# Index

# Living with the all-in-one smart keyless experience

**SALTO Systems revolutionised access control with the introduction of the SALTO Virtual Network SVN data-on-card technology and the advanced battery-operated wireless electronic smart door lock range in 2001.**

For nearly 20 years SALTO has been synonymous with innovative solutions, including stand-alone, cloud-based, and mobile applications, that set new standards in security, manageability, flexibility, and design that bring real-world benefits to virtually any door and building type. Across a broad range of industries and applications, SALTO is widely recognised as a global market leader in smart electronic access control solutions.

## Quality

—

Regulatory compliance is essential in building trust and confidence in the effectiveness of our products. Our in-house testing ensures each and every product we sell surpasses the legal standards set by official regulatory bodies.

**ISO 9001 –** These important certifications validate the quality of our products.

**ISO 14001 –** Ensuring consistent building quality and that environmental norms are met.

**ISO 27001 –** Committed to the highest security and data protection principles.

**EPD –** Environmental Product Declaration is an independently verified document that reports environmental information about the entire life cycle of a product.

**BSI KITEMARK™ –** This cyber/physical security scheme forms the security element of the BSI Kitemark for IoT/ Connected products.

## Accelerate the door transition to smart access.

—

SALTO Systems aims to have a leading role in the unstoppable process of the massive replacement of mechanical keys with electronic digital keys, which has positioned us as one of the three leading manufacturers of electronic locks worldwide.

Our goal is to develop products and technologies adapted to the global needs of different industries through reliable solutions that are easy to install, use, and maintain.

## SUSTAINABILITY - ESG

**We strive to transform our world towards a more sustainable planet by focusing on social inclusion and environmental protection.**

SALTO Systems has undertaken a profound transformation towards an increasingly-sustainable model to respond to our environmental and social impacts, as well as to the main challenges faced by the access control and security market. By proactively responding to social issues, SALTO contributes to the achievement of specific SDG objectives through its responsible corporate policies.
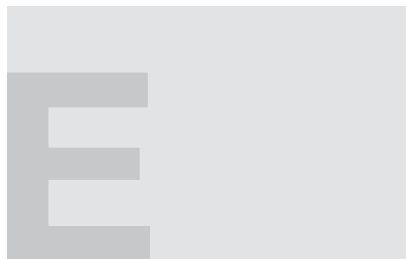

### ENVIRONMENT

**Innovating to meet social and environmental challenges.**

We adopt practices that minimise our carbon footprint, consume energy responsibly, reduce waste, and maximise our use of resources and sustainability.

### SOCIAL RESPONSIBILITY

**Enriching communities and inspiring people.**

We participate in a range of social initiatives and sports activity programmes that contribute to communities in countries and regions around the world.

### GOVERNANCE

**Ethics and Compliance**

Our Code of Conduct, Quality and Environment Policy, Information Security Policy, and Health and Safety Policy apply to the way that we do business and to our conduct with the communities where we operate.

# Hospitality

## More than just a guestroom lock— a guest experience.

**SALTO has become a global leader in delivering access control for hospitality.**

SALTO empowers property owners and managers worldwide with new ways to secure guests, manage staff, and protect assets through unmatched advanced technology.

Combining easy-access, digital keys and smart guestrooms, with unified property management systems and design smart locks that protect individuals and assets is a unique challenge for every hospitality business — from luxury to midscale hotels, independent to large chains, and cruise ships to convention and conference centres.

SALTO has developed advanced and aesthetically designed hospitality-specific electronic access control solutions that set a new standard in the industry, — from back-of-house organization to guestroom management — with one easy-to-use system for hotels of all types and sizes.

**SALTO solutions add value to the hospitality industry:**

**Smart, keyless, and digital access for guests and staff.** Enhanced guest experiences with simplified check-in/check-out.

---

**Unique, simple-to-install designs** with fully-customizable options that complement the style of your property.

---

**Improved security**, with greater automation and process optimisation, from the guestroom to the back-of-house, saving countless staff hours per week.

---

**Integrated** with in-room, check-in, PMS, guest apps, and complete building management systems.

SALTO access solutions deliver a comprehensive platform that's designed for your specific hospitality needs.

