ABOUT US

Built for the World of Entertainment

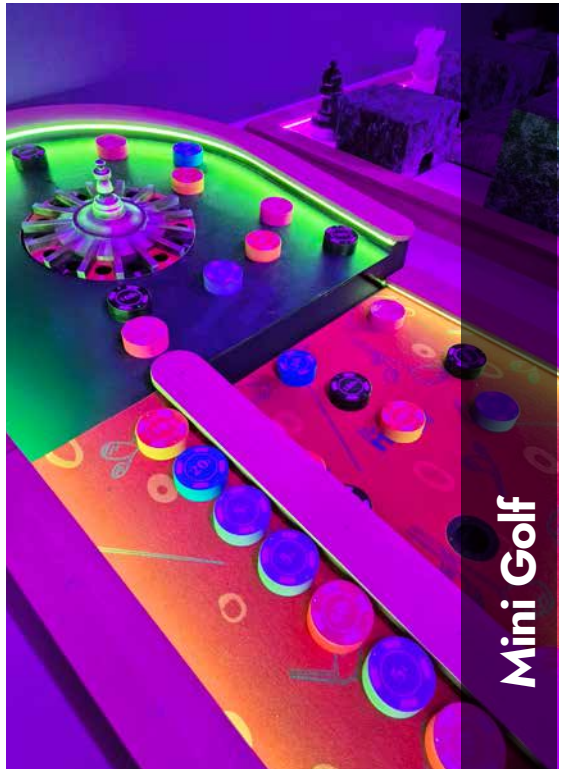

At Intelligent Entertainment, we don't just build games - we build entertainment ecosystems.

Since 2014, we've evolved from an ambitious local operator into a world-leading supplier of turnkey indoor attractions. With over 100 installations across 5 continents, we power some of the most innovative venues in the indoor leisure industry - escape rooms, competitive socializing experiences, tech-infused mini golf, RFID-driven mission games, and custom-built installations.

Driven by creativity, backed by production power, and fueled by a global mindset, we help entertainment businesses grow - from the first sketch to final installation.

Global Powerhouse

By 2025, we are one of the most vertically integrated entertainment producers in the world.

Operating out of a 3,000 m^2 factory in Greece, our 100+ person team blends artistry, engineering, software development, electronics, logistics, and construction into a seamless production pipeline. Every game, every prop, every digital system is developed in-house - built for reliability, immersion, and impact.

Today, Intelligent Entertainment stands as a trusted partner to entertainment venues, mall developers, and franchise owners seeking to elevate their offering with ready-to-run, globally proven indoor attractions.

OUR GROWTH

A Decade of Relentless Expansion

Foundation

2014

Intelligent Entertainment begins its activity with the creation of The MindTrap, its owned escape room franchise.

Expansion

2016

The MindTrap network is expanding rapidly, while the company begins a larger-scale construction activities.

Innovation

2019

Intelligent Entertainment expands its activity to new projects such as mission games & invests in manpower, innovative construction techniques & new machinery.

Capacity

2021

The company is relocated at a 3,000 sq.m factory, with remarkable infrastructure and extended heavy machinery. Production becomes one of the fastest in the indoor entertainment industry.

Automation

2023

All the company's projects become tech-infused, investing and succeeding in the combination of hardware with software solutions.

Globality

2026

Intelligent Entertainment counts hundreds of completed projects around the world, operation with 100+ staff members, shipping and installing its games across four continents. The company is a major participant in various international fairs.

*From a local franchise to a **global industry force**, our growth has been fast, focused, and future-driven.*

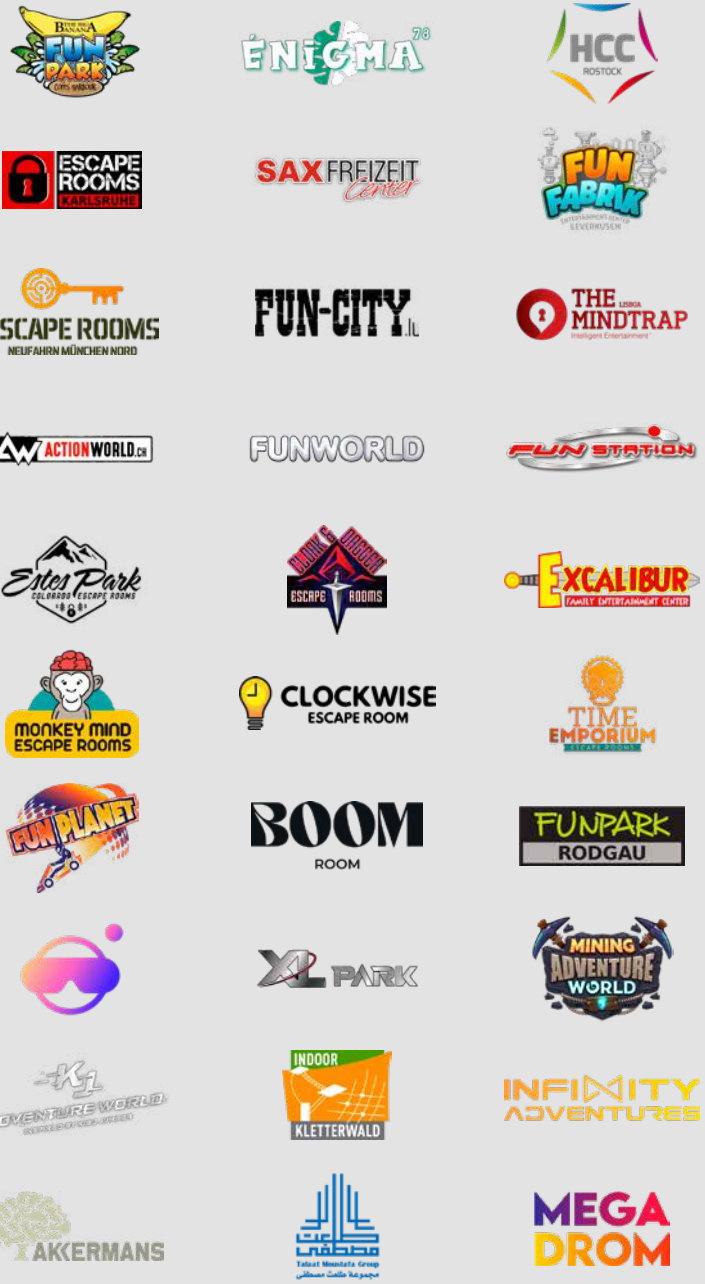

CLIENTELE

Trusted by 100+ Partners Across 5 Continents

From boutique venues to high-traffic malls and entertainment centers, our clients share one thing in common: they trust us to deliver indoor experiences that stand out creatively, commercially, and operationally.

> *Partnering with **Intelligent Entertainment** was the smartest move we made. Their creativity, flawless execution, and innovative products transformed our venue, boosted customer engagement, and drove repeat visits. We're confident this partnership will keep delivering **long-term growth** and success.*
>

CORE PROJECTS

Immersive Entertainment. End to End.

We offer world-class entertainment experiences, each one designed to drive revenue, repeat visits, and player engagement.

Escape Rooms

Smart, story-driven experiences packed with advanced electronics, integrated auto hints, custom theming and spectacular brand solutions.

Mission Games

RFID-enabled, tech-infused, team-based challenges that have taken the world by storm.

Mini Golf

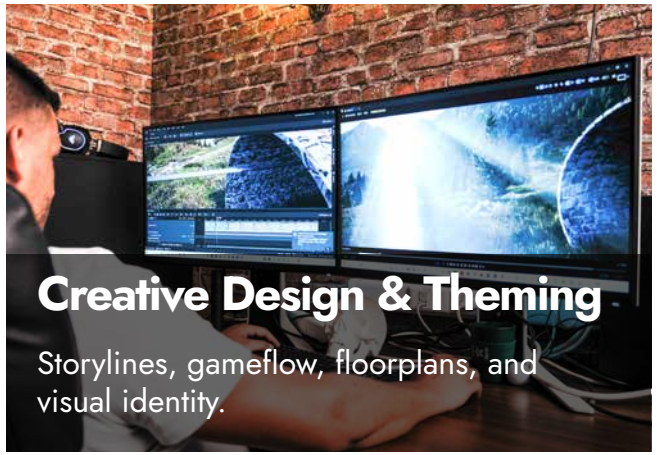

Tech-enhanced, themed 9/18 - hole courses with live scoring, visual effects, and social gameplay.

Custom Projects

Axe throwing, custom activations, event games, immersive competitive socializing spaces - we build what others can't.

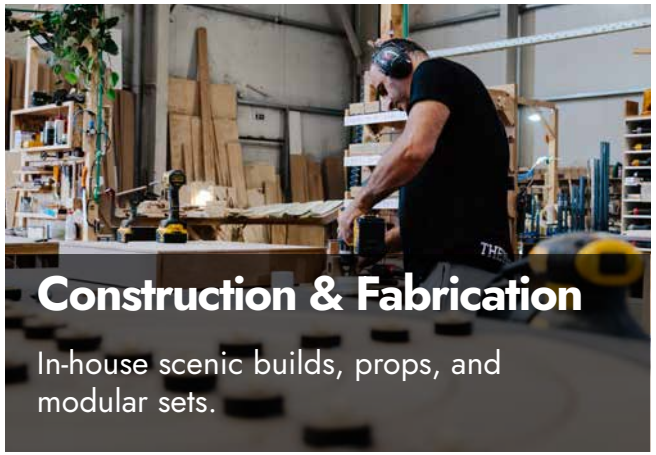

FUNCTIONS & DELIVERABLES

We Design. We Build. We Deliver.

Creative Design & Theming

Storylines, gameflow, floorplans, and visual identity.

Construction & Fabrication

In-house scenic builds, props, and modular sets.

Technology & Software

Tech-infused games, electronics, RFID, hint systems, and control interfaces.

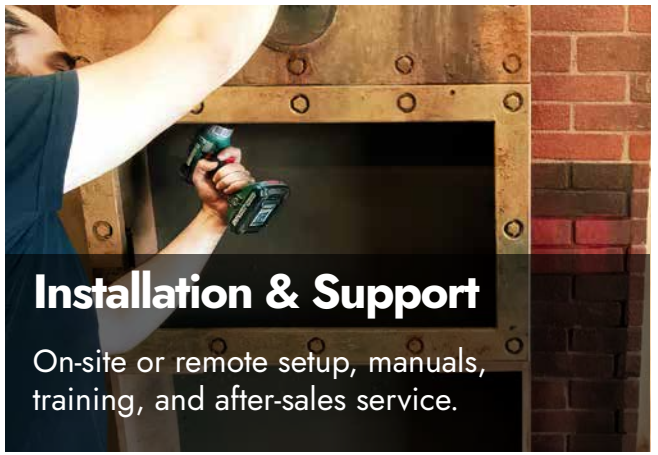

Marketing & Branding

Bookings & CRM, websites, location ID, social media, merchandise.

Logistics & Packaging

Global shipping, custom crating, export coordination.

Installation & Support

On-site or remote setup, manuals, training, and after-sales service.

Our strength lies in full-spectrum service - everything under one roof.

This is what turnkey truly means.

FACTORY

3,000 m² of In-House Production Power

Every detail is made by us - in our custom-built factory in Greece.

- **CNC Routers**
  for precision woodwork.
- **Laser Cutters**
  for high-detail components.
- **3D Printers**
  for custom parts and prototypes.
- **UV Printers**
  for high quality visual experiences.
- **Electronics Lab**
  for soldering programming and testing.
- **Paint & Scenic Studio**
  for immersive theming.
- **Assembly Line**
  for efficient modular packing.

From prototype to packing crate, we own the entire process - and that's how we guarantee quality.

*We don't just ship products - we **partner with clients** from concept to success.*

PEOPLE & SERVICES

The Team Behind the World's Best Entertainment

Behind every great game is an even greater team.
Our in-house crew includes:

- **Artists & Scenic Designers**
  Creating unforgettable visual worlds.
- **Carpenters & Fabricators**
  Building modular, precision-engineered sets.
- **Game Designers & Writers**
  Shaping narrative-driven & breathtaking games.
- **Software Developers & Electronics Experts**
  RFID, logic, scoring, automation.
- **Architects & Space Planners**
  Optimizing venue layouts and user flow.
- **Logistics & Installation Specialists**
  Shipping, setup, and international deployment.
- **Marketing & Sales Teams**
  Branding, websites, media, and commercial strategy.
- **Project Managers**
  Keeping global projects on time and on track.

TECHNOLOGY

Technology at the Heart of Every Experience

Custom PCBs & Ecosystem Logic

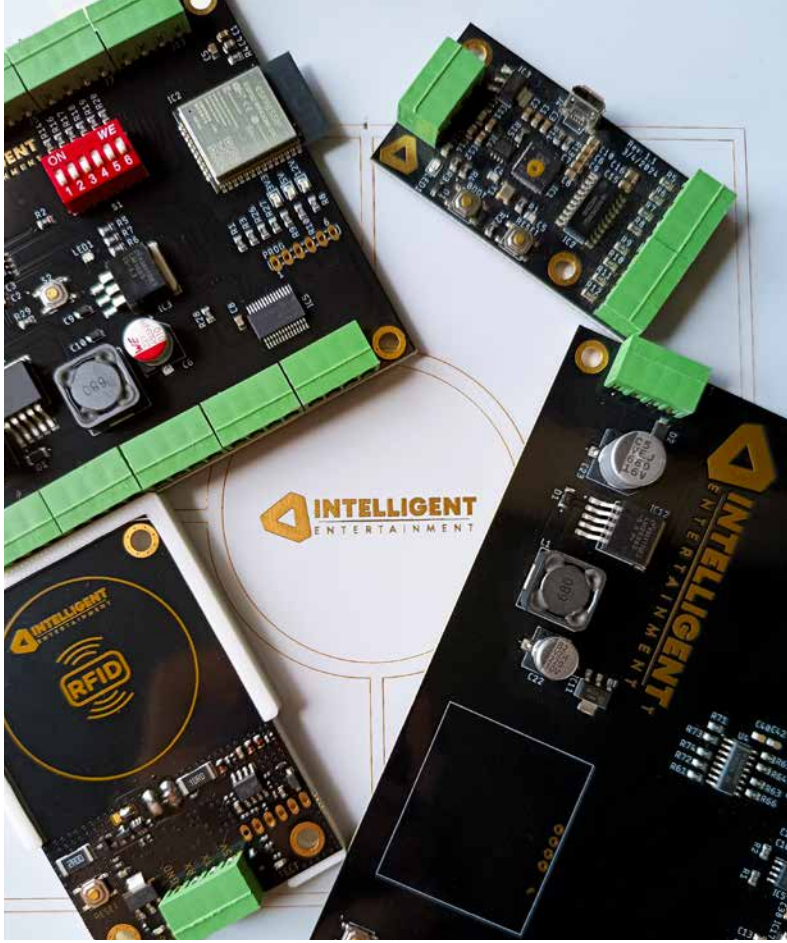

We don't use hobby-grade or Arduino boards. Our hardware runs on **custom-designed PCBs** with a **Node-based architecture**, where each Node links directly to props and devices - creating a scalable, self-regulating system.

ESP32 32-bit Processing

All logic runs on **ESP32 processors** - among the fastest and most reliable microcontrollers in the industry. With native **WiFi and Bluetooth**, they offer unmatched speed, connectivity, and control, ensuring every mission, puzzle, or challenge responds in real time.

Advanced Sensors & Input Technology

We integrate capacitive processors and 360° laser LIDARs for advanced motion detection, touch interaction, and spatial awareness - enabling immersive, sensor-rich gameplay far beyond basic triggers.

Auto-Hint Systems
Integrated clue logic & operator tools.

Live Scoreboards & Interfaces
Real-time performance displays.

RFID Wristbands
Team scoring, check-ins, mission triggers.

Remote Update Support
Bug fixes, software updates, remote troubleshooting.

Custom Software
Puzzle logic, game control, analytics.

CONSTRUCTION & INSTALLATION

From Factory Floor to Venue Ready

We deliver ready-to-operate experiences
- no surprises, no delays.

- **Modular Construction**
  for fast assembly on-site

- **Custom Crating**
  and labeled packaging

- **Installation Manuals**
  with video guides

- **Remote Support or on-site deployment**

- **Training for Staff & Operators**

- **After-Sales Support**
  for maintenance and upgrades

Our global logistics system ensures your venue is up and running, on-time, every time.

WHY

INTELLIGENT®
ENTERTAINMENT

The Global Standard in Turnkey Indoor Entertainment

Intelligent Entertainment isn't just a supplier.
We're your strategic partner in immersive business growth.

