**BAGNOSPA**

# bagnospa

*Setting the standard for spa at home.*

Embracing the growing trend of the home-spa concept, our Spa & Wellness collection delivers a complete sensory journey – bringing together the healing power of water, heat, light, sound and scent to gently take you into a world of pure relaxation.

We offer a comprehensive solution for beautifully designed bathrooms and wellness areas – for daily rituals and complete restoration. From healing hydrotherapy modalities to accessories that awaken and invigorate the senses, each element in our collection brings the atmosphere of a luxury spa retreat into your spaces for a truly indulgent experience.

# our philosophy

*Relax. Restore. Rebalance.*

Venture into your own journey of personal rejuvenation with our elite collection of spa solutions. Discover how even the most ordinary of spaces can be transformed to soothe the mind, body and soul.

Every product in our Spa & Wellness offering is chosen with intention. We seek out high-quality designs that fulfil many aesthetic requirements and provide options that can be tailored to suit the specific needs of each project, from private homes to wellness spaces and hotels. And wherever possible, we ensure that sustainability is also a part of our decision-making process.

# benefits for body & mind

*Discover the many benefits of our Spa & Wellness offering.*

Known for centuries as a natural remedy, hydrotherapy is experienced through many modalities, all of which we have curated in our collection. Paired with light, sound and scent, you have a fully restorative spa solution that is linked to many health benefits.

Whirlpool systems, indoor spa baths and spa showerheads use the **soothing** flow of water to help relieve tension, improve circulation and restore **calm**. If you desire **pampered** skin, our optional MILK Spa technology for our BAGNOSPA spa baths enriches water with oxygen microbubbles to deeply **hydrate** the skin and boost serotonin. Even an outdoor shower becomes an act of renewal, connecting you with nature in the process.

Sauna and steam rooms extend these benefits through the therapeutic effects of heat. Whether Finnish, infrared or humid steam, each supports cardiovascular health, muscle recovery and relaxation, while **detoxifying** the body and clarifying the skin. Contrast therapy with a cold plunge in an ice bath completes the ritual—reducing inflammation, easing stress and strengthening **mental resilience**.

Finally, the addition of aromatherapy, light and sound complete the full sensory experience. Essential oils such as lavender are said to **calm** the body and promote **restful** sleep, while mint or citrus may stimulate **alertness** and increase **productivity**. Circadian lighting follows the sun's rhythm to support your natural sleep cycle, and optional spatial audio with soundscapes creates an **immersive** environment tailored to your personal retreat.

# ice bath

*A tradition that dates back to ancient civilisations, a plunge into cold water can be a refreshing and invigorating experience. Steadily gaining traction in recent years, this time-honoured practice has found its way into modern medicine and is used by many athletes to recover from intense sports. Our ice bath expose the body to temperatures as low as 2 °C.*

# how to use an **ice bath**

*Practical tips to know before taking the plunge.*

Start by choosing a temperature that suits your current tolerance. Begin around 15 °C if you are new to cold plunges and gradually move to colder water as you adapt. Prepare your mind with a little breathwork. Take deep inhales and full exhales to calm your mind and body before taking the plunge.

Enter the water slowly to allow your body to adjust and, once immersed, concentrate on your breathing. Slow, deliberate breaths help to regulate your heart rate and ease your thoughts – this is when you can really start to relax and allow yourself to enjoy the cold water benefits.

When you feel it is time to get out, exit slowly and let your body warm up naturally, some light movement like stretching or pacing can be an added benefit. This can also be a great time to pair your cold plunge ritual with a sauna session to combine the restorative benefits of heat and cold therapy.

# indoor spa baths

*With similar features to a whirlpool, our spa baths give you free reign to enjoy a warm bubbling bath indoors at any time of the year, as a welcoming respite from the elements. For a truly indulgent spa experience, soak away stress with multiple jets, unwind with waterproof speakers and calming lighting and pamper your skin with BAGNOSPA's revolutionary MILK Spa system.*

*soak in serenity*

For further details on spa jets and functions, please contact your sales consultant.

**Milk System**

The revolutionary MILK treatment system, made to pamper your skin, leaving it feeling fresh, clean, and moisturised. Consisting of 100 percent pure water and zero additives, the MILK system is designed to deliver an unparalleled wellness treatment. Miniscule oxygen-rich microbubbles cover your skin like a silk blanket for a truly rejuvenating experience, boosting the skin's absorption of oxygen, while an infusion of negative charged ions, which research indicates can increase serotonin levels in the brain, provides a crucial boost to overall wellbeing.