# Modern, easy frictionless guest smart access

**With an impressive list of trusted, best-in-class hotel clients from all over the globe, SALTO delivers industry-leading electronic locking hospitality solutions.**

SALTO has developed advanced and aesthetically designed hospitality-specific electronic access control solutions that set a new standard in the industry, — from back-of-house organisation to guestroom management — with one easy-to-use system for hotels of all types and sizes.

As access control solutions for the hotel industry evolve, SALTO continues to lead the way as the most innovative and technologically-advanced provider. We create pioneering systems that ensure maximum security, reliability, efficiency, and convenience, while adhering to the highest design standards that provide contemporary visual appeal. Guests, families, and visitors will enjoy enhanced experiences and you gain lasting value from your investment.

SALTO helps you meet customers' rising expectations, differentiate, and elevate your guest experience.

### Luxury Hotels

As a high-end boutique or luxury hotel, you work hard to ensure your guests enjoy the most premium and seamless experiences. SALTO delivers the most advanced technology and highest-quality hardware. With available high-end and stylish premium finishes, our access control solutions help you deliver technology while representing the highest quality and attention to detail.

### All-inclusive Resorts

Operating an all-inclusive resort is more like managing a "mini city that never sleeps." Your domain extends across guestrooms, restaurants, private beaches, aquatic parks, leisure equipment, discos, theatres, casinos, gyms, spas, and more. SALTO access control solutions blend seamlessly with each of these diverse activities to help you deliver the unforgettable, hassle-free experience your guests seek.

### Convention and Conference Hotels

Convention and conference centers have many access needs beyond a guestroom. Limited seating workshops, training sessions, presentation areas — outfit your hotel with a solution that will keep guests moving seamlessly from room to room and event to event.

SALTO wire-free access control solutions offer flexibility and scalability for events of any size, in any location.

### Automated Self-Service Hotels

For the seasoned traveler, smooth and instant check-in and check-out is a major attraction. Replacing door keys with a cloud-based access control solution makes everything even easier and faster for your guests. It's an investment that can go a long way towards protecting your assets.

### Budget Hotels

Travelers that choose to spend more on experiences and less on accommodations still expect a quality stay. Budget hotel operators that accommodate them face a constant battle of managing costs to stay profitable and in operation. SALTO hospitality access solutions provide an ideal balance that helps operators enhance the guest experience and keep costs low.

### Lodge Holiday Parks

Whether it's coastal, countryside, or woodland camping, a lodge park in the countryside, or glamping in bungalows for family holidays, customers demand a smooth, safe, and flawless experience.

Nature and adventure-lovers prefer a no-frills experience. They need an access solution that allows for a quick and seamless self check-in and check-out experience.
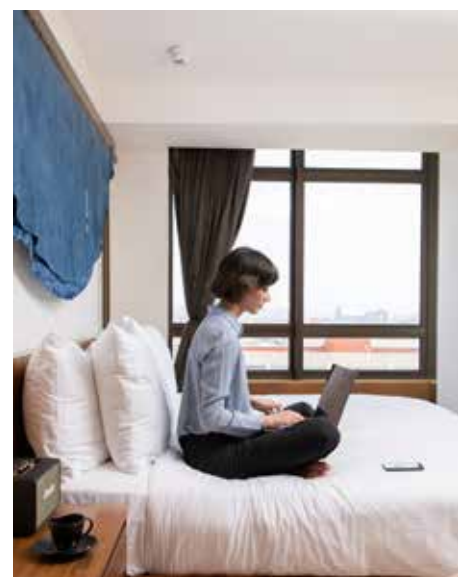

# Elevate the Guest Experience

SALTO's smart and cutting-edge access control technology gives you the power to elevate the guest experience.

## Smart-hotel convenience

Provide the modern, easy access option guests increasingly expect with digital keys or keycards giving convenient, instant, and safe access.

## Seamless experience

Extend smart access beyond the guestroom across your property. Provide seamless access to entrances, perimeter access doors, elevators, gyms, business areas, parking, and more.

