

FINE ART

HANDCRAFTED LIGHTING

VOLUME TWO

HONORING LIGHTING AS AN ART FORM

OUR MISSION

To create lighting and studio glass defining luxury and elegance in uniquely designed environments throughout the world.

ABOUT US

Fine Art Handcrafted Lighting is world-renowned for achieving high artistic standards in the creation of unique and original lighting designs of beautiful American studio glass, handcrafted metals and other unique materials with exquisite hand-applied finishes.

We offer a comprehensive customization program that is designed entirely around you. Whether your goal is to create unique pieces of artwork, or to modify any one of our thousands of existing products to your specifications, no custom project is too big, including site-specific custom installations. Our highly experienced and collaborative team of designers, engineers and artisans have delivered exceptional lighting solutions for some of the most beautiful and diverse commercial markets around the world.

TWO VOLUMES. ONE VISION.

This comprehensive supplement unifies our recent introductions. Replacing previously issued supplements, it is intended to accompany — not replace — the 2023 Comprehensive Catalog, which remains current and essential.

Together, these two volumes present our complete portfolio: an evolving expression of lighting as works of art.

TABLE OF CONTENTS

Antonia	24	Mirage	104	Standard Finish Program	114
Aria	56	Mayu	16	Custom Projects	115
Arpeggio	90	Rain	38		
Blade	64	Selene	98		
Bristol	112	Volare	4		
Capri	82	Volo	48		
Embark	72	Waterfall	12		

We have made every effort to accurately represent the character of our finishes shown in this catalog, however, due to printing there may be variations. In addition, there may be variations in handmade finishes. To request a sample, please contact your Territory Manager or send an email to customerservice@finearthl.com. Fine Art Lamps®