# saunas

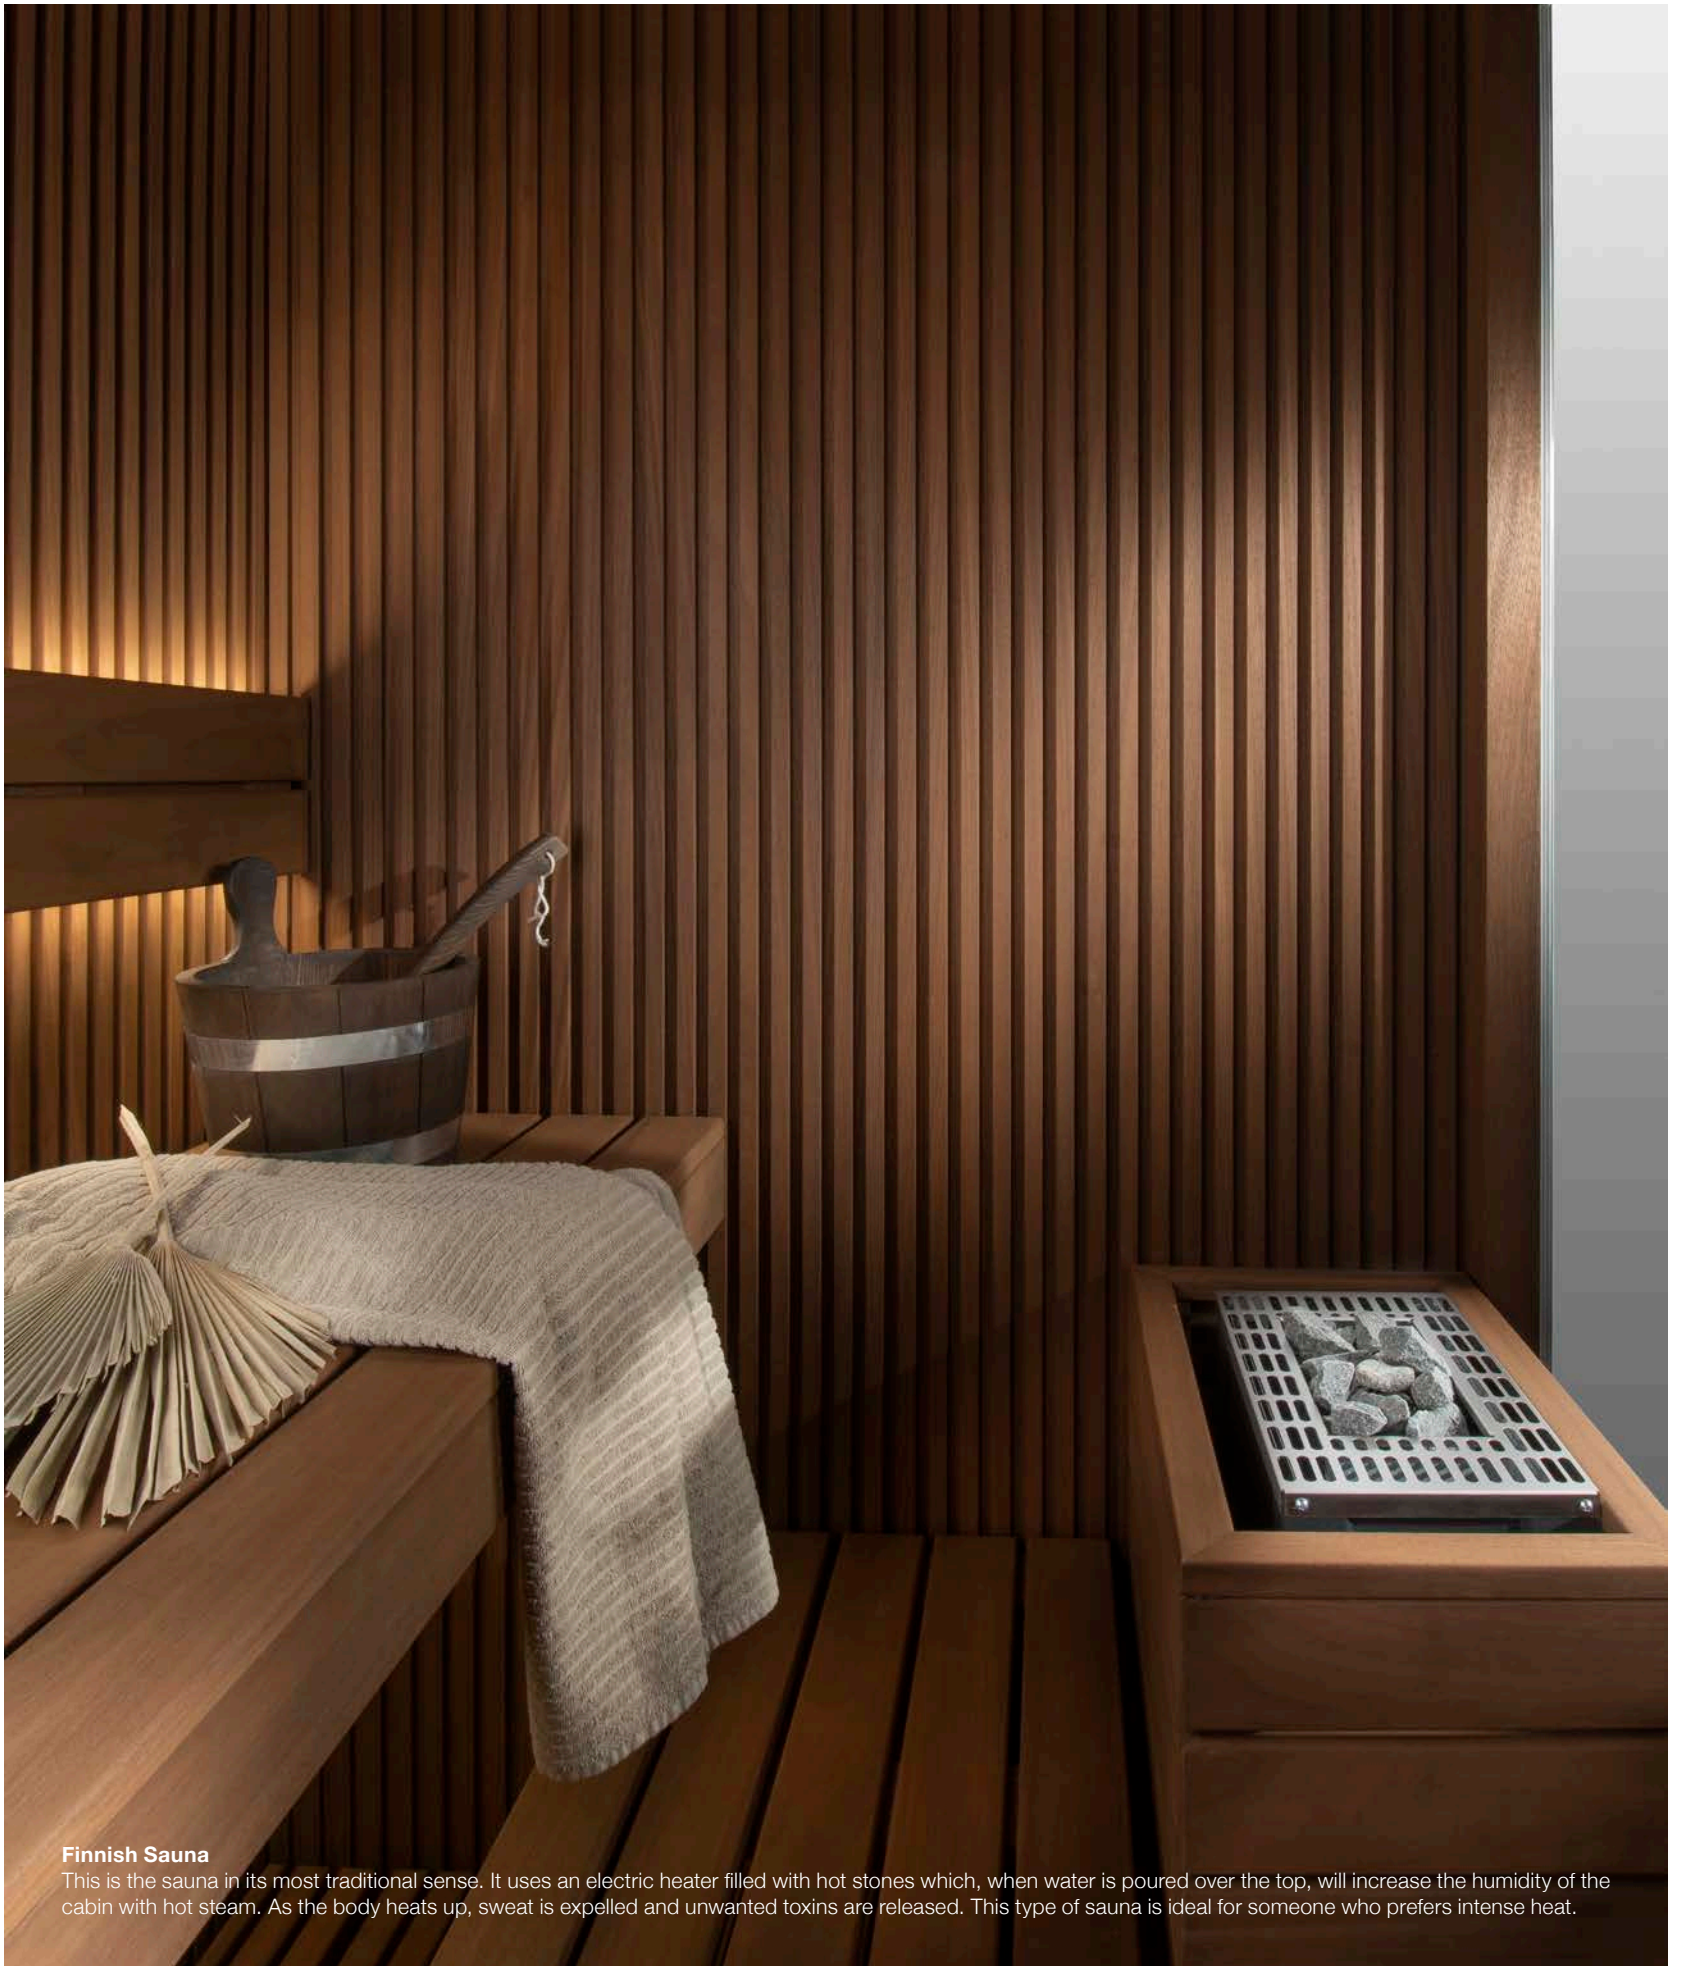

*The rich history of the sauna goes back thousands of years and across many cultures, having evolved from a simple method of bathing into a social, cultural and even spiritual tradition. Still widely practiced around the world today for its calming and restorative qualities, this time-honoured tradition is yours to enjoy with our luxury range of customisable saunas.*