## Exceed expectations

Exceed guest expectations by integrating SALTO access with other property systems like room booking and restaurants. Create value-added opportunities for your product offerings while realising operational efficiencies.
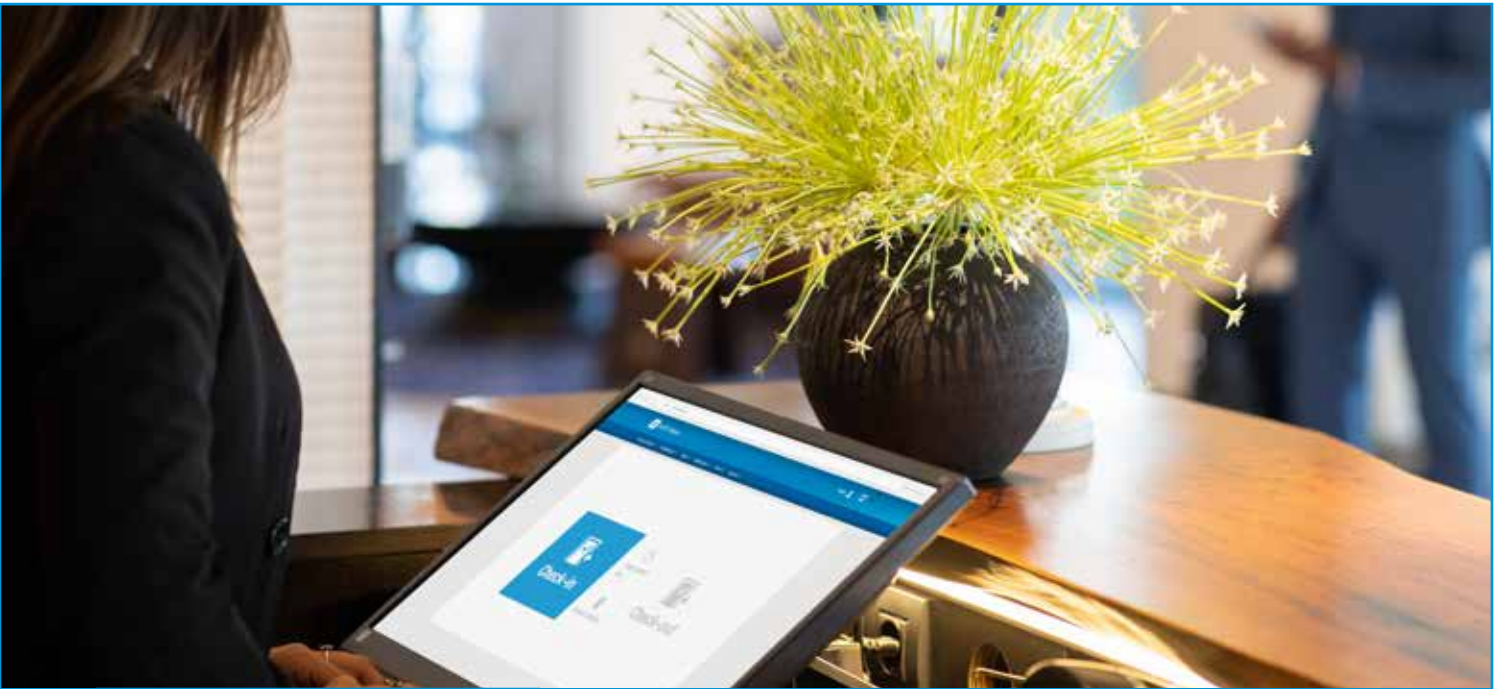

# Streamline Hotel Operations

SALTO's technologically-advanced access control can simplify and automate hospitality operations from back of house to the front desk. Our solutions seamlessly integrate with existing hospitality management tools to deliver a comprehensive solution.

Modernize hotel operations and management and deliver unparalleled guest services by incorporating the most advanced security and access management solution on the market.

### Industry-specific solutions

Purpose built, industry-specific advanced software and platform. Their proven functionality is already the choice of 15,000+ hospitality businesses worldwide.

### Automated daily functions & personalization

Simplify and automate hotel management processes and free up staff to spend more time interacting with guests for a more personalised experience.

### Cost-saving efficiencies

Improve workflows and processes across the business — reservations, front desk, maintenance, security management, housekeeping, sales, and maketing.

### Greater flexibility

SALTO solutions integrate with CCTV, fire alarm, time and attendance, and other systems to provide total security management from one central platform.

# Design & Style

Enhance your property's brand and visual style with the sleek SALTO design aesthetic, built with quality materials and finished to the highest standards. Match that with hardware built with the highest quality materials and craftsmanship and you have an unmatched product that makes a bold statement.

