

PT SATAKE FIMAR INDONESIA

COMPANY PROFILE

2026

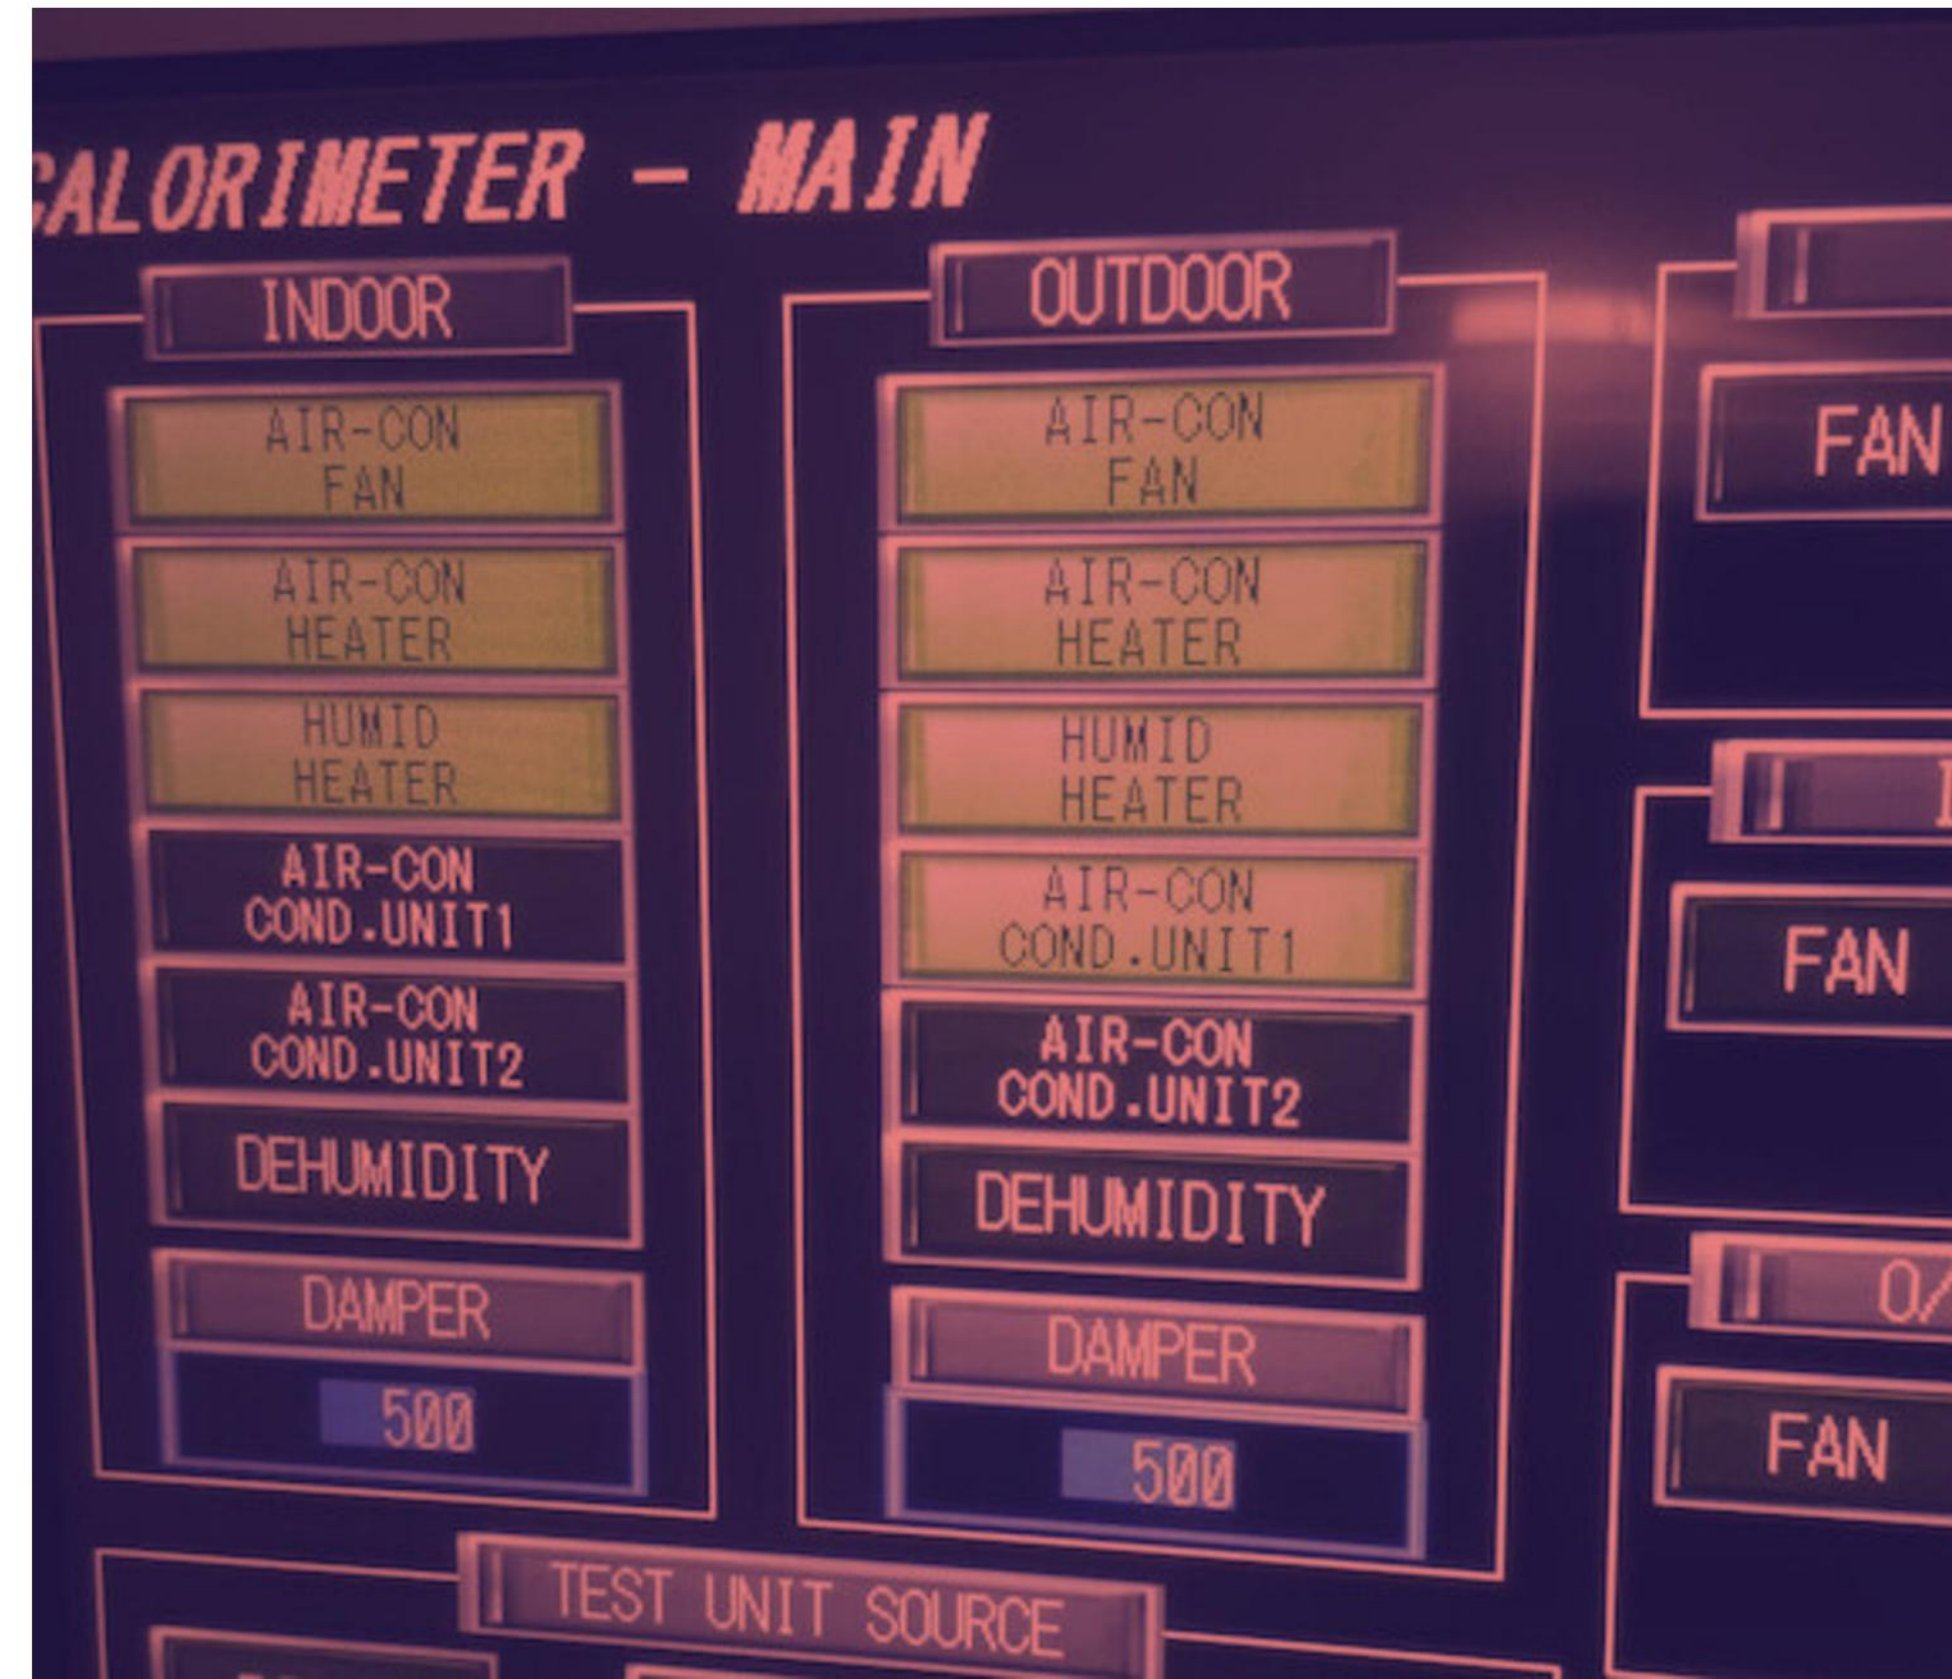

INTRODUCTION

PT. Satake Fimar Indonesia (SFI) was formerly a local company operating since 2014 under the name PT. Fimar Berdaya Sinergitama (FBS), specializing in comprehensive HVAC services. These services range from HVAC Design Engineering to full installation across diverse projects in Indonesia. As an Appointed Partner for various leading HVAC unit brands, including Daikin, Panasonic, Mitsubishi, Trane, and other brands from Korea and China, we have successfully completed numerous construction projects. These projects encompass office buildings, hotels, hospitals, schools, convention centers, places of worship, and specialized HVAC requirements for Oil & Gas sites and projects throughout Indonesia.

ABOUT US

We are a company that pursues good integrated HVAC products and services i,e Equipment and Tools. We have continued to move forward as a pioneer in environmental testing equipment and performance measurement equipment for refrigeration and air conditioning equipment. We are a technology group that pursues energy conservation and high efficiency with the aim of delivering products that satisfy customers and can be used with peace of mind.

VISION & MISSION

Our Vision: To be the globally recognized leader in integrated HVAC and precision environmental solutions, pioneering sustainable innovations that redefine comfort, efficiency, and industrial excellence worldwide

Our Mission: To empower industries and enhance living environments by providing cutting-edge, integrated HVAC systems, precision laboratory equipment, and unparalleled end-to-end services. We are committed to fostering technological advancement, ensuring robust quality and safety, and driving sustainable practices, all while cultivating a highly skilled team and delivering exceptional customer experiences that contribute to a healthier planet.