- **Global Experience**
- **Scalable Concepts**
- **Proven Track Record**
- **Future-Ready Technology**
- **100% Turnkey Production**
- **Top-notch Installation Solutions**

We imagine, design, build, deliver, and support indoor entertainment projects - worldwide.

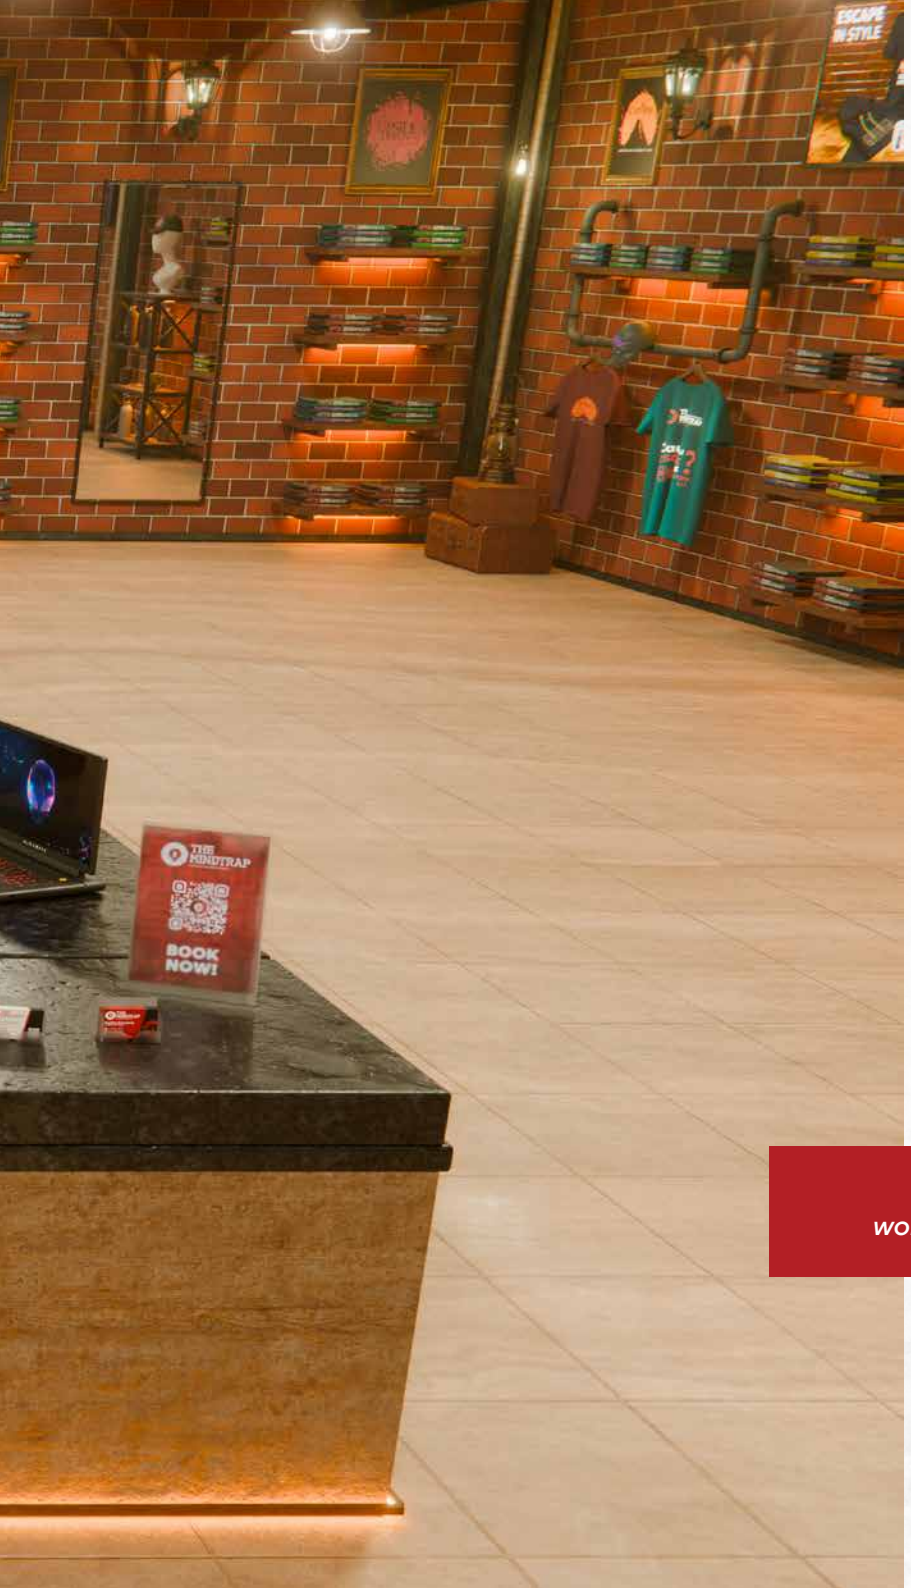

Let's create something unforgettable!

iegroup.gr

THE
MINDTRAP
Intelligent Entertainment™
ESCAPE ROOMS

Play & Party HALL
THE CURSE OF THE MUMMY

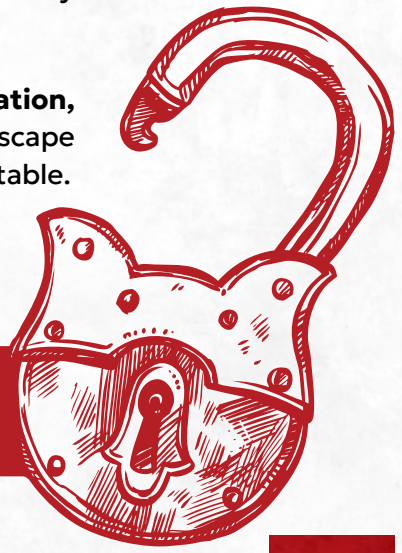

World's no.1 Escape Rooms. Built for Impact.

At the MindTrap, we build escape rooms that do more than entertain - they **transform indoor venues into immersive, story-driven worlds**.

With over **300 rooms installed in 30+ countries**, our work is trusted by operators who demand both commercial success and captivating gameplay. Every room is crafted in-house, from game logic and scenic design to proprietary tech and full installations - complete with additional branded turnkey packages for partners.

We combine **Hollywood-style theming, smart automation, and handcrafted precision** to create premium escape room experiences - scalable, profitable, and unforgettable.

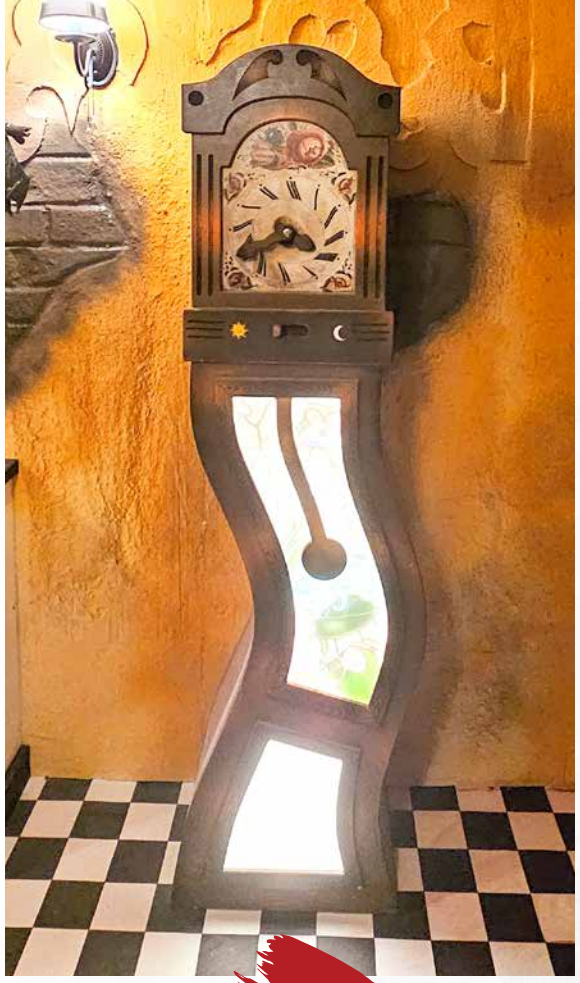

You're not just buying a game. You're investing in a world-class product, tested and proven across five continents.

Immersion That Sells Itself

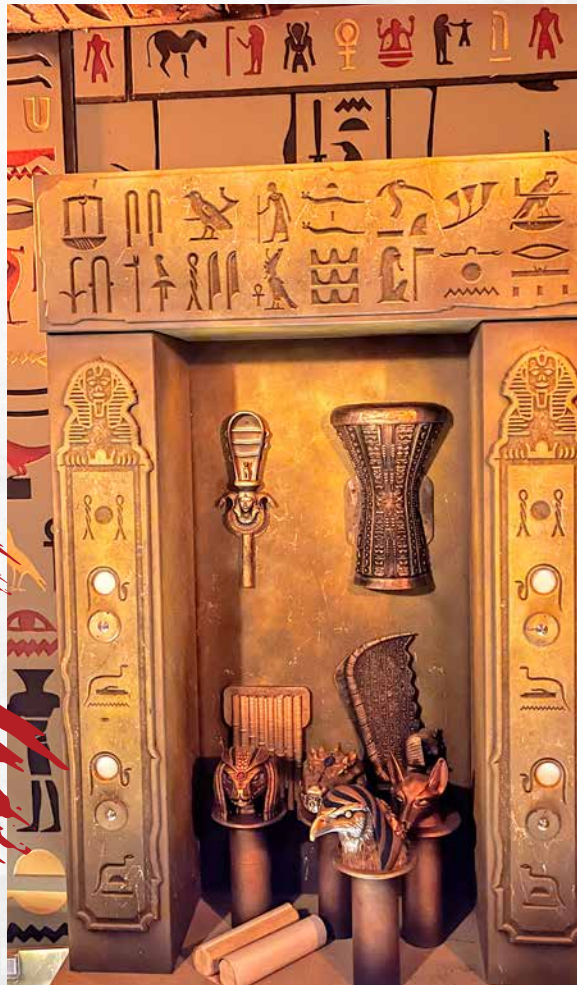

Our escape rooms are designed to transport players in impressive game worlds.

We create custom-built sets, sculpted environments, and immersive lighting and sound that transform real spaces into castles, laboratories, temples, ships, and parallel dimensions. Whether it's a train station in the 1930s or an ancient Egyptian pyramid, we deliver scenery that feels real.

- **Styrofoam sculpting**, woodwork, props & set dressing.
- **Custom lighting, audio & video** for full immersion.
- Designed to match both physical space and narrative.

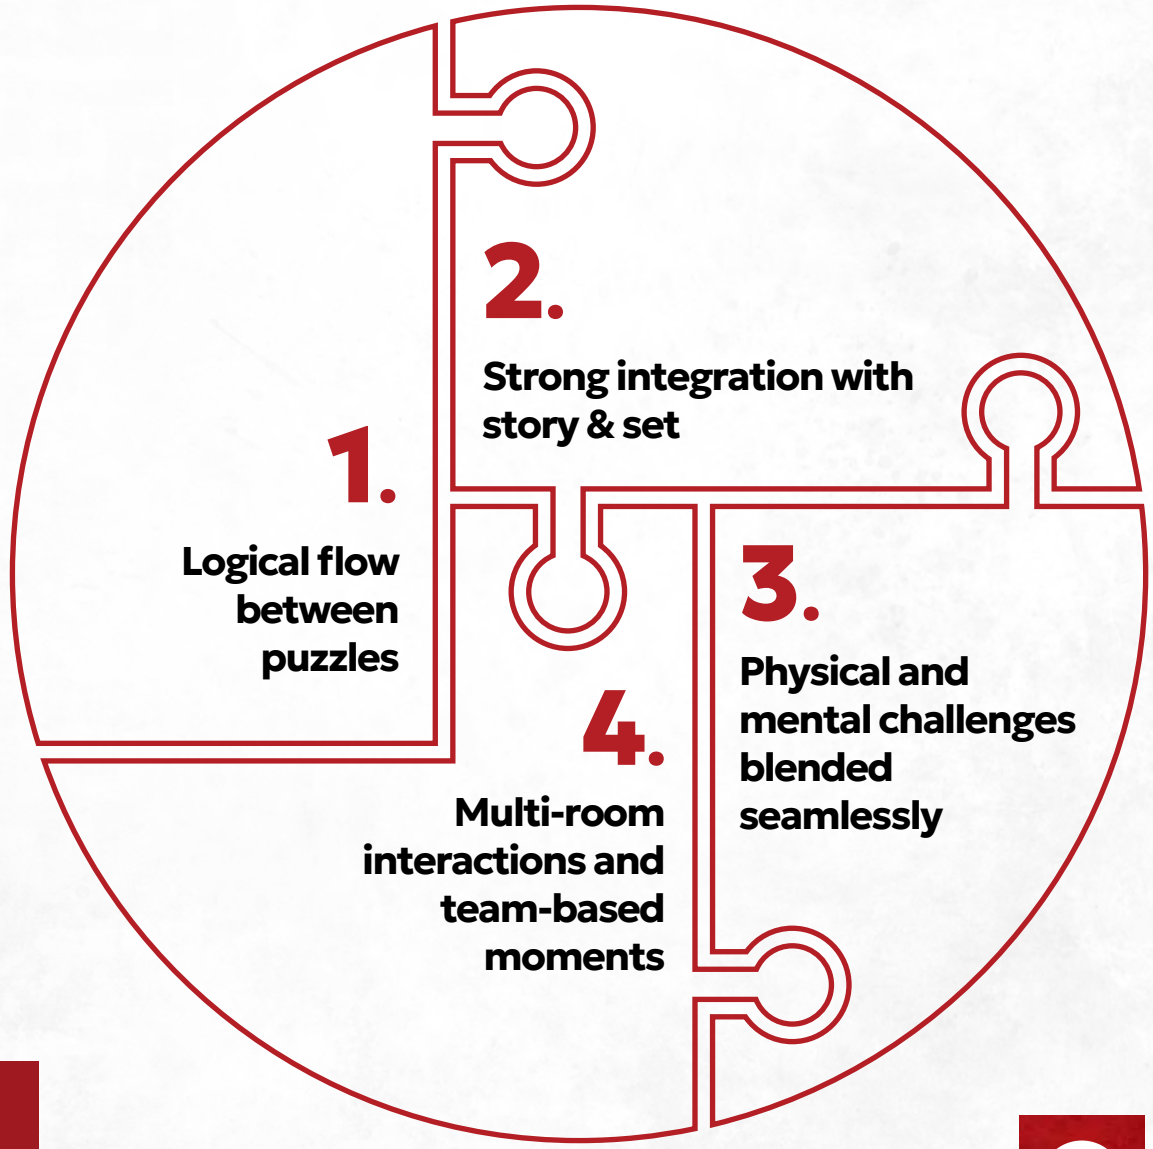

Every element serves one goal: to make players **forget where they are and believe in where they're going.**

From Idea to Gameflow

Our puzzles are more than props - they're storytelling devices.

Each game is built by our in-house game designers and writers to deliver **narrative-driven progression** that challenges, surprises, and excites. We eliminate overused padlocks and gimmicks in favor of **original, cinematic mechanics** that unfold organically as players progress.

What defines our gameplay:

*We engineer games that **reward cooperation, spark adrenaline, and leave people buzzing to play again.***

The Brain Behind the Game.

At the core of every the MindTrap escape room is a **smart, centralized automation system** we call the HUB.
This system connects players, props, effects, and staff into a unified game engine - reducing overhead and enhancing immersion.
Every puzzle, light cue, or sound effect is activated through **custom PCBs**, synced with our software.

Our automation in simple words:
Fewer staff.
Less expenses. More control.
Up to **4 rooms per operator.**

How it works:

Players interact with props and puzzles.

The **HUB reads** their progress and responses.

The **Software reacts** in real time (lights, sounds, effects, logic).

The **Auto-Hint system** monitors progress and offers smart nudges.

The **Game Master** can supervise multiple rooms efficiently.

More Than a Build.
A Long-Term Partnership.

Every escape room comes with a full **support infrastructure**, because we know a great game isn't just about what happens inside the room - it's also about what happens when things go wrong.

Optional support system

1 - year warranty:
on hardware and electrical.

Spare part kit:
with backups for critical components.

Detailed manuals:
installation, software, wiring, troubleshooting

Game media package:
sound library, visual effects, digital assets

Premium support access:
ticketing system and emergency hotline doors open.