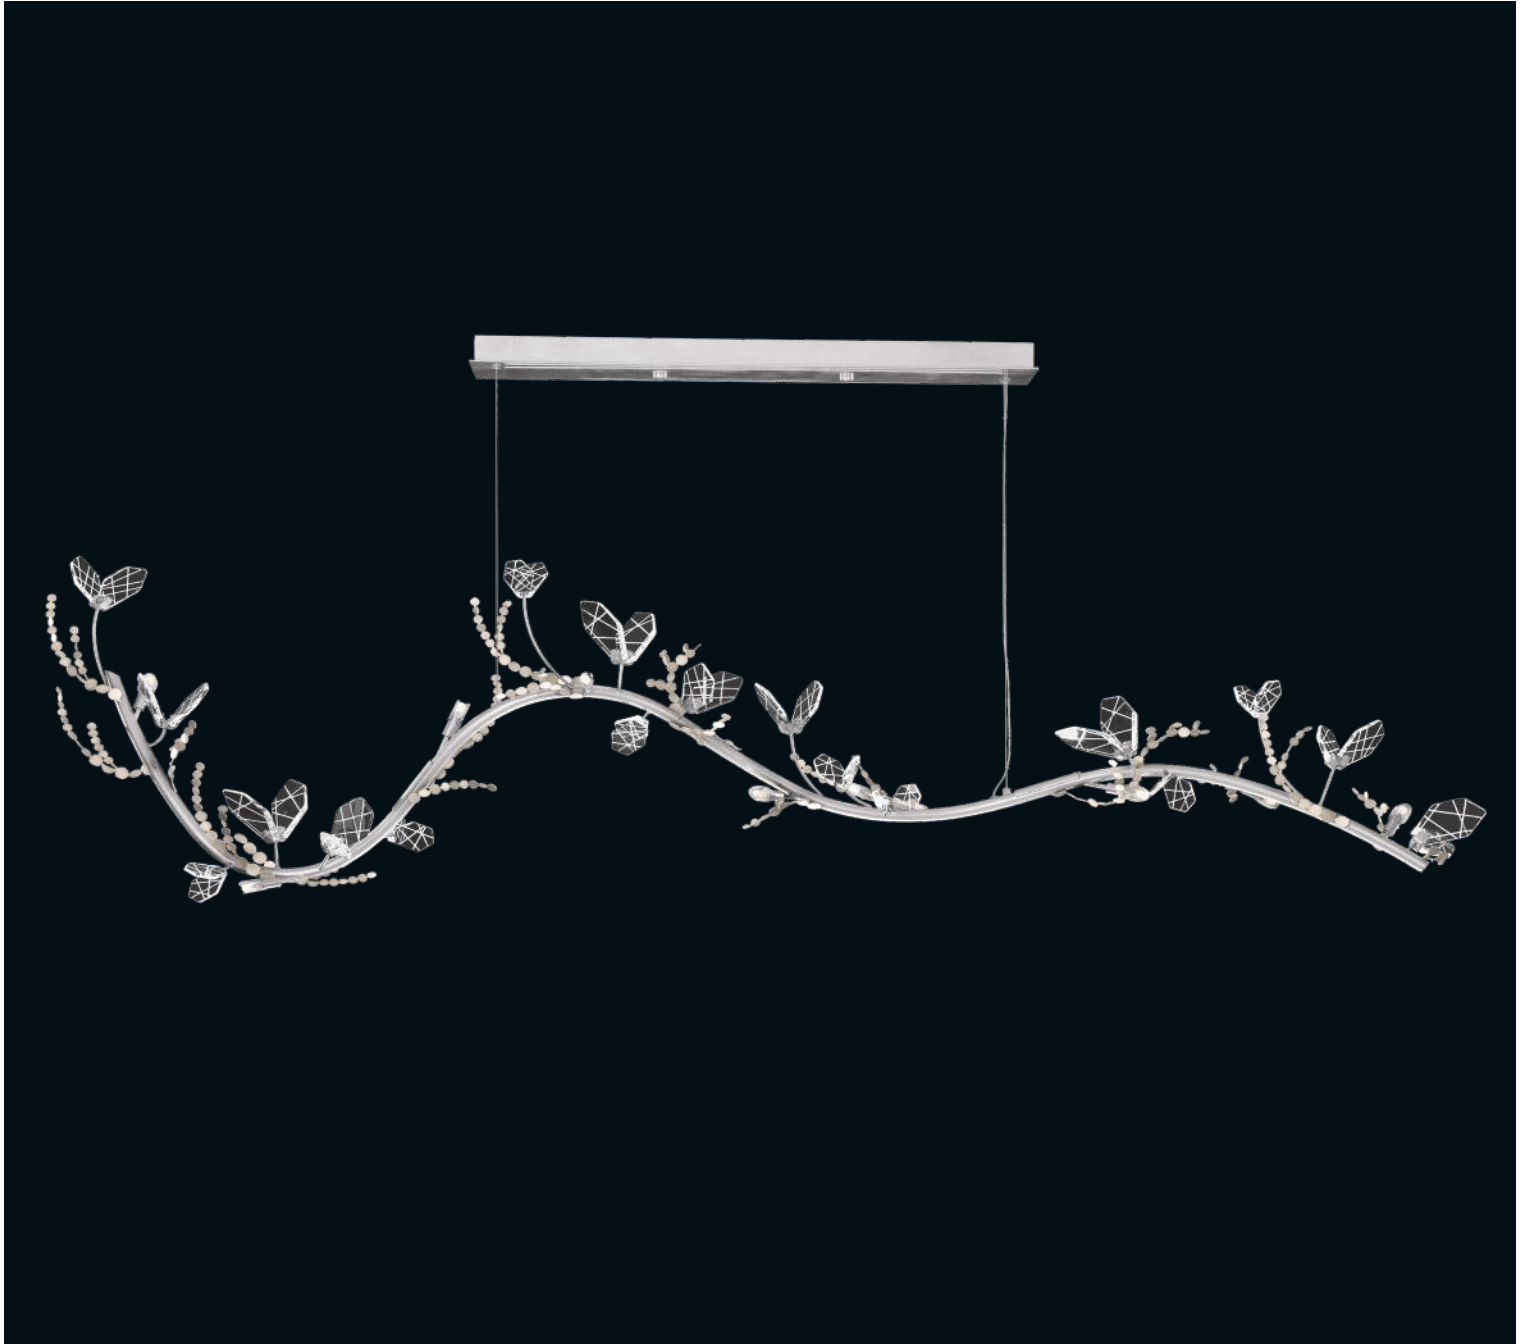

VOLARE

Inspired by the quiet poetry of nature, brought to life through sculptural mastery.