Enhance your hotel's unique brand, style, and expression with SALTO's wide range of product options that complement and enhance your brand throughout the property.

### The perfect finish

Stylish, functional SALTO access solutions help ensure your overall design effect is maintained down to the smallest detail, which enriches the guest experience.

### Extensive choice

Choose from an extensive range of finishes, door handles, and locks from world-leading designers to complement your property's image and door type. Customize your choices to address your specific property needs.

### Style with security

SALTO hospitality solutions combine style and technology to deliver reliable, flexible, and secure access control.

### Simple to install and maintain

Easy to install, reliable, and low maintenance. A global network of trained and certified installers ensures support is always available.

# Security & Safety

Improve safety for guests, visitors, staff, and property meeting hospitality's unique security challenges. SALTO solutions combine robust 24/7 security with seamless, convenient, and safe access.

Achieve reliable security thanks to flexible and robust integration capabilities with third-party hardware and software providers. Create a security ecosystem that provides safe, convenient, and seamless guest access throughout the property.

### Peace of mind

SALTO provides security reassurance for everyone on site while protecting assets and equipment.

### Intelligent control

Locking modes adjustable by admin rights, room, and door status monitoring gives full control of who can access what, when, and where and provides real-time audit trails to help managers identify security risks.

### Monitoring

SALTO provides data on real-world guest and staff movement patterns, providing valuable intelligence to drive smarter security protocols and improve overall access flow.

### Easily add safety integrations

SALTO solutions integrate with CCTV, fire alarm, time and attendance, and other systems to provide total security management from one central platform.

# Software

**Enhance your guest experience and streamline hotel operations with SALTO.**

Our user-centered, web-based management software gives you ultimate control and blends seamlessly with hotel operations.

When guests arrive at a hotel, they want to check-in quickly and make the best of their time, whether it's for professional purposes or leisure. This means all the steps of the check-in process need to work flawlessly, from issuing a card to the guest to the guest being able to access their room, swimming pool, spa, or other amenities.

For the hospitality market, SALTO has developed specific add-ons which allow hotel clients to easily control all access and guest management needs with one easy-to-use system. It suits hotels of all types and sizes to provide better utilization of hotel rooms, suites, and meeting space infrastructure.

SALTO ProAccess SPACE management software hospitality add-ons include mobile guest keys (BLE), group check-in, real-time re-rooming, and real-time extended stay. In addition, other key hotel features make it easy to control all guestrooms and back-of-house doors, online or offline, from one central location.

**SALTO ProAccess SPACE delivers web-based software with a user-centered interface that is secure and simple to use.**

Compatible with leading property management software (PMS) such as Micros FIDELIO, New Hotel, Protel, Infor, etc., and can also be used to manage SALTO Intelligent Energy Saving Devices (ESD).

### GROUP CHECK-IN

Automate and accelerate the group check-in process. Allow people travelling together to check-in at once and simultaneously, avoiding long waits to start their stay/holiday.

### FRONT-OFFICE OPERATIONS

SALTO's intuitive ProAccess SPACE web-based management software allows hotel management to streamline front-desk workflows and processes: faster check-in, dynamic staff access control, automatic key renewals, and key cancellation. SPACE also includes advanced features like multiple wandering intruder detections and improved audit trail filtering/reports.

### RE-ROOMING & EXTENDED STAY

Guests can easily request an extension with a smartphone and without the hassle of visiting the front desk. When the request has been approved, they'll be immediately and conveniently notified of their new stay details.

### MONITORING

Locking modes — adjustable by admin rights, guestroom, and door status monitoring — give full control of who can access what, when, and where, and provide real time audit trails to help managers identify security risks.

### MOBILE ACCESS

Deliver a digital and connected experience to your guests by allowing them to check-in/check-out, make changes to a stay, and access any facility in seconds — all from their smartphone.

### COMPATIBILITY & INTEGRATION

SALTO hospitality solutions integrate with other technology partners, allowing operations to combine and incorporate third-party services that increase both efficiency and security. By working with Property Management Systems (PMS), Room Management Systems (RMS), check-in solutions, elevators, or complete Building Management Systems (BMS/BAS), SALTO delivers a seamless solution that leverages universal technology and improves operations and efficiency.

