Getting Familiar with the Expansion Module OC46

Note:

1. In order to use the UC46, you must first change a setting in the phone attached to the UC46 to accept Expansion Modules on the PC Port. This setting can be found in the phone menu under "Settings / Advanced Settings / Network / PC Port" or in the web GUI under "Network / PC Port".

2. Our expansion modules must be connected to the IP Phone's PC port and can't be connected to the any switches in a LAN.
