COLLECTION 2022

fiora

Create. Don't stop.

Say yes to accuracy,
even if you don't know exactly which
idea you are going to find.

Yes to details,
to practice, to experience and
also to dare to break with it.

To the vulnerability of novelty.

To vertigo.

Don't be afraid.

Try, do, redo, test, break, play.

Forget about pleasing everyone.

Dare to reach creations
that are not for all sensibilities.

Because only there
you will find the key
to create something in someone.

LIGHTER AND MORE RESISTANT

Fiora has applied the most advanced technology to be more sustainable with a new range of lighter and more resistant shower trays that defy the rules of the game. The perfect balance between lightness and strength.

A new range of shower trays that are 30% to 50% lighter than a conventional shower tray. Lighter and, at the same time, just as solid and resistant.

THE STRENGTH OF LIGHTNESS

THE PURITY OF NANO BATH[®]

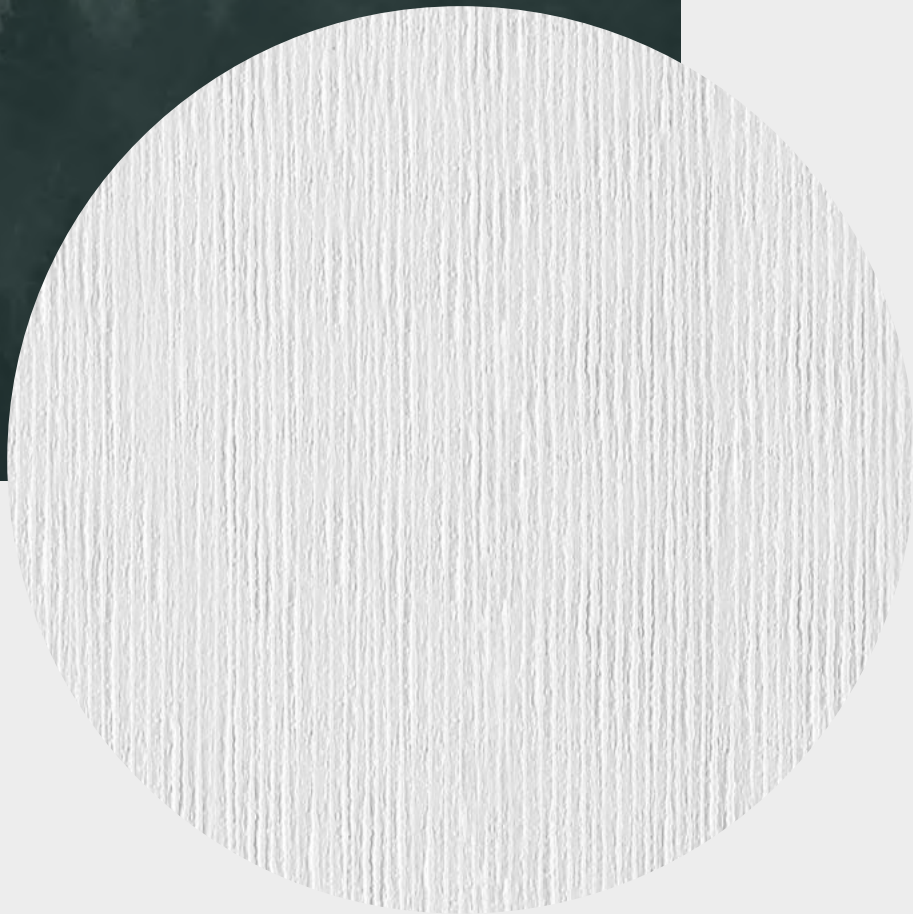

Cleaner and safer surfaces that preserve the hygiene of every space thanks to the special nanotechnological treatment patented by Fiora.

A process that improves the hygienic qualities of shower trays and other surfaces, including their treatment with fungicidal, antibacterial and hydrophobic properties, to obtain a long-lasting cleanliness with no need to use aggressive compounds.

