IMAGINE

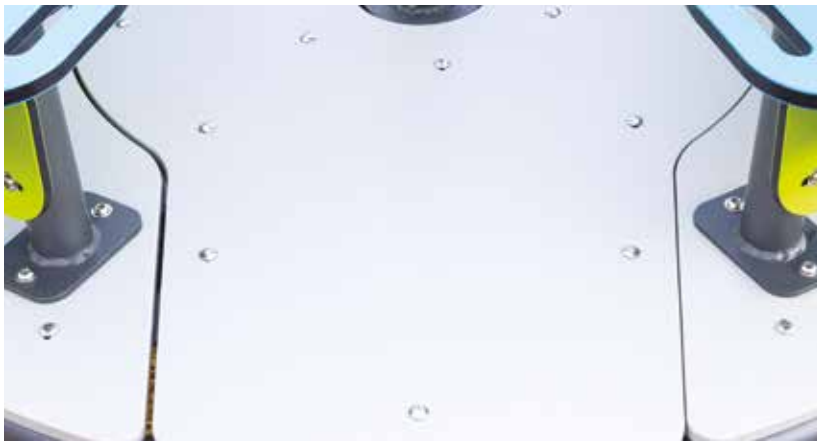

Gira^{MC} spinner

What fun it is to take off with a group of friends
on a carousel or a flying saucer!

The **Gira spinner** from Jambette allows children of all mobility levels to enjoy safe and fun play. The two stylized benches make it easy for up to six children to sit down and use the steering wheel in the centre as a handle to hold on to and turn the spinner.

Jambette

The platform is made of polyethylene sheets with a non-slip finish. It covers a sturdy aluminum and steel structure. The central mast is made of aluminum and features a comfortable polyethylene handle. Rotational movement is made possible by two industrial-grade bearings: a ball bearing and a roller bearing.

New spinner adapted for customers with all kinds of abilities
