

Emergence Collection

Introducing our newest collection, capturing the natural beauty of butterflies. This new line of wholesale jewelry features authentic butterfly wings preserved in a clear acrylic material which protects the delicate wings while maintaining their beauty.

Inspired by and in collaboration with Marc Nugent's daughter, Izzy.

The collection of the wings is done with respect, and only after a butterfly's life cycle has ended naturally. *It's because of this that all species are subject to availability and seasonality, as we allow for the natural cycle of each life.*

- Certified 99.5 to 99.8 fine silver
- Water resistant
- Environmentally friendly
- Laser etched NJ logo to certify authenticity
- Created in partnership with select butterfly sanctuaries around the world