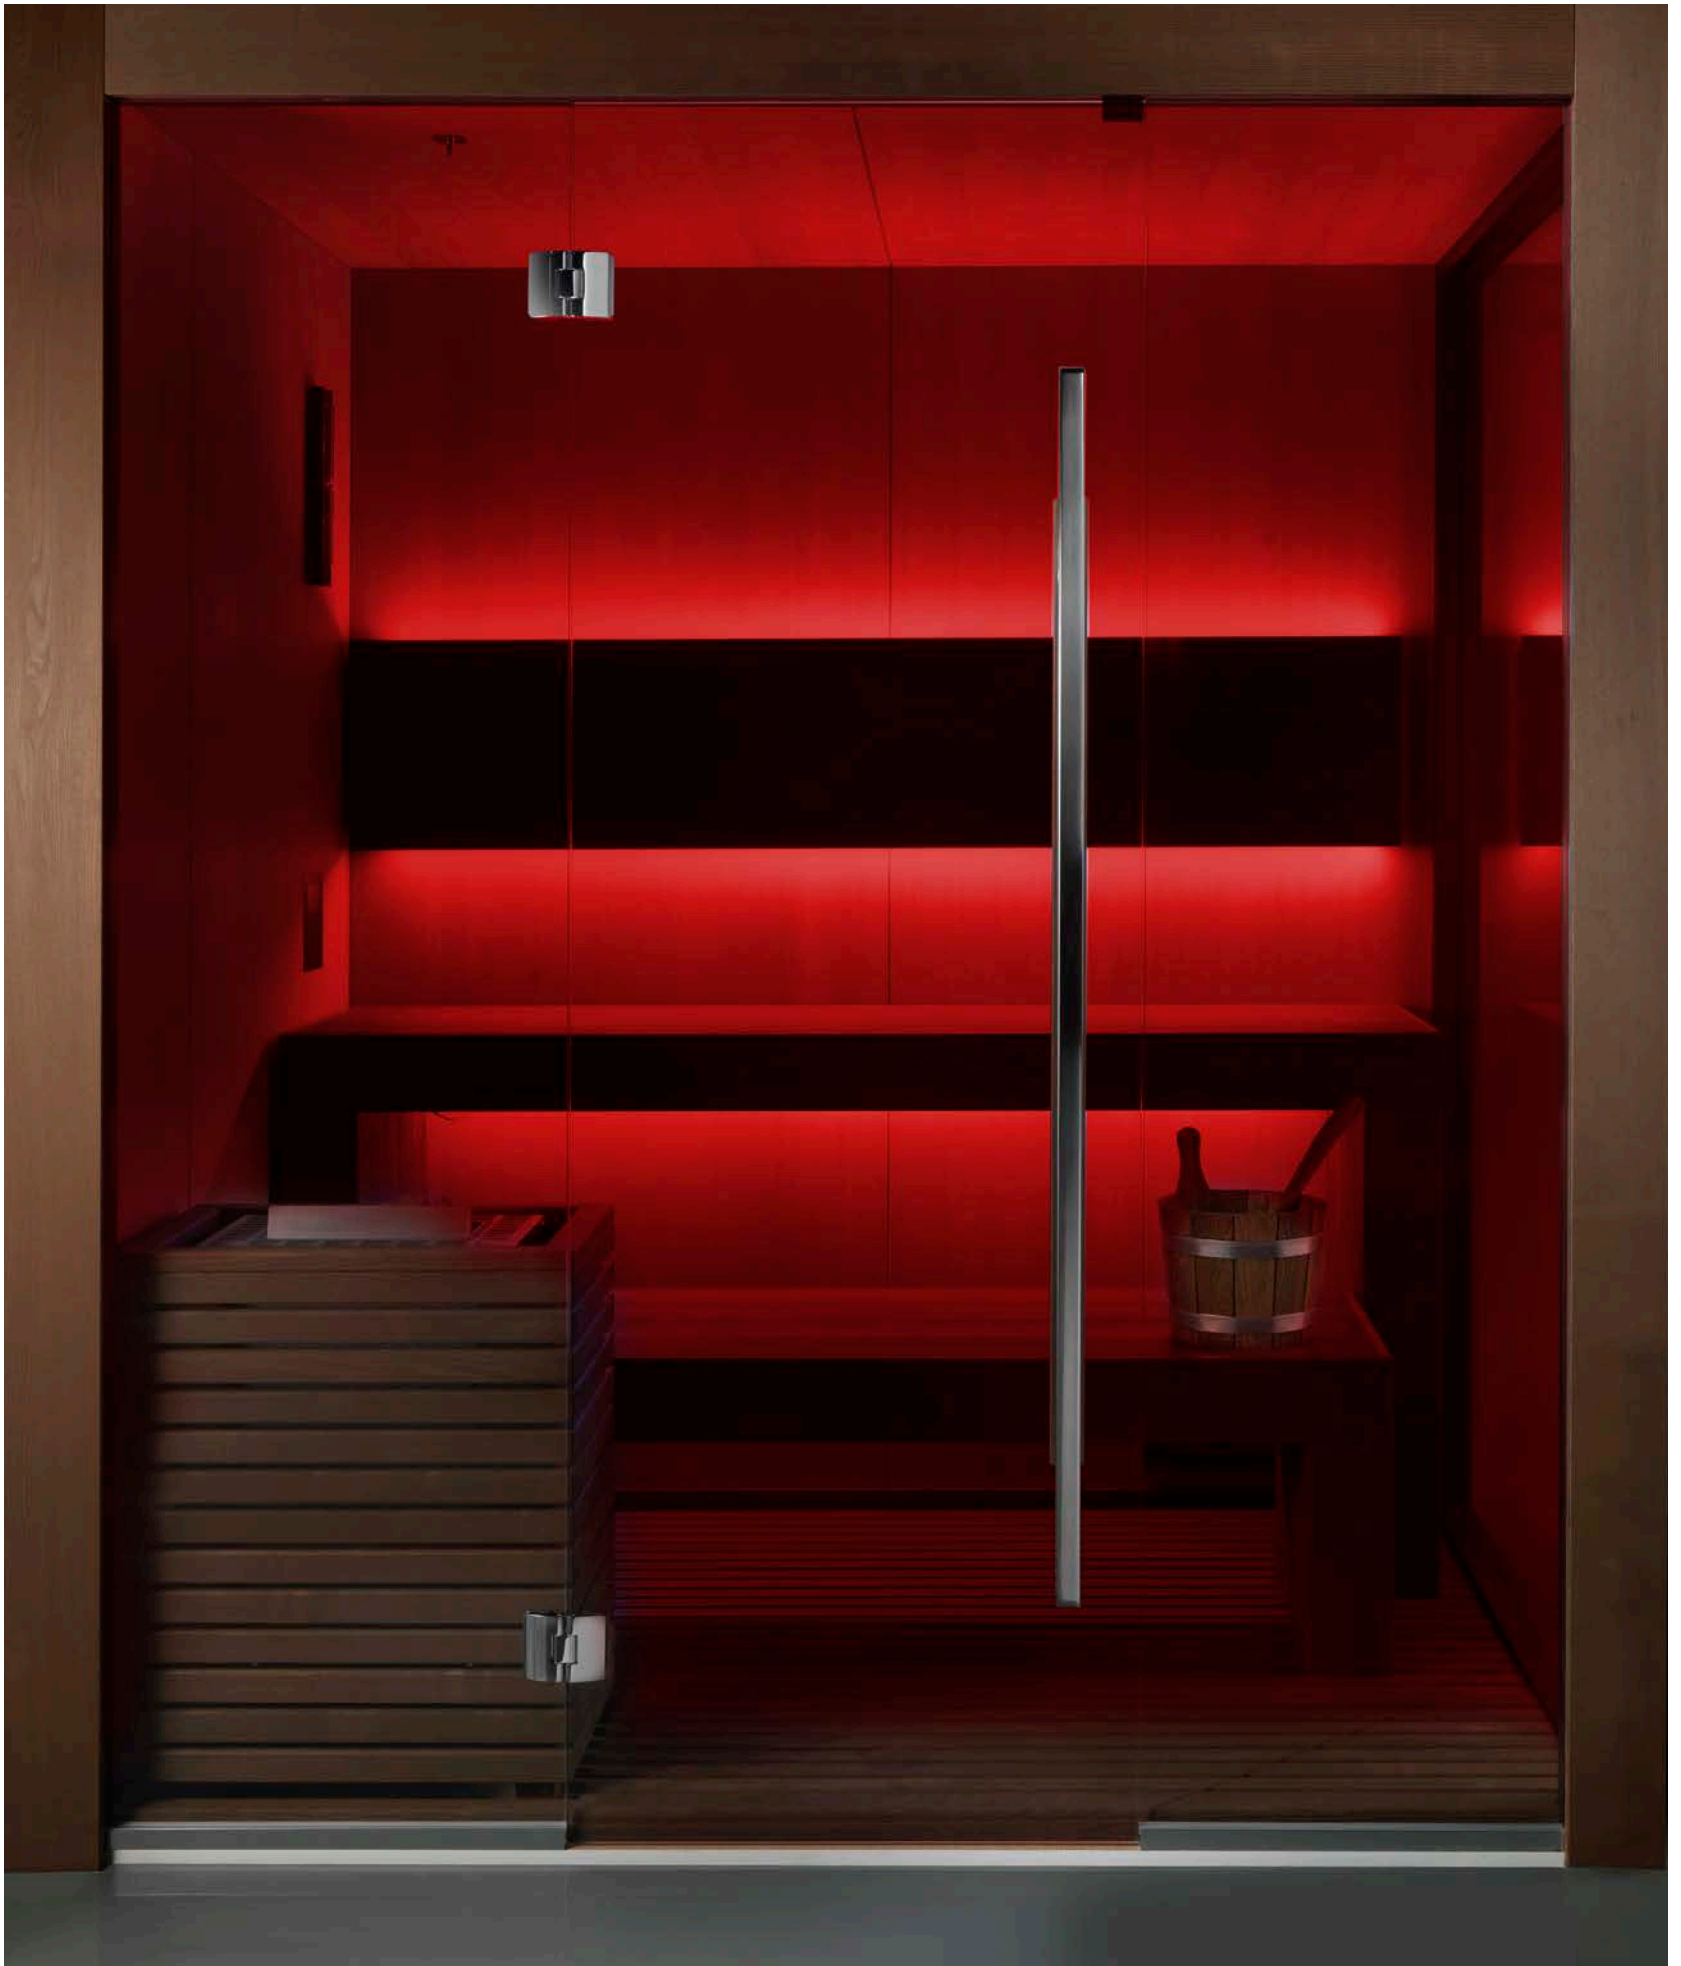

*detox & unwind*

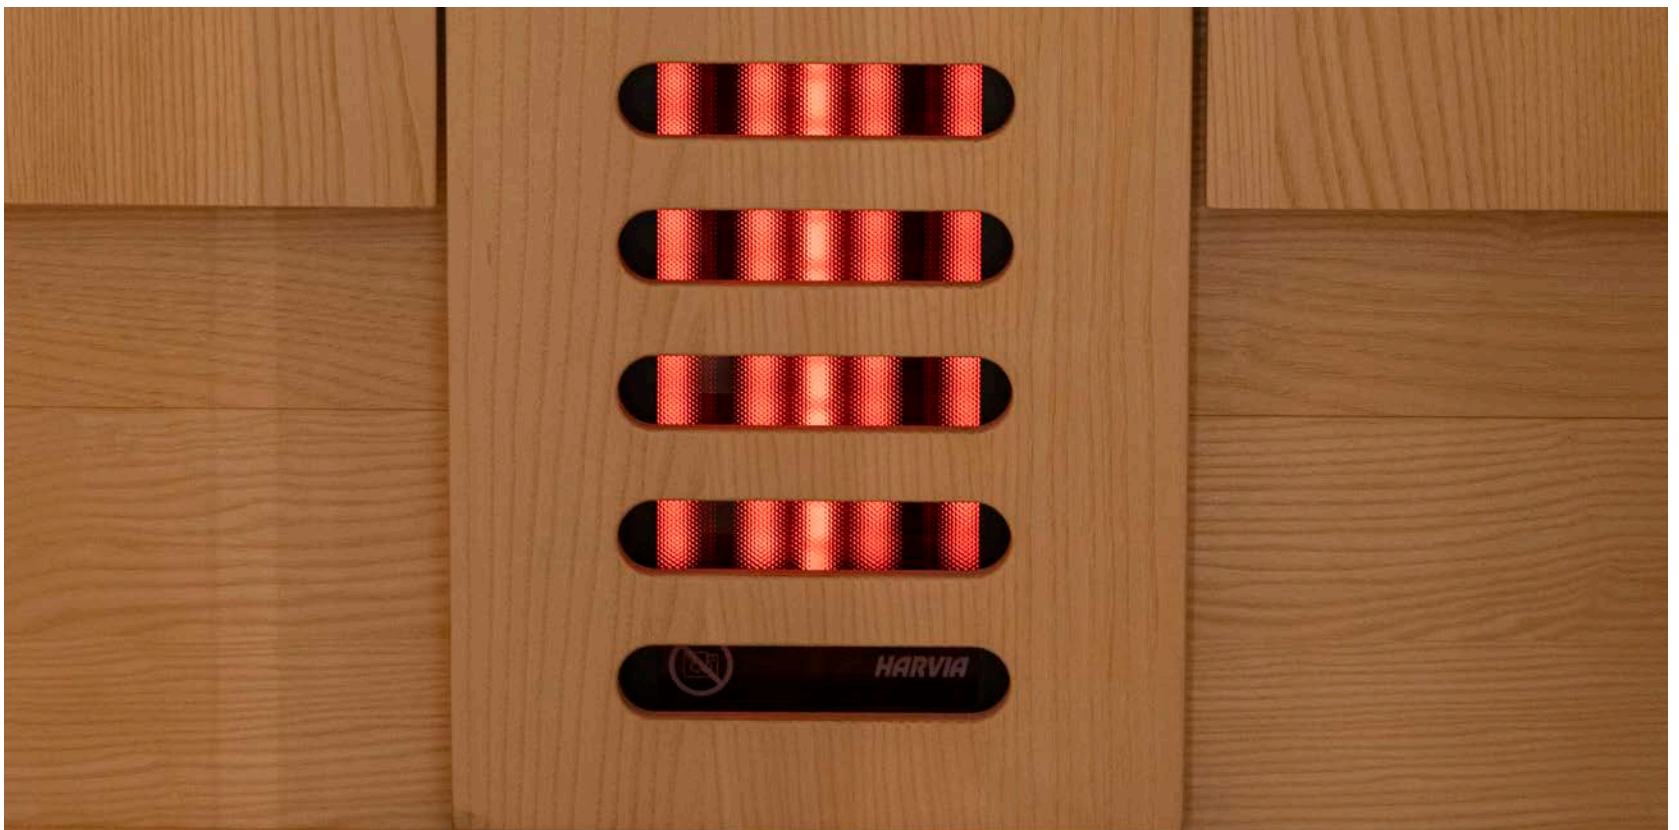

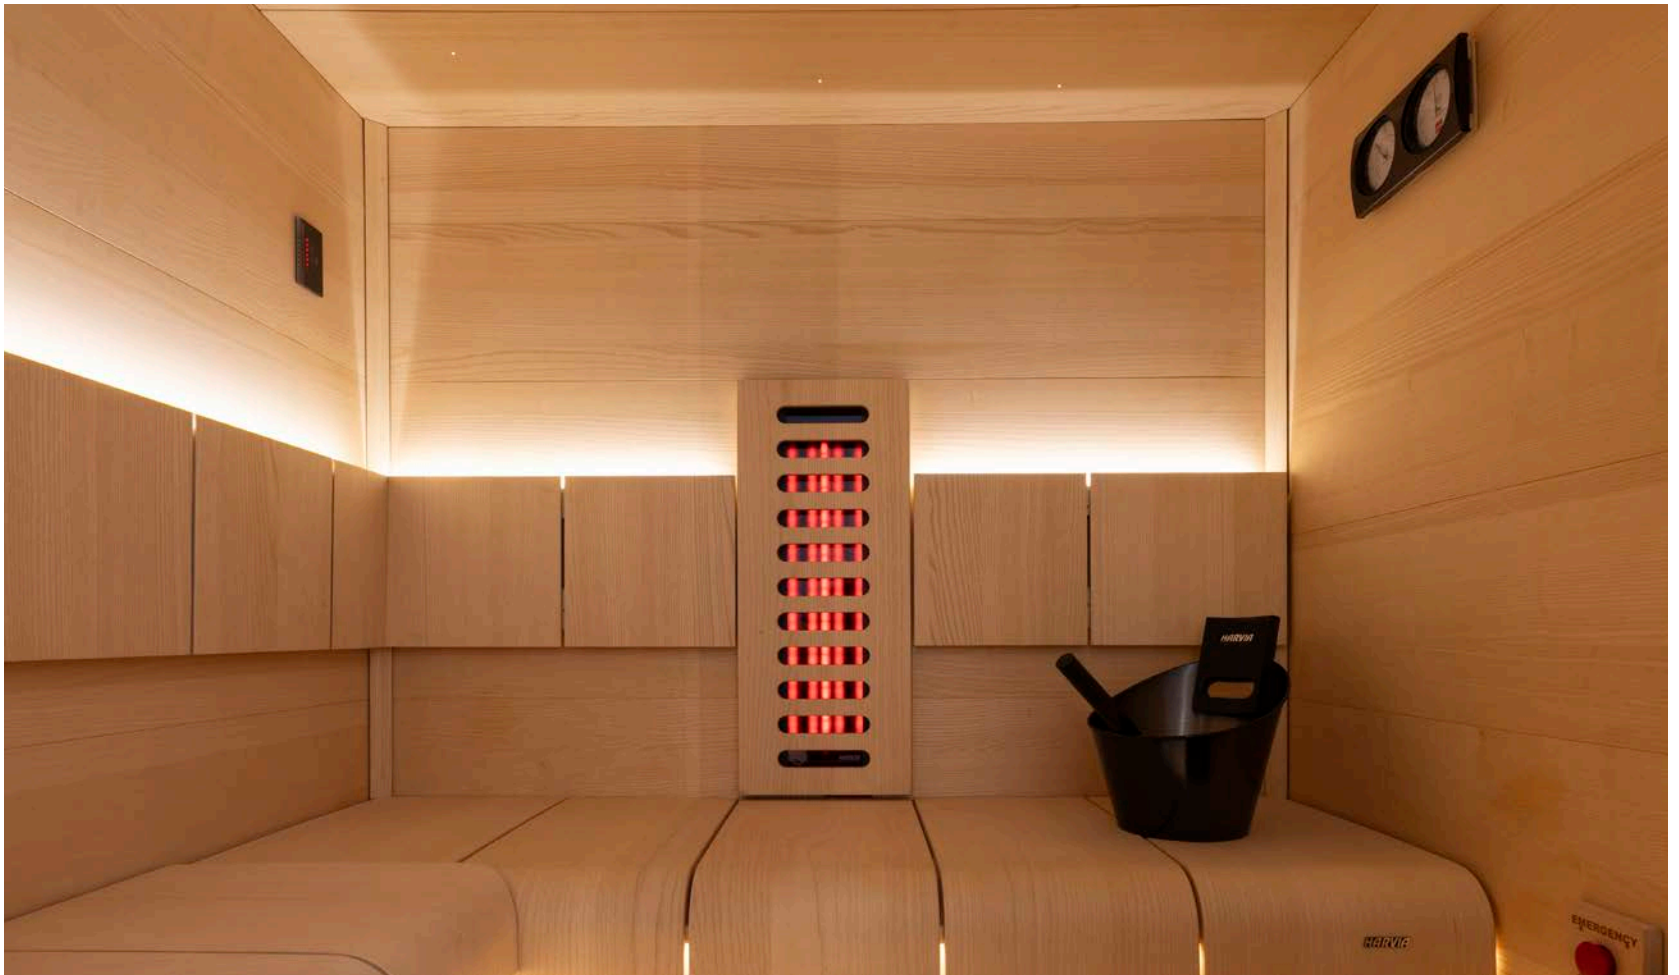

**Finnish Sauna**

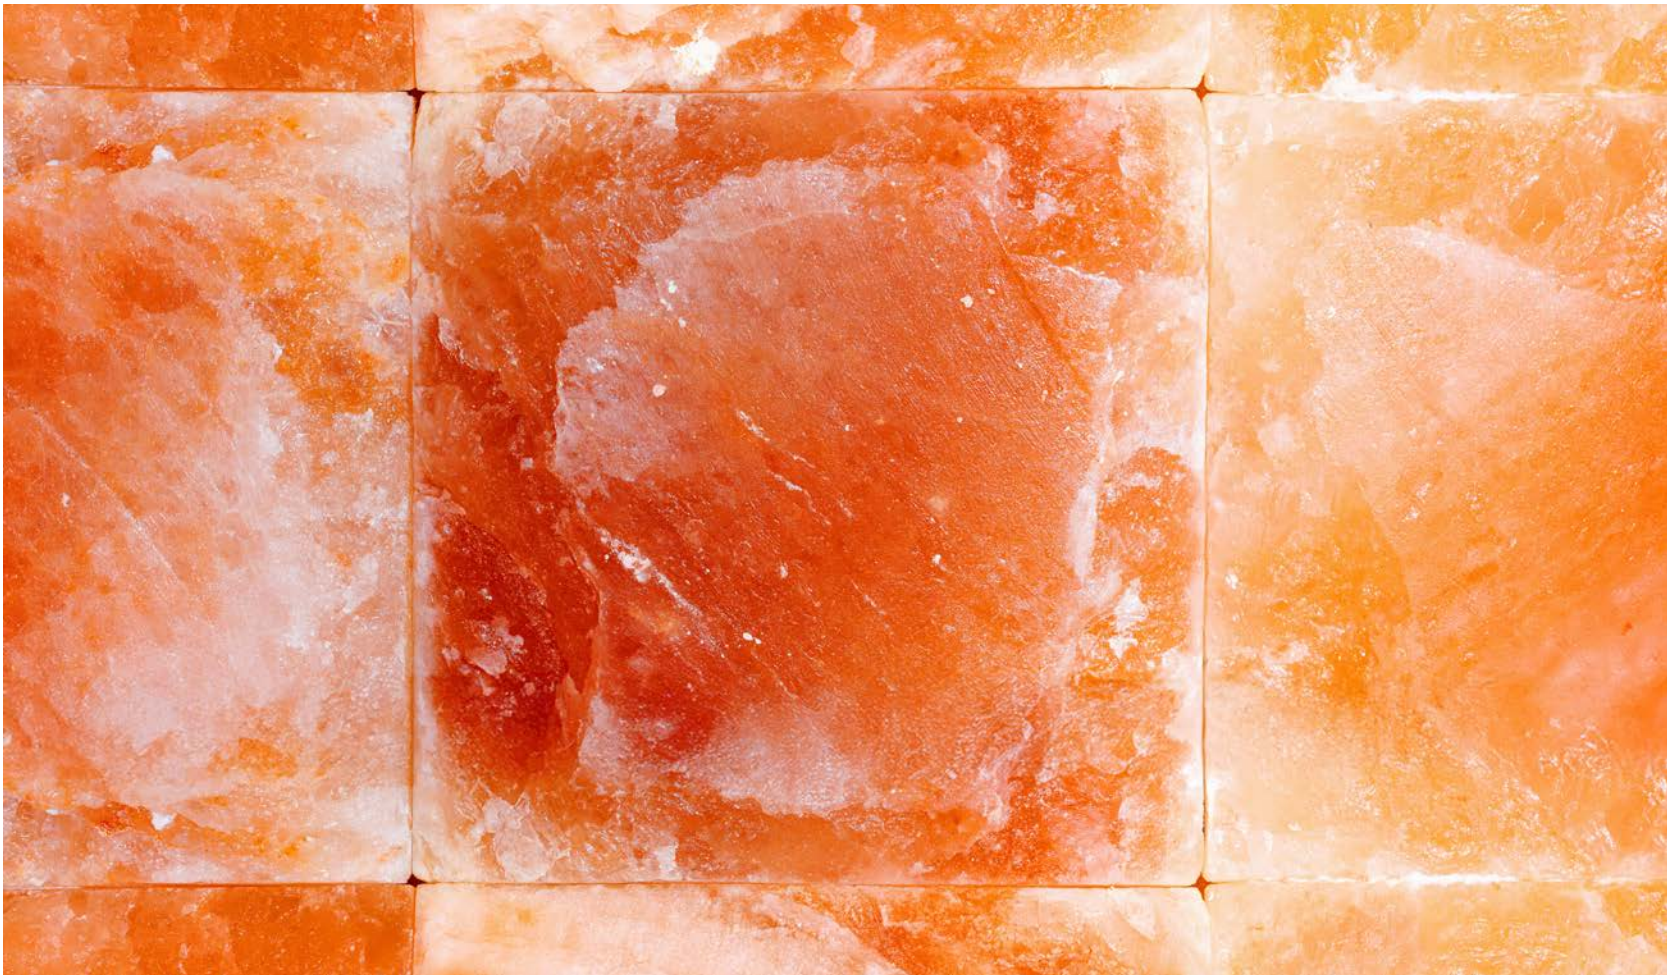

This is the sauna in its most traditional sense. It uses an electric heater filled with hot stones which, when water is poured over the top, will increase the humidity of the cabin with hot steam. As the body heats up, sweat is expelled and unwanted toxins are released. This type of sauna is ideal for someone who prefers intense heat.

**Infrared Sauna**

Infrared saunas use invisible infrared light with large wavelengths that penetrate deep into the body, encouraging a natural sweat response and helping to release toxins. Operating at lower temperatures than traditional saunas, they offer a gentler, more comfortable heat. A great option for those who prefer a milder heat.

