

Traffic Control Services

CTS provides temporary traffic control services to utility companies, municipalities, paving etc. We are a safety sensitive business, focused on the safety of our clients, the motorist, and our employees; by setting up compliant work zones according to state and local regulations.

OUR GUARANTEE

Custom Traffic Solutions ensures our customers receive the best customer service possible. From the crews on the road to the office and beyond, we exceed expectations. For our team, your team and the motorist traveling through our zones, safety is our number one focus and priority. We encourage our employees to be the best they can be at work and in life.

FLAGGING AND TEMPORARY TRAFFIC CONTROL

Custom Traffic Solutions provides safe and compliant work zones and temporary traffic control services according to State & local regulations. CTS crews receive comprehensive training in multiple areas of health and safety. Through these trainings and certifications CTS employees are taught how to set up and deliver safe and efficient work zones and ensure safety on a multi-employer worksite.

LANES CLOSURES/ROAD CLOSURES AND DETOURS

CTS has the resources and skill-set to get the job done! CTS provides a safe service you can depend on. Our employees bring top level skills and expertise to your project. Custom Traffic Solutions provides lane closures, detours, road closures, and traffic shifts on any roadway. CTS will make your project or event safe and convenient for visitors, all with minimal congestion for motorists. All traffic control plans, and roadway signs conform to the MUTCD.

M.O.T. DRAWINGS & DESIGN

The Maintenance of Traffic Control Plan (M.O.T.) is a traffic control plan that is required by an increasing number of jurisdictions. These plans show how vehicular and pedestrian traffic will be maintained during any project where the public is impacted. The design and maintenance of traffic plans is one of many services performed by Custom Traffic Solutions. Our traffic design team uses their vast experience and Invarion software to design, engineer and implement your projects.

EMERGENCY RESPONSE & STORM SERVICES 24/7/365

Safety never sleeps! CTS responds to emergencies at a moments notice. Our company dispatch personnel operate 24/7/365. Custom Traffic Solutions has certified and skilled crews on call and ready for your job sites. Emergency Response & Storm Services include but not limited to:

- | | |
|------------------------------|-------------------------------|
| Environmental Spill Response | Snow and Ice Storms |
| Floods | Storm Restoration and Cleanup |
| Gas Leaks | Traffic Accidents |
| Power Outages | Water Main Breaks |

“Custom Traffic Solutions has invested heavily in management experience and in the company’s capacity to better serve our growing client base, by expanding our services with Custom Safety Solutions.

At Custom Traffic Solutions/Custom Safety Solutions, we pride ourselves on providing the best customer service you can ask for; we mean it when we say: “SAFETY IS OUR FOCUS!”

Missy Karrick, CEO | Owner

EVENTS & SPECIAL OCCASIONS

Custom Traffic Solutions provides the following event services:

Parades	Street festivals
Sporting events	Races/Runs/Marathons
High-traffic events	Organization and Company events

Do not let the challenges of traffic control be a thorn in your side on your important day. Contact Custom Traffic Solutions and we will ensure a peace of mind by taking the burden of traffic control from you. CTS will mantle and dismantle any necessary signage and develop a safe and regulated plan for access and egress to the event.

CTS will deploy our crews to ensure the proper number of trained professionals to safely control traffic. In addition, CTS will also coordinate and communicate with police and government authorities to ensure you are 100% compliant with all federal state, city and D.O.T. standards and regulations.