Custom-stylized crystal butterflies carry the fixture itself, wrapped around its form and gathering around the light to create a composition that feels alive with movement.

Each piece is meticulously handcrafted by our artisans, balancing organic movement with refined structure for a luminous expression of nature in perfect harmony.

Total RAW Lumens: 480

WATERFALL

Waterfall explores the fleeting instant where motion becomes form.

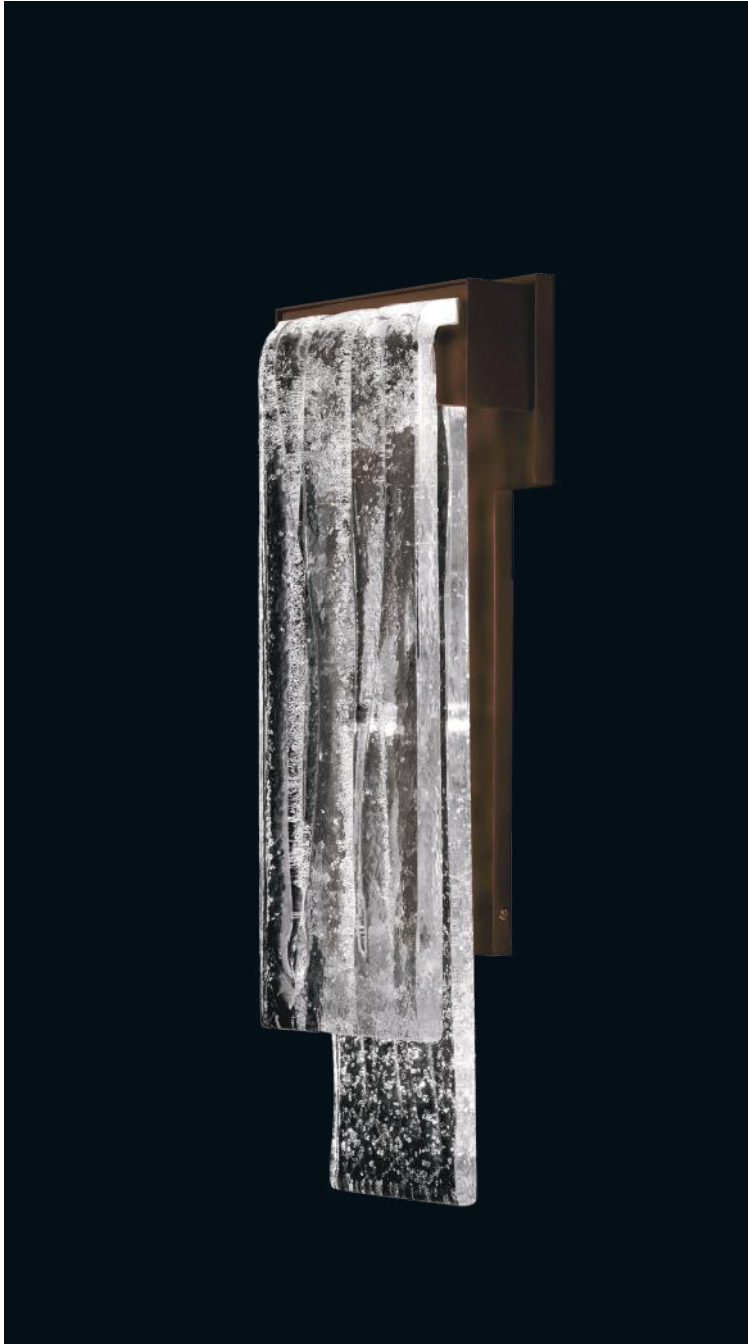

Inspired by the world's great cascades, each piece captures the raw energy of falling water, suspending it in a permanent state of hand-sculpted glass.

Crafted in our Miami studio, the collection captures the essence of a stream in mid-air, graceful, powerful, and endlessly fluid.

