SPRING SUMMER 2025

AR
ALEKSANDER
REVAS

Alchemy Of Spring

Our Spring-Summer collection embodies the transformative power and intricate beauty of rebirth. Inspired by the arduous journey of spring's arrival, this luxurious spring-summer line captures the essence of renewal and the resilience it demands.

Crafted mainly in EcoVero, Tencel™ & Linen blends, lightweight superfine wools and organic cottons, Alchemy of Spring balances fluid bias-cuts and the flow of vegan silks with structured geometries and sharp powerful lines. The pieces of this collection evoke the delicate balance between struggle and triumph, reflecting the virtues of determination and perseverance required to usher in new life and hope.

ETHICS & SUSTAINABILITY

SUSTAINABLE FABRICS

From the natural properties of Organic Cotton, Linen or Hemp to the amazing versatility of innovative fabrics and from our commitment to not use polyester or plastic-derived fibers to our responsibly sourced wools, every fabric we use was carefully selected for its quality, beauty and sustainability component.

ANIMAL WELFARE

Protecting the beauty of life is similar to protecting the beauty of fashion. As such, we will never use leather, fur or any other animal derived fibres that imply the death or torture of an animal. Further, we will only use wool derived from responsible husbandry that guarantees proper animal welfare.

ETHICAL PRODUCTION

We audit our production partners to ensure they have safe working conditions, proper ventilation, and ergonomic designs in their production facilities, and they respect all national and EU directives on fair wages, labour legislation and employee protection. Our garments are exclusively produced within the EU.

PLANT A TREE

The Earth is not an inexhaustible well of resources and we must give back to the World we take from. That is why we partner with a reforestation NGO to plant one tree for every product we sell. Together we replenish this generous planet's resources, minimise our impact and protect our world for generations to come.

BUY BACK

Our products are timeless in design and made to last, so we hope our customers will love them for a long time. Still, if the moment comes for them to no longer need them, the only need to send them back to us and we will offer credit vouchers or discounts for new purchases. We will properly recycle or upcycle them while they enjoy their new-found Aleksander Revas pieces. This program work through retail partners also.

“HANA”

THE PRINT OF 2025

The soft and ethereal beauty of cherry flowers blooming across vibrant backdrops of ink blue and blush pink.

Enjoy the fusion of timeless grace and modern strength of our new custom print, created in collaboration with “Maison Deveaux” of France.