**Hybrid Sauna**

As the name suggests, this type of sauna combines the features of both Finnish and infrared saunas into a single unit, offering users the flexibility to switch between or even combine the two heating methods. This allows for a customised sauna experience tailored to each individual preference and health goal.

# custom saunas

*Customise your sauna.*

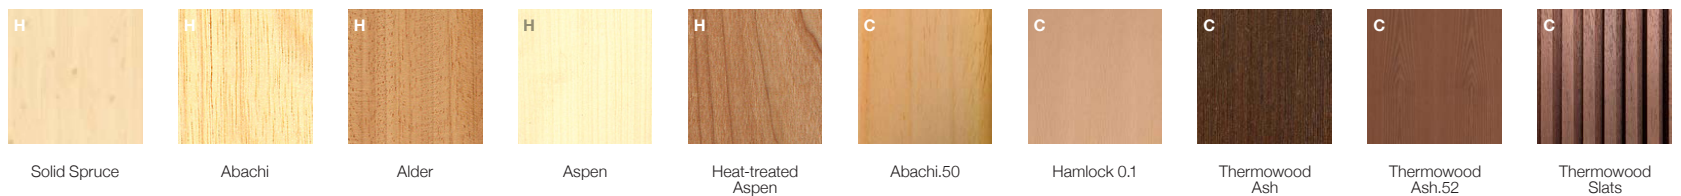

Design the perfect sauna and enjoy this time-honoured ritual in your own home, whenever and however you prefer.

We offer a variety of models from Harvia and Carmenta, all customisable to your needs\*, with installation taken care of. The designs cover a myriad of styles and heating options, from the traditional Finnish sauna, to those with an infrared heater or Himalayan salt blocks for added benefits.

You can even customise the look of your cabin, from the interiors down to the door finish. Choose from a range of light wood types for a bright and airy look to darker tones for a more moody, cocooning feel.

## Wood Finishes

## Door/Glass Finishes

\*Customisation options apply only within the selected brand. Materials or finishes from different brands cannot be combined. Samples are indicated by H for Harvia and C for Carmenta.

# how to use a **sauna**

*Practical tips to know before your sauna ritual.*

Begin by preparing with a shower. Enter the sauna and take a moment to settle into the heat. Add one scoop of water onto the hot stones to create the steam, mindful that more moisture intensifies the temperature.

Focus on your breathing as your body adjusts to the warmth. Deep, steady inhales and exhales help your circulation and allow you to fully relax. Stay attentive to how your body feels and step outside for a quick cooldown at any time.

Cool down gradually by taking a shower or by diving into a pool and rehydrate with water or a herbal tea. This can also be a great opportunity to pair your sauna ritual with a dip in an ice bath to combine the restorative benefits of heat and cold therapy.