These sculptural fixtures bring raw texture and liquid light to both interior and exterior spaces.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

SIDE VIEW

ADDITIONAL INFORMATION

Suitable for indoor/outdoor use. Our 5 standard finishes are for indoor use only.
Model No. 100154 can only be mounted as a flush mount.

MAYU

“Mayu,” the Japanese word for cocoon, symbolizes softness, potential, and transformation—
perfectly capturing the spirit of this new Studio Glass collection.

Mayu celebrates the intricate art of glassblowing and the depth of artisan skill behind each piece.
Every delicate, hand-pulled gesture forms an organic, one-of-a-kind silhouette that radiates effortless beauty.
When illuminated, Mayu transforms a space the way twilight transforms the world enveloping it in gentle radiance,
guiding the eye like a flowing river, and revealing the quiet poetry of shadow and light.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

ANTONIA

Since the turn of the 20th century, when the wonder of electric light was thrust into the mainstream of civilization, it begged designers to integrate its newfound relevance into their work. One hundred years later, with new technology, the splendor of design continues to evolve, and we reinvent the classics of the past while still paying homage to the master's that came before.

The Antonia lifestyle “steps into the light” in her collaboration with Fine Art Handcrafted Lighting—a seamless marriage between two iconic design movements: Art Deco and Mid-Century Modern. Each handcrafted piece transitions from parchment to glass, from form to luminosity, revealing a quiet sophistication that transcends eras.

Originally defined by graceful, soft curves, Antonia now expands into new straight-line designs that bring a refined architectural presence to the collection. Offered in a range of elegant finishes and multiple parchment options—including the choice of no parchment—each piece embodies the perfect harmony of craftsmanship, artistry, and timeless design.

RAIN

This is Rain as you've never seen it—centuries-old techniques meet modern innovation, creating forms beautifully suspended in time. A cascade of glass droplets appears frozen mid-fall, each infused with an encapsulated mist that seems to swirl and bloom from within.

Amplified by an integrated LED, the light diffuses through fine veils of glass, producing an ethereal effect.

Achieving this delicate balance of form and feeling demands a level of craftsmanship possessed by only a few—
artisans whose specialized glasswork techniques are as mysterious as the nature they reflect.

Offered in Silver, Gold, or Copper drops, each paired with clear and black droplets,
complemented by a hand-applied ombré finish that enhances its luminous depth.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

VOLO

Volo captures the beauty of flight, the whisper of the wind, and the dance of light—an elegant expression of movement, balance, and elevation. Inspired by the graceful momentum of flight, the collection feels effortlessly weightless, with cascading geometric forms that appear to hover in midair. Each piece is crafted from exquisite studio glass in two striking textures: “hammered” rippling with bold depth and motion, and “linear” reflecting wind swept lines. Volo invites you to look upward, embrace the poetry of motion, and elevate any space with its sculptural elegance.

The collection evokes three distinct moods through its glass options: Clear, embodying the purity of open skies; Smoke, exuding moody twilight sophistication; and Amber, radiating the warmth of a setting sun. Complementing these are two refined metal finishes: Soft Gold, evoking morning light filtering through the sky, and Silver, embracing the quiet stillness of a cloudy day.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

BLADE

The Blade Collection, inspired by the bold geometry of chevron shapes and the sleek lines of modern aircrafts, brings a sense of motion and precision to lighting design. With forms reminiscent of a fleet of planes cutting through the sky, each piece captures the essence of aerodynamics and sophistication. The collection offers two distinct styles—one shaped like a chevron, the other embodying the sleek silhouette of an airplane—creating a striking visual impact.

Featuring cut crystal and integrated LEDs the Blade Collection merges sleek design with modern functionality. Available in Standard Black Iron or Champagne finish. Dark Walnut stained wood featured on select items adding warmth to the metal forms.

Blade brings a bold and refined touch to any space with its seamless blend of innovation and craftsmanship.