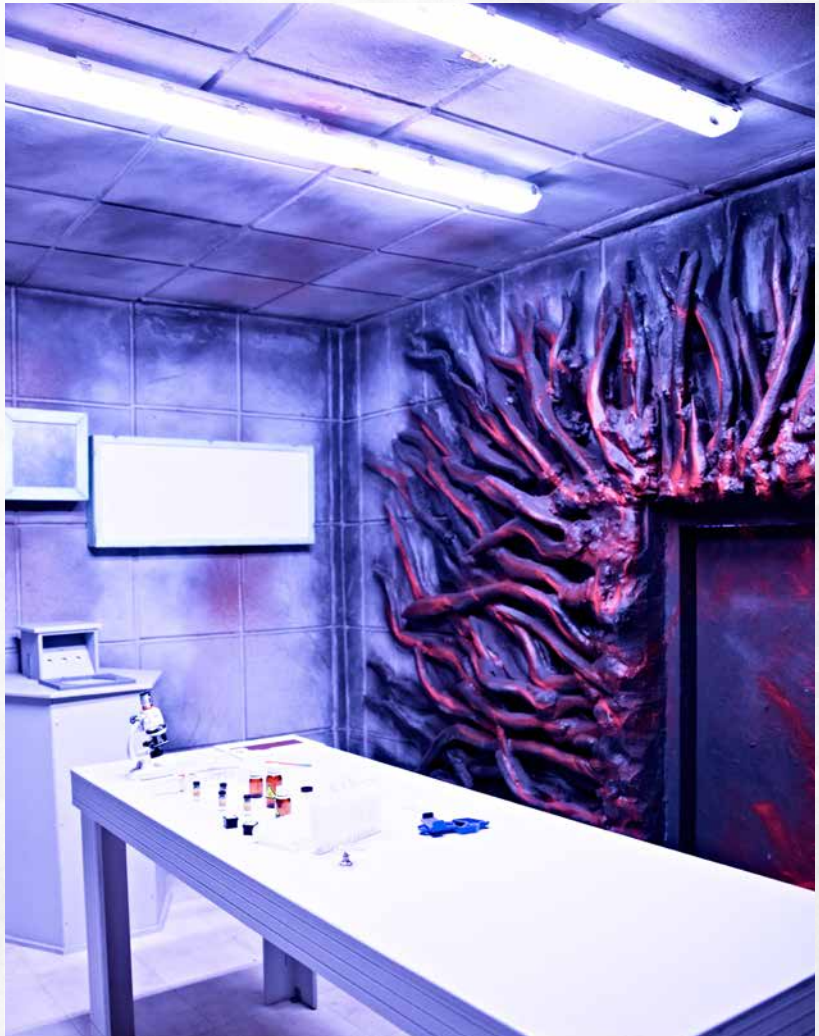

*Please refer to **page 95** for our support scheme presentation.*

THE MINDTRAP

Intelligent Entertainment™

The MindTrap – Escape Rooms

The MindTrap isn't just a game. It's a **turnkey business platform**, trusted by operators worldwide. From immersive room design to branding, booking systems, marketing, and support - The MindTrap delivers the **complete escape room experience,** wrapped in a powerful, proven brand. This is where high-end gameplay meets smart, scalable operations.

Everything You Need to Succeed

- ✓ **Escape Room Games** - fully developed, themed, and tested.
- ✓ **Booking Website** - with CRM, analytics, SEO tools.
- ✓ **Visual Branding Kit** - logos, signs, wall graphics, marketing materials.
- ✓ **Marketing Campaigns** - launch ads, social templates, campaign strategy.
- ✓ **Digital Tools** - leaderboard, loyalty system, financial reports.
- ✓ **Documentation & Training** - manuals, video guides, staff onboarding.
- ✓ **On-Demand Support** - emergency hotline + ticketing system.
- ✓ **Expansion-Ready** - add more rooms or locations anytime.

This is a **trusted, turnkey business model,** not just a construction project.
And it's **backed by 11 years of hands-on venue operation.**

Operations & Support

Behind every successful venue is a reliable partner. Our support team works across every phase of your launch - from early planning to daily operations.

Pre-launch venue & game planning

Staff training on-site or remotely

On-Demand hotline & ticketing system

Remote diagnostics & spare parts

Ongoing operational guidance

With the MindTrap, you're not just buying escape rooms - you're gaining a team that's built hundreds.

Location ID & Branding

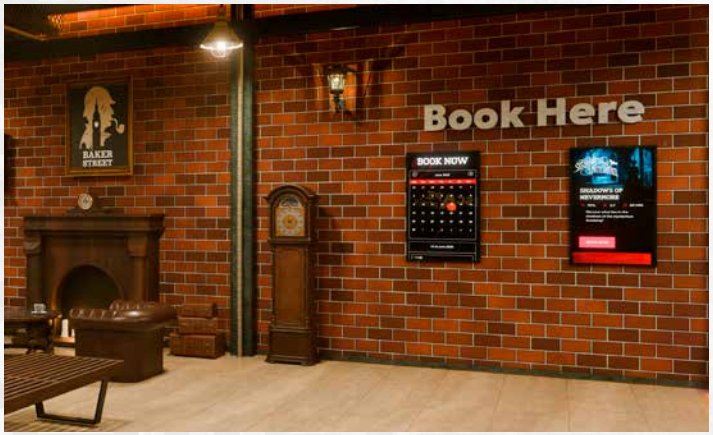

We help create a strong on-site presence, so your physical space reflects the same quality as your games and brand.

What we design:

- **Indoor & outdoor signage**
- **Wall graphics & room signage**
- **Brochures, menus, info displays**
- **Staff uniforms & merchandise**
- **Wayfinding & branded details**

From the street to the lobby to the game room - it all says The MindTrap.

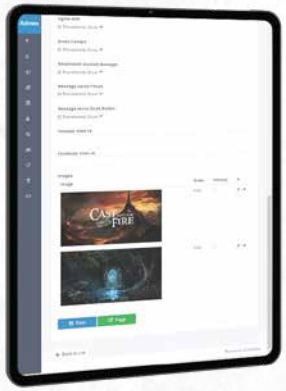

Digital Services & Business Tools

Our digital platforms make managing your venue easier, smarter, and more profitable - from bookings to analytics.

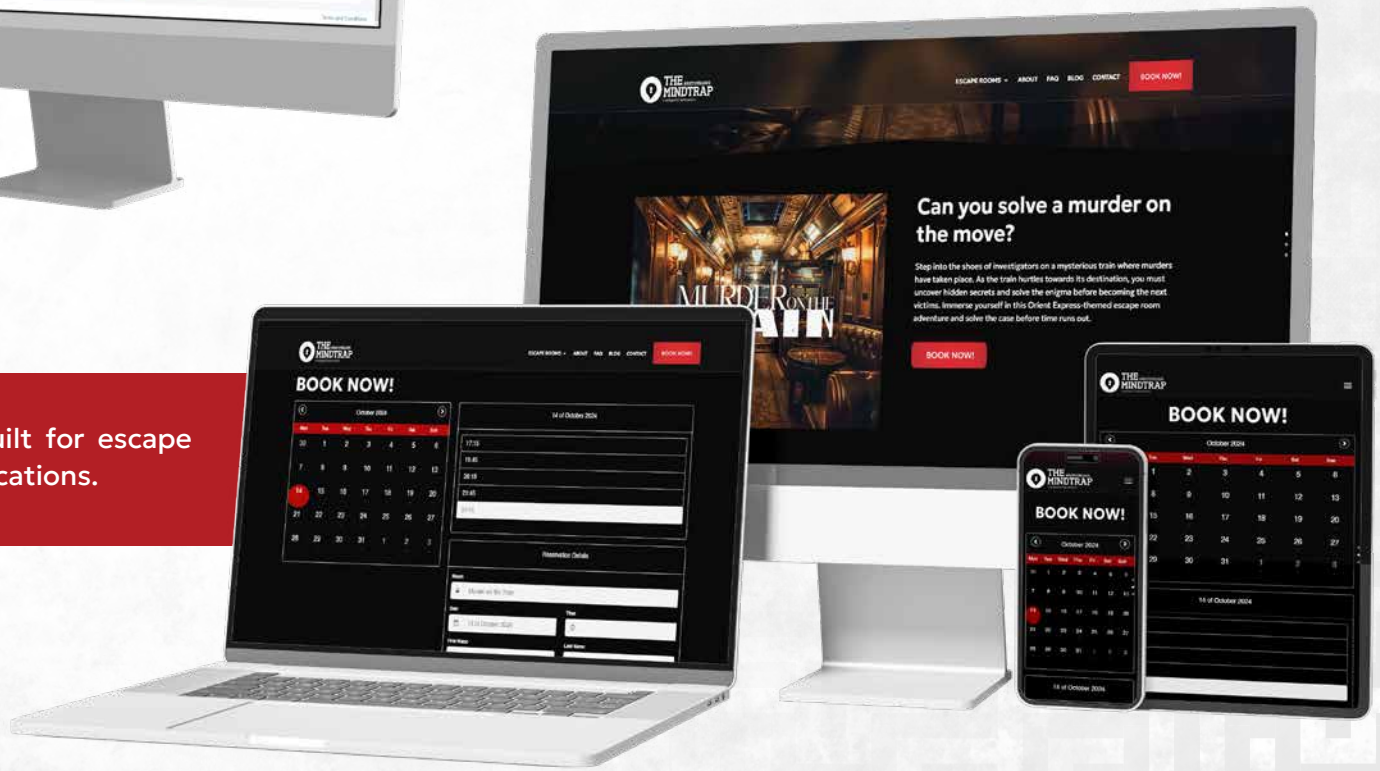

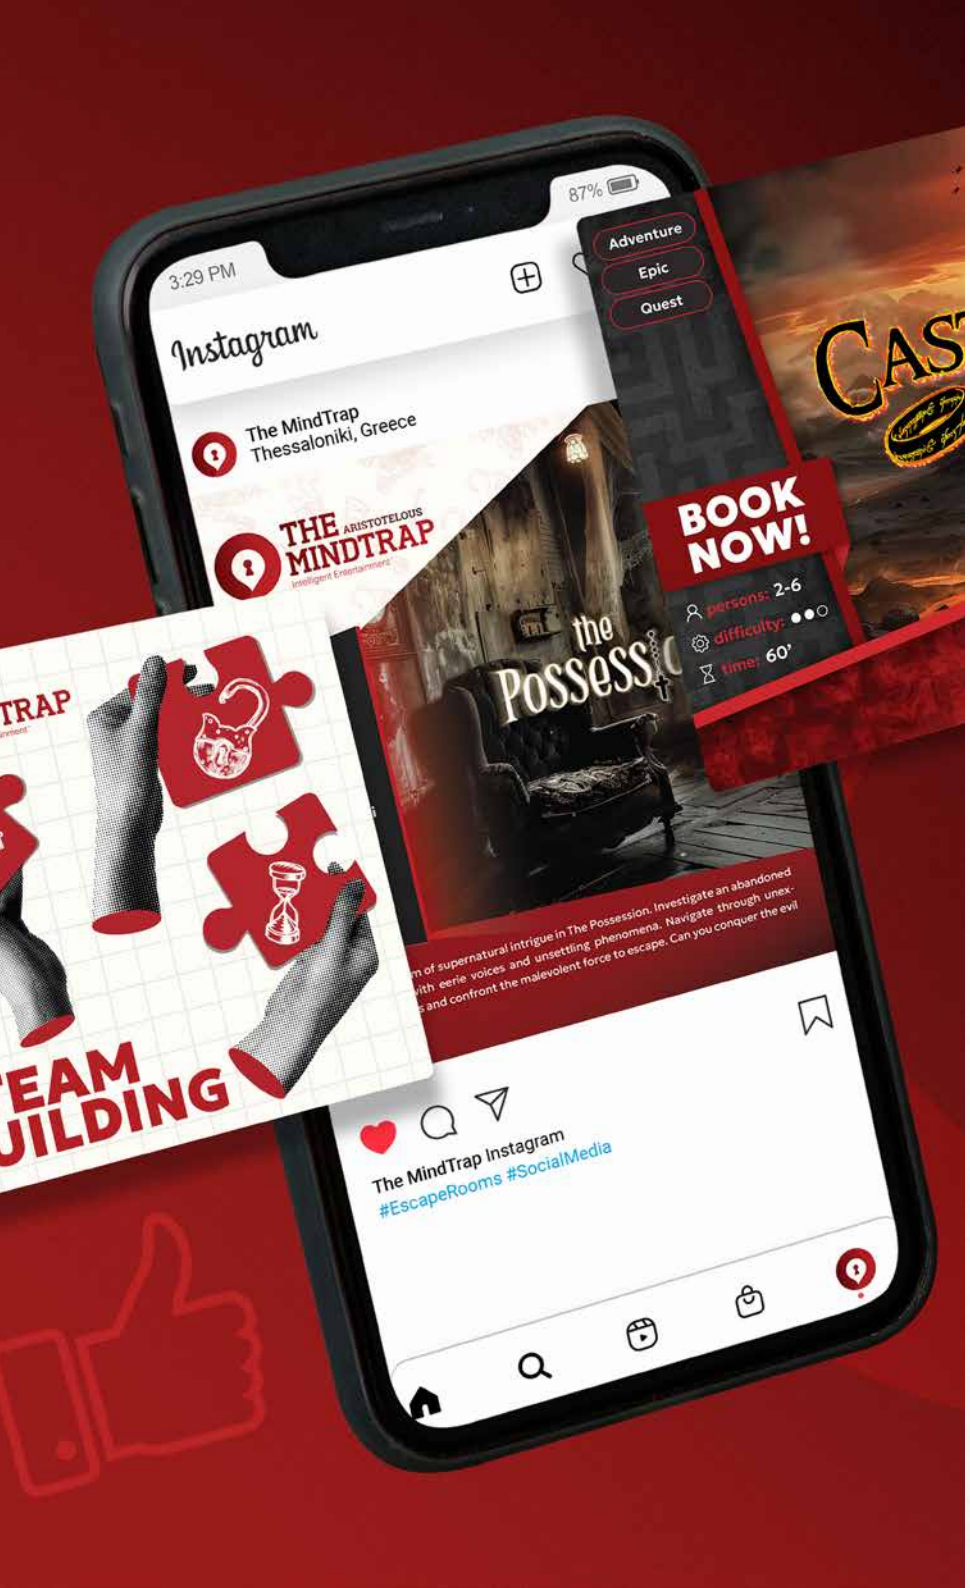

Included tools:

- Responsive booking website
- CRM with customer tracking & reporting
- Auto-hint & game control software
- Leaderboard & loyalty system
- Financial dashboard

All-in-one software solutions, custom-built for escape room venues - proven across dozens of locations.

Marketing Engine & Social Media

We don't leave you to figure out marketing alone - we provide everything you need to make an entrance and stay relevant.

What you get:

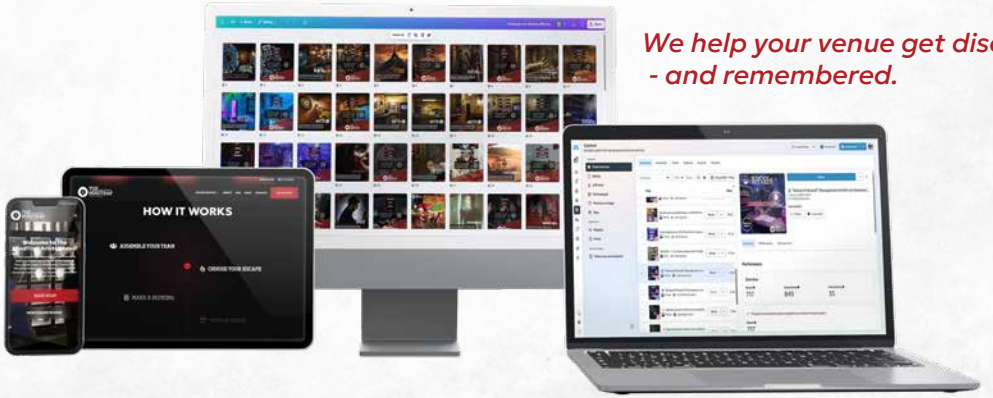

Ads infrastructure & strategy

Social media templates & visuals

Geo-targeted content

Branded content & copywriting support

Marketing tools for customer retention

We help your venue get discovered - and remembered.

5.
Training

1 week

- Arrival of game experts & training of the staff in games operation, customer service & software operations.
- Activation of digital marketing campaigns.
- Website, social media & booking system activation.

The MindTrap Luxembourg

Location: Fun City Family Entertainment Center, Pétange, Luxembourg
Rooms Installed: 4 Escape Rooms
Model: The MindTrap Partnership
Launched: 2024

The Challenge

Fun City, a well-established indoor family entertainment center in Pétange, wanted to **diversify its offerings** beyond traditional soft play and bowling attractions. Their goal: introduce an experience that could attract **teenagers, adults, and corporate groups** - all while increasing visit duration and average spend per guest.