### DYNAMIC STAFF KEY MANAGEMENT

Instantly extend, modify, or revoke access by updating your smart lock's deny-list and cancelling a staff mobile key/smart credential. Set automatic key renewals and/or cancellations. Get real-time insight into staff daily operations by tracking attendance and movement across the property.

### FLEXIBILITY

ProAccess SPACE for hospitality was designed to be deployed and used in any type of hotel — from those that need to control a small number of rooms, up to the largest resort-based properties with thousands of rooms. Our management software is also ready to be run on different front desk workstations simultaneously.

# 03

# Digital smart key

**Access made easy and secure.**

SALTO  supports a wide range of access control methods to create the perfect fit for any hotel property.

By combining technology and design, the SALTO electronic locking platform leverages industry-leading security practices, including advanced encryption, to provide users a secure and seamless keyless and mobile experience for guests and staff.

# Digital Key

Technologically cutting-edge, SALTO JustIN Mobile digital key technology means the end of lost key hassles, expense, and waste. Plus, the technology isn't limited to hotel rooms — it can also be used on main entrance doors, elevators, car park barriers, meeting rooms, etc.

## Simple and safe.

It's the most secure form of guestroom access. Provide guests with a hotel experience they value and want to repeat by facilitating their check-in without sacrificing their security and comfort.

## Contactless from end to end.

Give guests the power to bypass the front desk and go straight to the guestroom. SALTO combines mobile check in with secure digital key delivery right to a smartphone.

## Minimize lost key expenses.

Replacing lost keys takes time and is a hassle. Eliminate this costly headache with digital key delivery and improve sustainability efforts at the same time by reducing plastic keycard usage.

## JustIN Mobile SDK.

SALTO makes it easy to incorporate smartphones into any access control solution via software development kits (SDK) for both iOS and Android platforms and the SALTO JustIN mobile access application.

# Guest Key

SALTO offers the same level of security and convenience for guests that require or prefer a keycard. Custom branded keycard designs with your property logo and information are available.

**SUSTAINABLE GUEST KEYCARDS:**

Made to the same thickness as an existing keycard or event pass, SALTO's environmentally friendlier card looks and feels the same as a plastic card.

— **Zero Plastic.**

Made entirely from recycled FSC-certified paper or wood.

— **Biodedegrable cards.**

The quality, dimensional size, and durability are so similar to its plastic carrier, our paper-based guest keycards are an excellent option for hospitality.

— **Fully Compatible.**

SALTO guest keycards have an embedded in it a top-quality NXP Mifare Ultralight® C RFID chip that is fully compatible with SALTO smart locks.

— **Custom options.**

Wooden key cards are available in three manufacturing materials: bamboo, cherry, and black walnut. Paper keycards can be branded with a logo, if desired.

# Staff Key

Provide staff with a variety of options for credentials including keycards, fobs, or a digital key for a smartphone. Issue or revoke credentials from anywhere and at any time.

# PIN Code

Provide easy access for guests or staff effortlessly with a PIN code or with a mobile entry.

# 04

# Ecosystem

**Technology alliance and integration partners.**

Whether you seek guest apps, PMS, room management systems, check-in solutions, or complete building management systems solutions, you'll find them by connecting to the SALTO hospitality technology partner network.

## Guest APPs

SALTO and our partner network of leading mobile app service providers work together to provide a superior guest experience to clients, whether by offering mobile functionalities or superior management standards.
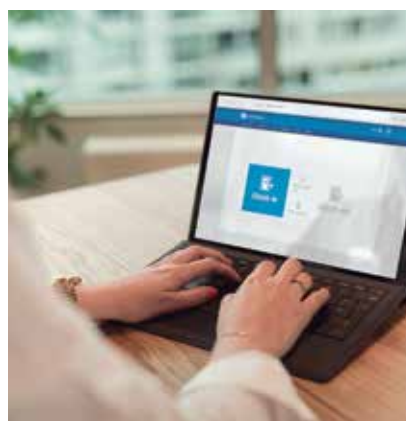

## PMS

SALTO solutions integrate seamlessly with a variety of hospitality Property Management Solutions (PMS). By integrating with hospitality PMS providers, SALTO helps improve property and operations management.