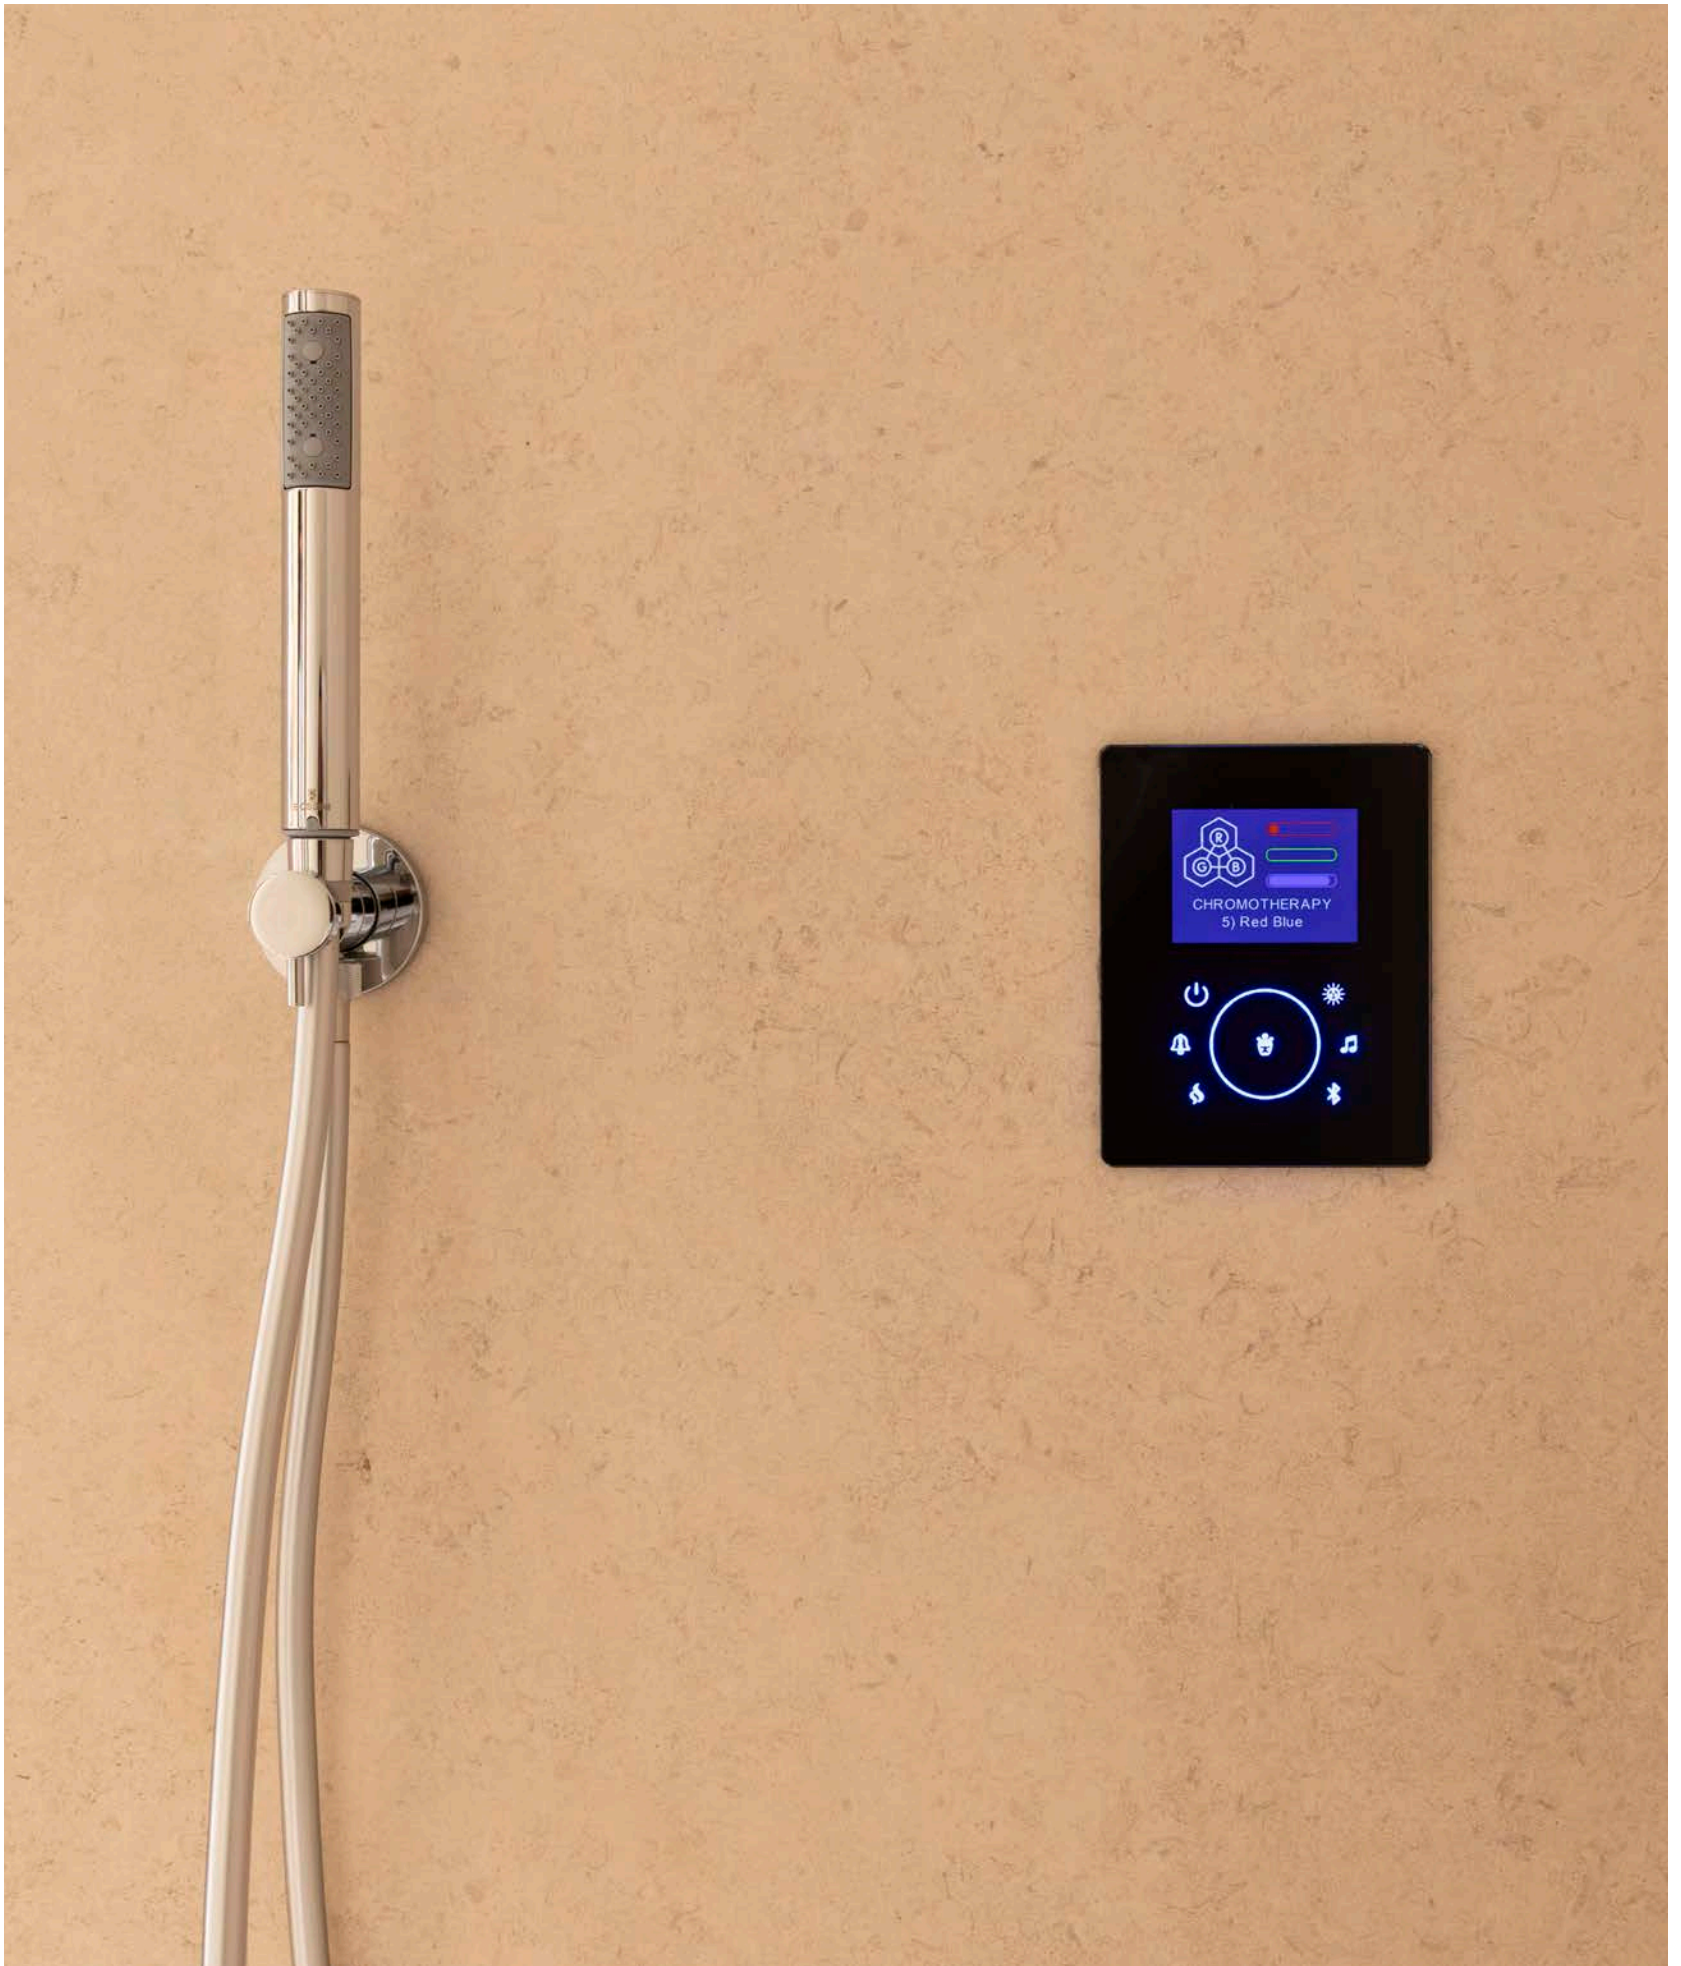

When you are ready, return for a second session, again listening to your body, before concluding with a third and final cooldown and afterwards, wrap up and rest in a dry bathrobe or towel to help remove any excess toxins as you bask in the feeling of renewal.

# steam

A photograph of a steam shower interior. The wall is painted a vibrant purple color. A white door frame is visible on the right side of the image. The word "steam" is overlaid in large, white, lowercase letters across the center of the image.

*Steam away the stress as warm, soothing mist wraps you in a gentle embrace. Used for thousands of years across many cultures for cleansing, relaxation and social purposes, steam rooms as we know them today are known for their restorative and rejuvenating effects. Personalise your experience from a range of custom solutions.*

# how to use a **steam** room

*Practical tips to know before stepping into the heat.*

Begin by taking a shower before entering the steam room. Once inside, allow yourself a moment to settle into the warmth and gentle humidity. Breathe deeply as the steam works to open your sinuses and pores while soothing your muscles, helping your body release any built-up tension and congestion.

Stay mindful of how you feel and step outside for a quick cooldown at any time. Cool down gradually by taking a shower or by diving into a pool and rehydrate with water or a herbal tea.

For optimal results we recommend making two more entries into the cabin for a fully restorative experience. So when you are ready, return for a second session, again listening to your body, before concluding with a third and final cooldown and afterwards, wrap up and rest in a dry bathrobe or towel to help remove any excess toxins as you bask in the feeling of renewal.

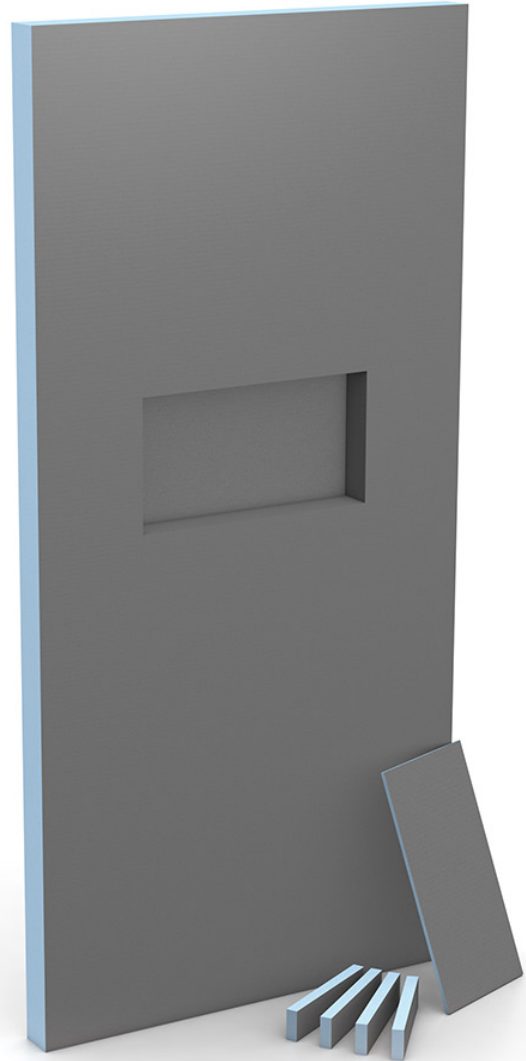

# custom solutions

*Customise your steam room.*

Create a steam room that becomes your own personal haven to enjoy at any time. Our custom solutions give you design freedom in any shape, size or style that fits your space. And the materials we use are fully waterproof and heat-resistant, giving you a reliable, and highly durable base for your tiles, finishes and layout. Whether you want a traditional hammam-style space or a modern and minimal retreat with optional benches, we have everything you need to bring your vision to life.