The Solution

Fun City partnered with Intelligent Entertainment to launch The MindTrap Luxembourg - a fully branded escape room zone featuring **4 immersive games**, complete with:

- Full set design & theming.
- Auto-hint game automation.
- Central booking system.
- CRM and player analytics.
- Marketing assets, signage & launch support.
- Ongoing support and campaign content.

The experience was installed as a **turnkey package** - designed, built, shipped, and launched in under 15 weeks.

The Results

- **Increase in average customer spend**

Escape room guests stayed longer, booked online in advance, and often visited the other Fun City attractions afterward.

- **Rise in weekday attendance**

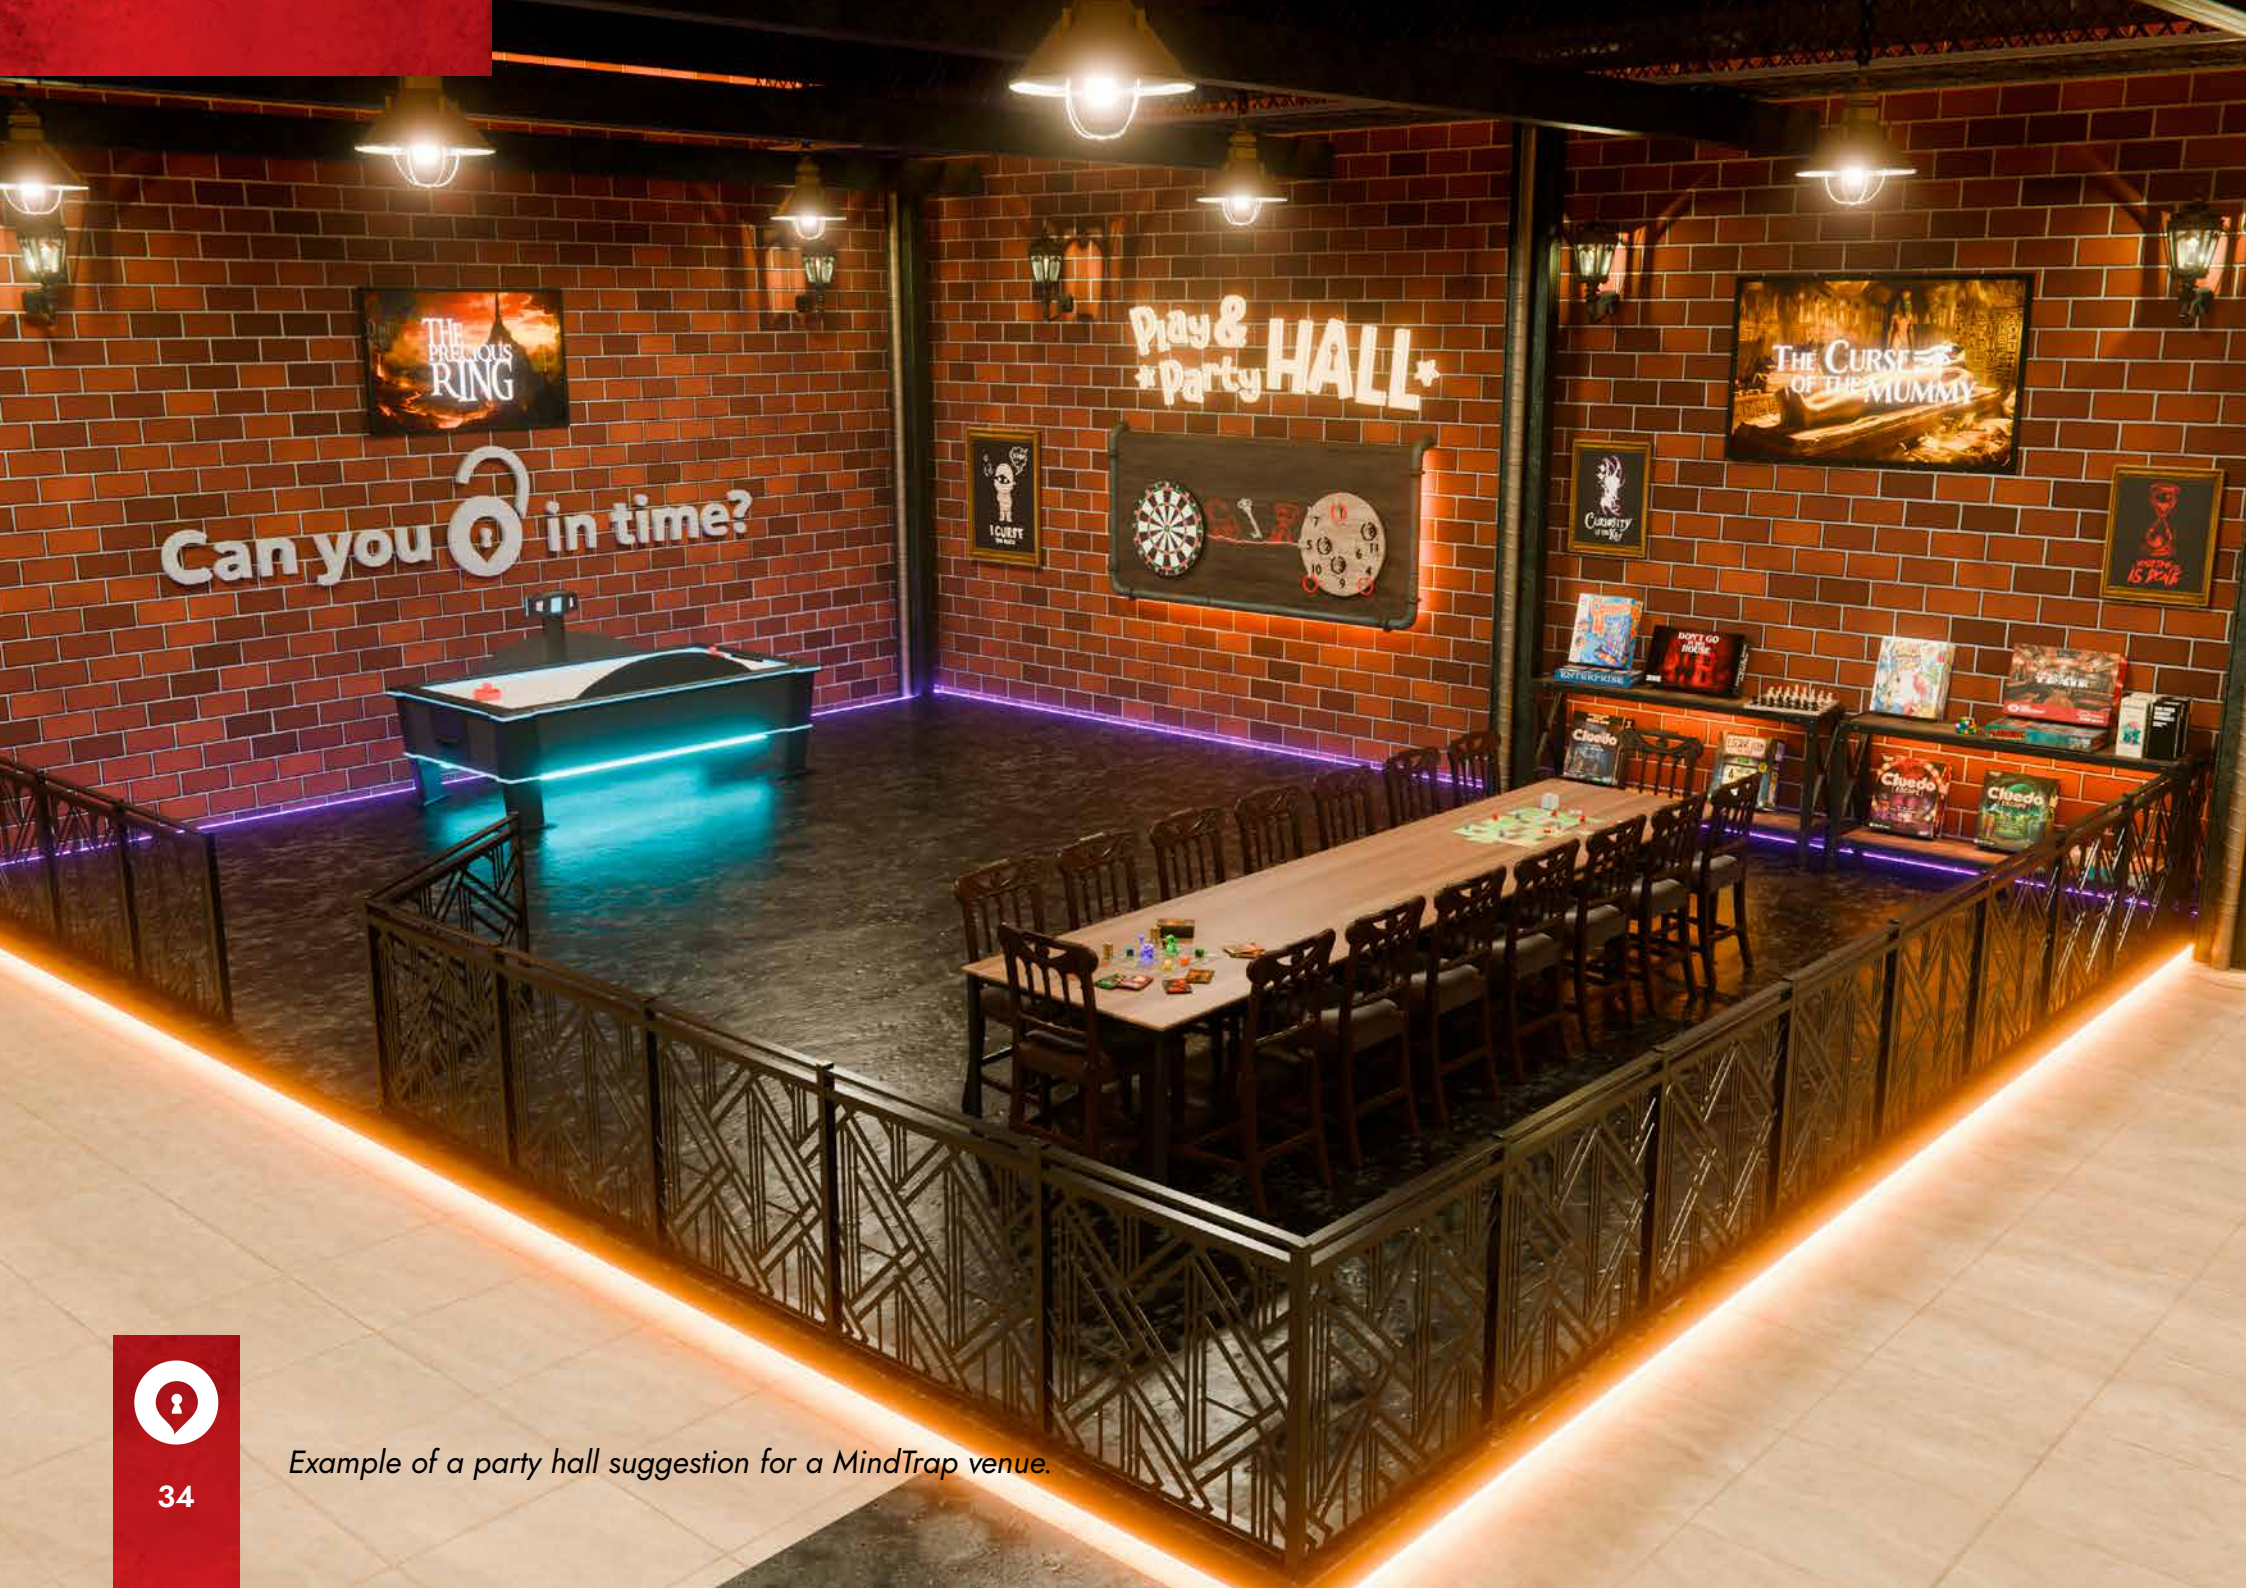

New audiences arrived for team building, birthdays, and teen activities - previously slower days saw steady traffic.

- **Strong local identity**

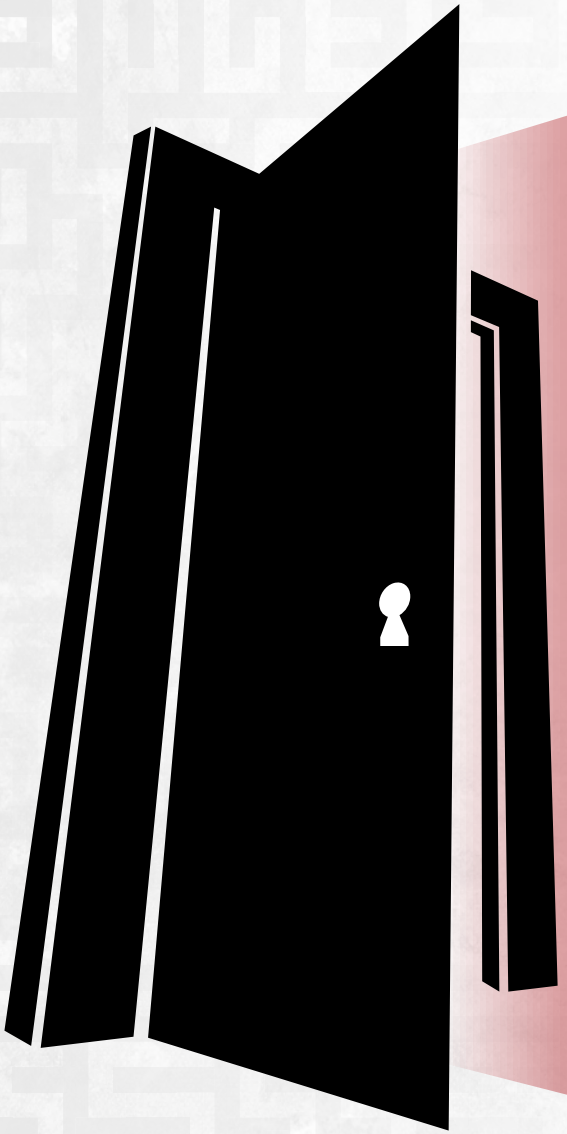

The venue launched its own social media accounts under @themindtrap.luxembourg, building a loyal audience with locally tailored content and organic user-generated buzz.

- **Cross-traffic boost**

Existing Fun City customers began booking escape room experiences during longer family visits - turning a passive visit into an active one.

Example of a party hall suggestion for a MindTrap venue.

Can you in time?

Our Solutions

At Intelligent Entertainment, we offer two business paths - both built on the same high-quality escape room production.

You can choose between:

Escape Room-Only

Buy our rooms as standalone experiences. We provide the game, the build, and the technical support. You will operate them under your own brand. You can also choose on whether we will do the installation, or you will handle it on your own.

The MindTrap Partnership

Operate under our turnkey brand. We deliver the escape rooms, and also visual identity, website, booking platform, marketing assets, digital tools, and full support. A complete escape room business system-ready to run.

Both options deliver exceptional escape rooms.
The difference lies in the level of support and brand power behind them.

* **Standard** is the price that contains the game scenario, the game elements & constructions, the main electrical unit (HUB) and the Autohint System.

The **full price option contains the above, plus all the themed styroforam & timber wall constructions, the stage and set design, and the installation of all the above to your venue.

None of the above contain shipping and staff transport/ accommodation/board expenses.

Services Expenses

Escape Room-only Solution:
Annual Support Fee
1,000€ per room.

Please check **page 95** *for the detailed support scheme.*

In many non-EU countries, import tariffs apply to the physical parts of entertainment installations - such as materials and hardware. Clients usually handle these during customs clearance. Digital services like software, design, and branding are not subject to duties (and can make up nearly 50% of the invoice). We help clients estimate and prepare for charges based on their location and process.

Your Liabilities

Before our team arrives, your venue must meet certain essential requirements to ensure smooth and timely installation.

Here are the key responsibilities you'll need to fulfill:

Venue Construction

- Interior wall installation.
- Entrance & exit door placement.
- Reception and common area prep.

Electrical Preparation

- Per-room network and power cables (per specs).
- Dedicated HUB panel space.
- Network switches and Wi-Fi coverage.
- Game Master desk(s) with power access.

Floor Plans & Dimensions

- Accurate architectural floor plan (DWG or clean PDF).
- Final post-construction dimensions (openings, ceilings).
- Marking of all fixed objects and removable walls.

Venue Readiness

- Masking paper on escape room floors.
- Construction lamps and ladders (per room).
- Air compressor (50L, 2.5HP).
- Dumpster for material disposal.
- Rooms must be completely cleared for setup.

