durability and resistance to high and low temperatures, weather and chemicals (acids and alkali)\*.
- \*Compared with general purpose rubber
- Using excellent foam processing technology, Nitto provides foam materials with low density and flexibility.
- Closed and semi-closed cell structures are available, which is only possible with Nitto's foam processing technology.

### Structure

#### ● Closed cell structure

#### ● Semi-closed cell structure

SMART MESH BY

## POLYESTER CLOTH

The SmartMesh Brand from Nittoku has earned respect and accolades globally. Backed with more than 50 years of intensive in-house research and development effort, Nittoku is known for innovation, quality, reliability and the in-built "smart factor" of SmartMesh. The Nittoku range includes screen printing fabrics, filter fabrics, civil engineering and industrial fabrics as well as metallic mesh fabrics.

### COOPERATIVE BRANDS

## CHINA RIGID PVC SHEETS AND A-PET SHEETS

**RoHS**

### APPLICATIONS

- Electrical appliances
- Blister tray
- Decorate
- Drum
- Bank card

Thickness range: 0.05mm-10mm

PRODUCT RANGE : PVC TRANSPARENT, FROSTED SERIES, BALCK SERIES, WHITE SERIES, COLOR SERIES, PET TRANSPARENT SERIES

## EPOXY FLEXIBLE DOMING LABEL CHEMICAL 1:1 RATIO

### EPOXY CHEMICAL

Special Quality Epoxy chemical for Dome Label. The chemical is on par to PU. It does not turn yellowish, will not become hard and will not delaminate at least for 18 months.

### Applications for Decoration, Ornaments, Gift & Souvanirs

suits for various materials such as metal parts and plastic products ex., stickers, labels, auto motive emblems, solar panels, badges, luggage tags, key-rings, name plates, picture-frames, metal parts, signs, button, pvc, pc, abs, products various promotional accessories- etc.,

Authorised Distributor for :

## Cleaning Consumables of Screen & Substrate

PRINTING SUBSTRATE

Certified for  
HP Latex Inks

Eco-friendly unique printing media for  
advertising and decoration

- BASICALLY COMPATIBLE WITH SCREEN PRINTING AND INKJET PRINTING: LATEX INK, UV CURED INKS, SUBLIMATION TRANSFER

### High-Tech wiping

CLEANING & DRYING | BATH TOWELS

Cleaning cloths, wipes and tea towels

Thanks to unrivalled performance, microfilaments wipe out traditional microfiber.

For cleaning, wiping, drying:  
• cleaning cloths and dusters  
• tea towels  
• automotive care  
• industrial wipes, surface preparation  
• rental laundered towels

- Dust, dirt, grease, ink and other liquids are easily removed.
  - Surfaces are left immaculate.
  - Usable with no detergent.
  - Light weight and easy care.
- Washable, re-usable, ecological.

D-Type Panel Mount

## PV Connector Series-S415

BRACNH CONNECTOR 1500V

S415-1

S415-2

- IP68 (1m, 24hrs) protection to withstand harsh weather like storm, floods or salt pollution.
- Suitable for popular cable size and wider cable O.D. range
- Pre-assembled in-house, saves labor time and cost in field, and reduces loss cause by poor workmanship
- Housing Material: PPE
- 10-14AWG/2.5-6.0mm<sup>2</sup> : Typical  $\leq 0.3$  m $\Omega$  & 8AWG/10mm<sup>2</sup> : Typical  $\leq 0.2$  m $\Omega$

## S417 Fuse Connector UL 1500V/ UL 1000V

- Over current protection for module strings
- Support the PV fuse rating 2-25A with UL recognized
- IP67 waterproof and dustproof protection
- Easy swappable for connector after fuse burnt

## DC Branch Fuse Holder 1500V/1000V

- Consist of assembled, hermetically-sealed branch connection with choices of pre-assembled connectors terminating each PV cable ends.
- Eliminate the need for in-field stripping and crimping and the associated high impedance from bad crimps.
