The

RENOVATION SHOP

Our Doors

We offer a wide selection of quality solid, engineered timber doors in many standard sizes for internal and external use. Traditional and contemporary styles are available with or without glass to suit various architectural styles and personal taste.

Our doors are made using only plantation-grown and sustainable yield timber. The cross-cut process used in manufacturing our doors greatly reduces the possibility of cupping, bowing, twisting and shrinking associated with other timber doors. Our doors have a mahogany veneer and a solid timber core (not a toxic fibre board one).

Custom-made doors and solid mahogany external door jambs are also available.

Please phone or email us regarding price & availability.
