

Thank you for your interest in my
Photography Catalog

This Catalogue presents a selection of images that reflect key aspects of my work, capturing tension, the displacement of the subject, and themes connected with desire, with works that have been previously published or exhibited.

This is selection of images of my work, but most of the photographs shown on my website, social media and publications are often available as limited edition prints.

The images in the catalog are presented in suggested sizes. Other formats are also available upon request.