**DIRECT BOOKINGS**

**CHECK-INS AND CHECK-OUTS**

**GUEST LOYALTY PROGRAMS**

**MOBILE ACCESS**

**FRONT DESK OPERATIONS**

**ONLINE RESERVATIONS**

**ACCOUNTS RECEIVABLE**

**KEY ISSUING OR GUEST CHECK-IN**

## Check-In Solutions

Checking in and out of hotels will never be the same again! Significant innovations and progress mean guests can choose how and when they check-in or out, thanks to the support and expertise of SALTO hospitality's key partners.

## RMS — Room Management Systems

Room Management Systems (RMS) are automated software and hardware applications that serve to control the various aspects of a guestroom. SALTO has created key partnerships in this field and incorporates the latest RMS technology with the most comprehensive wire-free access control system.

## Building Management Systems

For the complete control of a property, a flexible and truly integrated framework must first be put into place. BMS combines all functions of a hotel property system into an automated network, grouping security aspects such as time and attendance systems or CCTV video-surveillance.

**KIOSK CHECK-IN**

**PAYMENT SYSTEMS**

**TABLET CHECK-IN**

**MOBILE ACCESS / GUEST KEY ISSUING**

**ENERGY EFFICIENCY/ENERGY SAVING SYSTEMS**

**GUEST PRESENCE**

**REMOTE DIAGNOSIS OF ROOM EQUIPMENT**

**CCTV VIDEO-SURVEILLANCE**

**TIME AND ATTENDANCE SYSTEMS**

**INTRUSION DETECTION ALARMS**

**PERIMETER SECURITY**

# HIW

## Speeding up check-in and simplifying hotel management.

**SALTO has developed specific hospitality add-ons that allow hotels to easily control and manage guest access needs with one wire-free and easy-to-use system. SALTO is perfect for all hotel sizes and types and helps deliver an optimal guest experience as well as the best utilization of a hotel's infrastructure: guestrooms, suites, meeting spaces, and more.**

### SVN data-on-card

Designed for use in hotels, SVN data-on-card enables guests and staff to work in a wire-free environment so there is no need to hard wire. SALTO offers a mobile and smart card-based system that permits the lock and the guest key to communicate via SVN.

SALTO delivers standalone, virtually networked, wired, and wireless smart locks — all working within a single access control technology platform designed specifically for hospitality.

### BLUEnet Wireless

The advanced SALTO BLUEnet online wireless solution is the next step in wire-free access control. SALTO BLUEnet Wireless brings real-time, two-way encrypted communication between our wireless locks and the operator.

### JustIN Mobile

SALTO JustIN Mobile uses the latest in technology to communicate securely via the cloud and enables hotel guests to receive their room key online, anytime and anywhere.

The JustIN Mobile app is completely secure as keys cannot be duplicated, unlike mechanical keys or some low-security RFID technologies. The encrypted data transfer uses SSL (Secure Socket Layer) AES 128-bit encryption opening procedures to ensure secure transmission.

**Digital Key**

Advanced mobile key management combined with physical keycards

**Check-in**

Speeding up check-in and simplifying hotel staff management

**Front Desk**

Web-based software with a user-centered interface that is simple and secure to use.

— Mobile guest keys (BLE/ NFC)
— Group check-in
— Real-time re-rooming
— Real-time extended stay
… …

**Lift Access - Parking Access**

Integrated into the lift management panels. Increase the security of your hotel, with the lift access control, the guest can only access where you have granted him permissions.

**Guest Room Access**

Designed for use in hotels, SALTO Hospitality lockling solutions enables guest and staff to work in a wire-free environment so there is no need to hard wire.

**Guest Key transmits to door lock:**

— Deleted cards list
— User / guest access rights

**Electronic lock transmits to guest key:**

— Access event
— Battery status

**Guest Room Access**

— Room status monitoring
— Instant extended stay
— Instant room change (re-rooming)

**Light:** Automatic nightlights and entry welcome lights.

**TV:** Digital welcome message for your guests.

**Clima Control:** Meet guest expectations by providing the right temperature that are environmental friendly and energy saving.

# Why SALTO Hospitality?

## Guest

## Front-desk operator

**FIGURES**

Improve the guest experience by offering mobile access that's managed with a smartphone. Electronic access that allows guests to bypass the front desk and go directly to a guestroom adds convenience and sophistication.

SALTO electronic access solutions are easy to manage and result in more efficient operations. By giving guests the ultimate in control with digital keys and mobile access to guestrooms, and even self check-in kiosks, you can free up front desk staff to tend to other tasks.