CARED AND PROTECTED

ON THE ROAD

Every journey begins by taking a few small steps forward. Natural origin, respect for the environment, natural materials, textures, and colours inspired by our surroundings...

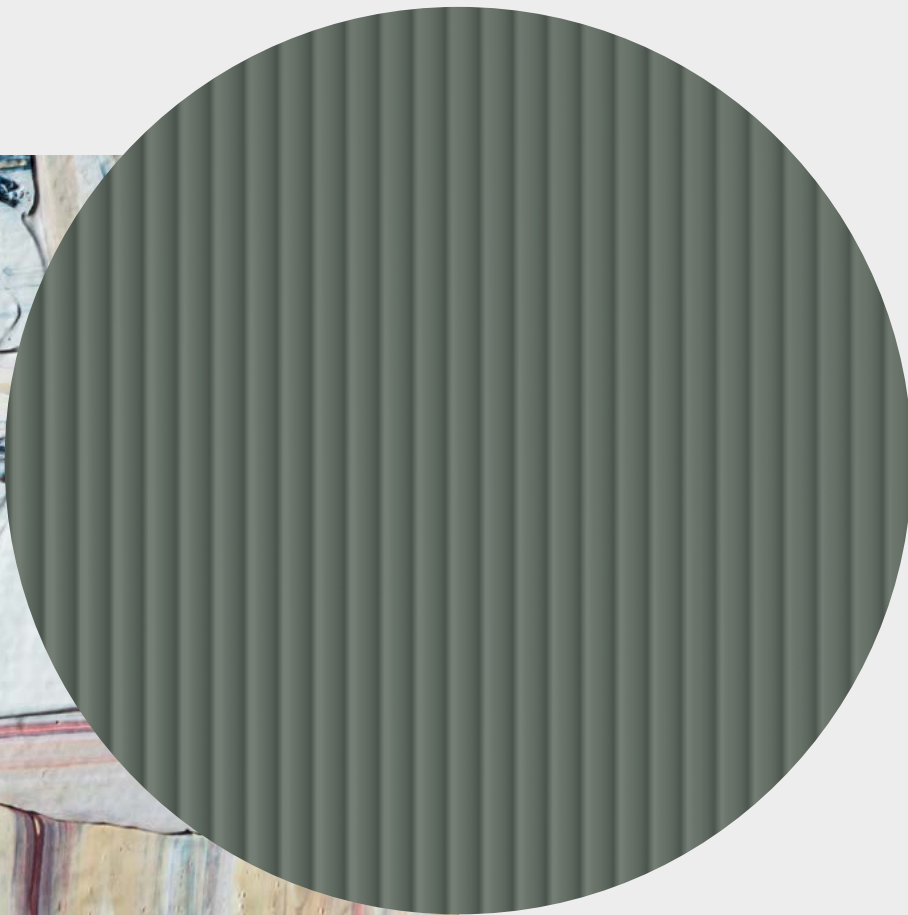

Fiora has started and is continuing its journey towards a constantly improving way of doing things, a real sustainability where the use of resources and the efficiency of our materials are our new reality.

We take now a step forward along this path, with the new range of lightweight trays, which reduce the mineral load and its weight to provide a more sustainable option. Lighter, stronger and more environmentally friendly shower trays as a resource to help us care for our environment.

SMALL STEPS TOWARDS SUSTAINABILITY

DESIGN AND INNOVATION

BY
STUDIO FIORA

Fiora is committed to design and innovation in each collection. Studio Fiora is our own hallmark, the soul of Fiora, present in every single creation of ours.