Shipping Management

- Coordinate delivery access for 18m truck.
- Handle local unloading permissions & staff.
- Ensure 2 pallet jacks and (optional) forklift are on-site.

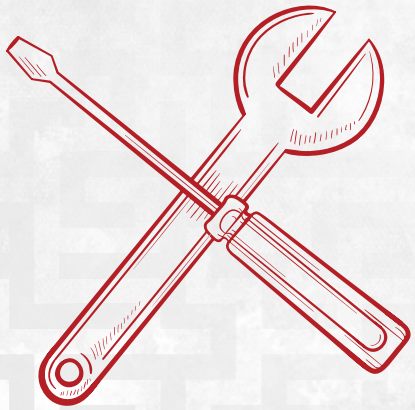

Note:
A detailed list of technical and preparation requirements is available in the full Client Liabilities Guide.

Scan the QR code to read our complete Client Liabilities guide.

Support Scheme

Our support plans are intended for clients who have purchased **standalone escape rooms** and do not operate under a full **MindTrap Partnership agreement.** These plans provide structured access to technical assistance, spare parts discounts, and prioritized support through our ticketing system at support.iegroup.gr.

For non-partnership operators, an active plan ensures faster troubleshooting, reduced downtime, and expert help when issues arise. Without a plan, support is limited, slower, and charged separately - including any required on-site visits.

Standard	Silver	Gold
Ticketing system only.	Ticketing system.	Ticketing system.
	Dedicated WhatsApp group.	Dedicated WhatsApp group.
	On-Demand weekday support.	**On-Demand** full-week support.

Weekdays Support:	**€ 50** per hour
Weekends & Holidays Support:	**€ 100** per hour

FAQ

Escape Rooms

About the Product

What do I get when I purchase an escape room?
You receive all physical game elements, props, the HUB control system, Auto-Hint software, and detailed manuals. The full-package also includes set design, scenic walls, and on-site installation.

What's the difference between standard and full package?
- Standard = puzzles, props, HUB, and Auto-Hint.
- Full = All of the above + scenic build and on-site installation.

Can I install the rooms myself?
Yes. Our rooms are plug-and-play ready. You'll receive manuals, diagrams, and remote support before and during installation.

What about software and automation?
All rooms include Auto-Hint, prop logic control, and central electrical HUB - designed for smooth, operator-friendly experiences.

Do you offer warranties?
Yes. A 1-year warranty covers construction and electronics. Spare parts and remote troubleshooting are always available.

How does your support system work?
We offer a ticketing system for standard issues and an on-demand WhatsApp emergency line with direct access to our technical team.

Delivery, Liabilities & Payments

What are my venue liabilities?
You're responsible for key preparations: walls, cabling, ladders, masking paper, and floor plans
See page 94: "Your Liabilities" for a clear summary + QR code to the full guide.

What's not included in the price?
Shipping, staff travel, accommodation, and meals - quoted separately depending on location.

How much does shipping cost?
From €3,500 (Europe), €5,000 (USA/Australia), €2,000 (Middle East/Africa). Final price depends on volume and location.

What are the payment terms?
- Standard: 50% deposit + 50% before shipping.
- Full: 50% / 30% / 20% based on production milestones.

How long does the whole process take?
12–15 weeks from contract to opening, including planning, production, delivery, and training.

Are import tariffs applicable to your products?
In many non-EU countries, import tariffs apply to physical components of entertainment installations - including materials and hardware. These are typically handled by the client during customs clearance. However, services such as software and design, are not subject to import duties (and often represent nearly 50% of the total invoice). We assist clients in preparing for applicable charges based on location and import process.

Investment & Tools

How much does the partnership cost?

Starting from €150,000 for 3 rooms. Ongoing:

- Flat fee: €3,500/year per room.

OR

- Revenue-based: 4% partnership + 1% marketing (monthly).

What's included in the partnership solution?

- The MindTrap brand identity.
- Website, booking system & CRM.
- Staff training & launch campaigns.
- Long-term support & marketing updates.

What's the expected ROI?

Most venues break even in 18–30 months depending on location, pricing, and room count.

Are there any hidden costs?

No. All optional services (e.g. shipping, installation) are quoted clearly and in advance.

What's your marketing strategy?

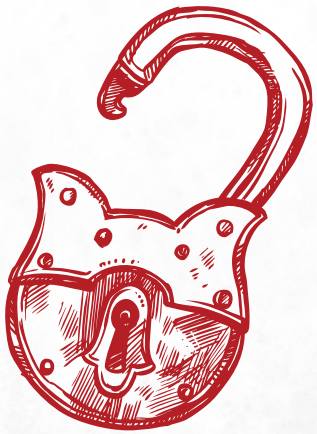

Launch-focused Google Ads (Search & Display), local SEO, branded campaigns, email retention flows, and social templates.

Why choose The MindTrap instead of going solo?

Because you're not just buying rooms - you're launching a business. We give you the brand, the tools, the playbook, and the safety net. You avoid costly mistakes and grow faster with an expert team behind you.

What type of venue works best?

Ground floor shops, malls, or upper floors with visible signage - in leisure-heavy areas with strong food & foot traffic.

OVERVIEW

At Agent Factory, players step into a covert training facility under the eye of Agent-X, where mission games combine physical, mental, and teamwork challenges into fast-paced adventures. RFID technology and live scoring make every visit competitive and replayable. More than an attraction, Agent Factory is a story-driven, tech-infused experience that captures the newest trend in entertainment: competitive socializing.

GAME EXPERIENCE

Unleash the power of mission games at Agent Factory - a cinematic, tech-infused adventure set in an abandoned spy training facility. Driven by the lore of Agent-X, players face physical, mental, and team-based challenges, all tracked through RFID wristbands and live scoreboards. From fast-paced missions to evolving leaderboards, every visit transforms guests into agents-in-training while turning your venue into a hub for competitive socializing.

1. ***Wear your RFID wristband to activate missions and track performance.***
2. ***Enter a mission, select difficulty, and start the challenge.***
3. ***Beat the clock across physical, skill, and intelligence quests.***
4. ***Move on to new missions - there's always more to play.***
5. ***See your score live on venue leaderboards and claim your Agent Certificate.***

WHAT ARE MISSION GAMES

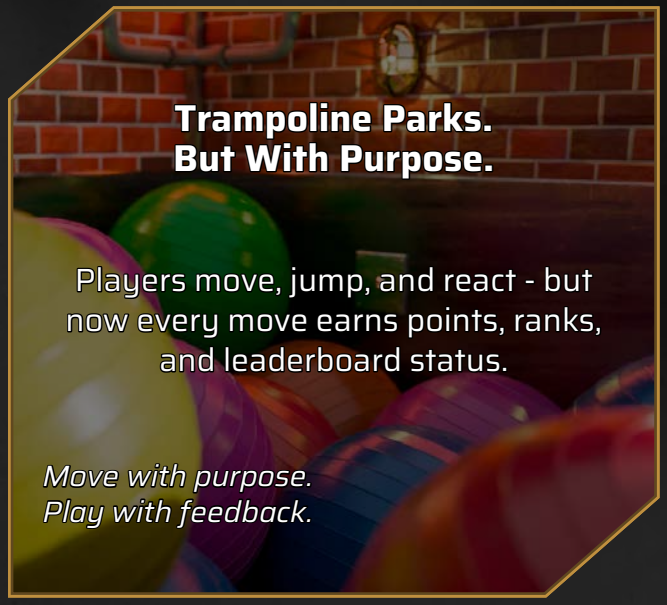

Mission Games are team-based, tech-powered challenge experiences that blend movement, puzzles, and strategy in immersive themed environments. With live scoring and replayable missions, they offer high-energy gameplay that keeps players coming back.

Escape Rooms.
But More

Replayable challenge rooms with real-time scoring and competition - built to bring players back.

More Action. More Competition.
More Reasons to Come Back.

Trampoline Parks.
But With Purpose.

Players move, jump, and react - but now every move earns points, ranks, and leaderboard status.

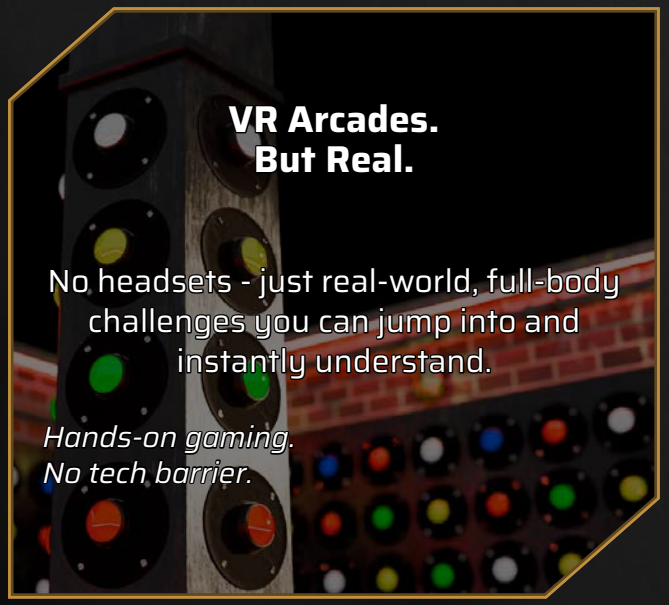

Move with purpose.
Play with feedback.

Laser Tag.
But Smarter.

Every mission is a new scenario - with tactics, puzzles, and skill-building beyond simple combat.

More than just shooting.

VR Arcades.
But Real.

No headsets - just real-world, full-body challenges you can jump into and instantly understand.

Hands-on gaming.
No tech barrier.

Survivor Games.
But With Brains.

Team-based trials combining strategy, mental agility, and physical tasks - all scaled to your level.

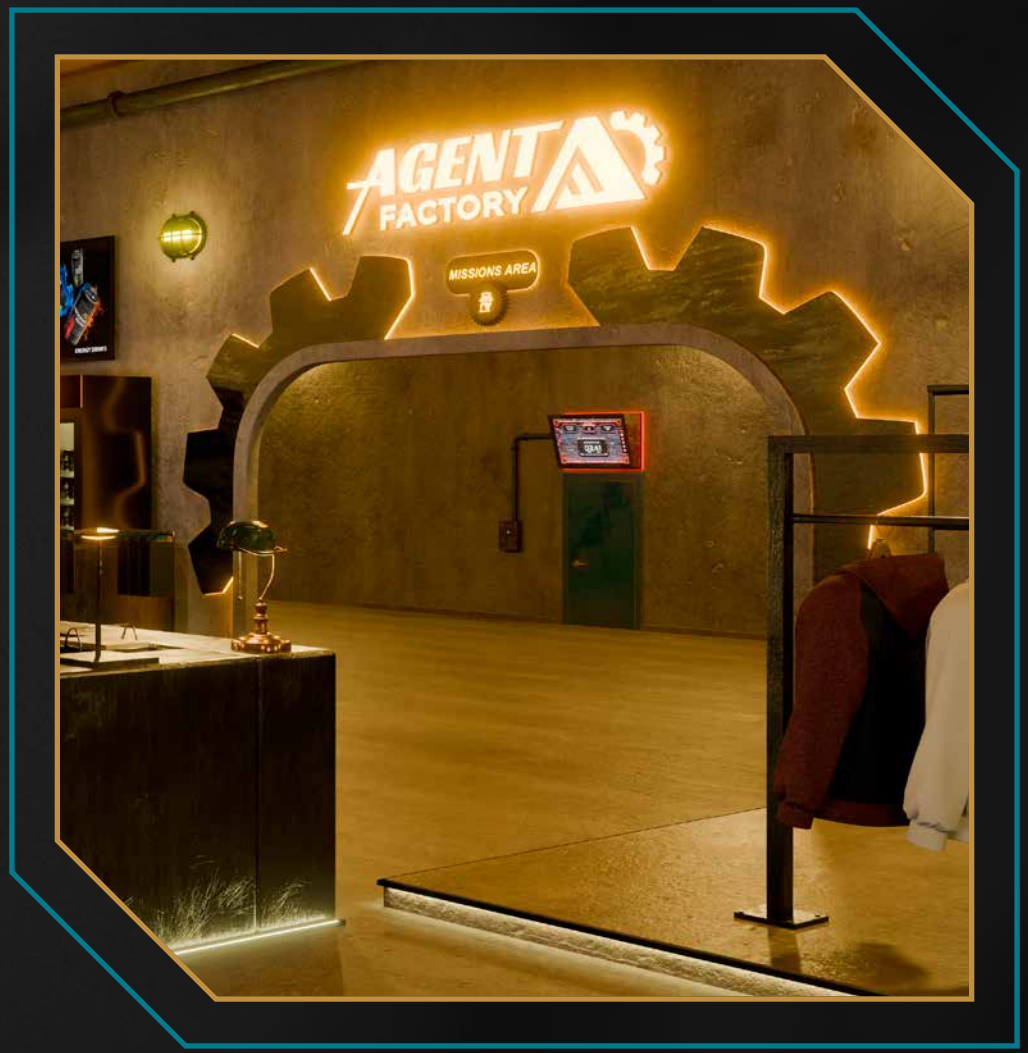

Train like a spy.
Compete like a team.

A World Built from the Ground Up.

Agent Factory venues are fully themed to reflect the visual universe of Agent-X - an abandoned, reactivated secret factory outfitted with training zones, screens, smoke, lighting, and industrial textures.

Our in-house scenic team delivers:

- Steel & concrete aesthetic walls.
- Wear-and-tear industrial detailing.
- LED lighting effects.
- Branded symbols & signage.
- High-quality rust theming effects.
- Soundscape & ambient visuals.

From the front desk to the last mission room, every detail supports the immersion and story.

Tech Infrastructure.

Agent Factory is powered by a proprietary tech ecosystem that ensures smooth, staff-light, intelligent operation.

Each player is identified by an RFID wristband. Every mission they enter is scanned, tracked, timed, and scored automatically.

HUB our centralized logic unit

RFID readers at each mission door

Sensors, switches, triggers, light/audio sync

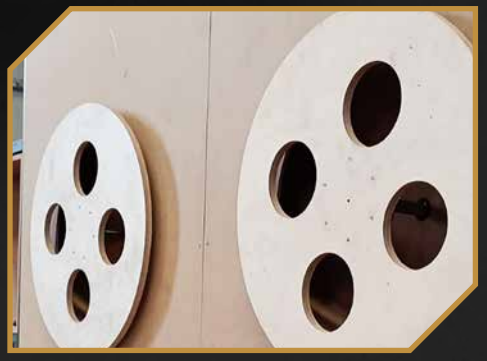

Scoreboard screens & live tracking

Player data uploaded to CRM & loyalty tools

The result: high-capacity throughput with minimal operator involvement and **maximum system reliability.**

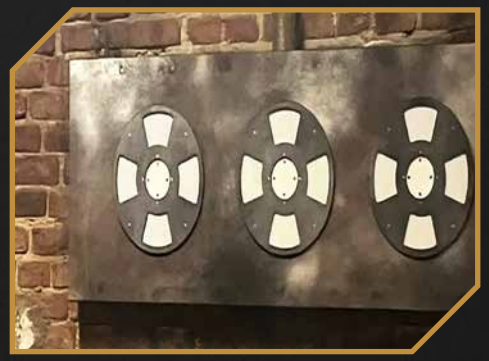

Designed in Detail. Delivered with Confidence.

All Agent Factory components are built at our 3,000m² facility - and shipped worldwide in modular form.

This isn't a kit - it's a turnkey experience, factory-tested and venue-ready

- [x] CNC-cut set walls & industrial frames.
- [x] Hand-built props & embedded logic wiring.
- [x] Hardware labelled and documented.
- [x] Packed for fast install and international transport.
- [x] Manuals with electrical, tech, and operational diagrams.

We deliver each installation with:

Full production documentation

Spare part kits

Remote support and setup guidance

Staff training modules and launch materials

AGENT FACTORY

A Recognizable Brand.

Agent Factory is not a generic mission game - it's a fully developed entertainment brand, complete with its own universe, visual language, and tone of voice.

Trademarked identity.
Unified across digital & physical touchpoints.
Designed for scalability.

What's included:

- **Brand & Marketing Guides.**
- **Color palette & font family.**
- **Brand tone, storytelling principles.**
- **Design templates for signage, media, apparel.**

Your venue launches with a strong, cohesive identity - ready to stand out in any competitive market.

Everything Under Control. One Platform.

We provide an all-in-one digital operations system tailored specifically for mission game venues.

Admin Dashboard Includes:

- Player check-in & game registration.
- Leaderboards, history & performance tracking.
- Staff logins & game control.
- Payment, reporting, and analytics.
- Cloud access & remote updates.

Every player scan, mission result, and payment flows through a central, intuitive dashboard - ensuring smooth daily operations and smart business decisions.