### + 100,000 Projects

Multiple projects across the globe. No matter the size, number of properties, or location. From conference and convention to luxury-branded hotels, SALTO has a hospitality solution for you.

### + 500,000 Guestrooms

SALTO has more than 500,000 hospitality access points across the globe. By integrating with a variety of guestroom ecosystems (like turning on the air conditioner, lights, and TV before a guest enters a room), we help deliver an experience your guests will never forget.

### + 1M Door openings every day

Every day people from all over the world use SALTO technology to access their place of work, building, hotel, or home.

### + 100 Technology Partners

SALTO is part of a comprehensive security and operations ecosystem. We develop integrations with leaders in a variety of industries so that our electronic access products work smoothly with other business applications including PMS, check-in solutions, room management systems, management software, and many other specialized industry solutions.

# Visitors

Seamlessly integrate your visitor management with access control. SALTO access control solutions make it easy to give access to individuals on a temporary basis. Are you expecting visitors? No worries! Send temporary access right to their smartphone.

# Housekeeping

Integrate SALTO access solutions with hospitality departments like housekeeping to ensure your operations run smoothly. Provide access by the door, hall, floor, or building. Integrate with room systems like heating and air conditioning or lighting to ensure these systems function only when housekeeping or guests are in the room in order to save on expensive energy costs.

# Maintenance

Whether it's scheduled maintenance or an emergency, SALTO can help hosptality operations manage access to guestrooms to ensure that maintenance workers have the access they need to get the job done.

# Facts

## Smart building experience

Connect access control that works on any door, in any type of building, to a facility infrastructure to deliver a comprehensive and smart solution. Deliver a seamless and keyless experience for both guests and employees.

## Wireless technology

Easy setup, low maintenance, maximum flexibility and scalability to connect door access on-premises, in the cloud, and at any stage in between, combining to your building tools and operations.

## Secure and robust

## Full support

SALTO delivers a future-proof access control solution that's trusted by industry-leading companies and secured with end-to-end encryption at every level.

With SALTO, you'll have the support you need, whenever and wherever you are. We have an office and partner network that reaches across the globe. Our technicians and developers are ready to provide assistance.

# Designed for designers

**SALTO products aren't just smart on the inside, they are beautiful on the outside. We make a variety of finishes available that match any decor and style.**

**Visualize your next project! The SALTO MyLock configurator lets specifiers, architects, partners, and end users design and choose locks and products to see how they will look on different door types and styles.**

When planning an access control project that requires real-time electronic access control, it's important to be able to visualize the different locks, finishes, and door styles and how they'll look together. From traditional to contemporary, SALTO hardware comes in a variety of architectural styles and finishes to meet any aesthetic needs and design goals.

Plan your next electronic access control project.

**Door handles desings**
Comprehensive selection of unique handle options.

**Accessories and complementary products**
To ensure that each and every door and all other handle accessories complement the overall aesthetic of your architecture and interior design.

# Build your own door

### Customize your electronic hotel door lock

With the SALTO MyLock online configuration tool, you can select an electronic lock model and door type and customise your selection with a range of colours, finishes, and handle options.

The innovative MyLock tool provides complete visualisation and customisation, giving users the power to envision, and properly plan, future projects.

**The SALTO MyLock online tool can help you visualize a variety of finishes, handles, and locks for your next electronic access project.**

https://mylock.saltosystems.com

### Choose your electronic hotel lock model

Choose your favorite electronic hotel lock model (ANSI, Euro, or Scandinavian standards) and personalise everything. The MyLock configuration tool is great for planning new projects or retrofits for existing doors: you don't have to drill or wire to create a customsied door!
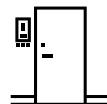

### Choose your door type and select a handle design

Choose a door type, finish, handle design, and lockset finish that matches your guestroom door.

### Download and save your settings

Once the door configuration is complete, you can store and compare it against previously-configured door lock models or save it as a PDF.

### Contact us

Send us your selection, ask us a question, or just contact us for a demo.

# Door handle design

## STANDARD LINE

SALTO's Standard Line provides minimalistic and simple handles, fitting any style while offering robustness and comfort. The linear shapes make these handles multifunctional and easy to implement in any environment. Manufactured by SALTO, these handles (which are available in six finishes) strike a great balance between function and efficiency.