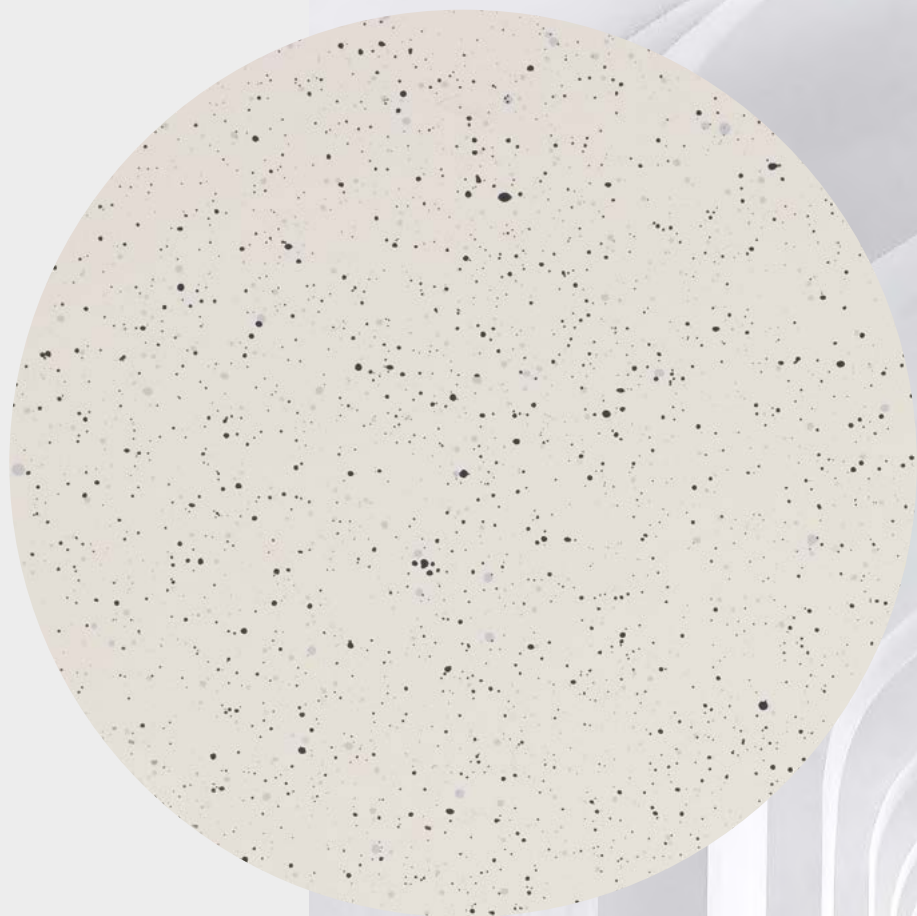

Craftsmanship, quality, innovation, and design through textures, colours and unique sensations shine through in each of our products, creating unique spaces adapted to each person or project.

Taking care of the details, creativity, and constantly searching for inspiration, new ideas or materials is how we lead the way.

WITH ITS OWN HALLMARK

Contract projects designed by a team of specialised professionals to adapt and customise all our collections to global architecture, design and interior design projects.

Shower trays, bathroom furniture, bathtubs, panels, radiators, consoles and basins, mirrors, shower sets and accessories... Textures, colours and collections that adapt to each space and can be combined with each other to achieve the final effect for every project.

