LUFENCE
IMAGINE | INNOVATE | INDULGE

Here is an extremely versatile modular design of cooking stations that helps you use it for several different purposes. Just pick the right module and set up your station with induction stove or as a dim sum counter or for roast meat or ice, the list is endless. Versa is made from aluminum alloy and insulating material and is super light, rust proof and scratch resistant. Versa stations can be completely dismantled and folded, and carried away on trolleys made specifically for its components.

Made from high-quality plywood with laminate or veneer surface, these stations adorn a very pragmatic yet rustic look. The natural wood finish gives it a very earthy feel. Stainless steel trims and LED lights underneath add sleekness and a completely different dimension to your buffet presentation. These stations are also very versatile in function as different cooking modules can be interchanges and used on the same mother pod.