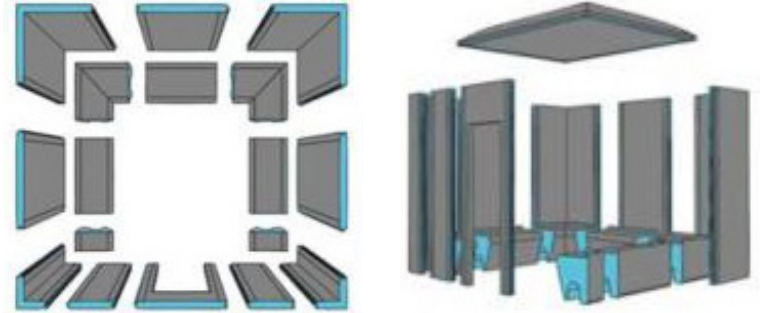

Choose the extra features that matter to you – WiFi control to set the perfect temperature, built-in speakers to fill the space with your favourite calming music, RGB lighting to set the perfect mood or heated seating for complete comfort.

## Custom Size XPS Steam/Moroccan Bath Cabin Solutions

Transform your bathroom easily, quickly and quietly. Wedi® board replaces plasterboard and stud walls whilst providing a surface that is directly tileable. Waterproof and versatile yet light and robust, for easy assembly with no limitations.

### Studio 316

Blending Nordic minimalism with exceptional craftsmanship, Studio 316 by BAGNODESIGN gives the interior trends for colour and texture a fresh, elegant twist.

The Studio 316 shower columns feature a distinctive curved form accentuated by tactile fluted handles, with personalisation enabled through eight accent colours in the exclusive Armour finish. Crafted from highly durable 316-grade stainless steel, they open up limitless design possibilities for both indoor and outdoor settings.

Brushed Platinum	DOR-35750970-06
Brushed Champagne	DOR-35750970-46

### Diamond Rain

The flow mode combines gentle lighting and crystal-clear water into a refreshing experience for the body and mind. The dense and powerful jet flowing from the spot for light and water cleanses and invigorates. Diamond Rain is ideal for focusing on refreshment, and for hair washing.

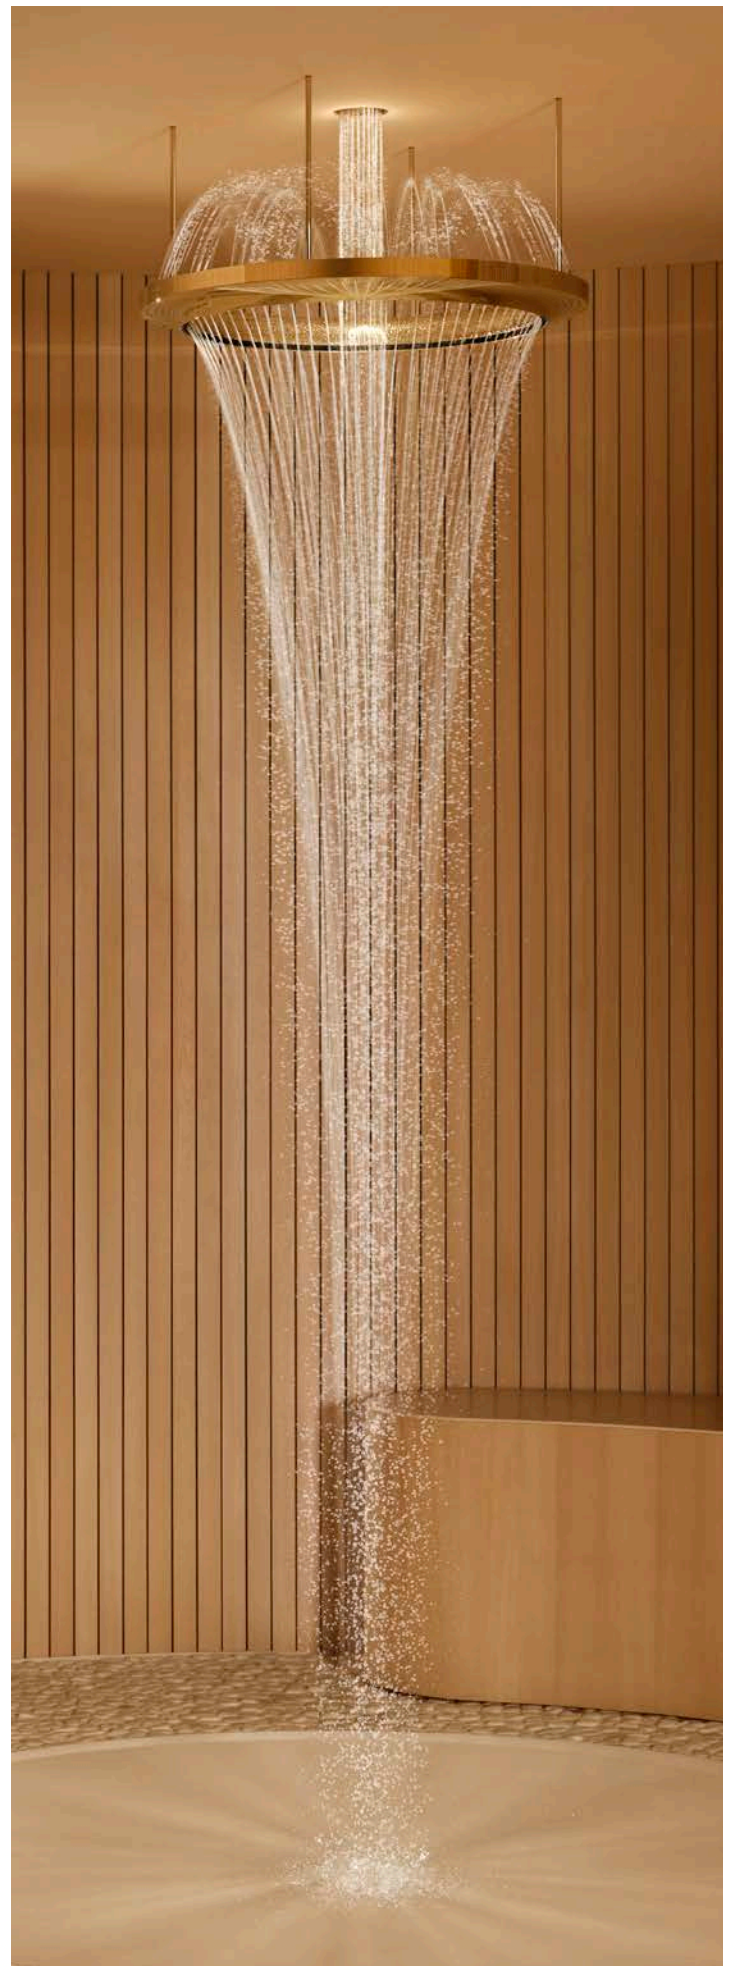

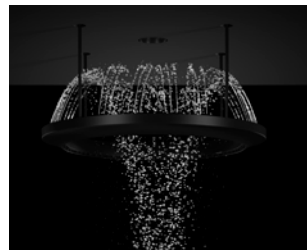

### Aquacircle Rain

Aquacircle Rain covers your body with gentle jets of water. With larger quantities of water, the jet is concentrated, and creates an energising effect. With less water, your mind stays clear and the water falls relaxingly and evenly onto your shoulders, like a curtain of rain – in a meditative and strengthening moment of bliss.

### Tempest Rain

The Tempest Rain flow mode is like having a natural experience of a wild thunderstorm that invigorates, refreshes, and creates clarity. The flow mode does not follow logic, it follows the nature of water, with the feeling of full-bodied droplets on the skin sharpening the senses.

### Serenity Sky

A close-up photograph of a spa hot tub. The tub is light-colored with a dark, perforated deck. The text 'spa essentials' is overlaid on the image. The word 'spa' is in a bold, lowercase sans-serif font, and 'essentials' is in a thin, lowercase sans-serif font.

# spa essentials

*Create a sanctuary that awakens the senses. Curate scent, sound and light with essential oil diffusers, circadian downlights and immersive audio. Complement the experience with elegant spa accessories—towel racks, shelving, and more. Every detail works together to soothe the mind, invigorate the senses and create a space that feels as restorative as it looks.*

*complete  
your  
ritual*

# pre- installation services

*It all starts with a plan.*

It is important for our technical team to complete a pre-installation site visit for saunas and outdoor whirlpools to gather all necessary resources and ensure the environment is suitable for installation.

## **Site Preparation**

This involves ensuring the installation site is ready, including floor space allocation, water, drainage, power and access planning.

## **Resource Gathering**

This includes acquiring all necessary hardware, software, and tools required for the installation.