Digital Infrastructure.

With Agent Factory, your digital presence is ready from day one - no freelancers, no delays. We deliver a complete marketing and customer management suite designed specifically for mission-based venues.

Fully Responsive Website

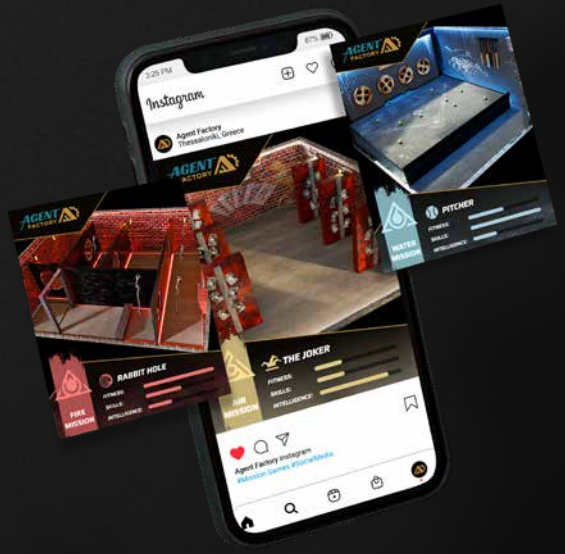

- Custom-branded for your venue.
- Mobile-first design.
- SEO-optimized landing pages.
- Multi-language options.
- Integrated gallery, FAQ, contact, and promo sections.

Booking System & CRM

- Online game & party bookings.
- Live availability calendar.
- Secure payment gateway.
- Customer profiles & booking history.
- Loyalty tools and automated reminders.
- Admin panel for managing sales, team schedules & daily performance.

Launch & Social Media Marketing

- Google tools setup (Search Console, GTM, GMB).
- Social media content templates (posts, stories, reels).
- Campaign visuals and ad copywriting.
- Account setup & launch for Facebook & Instagram.
- Marketing tools & retention campaigns.

A Space That Feels Like the Brand.

From the moment guests walk in, Agent Factory should feel like a different world - one with its own visual logic and brand language.

Included with your install:

- Branded & high-quality LED Signage.
- Themed venue & wayfinding visuals.
- Uniforms & agent-style apparel.
- RFID wristbands & printable certificates.
- Posters, menus, mission briefings & printables.
- Merchandise design files (optional production).

Everything is crafted to reinforce your story, your gameplay, and your professional appearance - making your venue immediately memorable.

After Sales Support.

Our support system is built to keep your venue running smoothly - from launch day and beyond.

Ongoing Support Includes:

On-Demand emergency hotline

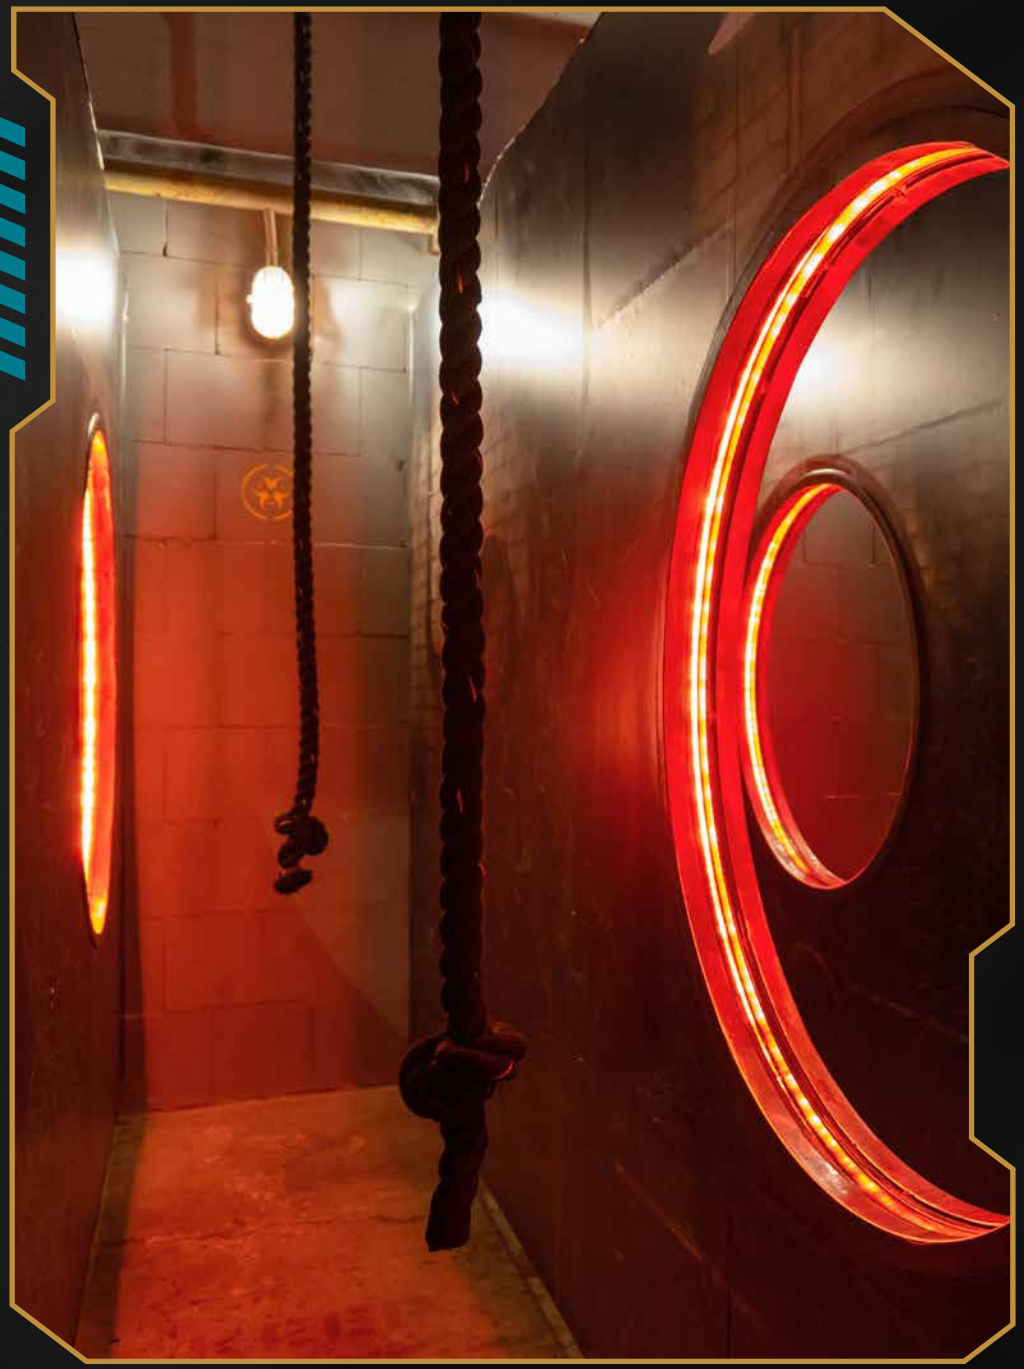

Ticketing system

Spare parts & replacements

Operational troubleshooting

Staff onboarding and training materials

Manuals and diagrams made to guide you

You’re never alone. With every installation comes a support team - one that’s already helped dozens of venues succeed.

THE MISSIONS

The game takes place in the missions. They include a mixture of different physical, brain and handiness challenges to test your skills and earn your secret agent certificate at Agent Factory. Play through various missions, and prove yourself worthy of the elite ranks of secret agents!

AIR MISSIONS

Quick thinking, teamwork & problem-solving quests.

WATER MISSIONS

Hand skills, precision & target hitting.

FIRE MISSIONS

Physical challenges that require balance and obstacle jumping.

EARTH MISSIONS

Our ultimate fusion challenges, combining elements from Fire, Water, and Air missions.

What is Included.

Your Agent Factory installation is a full turnkey solution - not a DIY project.

Game Environment

- 15+ mission rooms.
- Scenic decor & props.
- Custom signage & room IDs.
- RFID wristbands & scan points.

Software & Systems

- Admin dashboard.
- CRM & player tracking.
- Leaderboards & loyalty integration.
- Live game stats and analytics.

Brand & Marketing

- Website & booking engine.
- Launch campaigns.
- Merch, signage, uniforms.
- Content templates for social media.

Installation & Support

- Manuals, diagrams, remote support.
- On-site installation.
- Spare parts & game testing.
- Staff training documentation.
- On-Demand priority support

From Agreement to Activation Timeframe

Our proven production and launch process:

Week 1	Weeks 2-3	Weeks 4-18	Weeks 18-19	Week 20
Contract & venue brief signed.	Game layout adapted to space.	Full production of missions, signage, logic systems.	Delivery, on-site setup (or remote install).	Staff training, game testing, and launch.

You prepare the shell. We bring the content, systems, and story.

Your Venue. Your Business Model.

We offer two ways to operate Agent Factory, depending on your goals, venue size, and customer base.

Flat Fee Model

- Pay one annual fee.
- Unlimited usage, no per-player charges.
- Ideal for high-volume or large group venues.

Annual Fee:
25,000€ all-in-one.

License Model

- Low monthly marketing fee.
- Pay only for actual player use (€1/player).
- Ideal for seasonal or new operators.

Monthly Fee:
500€ marketing fees
+ 1€ per registered player
License fee

Both models include:

- Full game & hardware.
- Software access.
- Brand, signage & marketing tools.
- CRM, loyalty system, support.

Whether you run a full family entertainment center or a boutique mission venue - we've got a model to fit your scale.

PRICELIST

15 missions (minimum)	**375,000 €**
20 missions	**450,000 €**
25 missions	**500,000 €**
30 missions	**550,000 €**

• Extra mission upon request.

In many non-EU countries, import tariffs apply to the physical parts of entertainment installations - such as materials and hardware. Clients usually handle these during customs clearance. Digital services like software, design, and branding are not subject to duties (and can make up nearly 50% of the invoice). We help clients estimate and prepare for charges based on their location and process.

* Shipping costs may vary for markets outside the EU and are not included in the price, along with staff transport/ accommodation/board expenses.

** Starting in autumn 2024, shipping costs vary by destination:

3,500€ for European countries (13.6m Truck), 5,000€ for the USA & Australia (40HC Container), and 2,000€ for Africa & the
Middle East (40HC
Container), based on an average
of twenty missions.

Growth Potential

Agent Factory delivers high capacity, low costs, and endless replayability. With automated systems, scalable design, and multiple revenue streams, it outperforms traditional attractions and secures stronger returns for your venue.

- **Low Staffing Needs:** Automated gameplay, registration, and scoring minimize overhead.
- **Replayability:** Missions, leaderboards, and loyalty programs ensure players return.
- **Event Packages:** Corporate team-building, birthdays, and group bookings add recurring revenue.
- **Merchandise & Add-ons:** Apparel, collectibles, and loyalty perks extend income beyond tickets.

Agent Factory is more than entertainment - it's a proven growth engine for modern venues.

Your Venue Commitments.

Before installation begins, we'll provide you with a detailed technical plan. Here's what you'll need:

Venue Prep Checklist:

- [x] Drywall or modular wall setup per layout.
- [x] Electrical sockets & data to each room.
- [x] HVAC and ventilation.
- [x] Access points & safety exits.
- [x] General lighting & ambient controls.
- [x] Reception desk for check-in.
- [x] Delivery access & storage space during setup.

Scan the QR code to read our complete Client Liabilities guide.

FAQ

Product, Installation & Operation

How does Agent Factory work?
Agent Factory is a fully automated, RFID-powered attraction where players complete short physical, mental, and skill-based missions. Players wear wristbands, scan into missions, and earn scores tracked on live leaderboards - encouraging replay, competition, and return visits.

What do I get when I purchase an Agent Factory?
You receive a full turnkey solution: 15+ fully built missions, game logic systems, RFID infrastructure, HUBs, props, scoreboards, kiosks, software, CRM tools, training materials, visual branding, and manuals - all delivered and documented for smooth launch.

Are there warranties?
Yes. All constructions and electronics come with a 1-year warranty. You'll also receive spare parts and access to our emergency and ticket-based support systems.

How should I prepare my venue for the Agent Factory installation?
You'll need to prepare interior walls, electrical and network cabling to spec, climate systems (HVAC), basic painting, and space for the reception and Game Master desk. A technical preparation checklist is provided well in advance.

Is Agent Factory easy to integrate into an existing entertainment venue?
Yes - its modular design and low staffing requirement make it an ideal add-on to arcades, FECs, trampoline parks, escape room hubs, or standalone entertainment zones.

How long from agreement to operation?
Typically 16–20 weeks from contract signing to grand opening, depending on production queue and venue readiness.

Are import tariffs applicable to your products?
In many non-EU countries, import tariffs are commonly applied to the physical components of entertainment installations - including materials and hardware. These are typically handled by the client during customs clearance. However, digital services such as software, design, and branding are not subject to import duties (and often represent nearly 50% of the total product invoice). We assist clients in estimating and preparing for applicable charges based on their location and import process.

Pricing, Payment & Fees

How much should I expect to invest?
Standard Agent Factory packages (15 missions) begin around €330,000. Custom layouts or additional missions may increase the investment.

What are the payment terms?
- 50% deposit.
- 30% midway through production.
- 20% before shipping and launch.

What isn't included in the price?
Shipping, customs clearance, installation crew travel, and venue preparation are not included, but fully quoted and supported in advance.

What fees apply after launch - and what do they cover?
You choose between two licensing models:
- **Flat Fee** – €25,000/year: unlimited use.
- **License Model** – €500/month + €1/player: pay-as-you-scale.

Both options include:
- Software access & updates.
- CRM tools & player data.
- Marketing templates, campaign updates.
- Ongoing technical support.

What's the expected ROI?
Most operators break even in 18–30 months depending on location, pricing, and daily player volume.

Branding, Marketing & Support

What after-sales support should I expect?
We provide full documentation, launch training materials, and post-launch support via:
- On-Demand WhatsApp emergency line.
- Ticketing system for general requests.
- Remote troubleshooting.
- Spare parts dispatch.
- Access to campaign content updates.

What do I receive in marketing?
- Branded responsive website with booking and CRM.
- Google Tools setup.
- Social media templates (reels, stories, feed posts).
- Event flyer, promo video materials, merchandise design.
- Ongoing campaign visuals and copywriting support.

What kind of venues is Agent Factory most suitable for?
- Family entertainment centers (FECs).
- Trampoline parks and escape room hubs.
- Malls, leisure complexes, large-format arcades.
- Indoor team-building and event venues.
- Modular design works in venues from ~250 m^2 and up.

Can I expand the experience later on?
Yes. The system is built to scale - you can add more missions, integrate new themes, or combine with other Intelligent Entertainment products.

Case Study: A New Gaming Identity in Northern Rhine

Client: Adventure Mining World, Dorsten, Germany
Launched: 2024
Format: 20 Agent Factory Missions
Venue Type: Family Entertainment & Action Center

The Challenge:

Mining Adventure World (Gold Chamber) is known for immersive, story-driven experiences inspired by industrial history and exploration. To broaden its appeal, the team needed a modern, replayable attraction that would extend guest dwell time, attract a wider demographic, and stay true to the brand's adrenaline-fueled identity. The idea of secret agent training-with mission-based challenges, competitive scoring, and a mix of physical activity, puzzles, and gamified tech - offered a scalable, immersive solution with broad appeal.

The Solution:

Agent Factory launched as a modular, mission-based attraction blending physical activity, puzzles, and team strategy in a tech-enhanced environment. At the Dorsten venue, it was tailored to the space and audience with:

- 20 mission stations featuring logic and physical challenges.
- A futuristic control room design with interactive lighting, sound, and signage.
- Fully automated gameplay for low staffing needs.
- Adjustable difficulty and game flow to suit families and adult groups.

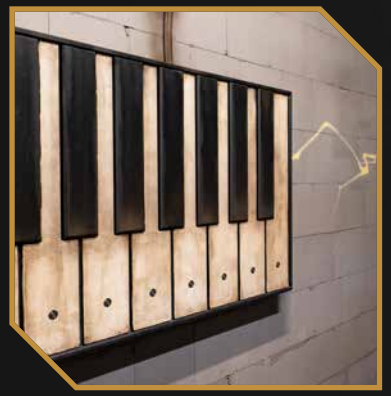

The Results:

- ☑ Top-performing attraction with ROI achieved in under 9 months.
- ☑ Described by guests as a "live-action video game".
- ☑ High repeat engagement driven by scoring and mission variety.
- ☑ Broad audience appeal: families, teens, schools, corporate groups.
- ☑ Minimal staffing and maintenance requirements.
- ☑ Success led to second installation in Hamm.
- ☑ Reinforced brand's leadership in immersive, competitive entertainment.