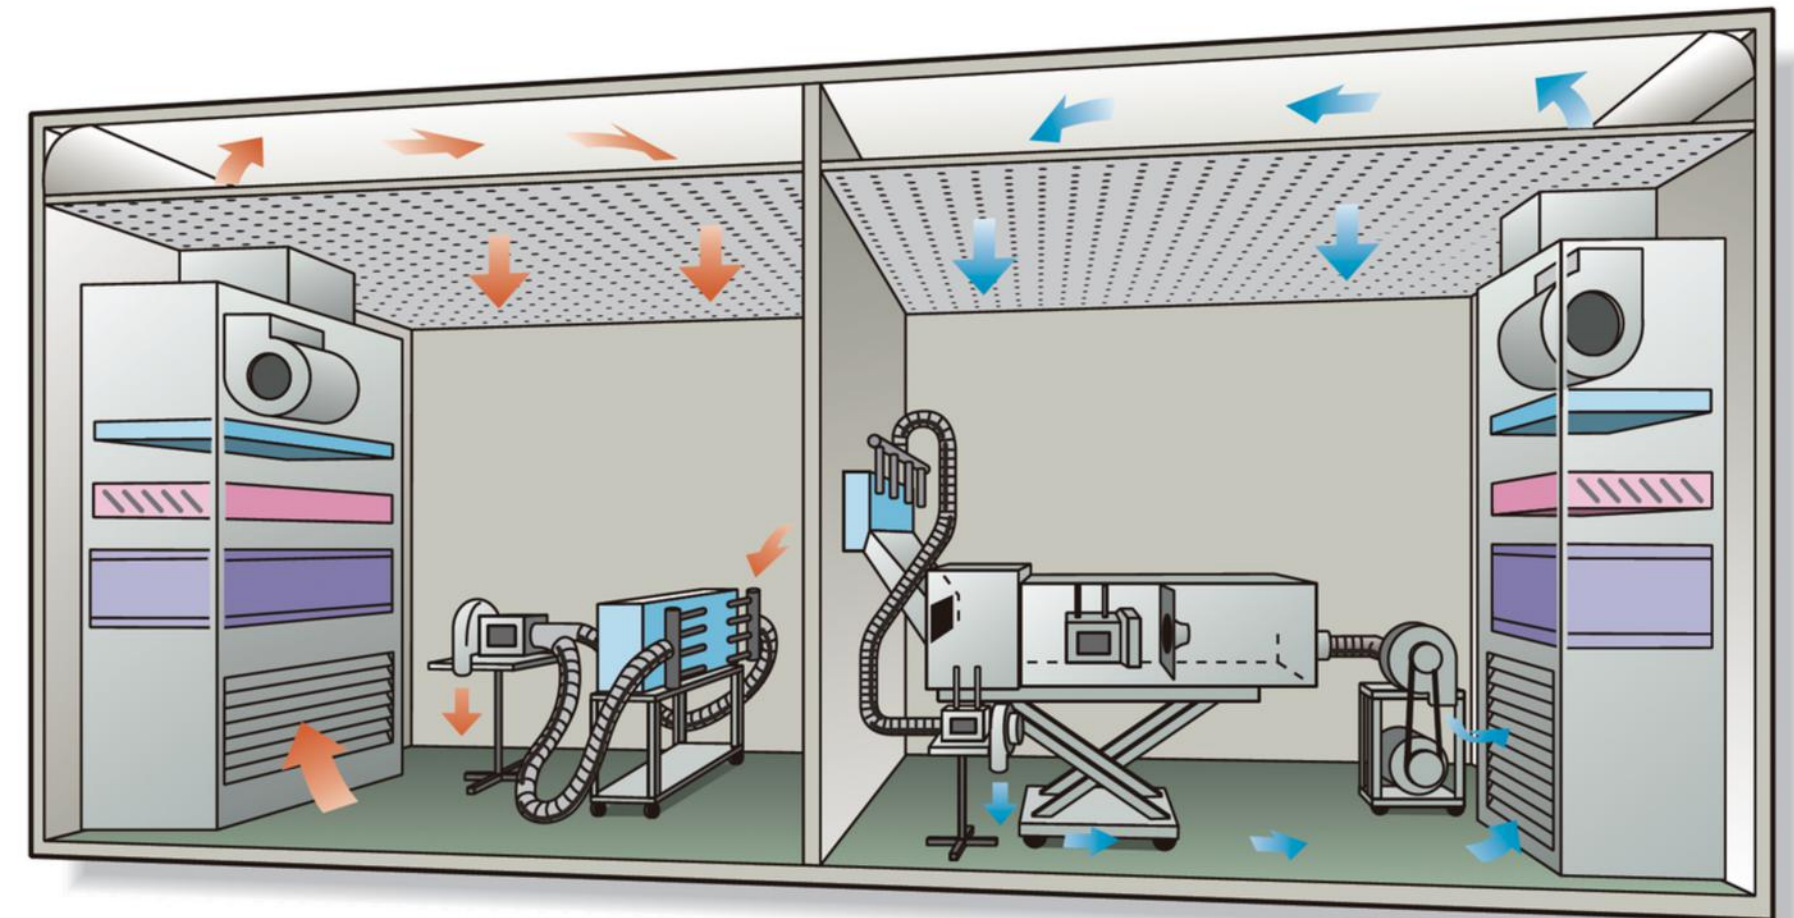

WHAT WE DO

HVAC System for Labs & Engineering

- Psychrometric Room
- Balance Calorimeter
- Actual Listening Chamber
- Sound Test Chamber
- Climatic Chamber

HVAC System Services

- Psychrometric Room Design
- Psychrometric Room Installation & Commissioning Test
- Psychrometric Relocation
- Annual Maintenance
- System Calibration
- System Upgrade

WHAT WE DO

Engineering Products & Services

- HVAC Customized System
- Electrical Product Test Equipment (Manufacturing Process)

HVAC Unit Products

- Industrial AC: VRV/VRF, Floor Standing, Ducted System, Air Handling Unit, HVAC Control Panel Compressor for Industry,
- Residential AC: Wall Mounted, Floor/ceiling Mounted, Cassette Type

WHAT WE DO

HVAC Tools

We are licensed distributors for a comprehensive range of industry-standard tools and equipment brands, catering to both commercial applications and the specialized requirements of sectors such as Oil & Gas, Mining, and Maritime, which demand rigorously qualified tools and equipment. Our portfolio includes the following brands:

- ASADA CORP. – JAPAN (HVAC TOOLS)
- TASCO-JAPAN
- (AIR CONDITIONING TOOLS)
- BACHARACH-USA
- ASPEN PUMP
- TEXA-ITALY

 - Research & Development of Test Equipment
- Location :
 - Panasonic Manufacturing Indonesia - Jakarta
- Year : 2024
- Scope of Work :
 - Installation of Psychometric