## **Environmental Checks**

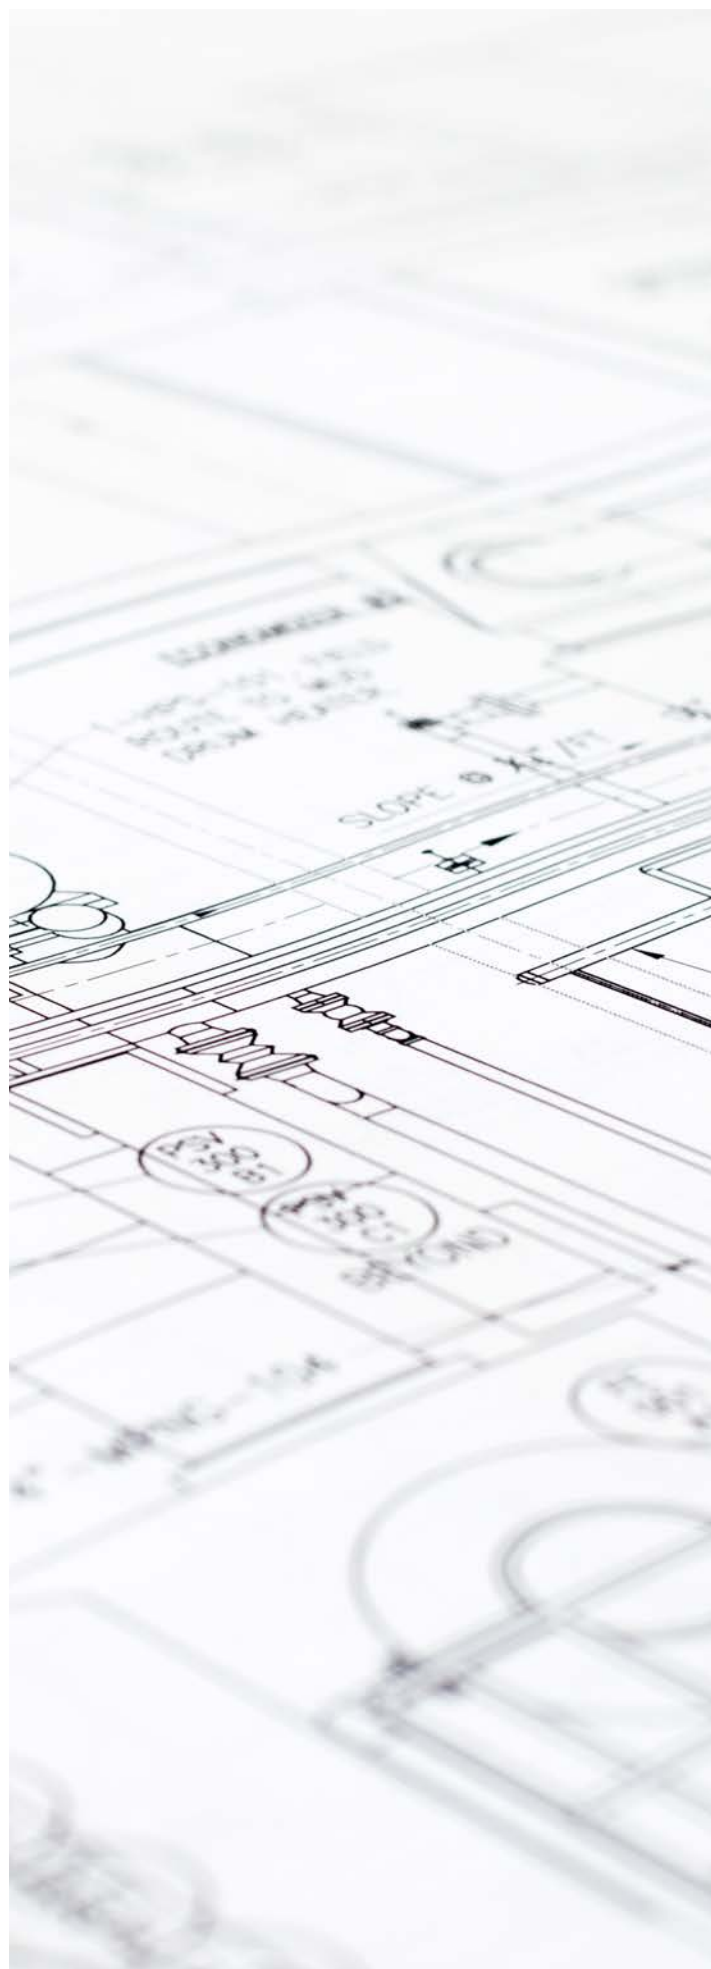

Making sure the environment meets the necessary conditions, such as temperature, humidity, and cleanliness, as specified in the installation guidelines.

## **Documentation & Planning**

Creating detailed plans, including installation procedures, checklists, and potential troubleshooting steps, based on the product.

## **Safety Procedures**

Implementing safety measures and protocols to prevent accidents or damage during the installation process.

# after sales & maintenance services

*Our team is ready to help you.*

## **Customer Service**

Dedicated customer service team available to address enquiries and concerns with multiple contact options: phone, email, and live chat for convenience.

## **Practical Tips**

We give you tips and know-how on how to use and maintain your products effectively. You also have access to user manuals and online resources.

## **Maintenance Support**

Guidance on routine maintenance to prolong the life of your products and tips for troubleshooting common issues.

## **Warranty Coverage**

Clear information on warranty terms and coverage for your products and easy warranty claims process to ensure peace of mind.

## **Online Resources**

Access to a knowledge base with FAQs, troubleshooting guides, and maintenance tips and video tutorials for visual learners on certain products.

## **Annual Maintenance Contract**

**For all our Saunas, we can offer an annual maintenance contract, ensuring they remain in optimal condition year-round. Our team will handle regular maintenance to keep your sauna running smoothly. Please reach out your sales consultant for more information.**

# sauna installation services

*Get the best to do the rest.*

Installing a sauna involves careful planning, preparation, and following manufacturer instructions for your specific sauna model. Our SANIPEX team is fully trained and experienced in all aspects of sauna installation. Please reach out to your sales consultant to enquire about the arrangements and charges.

## **Site Preparation**

Assessment of the installation site for suitability and necessary electrical requirements guidance and preparations.

## **Professional Installation**

Expert installation by our trained technicians who follow best practices and pay special attention to detail to ensure safety and longevity.

## **Testing and Quality Check**

Thorough testing of all components post-installation and ensuring proper functioning and adherence to safety standards.

## **Maintenance Guidance**

Tips for maintaining your sauna for optimal performance and information on routine care and upkeep.

# whirlpool

## care

*A guide on how to keep your whirlpool in working order.*

### **Filter Cartridge Removal & Cleaning**

Cleaning of the filter cartridges is recommended weekly. Soaking the filter cartridges in water mixed with chlorine or anti-algae agents for 24 hours is recommended monthly. Replace the filter cartridges every three months.

1. Remove the filter lid.
2. Take out the filter cartridge.
3. Rinse away any dirt or debris with clean water
4. Soak the cartridge in lukewarm water mixed with chlorine or anti-algae agents for 1-2 hours, then rinse it.

**Important:** *Never use an alkaline detergent or a high-pressure cleaner to clean the filter.*

### **Surface Maintenance**

Wipe the surface with a soft, damp cloth and a neutral cleaning product. Avoid using abrasive tools, blades or knives that may scratch the acrylic. Do not use nail polish remover, acetone or paint stripper, as these may cause damage.

# steam & sauna care

*A guide on how to keep your whirlpool in working order.*

## **When using the Sauna**

Always place a towel on the bench to protect the wood. Avoid pouring water on any wooden surfaces except during cleaning. Take care not to stain the wood when using sauna scents, sauna honey or other body care products.

## **After using the Sauna**

Remove towels and accessories from the benches, then wipe away any water drops with a damp cloth. It is also recommended to dry any moisture/water droplets from the heater surface. Open the ventilation vent and leave the door slightly ajar to allow the sauna to air out.

## **Basic Cleaning & Care**

Clean your sauna one to three times a year. Lightly sand the wooden surfaces with fine sandpaper if needed. Before switching the heater back on, ensure the sauna is completely dry. Wash with a mix 30 ml of sauna cleanser with 5 litres of warm water. Using protective gloves and a sponge, wash all wooden surfaces, and rinse thoroughly with clean water and dry carefully.

# scent diffuser care

*A guide on how to keep your scent diffuser in working order.*

Regular cleaning ensures your scent diffuser runs smoothly and prevents internal damage. Clean the system every 2–3 months using EcoScent cleaning solution.

## **Step 1**

To clean the scent delivery system, ensure the fragrance oil bottle is empty, then fill it halfway with cleaning solution. Turn on the diffuser and allow it to run for 5–10 minutes.

## **Step 2**

Switch off the power, pour out any remaining cleaning solution, and keep it for future use.

## **Step 3**

If the diffuser is in constant use, repeat this cleaning process every 2–3 months to maintain optimal performance.

If the diffuser is not used for an extended period, it is recommended that the fragrance oil bottle is emptied and the fragrance oil stored in a dry, dark place, out of reach from children. Clean the system as described above before storage. Please refer to User Manual for further information.

\*Failure to clean the machinery will affect the warranty.

# brands

## BAGNOSPA

For a truly indulgent spa experience, BAGNOSPA, the spa & wellness brand by BAGNODESIGN, offers a number of high quality holistic solutions that gently take you into a world of pure relaxation. Bringing the atmosphere of a luxury spa retreat into any space, the brand offers a complete solution for beautifully designed bathroom and wellness areas.

For nearly four decades since 1987, Idea Group has been crafting relaxed spaces with quality, functional furniture that nurtures wellbeing. In line with current design trends, the brand uses materials made to last and to be enjoyed for longer.

## HARVIA

Sharing the healing heat of sauna with the world. Founded in Finland in 1950, Harvia offers a complete spa range including saunas, infrared, and steam cabins made using sustainably sourced wood that can be customised to your liking – meeting the needs of consumers and industry professionals alike.

Since 1949, Carmenta has been a symbol of Italian excellence in the design and production of wellness solutions. With a deep-rooted passion for craftsmanship and innovation, Carmenta creates tailor-made saunas, steam baths, and spa environments that combine refined aesthetics, high-end materials, and cutting-edge technology.

Dutch brand JEE-O creates bathroom concepts based on minimalistic, industrial, durable and timeless designs, for an invigorating experience for the modern lifestyle. Discover a range of indoor and outdoor showers, alongside faucets, basins, baths, and accessories.

Unlimited possibilities for your bathroom and wellness spaces. Founded in Emsdetten, Germany, and present in 36 countries, Wedi has been working closely with architects, specialists, and tilers since 1983.

For those seeking individualistic, high-end solutions that stand out. A leading specialist in superior designer brassware fittings and accessories for bathrooms, spas, and kitchens, Dornbracht represents innovative technology coupled with outstanding quality, challenging the status quo of architecture and design through a superb range of finishes, shapes and styles.

Founded in 1966 by Gianfranco Novellini, our journey began as a small artisan company, and over the course of more than 55 years, we have grown into a leading force in bathroom furnishings and wellness design.

Wellis started as a small family business and has since grown into a globally recognised company. Founded in 2003, Wellis is now Europe's leading hot tub manufacturer, now a symbol of quality and luxury in the wellness sector.