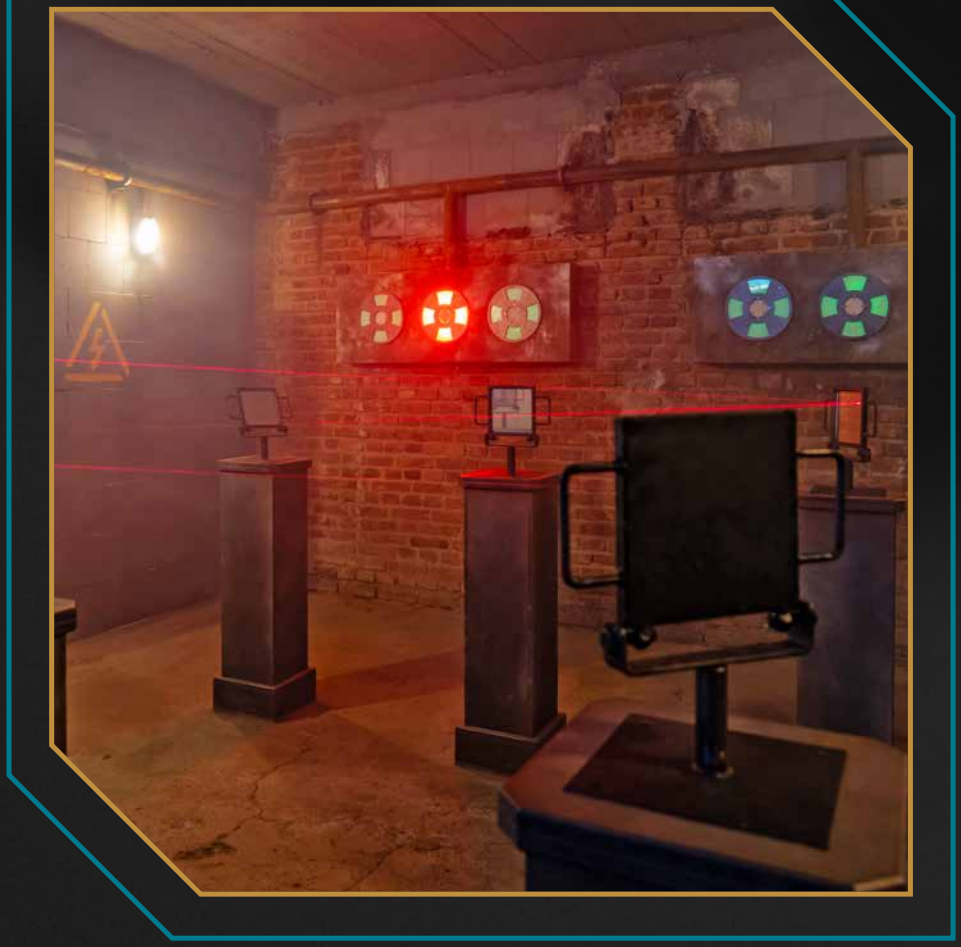

> *"Agent Factory quickly became one of the top-performing attractions in the area. From the first few weeks after launch, bookings exceeded our expectations!"*
>
> *Niclas Holtrup, Adventure Mining World*

WHY AGENT FACTORY

Agent Factory was built for the next generation of indoor entertainment. It's cinematic, fully automated, and designed to bring players back again and again.

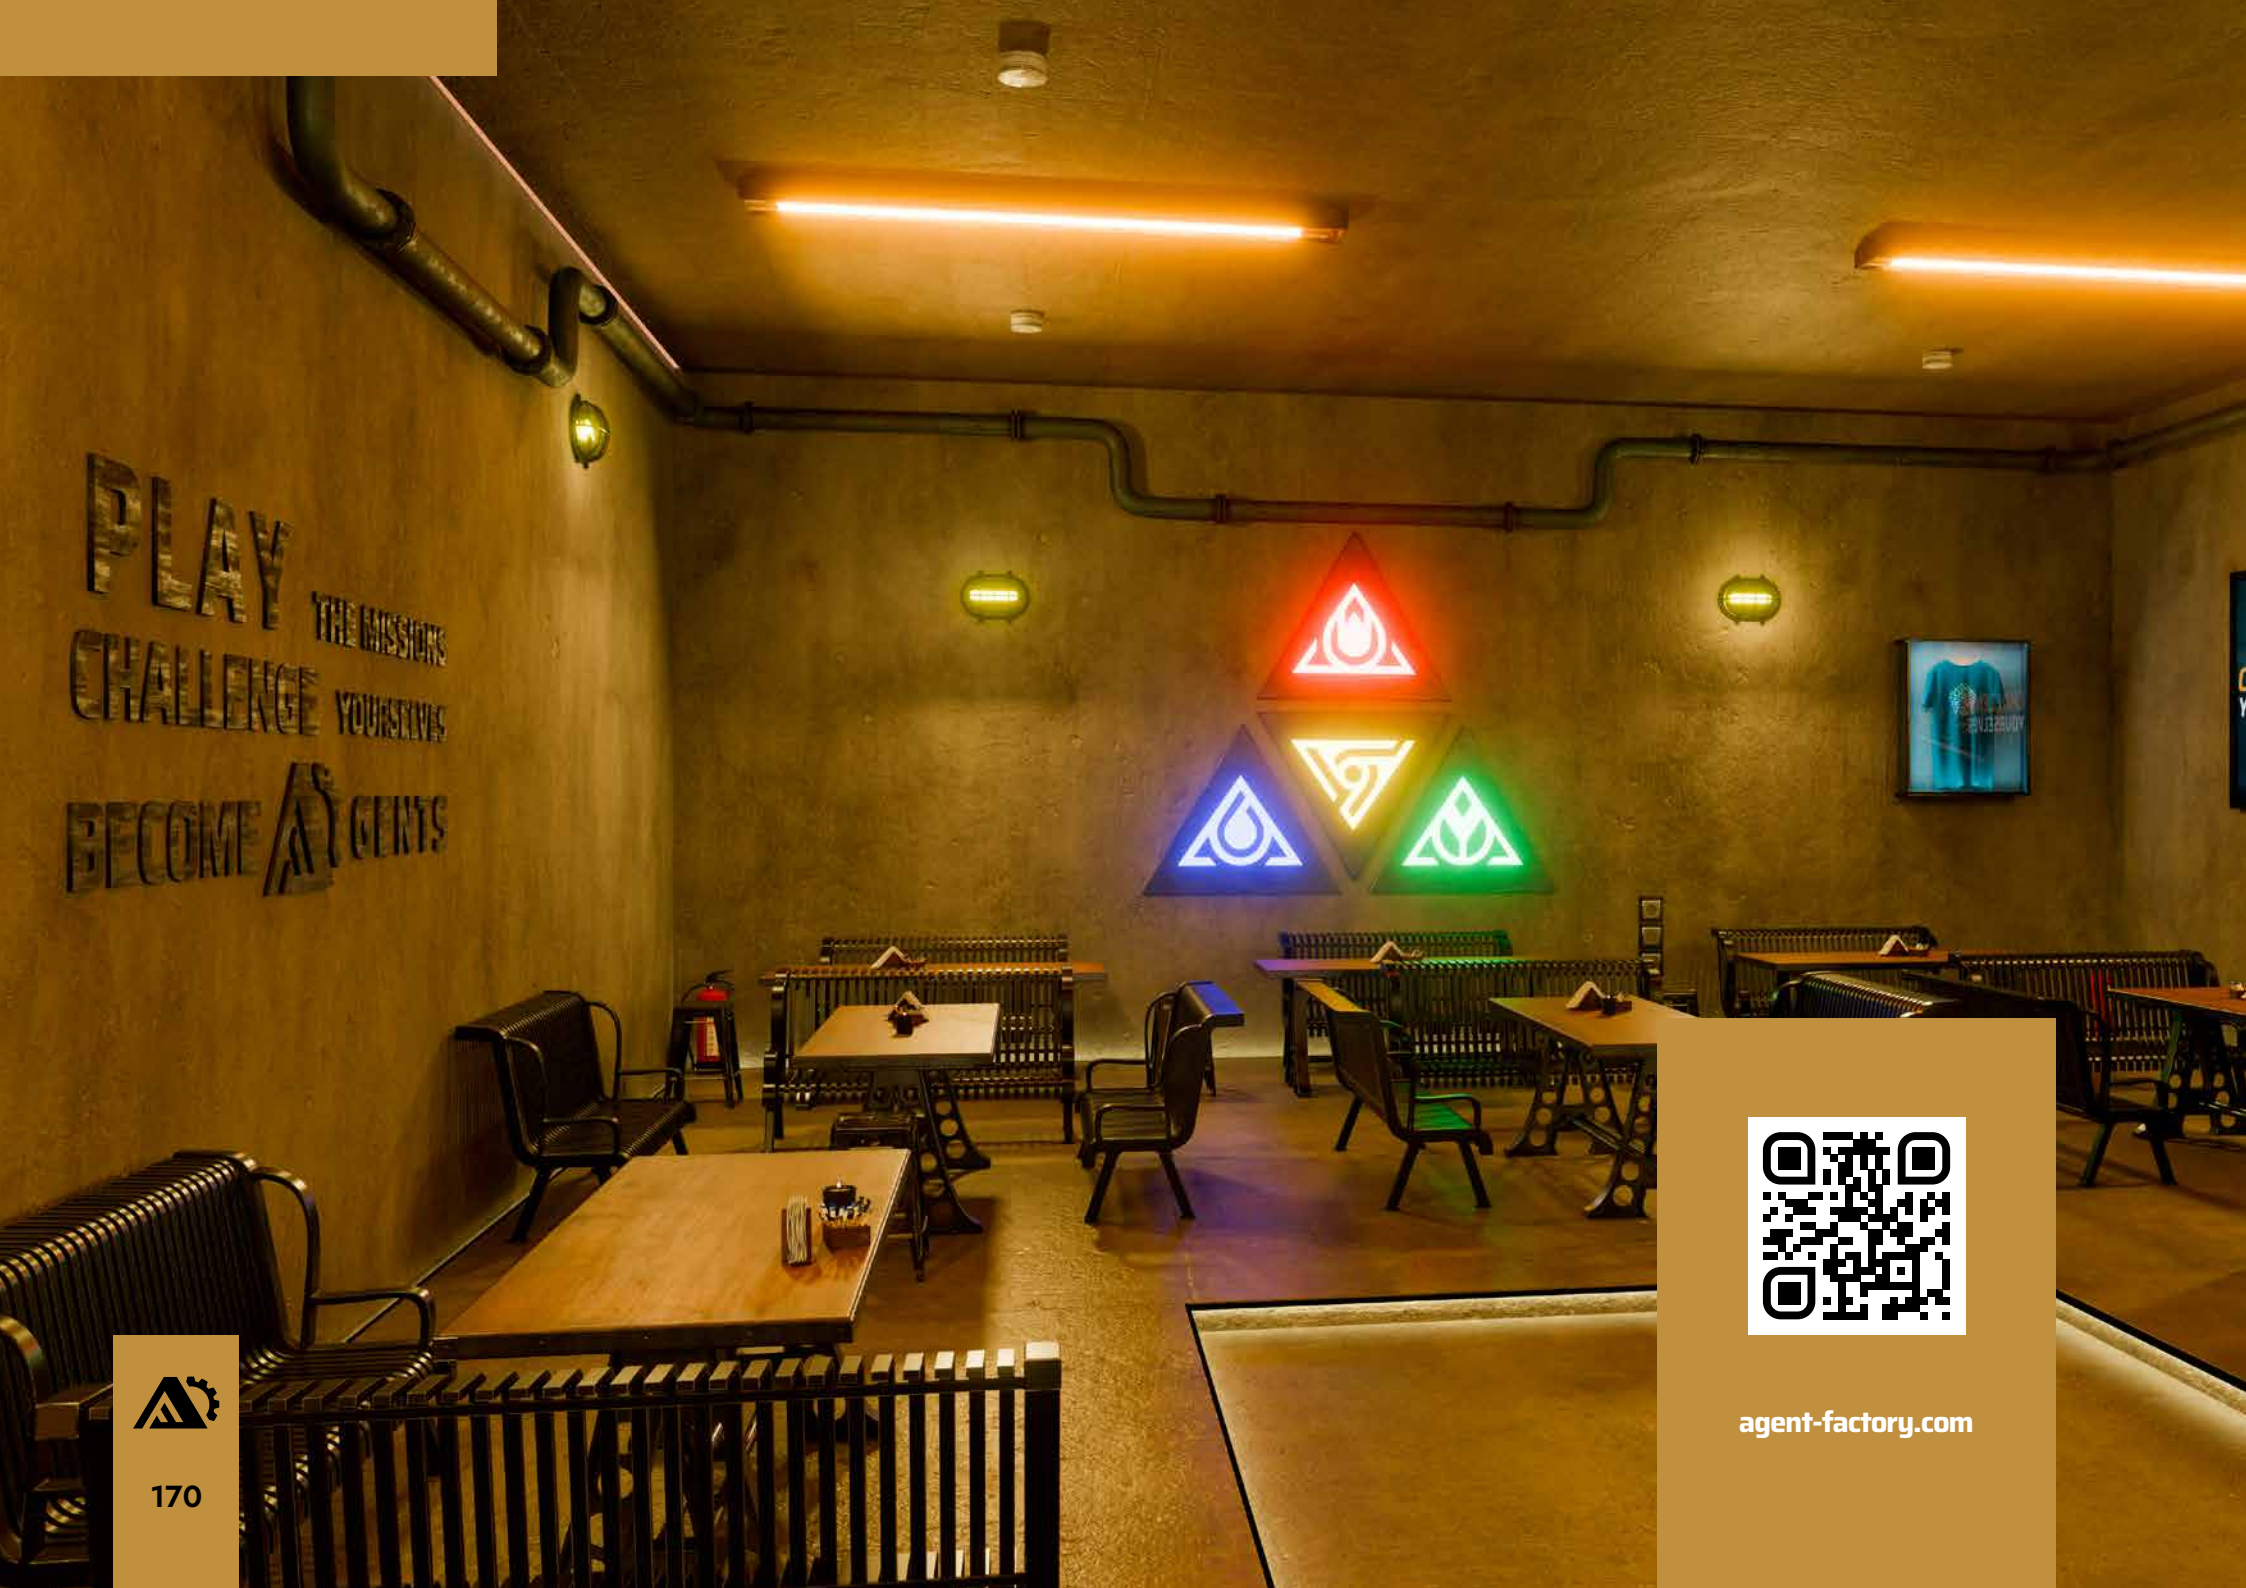

Why venues choose us:

- **Turnkey delivery** - from build to launch.
- **RFID-driven tech** - no need for room operators.
- **Smart design** - high capacity, low staff.
- **Strong brand** - signage, website, loyalty, marketing.
- **Built for return visits** - leaderboards, achievements, player profiles.
- **Modular scale** - start with 15 missions, expand later.
- **Support included** - on-demand hotline, updates, spare parts.

This isn't an escape room. It's a mission world - branded, repeatable, competitive, and made for modern venues.

The MiND golf

PUTT YOUR MiND iNTO THE FUN!

MINI GOLF

DRINKS

A SMARTER WAY TO PLAY MINI GOLF

MindGolf reimagines the classic game with themed lanes, modern design, and enhanced automated gameplay. From family visitors to teens and corporate groups, MindGolf turns passive play into immersive, competitive social fun-enhanced by touchscreen systems and RFID wristbands.

- Themed courses.
- Live scoring & leaderboards.
- RFID-powered automation.
- Scalable, high-throughput format.

A nostalgic game, redesigned for today's players and operators.

FROM TEE TO TOUCHSCREEN

Each guest receives an RFID wristband and begins a fully interactive journey through the mini golf venue. Scoring, course activation, and transitions are all automated - no paper, no delays, no staff intervention.

1. **Scan your wristband to assign an available course to your game.**

2. **Play the game.**

3. **Enter your score on the course touch screen.**

4. **Move to the next course and track your performance on the leaderboards.**

With up to 19 lanes, multiple themes, and no game master required, MindGolf delivers high energy, **low friction** gameplay for all ages.

Where Nostalgia Meets Design

The MindGolf courses are designed with playability, style, and durability in mind. Each hole features high-performance & endurance carpets, game-oriented terrain, tactile elements, and integrated lighting, all wrapped in unique visual themes.

Retro gaming lanes

Carnival/ Fairground themes

Interactive scoring features

Light triggers

Durable, low-maintenance materials

From family-friendly holes to Instagram-worthy design moments, the venue becomes a **competitive socializing experience and photo opportunity.**

THE SOFTWARE

At the heart of MindGolf is a fully integrated digital system that automates both player and operator experience from check-in to leaderboard rankings.