FIORA FOR CONTRACT

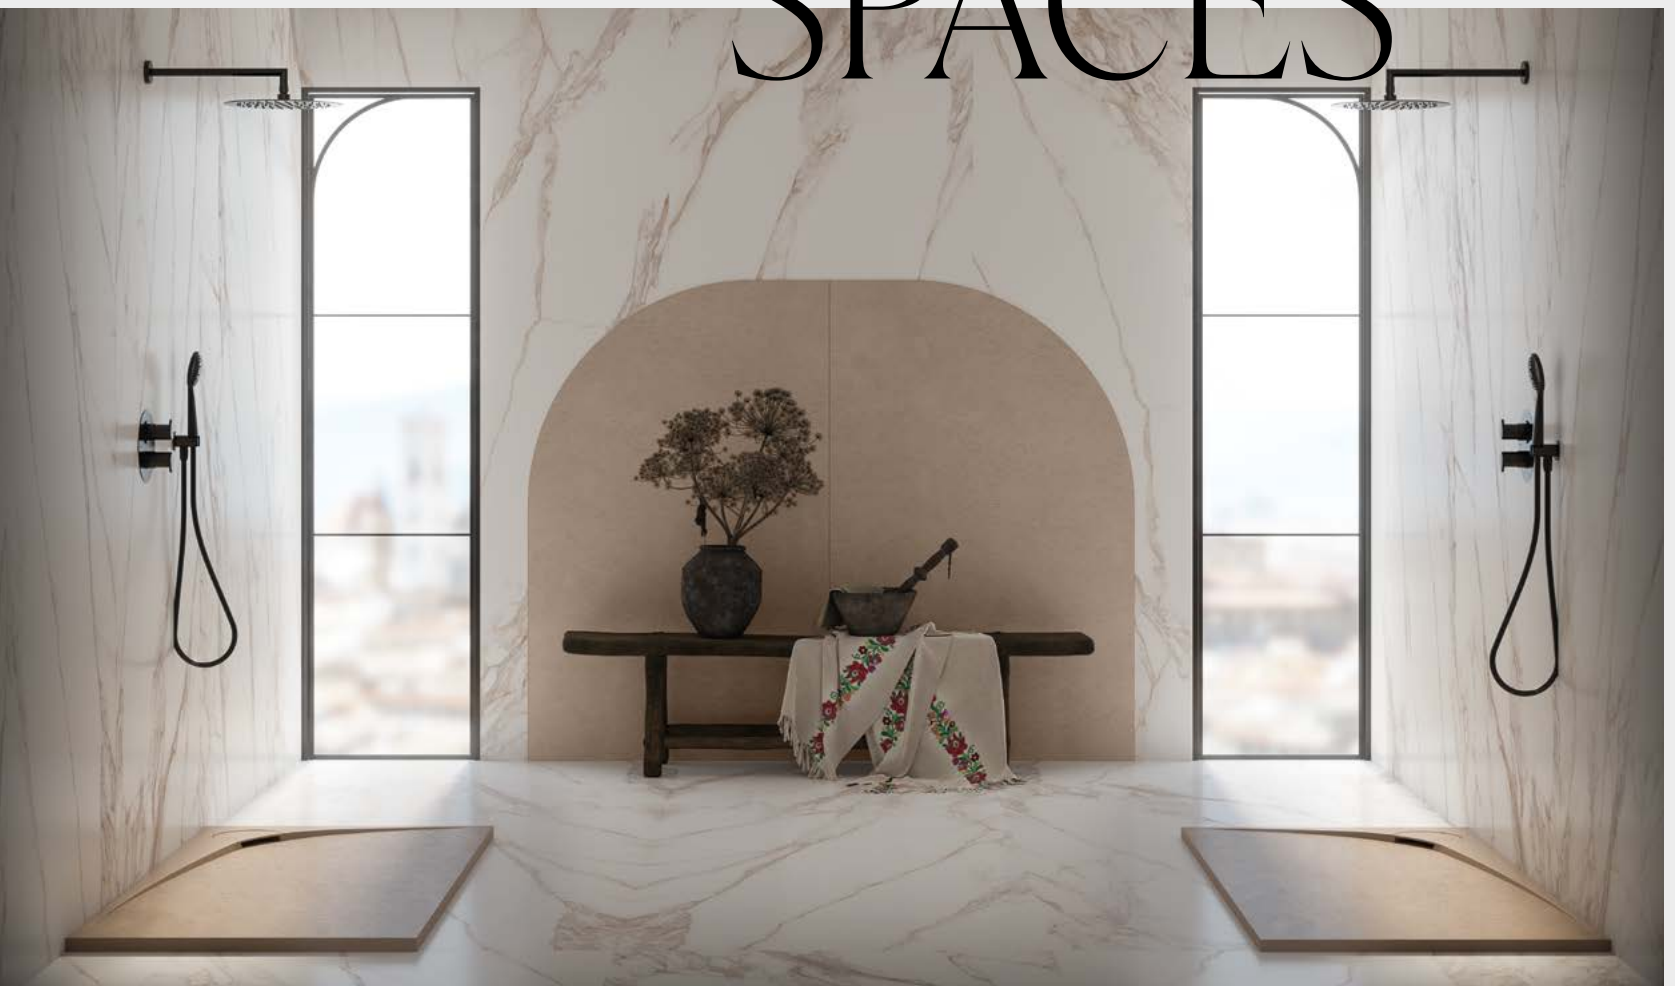

30 YEARS

The essence of Fiora. Spaces for dreaming, where the design and the beauty of the details make the difference. Take customisation to the extreme with unique textures, colours, and emotions that make the bathroom a place where you want to be.

30 years designing spaces under a global concept where each product is special and is part of a whole; an environment which integrates furniture, countertops and basins, shower trays, panels, radiators, mirrors and accessories.

