AlwaysGeeky Games 2024 Roadmap

The 2024 Roadmap of AlwaysGeeky Games for Voxies and Voxie Tactics was unveiled on February 16th! The new roadmap is now live in the Voxies official website: voxies.io/roadmap

The roadmap outlines the milestones for 2024 to be the biggest year yet for Voxie Tactics:

Voxie Tactics

- **The release of the Unity version of Voxie Tactics for PC/Windows is on-track for Q1 2024!** This milestone for the project has long been in the works and promises various improvements in the game such as new battle UI and visuals and improved gameplay and strategy mechanics. The release will pave the way for the **macOS, Linux,** and **Mobile** versions of the game.
- New game features are also planned for release this year: **Training Mode, New Game Features** (Armor Set bonuses, Pet Eggs, Cosmetics), **New Game Modes and Arenas** (Draft mode, Tournaments), **Guild Competitions,** and **Battle Pass.**

Voxel Economy

- The economy of Voxie Tactics is built to last with **new Reward Incentives, ELO Structure,** and **Ranking and Leaderboard Mechanics** set for this year.

Voxies Marketplace

- Use of the marketplace will be made easier with the introduction of **Instant Account Creation** (no wallet needed for new players), **Shopping Cart Feature,** and **Text-based Search Listings.**
- New Services will also be added to the marketplace:
  - Learn as you collect with the **Voxies Marketplace Library,** released this month with future updates
  - **Guild Hub** to create teams and share assets within your guild
  - **Guild Hub +** for enhanced data services
  - **Real-time Activity Dashboard** for marketplace sales, rentals, and Arcanist's Forge activity
  - **Pet Ranch** for the cute pets of the VoxiVerse

The Voxie Library

The latest new feature on the Voxies Marketplace, the **Voxie Library**, was released on February 16th! This feature is set to improve how players interact with the Marketplace's vast array of items and is an exciting gateway to discovery, strategy, and community engagement.

The Voxie Library lets you find any in-game Voxie Tactics Item NFT (not including common and uncommon rarity items) by typing its name in the search bar. You can examine every unique item's Appearance, Detailed Stats, and Properties like Rarity, Type, Element. You can also filter the items based on rarity, type, element, and stats, similar to filtering in Shop, Rentals and Profile page. The Library home page and filter results are currently sorted by name alphabetically from A to Z.

The Library allows you to curate and share your favorite item sets with the community to showcase your build, express your Voxie style, and inspire discussion. Collectors can now easily showcase their items through shareable links to speculate on the item and search for potential buyers. The Library is also a powerful resource where unlisted items that have yet to be put up for sale are now included.

Read the Official Article Here at voxies.io/news

You can also create a sale or rental listing template of items from the Library by clicking on the Add to Template button on the upper-right corner of the item image.

The Voxie Library will also have new functionalities in the future:

- All 10,000 Voxies, complete with detailed stats, attributes, and much more
- Data analytics for each item, including the price, sales, and rent history, to help users identify the value of their in-game assets
- Users will be able to make offers on unlisted items whereby all owners of said items are notified, and the first owner to accept will trigger the transaction and redeem the offer

Looking Back: Companion Pet Eggs

What do you think of the new 2024 roadmap? Two things caught my eye when it was released: **Pet Eggs** under New Game Features, and the **Pet Ranch** under Marketplace New Services.

Back when the Voxies NFT collection started minting in 2021, some of them came attached with shaking companion eggs. There were 4 colors of the eggs: Green, Red, Blue and Pink. There were also the 2 very special Golden Eggs which were part of a competition: the two lucky minters who minted the Voxies with the golden eggs actually received a staggering 5 ETH prize each for minting them!

Before the eggs were hatched, the Voxie Tactics demo was released first, and it had this curious NPC Josie surrounded by eggs who claims they can help you out if you bring them unhatched eggs. Will Josie have something to do with the upcoming Pet Eggs and Pet Ranch? I guess we'll see...

The 1,949 companion eggs were finally hatched and the cute pets came out of their eggs on December 3, 2021! The actual 'hatching' was us Voxies owners refreshing the NFT Metadata in OpenSea to update the Voxies with eggs to ones with pets. These hatched pets are the ones we see now as the Companion attribute of the Voxies NFT collection. The rest of the existing pets right now such as Giraffe, Diamond Goat and Reindeer were later minted as separate NFT items from Voxies. There's also the only Baby Ape pet that's attached to Voxie #10 which didn't hatch from an egg.

It's quite exciting how the current pets will tie in with the Pet Eggs and Pet Ranch features. If I were to guess, maybe it will be like leaving 2 pets together somewhere, like that Day Care Center in a certain popular game.

Moonscaper here! I'm a Voxies and Voxie Tactics Items NFT holder and I've been a part of the Voxies community since June 2021. Looks like the Unity version release is still on track this Q1 2024! That means more newsletter content (and work for me) once Unity version is up and running. Props to you if you're able to understand the meme on the right.