Touchscreen kiosks for team creation & scoring

RFID wristband system to track every player

Live leaderboards & in-game feedback

Admin software for venue stats, payments & CRM

Operators benefit from streamlined hosting, reduced staffing, and a platform built for growth and analytics.

QUALITY

Every MindGolf lane is custom-built at our factory, packed with care, and delivered with full technical documentation and staff training support.

- ☑ Fully carpeted, themed lanes.
- ☑ Silicon RFID wristbands.
- ☑ LCD kiosks & operations PC.
- ☑ Power & wiring infrastructure.
- ☑ Game manuals & staff guides.
- ☑ 1 - year prop replacement guarantee.

From concept to installation, everything is factory-tested, documented, and professionally delivered.

Built for Social Play

MindGolf is designed for casual competition, group fun, and seamless integration into social entertainment venues.

With RFID wristbands, automatic scoring, and touchscreen kiosks, players engage in fast-paced mini golf that's easy to understand, fun to replay, and entirely self-operated. Leaderboards, photo-worthy lanes, and group-friendly pacing make it a natural fit for parties, events, and social outings.

The MiND golf

Why It Works:

- Live scoring and leaderboards boost engagement.
- Team formats encourage group play and competition.
- Works well with food and drink service.
- Easy to install, easy to scale.
- Ideal for birthdays, company events, and mixed-age groups.

> MindGolf adds energy, dwell time, and shareable fun - with minimal operational complexity

Mini golf courses in
Funpark Rodgau, Germany.

PROJECT SCOPE

We design your venue layout and propose its structure, flow, and visual appearance.

Once approved, construction begins at our factory.

All golf courses are then prepared for shipment to your location.

Our experienced installation crew arrives at your venue to install the courses and train your staff on every element of the game.

Your MindGolf software system is fully configured, and you receive hands-on training in how to operate, manage, and grow your digital tools.

SOLUTIONS

The MindGolf is built to flex around your needs - whether you're looking for a tech-powered attraction with scoring, leaderboards, and digital management, or simply want beautifully designed mini golf lanes to integrate into your space.

Whether you choose Smart or Lite, MindGolf delivers a reliable, high-impact attraction—designed to fit your space, your budget, and your audience.

The MindGolf Smart

Our full-featured, tech-integrated version with RFID scoring, touchscreen kiosks, and backend management tools.

- Fully themed, modular mini golf courses (9 or 18 holes).
- Durable construction, scenic finishes, and carpeted lanes.
- Includes putters, balls, and layout documentation.
- RFID wristbands for player tracking and scoring.
- Touchscreen kiosks for registration and team setup.
- Live scoreboards and digital leaderboards.
- Admin backend with CRM tools and analytics dashboard.
- Remote support and software updates.
- Ideal for high-volume venues.

The MindGolf Lite

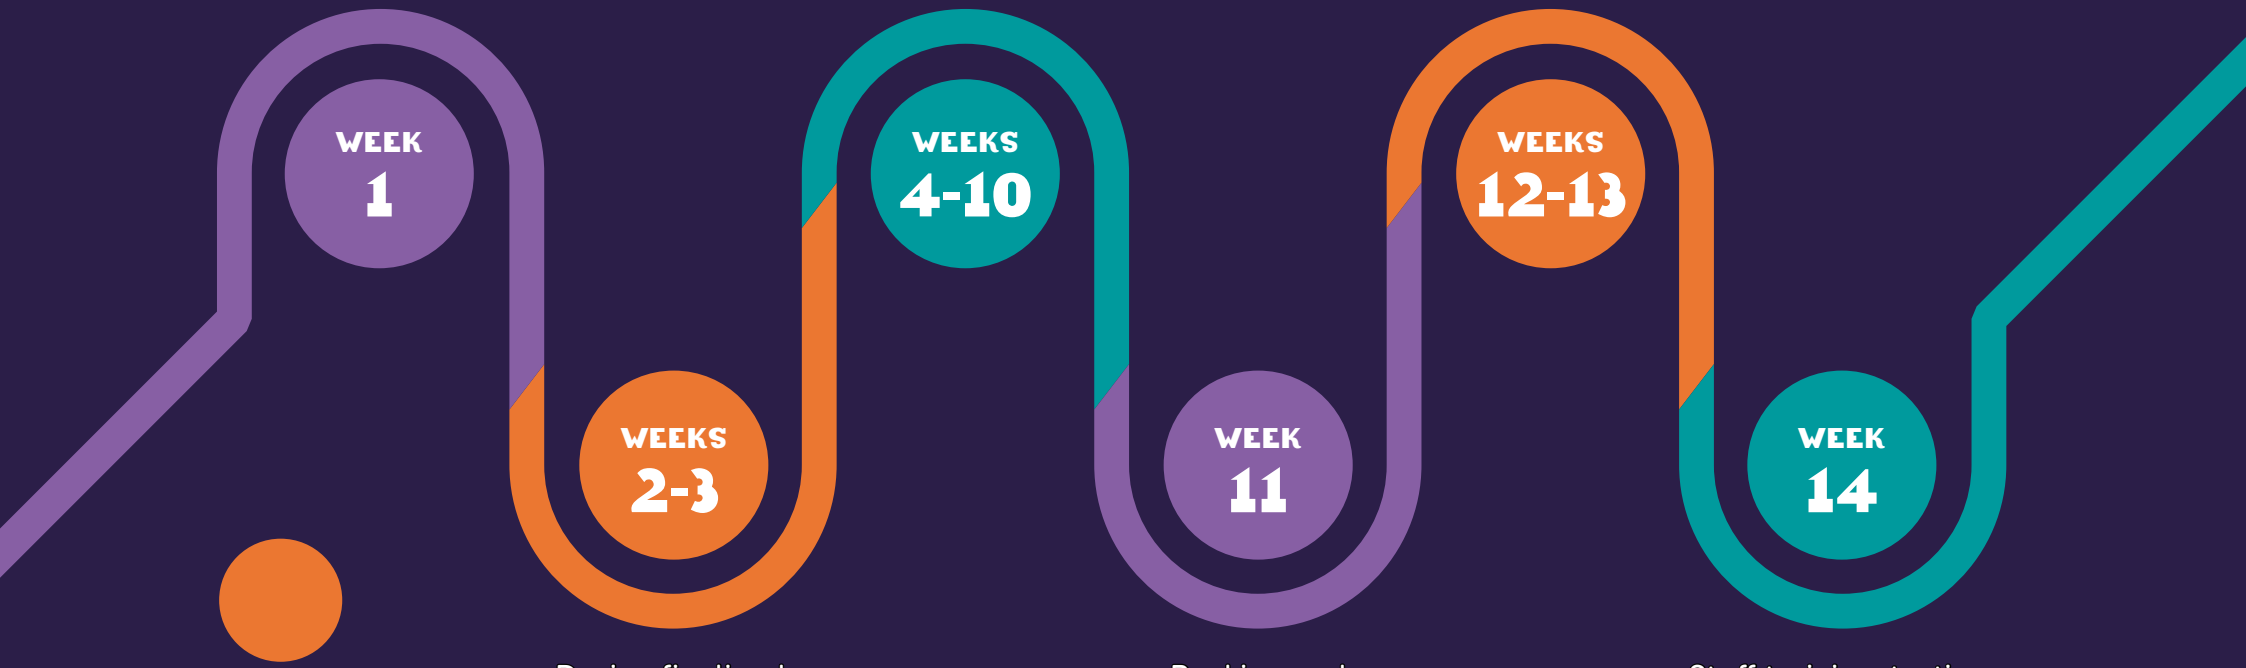

A streamlined, non-digital version offering the same great course design—without automation or software.

- Fully themed, modular mini golf courses (9 or 18 holes).
- Durable construction, scenic finishes, and carpeted lanes.
- Includes putters, balls, and layout documentation.
- No electronics, screens, or automated scoring.
- Designed for manual play and staff-facilitated operation.
- Lower upfront cost, same visual impact.
- Ideal for classic venues & supervised play areas.

Timeframe to Opening

Once your venue is approved and deposit confirmed, the full MindGolf solution is delivered and installed in approximately **90 days.**

The process step-by-step:

We build. We ship. We install. You launch.

PRICELIST

18 - courses venue:

Includes:

- 18x Minigolf Lanes with Kiosks.
- 4x Registration Machines.
- 2x Scoreboard Kiosks.

*Extra lane upon request.

The MindGolf Smart: **270,000€**

The MindGolf Lite: **234,000€**

9 - courses venue:

Includes:

- 9x Minigolf Lanes with Kiosks.
- 2x Registration Machines.
- 1x Scoreboard Kiosks.

*Extra lane upon request.

The MindGolf Smart: **157,500€**

The MindGolf Lite: **140,000€**

License Fee: 2,500€ Annually

In many non-EU countries, import tariffs apply to the physical parts of entertainment installations - such as materials and hardware. Clients usually handle these during customs clearance. Digital services like software, design, and branding are not subject to duties (and can make up nearly 50% of the invoice). We help clients estimate and prepare for charges based on their location and process.

ATTRACTION VALUE

The MindGolf blends smart design, low overhead, and strong group appeal in a compact format that delivers quick returns. With modest investment and high capacity, it's an ideal revenue driver for modern leisure venues.

Revenue Drivers

- **Lower Investment, High Return:** Compared to other tech-led attractions, MindGolf requires modest CapEx while supporting high footfall - leading to quicker payback periods.
- **High Group Appeal:** Ideal for families, couples, birthday parties, and casual social gatherings.
- **Low Staffing Needs:** RFID wristbands and automated scoring keep operations lean.
- **Food & Beverage Synergy:** The pacing of play allows guests to snack, order drinks, and linger.
- **Private Bookings:** Easy to package for group events with minimal setup.
- **Replayable Format:** Leaderboards and scoring create incentive to return and compete.
- **Upsell Opportunities:** Optional merch, branded wristbands, and themed backdrops add secondary revenue streams.

The MindGolf is a high-margin, fast-turnaround attraction built for modern venues.

YOUR COMMITMENTS

OUR MINIATURE GOLF COURSES WILL REQUIRE SOME PREPARATIONS FROM YOU PRIOR TO OUR ARRIVAL TO INSTALL YOUR NEW ENTERTAINMENT VENUE.

More specifically:

- The painting of the reception and common areas, in accordance with the seller-designer's suggestions.
- The venue's electrical equipment, according to our floor plans and electrical plans finalized for you.
- The installation of shared space's carpets.
- The main bar equipment, renewables, beverages & food supply.
- The air conditioning and ventilation systems of the venue.
- The fire hazard prevention equipment and extinguishers.
- The configuration of the room entrances and exits, windows, floors and the space's walls/drywalls & construction in general.
- The transportation of waste/debris from the business premises, or the presence of a waste bin outside the venue for as long our team installs the games to your venue.

FAQ

Product, Setup & Operation

Is MindGolf a turnkey product?

Yes. MindGolf is delivered as a fully themed and functional indoor mini golf experience - including custom-built lanes, automation panels, scoring kiosks, branding, software, and installation support.

How does the gameplay work?

Players check in at digital kiosks using RFID wristbands. Their scores are tracked automatically as they move through the lanes, with results displayed on live leaderboards - no paper, no delays, no staff intervention needed.

What is included in a standard installation?

- ☑ 9 or 18 custom-built golf lanes.
- ☑ RFID wristbands (reusable silicone).
- ☑ LCD touchscreens for player registration.
- ☑ Scoreboard kiosks.
- ☑ Electrical panels & software.
- ☑ Theming, carpet, decor.
- ☑ Manuals, spare parts, and documentation.

What is the typical timeline from agreement to opening?

90 days from contract to delivery - depending on venue readiness and order volume.

Can I install it myself?

Yes. MindGolf is delivered with modular lanes, labeled components, and detailed manuals for self-installation. On-site installation by our team is also available as an optional service.

Support & Strategic Value

What after-sales support should I expect?

- Full install & gameplay manuals.
- Staff training.
- Remote troubleshooting.
- Spare part replacements.
- Ticketing system and WhatsApp line.
- Software updates included in license.

Is MindGolf right for my venue?

Yes - MindGolf fits perfectly into:

- Malls.
- Indoor amusement centers.
- Mixed-use entertainment venues.
- Escape room + social play hybrids.

It works with ~150–250 m² (9 holes) and up.

Why choose MindGolf instead of a fully tech-infused mini golf system?

MindGolf delivers exceptional value at a significantly lower investment than fully tech-saturated alternatives. It combines high-quality themed lanes with smart automation where it matters: RFID scoring, touchscreen kiosks, live leaderboards, and a full admin CRM platform. You get reliable performance, scalable operation, and immersive design - without the cost or complexity of overengineered systems.

Pricing, Fees & Delivery

What price range should I expect?

- 9-hole venue: from €140,000 The MindGolf Lite.
- 9-hole venue: from €157,500 The MindGolf Smart.
- 18-hole venue: from €234,000 The MindGolf Lite.
- 18-hole venue: from €270,000 The MindGolf Smart.

Custom extensions available on request.

Are there any hidden expenses?

No. All pricing is quoted transparently. Venue preparation (walls, flooring, HVAC, paint) are on your side, while shipping and installation crew expenses are quoted separately.

What isn't included in the price?

You are responsible for:

- Shared venue carpet.
- Reception desk installation.
- HVAC and lighting.
- Paint and finishing.
- Local unloading and access logistics.

What do the fees include/cover?

Annual software license (€2,500) covers:

- Game control system.
- RFID logic & scanning.
- Admin tools & score tracking.
- Updates & remote support.

What's the expected ROI?

Venues typically reach return on investment within 12–20 months, depending on location, pricing, and operating model.

Are import tariffs applicable to your products?

In many non-EU countries, import tariffs are commonly applied to the physical components of entertainment installations - including materials and hardware. These are typically handled by the client during customs clearance. However, digital services such as software, design, and branding are not subject to import duties (and often represent nearly 50% of the total product invoice). We assist clients in estimating and preparing for applicable charges based on their location and import process.

Format: 12 - Hole MindGolf Installation
Type: Add-on attraction inside an existing FEC

The Challenge

7th Space Cologne operates a high-tech entertainment hub with billiard, bowling, arcades and axe throwing. While the venue attracted families and groups, they needed a more accessible, passive-yet-social experience that would work for all ages and improve dwell time and F&B sales - without requiring extra staff.

The Solution

MindGolf was installed as a 12 - hole mini golf course with RFID tracking and touchscreen automation. The goal: a casual, modern experience that ran itself - blending physical play with light competition.

Our delivery included:

- 12 fully themed and carpeted lanes.
- 2 touchscreen kiosks + live leaderboard.
- Reusable RFID wristbands and software integration.
- Staff training, setup, and post-launch support.

The Results

- ☑ Increase in average venue visit time.
- ☑ More F&B spend per group post-game.
- ☑ Thousands of rounds played in first 5 months.
- ☑ Strong performance during quiet weekday hours.

"It's an elegant, social game that works for everyone. Families love it. Teens share it. And we love how easy it is to run."
- 7th Space Cologne Operations Team

WHY THE MINDGOLF

- Smart business choice for entertainment centers.
- Diverse themes and nostalgic appeal for all ages.
- Streamlined operations & reduced staffing.
- Technology + theming = high perceived value.
- Reliable, scalable, and support-ready.
- A mini golf experience that guests remember.
- Unique combination with F&B and Competitive Socializing.
- Low Operational costs & zero consumables.

MindGolf turns casual play into an immersive, branded adventure - and turns space into revenue.

CUSTOM PROJECTS

In addition to our three core projects, we also specialize in creating customized indoor entertainment experiences. Our construction capacity and creativity have enabled us to undertake unique projects for our clients. From axe-throwing lanes to tailor-made mini-golf experiences, we can bring any concept to life.

STRIKE
CITY

OUR COMING SOON, FULLY TECH-INFUSED MINIGOLF

Strike City is an exciting, tech-infused mini-golf game. Currently in the development stage, it promises to be our next flagship offering.

Strike City is using a unique & complex custom software to provide a breathtaking customer experience. The players use RFID wristbands to create their teams, enable the courses and watch their points progress live as they play. At the same time, the venue administration can operate the game smoothly via an HTML application, manage payments and enjoy a 360-control of the venue.

TEAM AXE

AIM.THROW.BULLSEYE!

The Ultimate Axe Throwing Experience

We take pride in delivering the thrilling challenge of axe-throwing lanes to our customers, particularly in Munich, Germany!

The TIMBER-TEE MINI golf

Our wooden mini-golf project, located in Cairo, Egypt, showcases stunning wood-based aesthetics and state-of-the-art courses creations that elevate the game to a new level of beauty!