massimo

A unique feeling of well-being with a gentle footstep

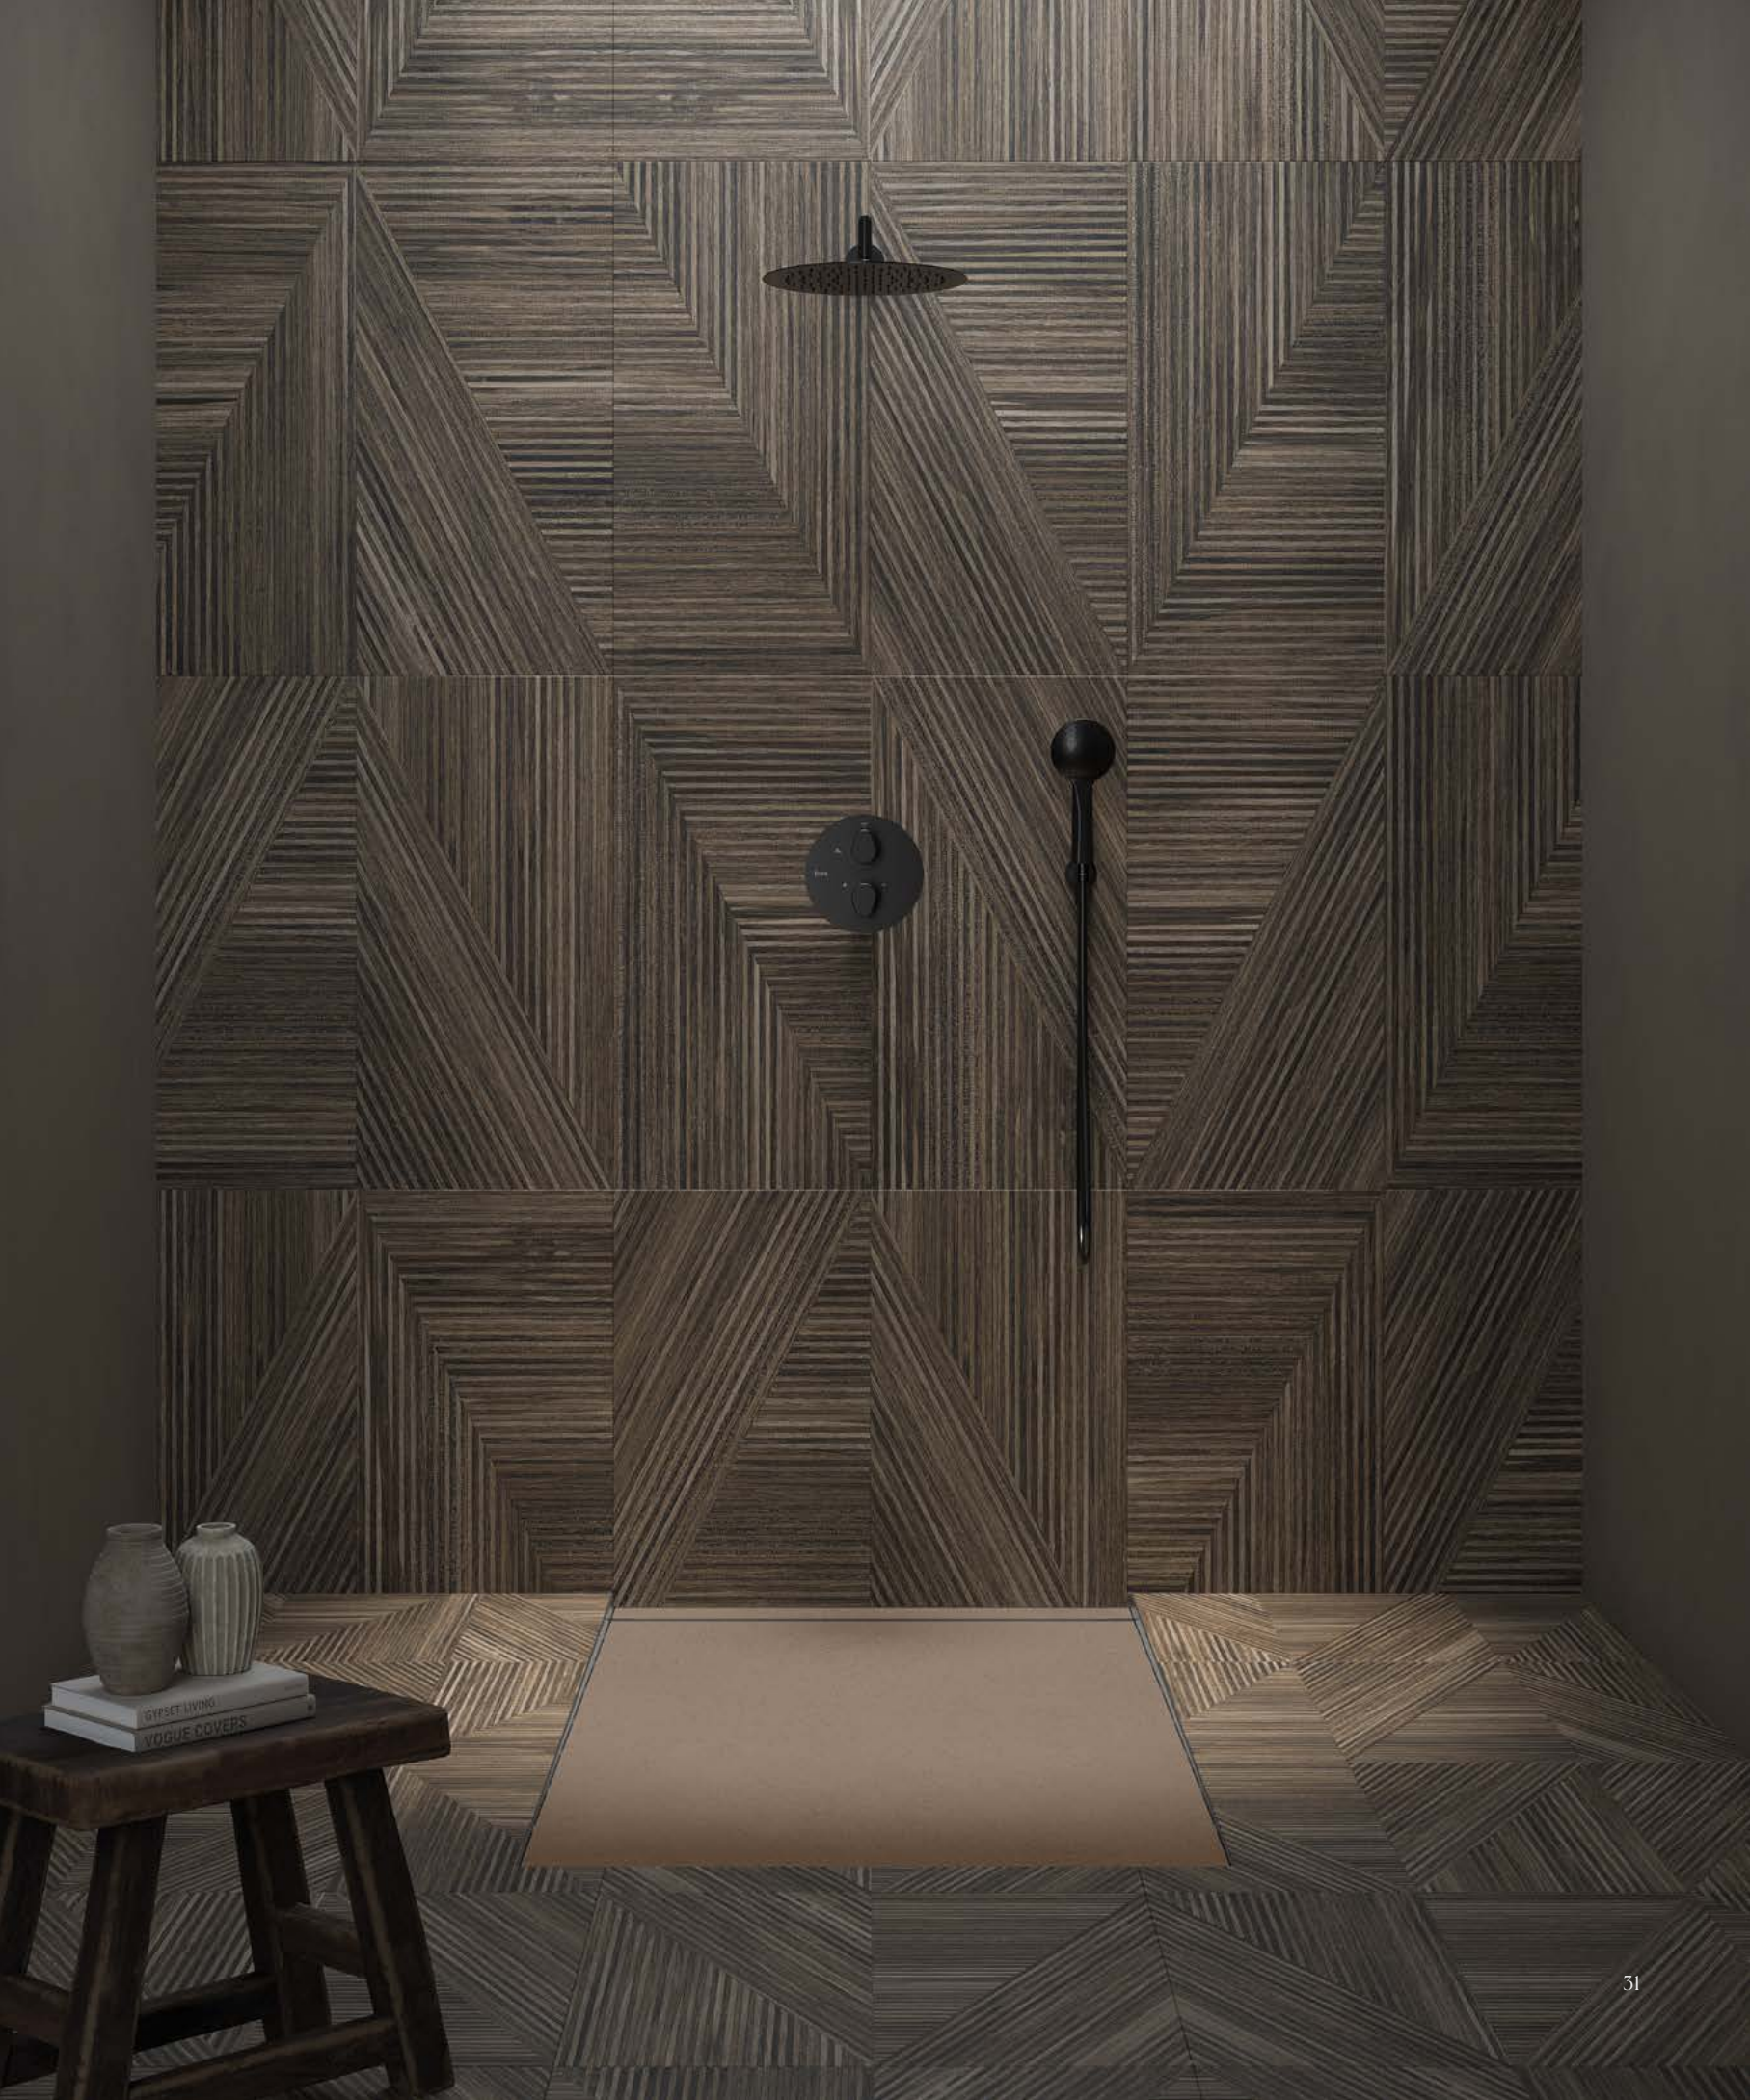

Massimo combines innovation, design, comfort and lightness.

Technologically advanced. Massimo combines two unique Fiora materials, a lightweight base and a surface that adapts to the pressure of your body: warm, tempered, soft and anti-slip.

Lightweight core, 50% lighter than a conventional shower tray with the same resistance.

Anatomically smooth surface, with a unique feel and a more pleasant sensation thanks to its gentle footstep.

elax world

Flexible and soft core, adaptable to any space

Revolutionary and innovative, Elax defies limits with its unique qualities.

With a flexible core and a pleasant surface feel, it adapts to the pressure of your body on a warm, tempered, soft and anti-slip surface.

Adaptable to any space and shape, its enormous versatility makes it possible to cut it to size with just a cutter.

