# HIDE-A-HOSE, **ALWAYS** THE **PERFECT LENGTH OF HOSE.**

## Full cleaning power at any length!

With our patented locking system you don't have to pull out 50' of hose to clean up that mess just 10' away.

Right Here

Up There

Anywhere

# INTRODUCING THE NEW MINI VALVE

A cost effective Quick Clean Solution for customers who want an extra valve:

- Utility Rooms
- Kitchens
- Bathrooms
- Garages

## MINIMIZED FEATURES

Pull the hose all the way out to lock and seal the hose. Twist the hose to unlock and retract.

## MINIMIZED SIZE

Consistent look and design with HS5000, but 20% smaller.

## MINIMIZED PRICE

Shorter hose and fewer features, which means less time to install.

# *RAPID FLEX<sup>®</sup> HOSE*

— for Superior Performance —

## **Light and Flexible**

Easier to Pull Out  
Retracts Faster  
More forgiving on complex installs

## **Soft Touch Material**

Easy on Furniture  
Eliminates Hose Sock  
Easier to Keep Clean

## **Increases Airflow 25-30%**

Greater Cleaning Power  
Larger Diameter **1 3/8** tapers to **1 1/4**  
Smaller Power Unit

The Retractable Hose that has  
Everything Figured Out.

# SmartSoc

The new SmartSoc Retractable Hose provides answers to all the questions you might have been asking about hose socks.

## Stops Migration

- Adhesive strips strategically placed on the hose prevents slipping.
- Anti-Slip surface designed into the hose prevents slipping.
- New hose formulation creates less stretching and spring back.

## Feels Softer

New S-Z Yarn technology creates a tighter fit and has softer filaments for a softer feel.

## Prevents Germs

Each cover is treated with a germ fighting anti-microbial agent that's completely non-toxic and 100% safe.

 **Hide-A-Hose**  
Central Vacuum Systems  
Central Vac Like You've Never Seen

# Ready Grip Direct Connect Handle

Ergonomic design with soft finish

Hose connects directly into handle with a simple twist for firm friction fit

## Remote Control Handle features:

**LED light:** Green means signal sent to power unit, red means no signal sent

**Rocker Switch:** simple on or off

**9V Coin batteries** have a 5-Year life expectancy

Available **with or without remote on/off**

## The CX1000 **Battery Powered Electric Nozzle**

The CX1000 has a huge performance advantage over traditional electric and turbine nozzles. The impeller fan pushes air toward the hose, while the central vacuum suction pulls air through the hose, creating a “push and pull” boost to cleaning power.

### Features include:

44 Volt Lithium Ion Battery with 60 minutes of run time

Charge time: 2 hours

Ultra-bright LED headlight illuminates your cleaning path for bare floor cleaning

Unique bottom plate ensures easy operation on all carpet types

Rubber wheels and bumper protect furniture and baseboards

Chrome steel handle tube works with Hide-A-Hose “Ready Grip Handles”

4 year warranty on vacuum, 2 year warranty on battery

Weight: 11 pounds, Color: White

Manufactured by Tacony Corp. St. James, Missouri

## Smart

Hide-A-Hose Retractable Systems are **retractable**. The hose is stored in the central vacuum tubing in the wall. Not in your closet. Pull. Vacuum. Retract. That's **smart**.

Hide-A-Hose Retractable Systems are **versatile**. Pick an attachment and vacuum carpet, tile, hardwood, stairs, windowsills, baseboards, upholstery, curtains, cupboards, fans, lint traps, mattresses, pet beds, cobwebs, over, under, down low, up high. That's **smart**.

Hide-A-Hose Retractable Systems are **quiet**. The central vacuum power unit is installed in the garage or mechanical room. The noise is away from your living space. That's **smart**.

Hide-A-Hose Retractable Systems add **value**. Invest in your home with central vacuum system that has a life expectancy of 20+ years, keeping broken-down portables out of the landfill. That's **smart**.

## Healthy

Hide-A-Hose Retractable Systems are **healthy**. Dirt is removed through the central vacuum piping in the wall, not stirred up and recirculated in the air. No more drifting particles, no more vacuum smell, giving your allergies a break. That's **healthy**.

Hide-A-Hose Retractable Systems are **powerful**. Central vacuum power units are up to 5 times more powerful than portable vacuums. More power. Less dirt. That's **healthy**.

### How does Hide-A-Hose Work?

A light-weight hose is stored in the piping behind each port. Simply open the door, pull out the hose (up to 60 ft), engage the lock and attach the cleaning tool of your choice, turn it on, and begin cleaning your entire house.

When you're finished, disconnect the handle, disengage the lock, and watch the suction from the vacuum power unit retract the hose back into the wall. The retractable hose travels freely through the tubing inside the wall that is connected to the central vacuum power unit. No more carrying a hose from inlet to inlet. A clean house is that simple!
