DaVinci also teamed up with America's favorite baby brand to bring a line of stylish and contemporary pieces for the nursery, with the same high quality that parents can trust.

## GREENGUARD Gold Certification

We have the largest  
collection of GREENGUARD  
Certified nursery products!

Tested for over 10,000 chemicals,  
GREENGUARD Certified products help improve  
indoor air quality, creating a healthier  
environment for your baby to sleep,  
play and grow.

## Why should you care?

### Low-Emitting

Babies need cleaner air to support their development. GREENGUARD products are tested for over 10,000 chemicals that are commonly known to pollute indoor air.

### Exceeds Standards

GREENGUARD products meet or exceed the most rigorous chemical emission standards. Very few other nursery brands meet this standard.

### Safe for Children

With cleaner air quality in your home, you can rest easy knowing that your baby is happy & healthy and focus on enjoying your little bundle of joy!

## We surpass the standards

Safety is our priority, and our internal testing standards exceed the industry standards, from slat strength to the materials we use. In addition, all of our furniture meets voluntary ASTM standards, in addition to federal CPSC regulations. We strive to provide the safest possible environment for baby, and are proud of the quality we have achieved and maintained.

REQUIREMENT	ASTM/CPSC STANDARDS	DAVINCI
Slats/spindles static load strengths (16 CFR 1219, ASTM F1169)	80lbs	135+ lbs

# 5 crib features to consider

## 1. convertible options

Seamlessly transition from newborn to big kid! All DaVinci cribs are easily convertible and designed to last into their teens.

(Conversion kits are sold separately)

## 2. adjustable mattress height

Cribs that grow as fast as they do! DaVinci cribs are built with 4 adjustable mattress positions to withstand even the most active babies! The mattress height should be lowered as your little one begins to sit and stand to reduce risk of climbing out.

### when the baby...

- is a newborn
- learns to roll over
- learns to sit up
- learns to stand

### 3. size & portability

#### standard

Most common choice for crib size

#### mini

Perfect for smaller nurseries or living at the grandparents'

#### crib & changer combo

Space efficient crib and changer combos have attached changers and storage

### 4. materials matters

DaVinci has always focused on providing only the best for your baby, that's why we use solid New Zealand pine wood from sustainable forests. This is one of the most sustainable and renewable wood resources, and its forests are expanding, increasing total wood production annually.

## 5. safety standards

### American Society for Testing and Materials

An international standards organization that tests materials and products according to technical standards

### Consumer Products Safety Commission (CPSC)

An independent federal regulatory agency that works to reduce the risk of injuries and deaths from consumer products

### GREENGUARD Gold Certification

Tests for over 10,000 chemicals and limits the total of all emissions combined for healthier indoor environments