Its flexibility gives it complete resistance to any damage.

sfera

Dreamy sinuous asymmetry

Design is combined with asymmetry and texture.

Sfera represents the most natural beauty, a shower tray with a design inspired by nature and created to dream.

Asymmetrical and with rounded shapes, the new Sfera tray takes creativity to the extreme in its shapes with a soft curved frame on one side, which ends its sinuous path in an original moon-shaped grate. Sfera has a double texture on the surface, one on the inside and another on the grate and its curved side frame surrounding it.

Texture: Concrete

kou

Designed to stand out

Kou is noted for its special design of rounded lines, both in the smooth perimeter framing in a single piece and in the layout of its grate, created in the same texture and colour as the shower tray.

Its design, with a minimum thickness and maximum safety frame and integrated drain, merge creativity and functionality in this collection, to create a shower tray with an innovative design that stands out for its strong and resistant structure.

limite

Purity of lines with innovative design

Limite pushes the purity of lines to the extreme to achieve the most elegant simplicity. Linear, purely architectural, whose innovative design challenges limits.

A shower tray with clean lines, with a hidden drain on its short side, and a grate in the same texture and colour as the tray.

Texture: Pizarra

silex titan

Lightweight core with solid and firm structure

Silex Titan combines lightness, innovation, design, and resistance.

30% lighter than original Silex and, at the same time, just as strong and resistant.

Environmentally friendly, Silex Titan reduces the mineral load and its weight, making it more sustainable, and facilitating its handling and installation.

A new concept of lightened tray with advanced technology to achieve the perfect balance between lightness and strength.

skin panels

Decoration and creativity to a further level

Far more than a bathroom cladding option. In addition to their functional role in covering walls or in the simple switch from a bathtub to a shower, Fiora's Skin Panels offer a creative proposal for design and aesthetic renovation at a further level.

Panels take spaces on a new perspective, combining texture and colour with the existing elements in the bathroom, and increasing the possibilities of each space as far as your imagination will take you.

making

Versatile and unique modularity

The design of each Making composition, in all its elements, makes it Fiora's most versatile and unique modular collection. Simple or very complex creations for every need and functionality.

With renewed designs and enormous possibilities of textures and colours, Making compositions continue to be created to stand out and explore the perfect combination to suit every space.