 - Measuring instruments AC System
 - Water Package Air Conditioner

PSYCHROMETRIC LAB

PROJECT REFERENCE

OIL & GAS

BP – LNG Tangguh (Offshore Facility)

- Project Name :
 - VR – A and VR – B Duct Inspection
- Location :
 - LNG Tangguh – Sorong, Papua
- Year : 2019
- Scope of Work :
 - Inspection & Engineering Consultant
- AC System : Rooftop

BP – LNG Tangguh (VR – B Platform)

- Project Name :
 - VR – B HVAC Duct & System Upgrades
- Location :
 - LNG Tangguh – Sorong, Papua
- Year : 2021
- Scope of Work :
 - Supply units & Installation
- AC System : Rooftop

BP – LNG Tangguh (Offshore Facility)

- Project Name :
 - VR – A System Upgrade
- Location :
 - LNG Tangguh – Sorong, Papua
- Year : 2022
- Scope of Work :
 - Inspection & Engineering Consultant
- AC System : Rooftop

PROJECT REFERENCE

PT. KILANG PERTAMINA INTERNATIONAL (RUU VII - KASIM)

- Project Name :
 - HVAC System of OCMR Building
- Location :
 - RU VII Kasim – Sorong, Papua Barat
- Year : 2024
- Scope of Work :
 - Supply units & Installation
- AC System : DX unit
- Qty : 2 unit AC Package complete with all System
- TTL Capacity : 2 x 560,000 Btu

CUCL Central Services Project

- Project Name :
 - CUCL Project – PT. Freeport Indonesia.
- Location :
 - Mimika – Papua
- Year : 2024
- Scope of Work :
 - Supply Material & Installation
- AC System : VRV Mitsubishi

OIL & GAS

PROJECT REFERENCE