EMBARK

BARCLAY BUTERA
COUTURE

Discover the allure of far-off lands with the Embark Collection by Barclay Butera, a stunning lighting series inspired by Barclay Butera's travel to some of the world's most exotic and breathtaking destinations. From the sun-soaked coasts of Morocco to the cliffside vistas of Santorini and the timeless charm of the Amalfi Coast, each piece in this collection carries the essence of these locales, blending global elegance with modern craftsmanship. Immerse yourself in Butera's vision within the Embark Collection—a celebration of light, texture, and the beauty of travel—where each fixture transforms your space into a journey of waves, sails, and the allure of distant shores.

Stunning shapes are created through two different processes with studio glass in Miami, Florida: blown glass waves, and kiln-formed sails. In three distinct colors: crisp clear glass for a contemporary, clean aesthetic, warm amber hues that evoke a moody atmosphere, and cool blue tones reminiscent of the sea, paying homage to a maritime style. Offered in three stunning finishes Standard Gold Leaf, Standard Silver Leaf, and white lacquer.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings, and bubbles are inherited in the process and are the characteristics that distinguish handmade studio glass from mass produced glass work.

CAPRI

Named after the city known for its enchanting, winding roads, the Capri collection mimics this with the zigzagging flow of its components, offering a path of light that is as capricious and captivating as the island itself.

Capri re-imagines the timeless elegance of crystal strands with a modern architectural twist. A symphony of precision-cut crystals, interspersed with brass elements, are set horizontally and vertically to enhance their interplay with the integrated lighting, adding a dynamic animation reminiscent of the lively sparkle of the Mediterranean Sea surrounding Capri.

Capri is a collection of centerpieces that bathe every room in the golden hues of an Italian sunset. Each piece is an invitation to experience the allure of Capri, transforming spaces with its bold yet elegant presence.

ARPEGGIO

Inspired by the soulful rhythms of jazz, Arpeggio is an improvisation of light and motion—
where melody meets mastery in a chorus of visual delight.

Like cascading notes, its fused glass panels create a rhythmic flow,
layering clear and multi-tonal glass in a captivating harmony of texture and glow.

Vintage at heart yet strikingly modern, Arpeggio brings bold artistry to any space with its layered textures and subtle Art Deco flair. Some pieces feature over 200 hand-fused glass panels, transforming each design into an elegant, illuminated composition. Here, light doesn't just shine—it swings, soars, and performs.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

MIRAGE

Mirage, in its essence, symbolizes a vision so enchanting that it captivates and inspires. The Mirage collection encapsulates this magic, embodying the allure of an oasis where the beautiful and the ethereal converge. This collection does not merely mimic the appearance of luxury; it is an actualization of it in your living space—bringing the splendor of an elegant mirage to life.

With its inviting swirls in the glass echoing the gentle whirl of a desert zephyr, Mirage transforms light into a visual poetry that dances across the room. It presents a reality where the charm of shagreen and the elegance of mixed metals are not just a figment of imagination but tangible, customizable luxuries that elevate the everyday. In every way, Mirage is a testament to the beauty of dreams made real, an enduring emblem of refined taste and sophistication.

OUR STUDIO GLASS IS INDIVIDUALLY HANDMADE.

In all studio glass, slight variations in shape, size, markings and bubbles are inherent in the process, and are the characteristics that distinguish handmade studio art glass from mass produced glass work.

BRISTOL

Bristol is thoughtfully designed to be bold and yet quietly subtle. The seeded glass provides a soft internal glow while the overlay of reeded panels playfully refracts the light. This transitional collection is offered in our outdoor hand rubbed black iron finish.

CUSTOMIZATION

Bespoke Design | Metal Working | Studio Glass | Finishing

We offer you the freedom and flexibility to develop customized products and create original designs to meet your most discerning tastes and exacting specs. The process is one of total artistic collaboration between designer, architect, specifier, and maker to bring about the ultimate refinement of handcrafted lighting. You will receive a spectacular work of art sure to exceed your expectations—on time and on budget.

We provide a skilled team of lighting professionals that consult with you in developing a lighting plan to enhance the space, highlight the architectural features, and achieve the ambiance you desire. We offer a portfolio of thousands of original designs in a vast array of styling from which to choose, and as a true vertical manufacturer in America, we can customize our designs to meet your unique requirements.

Our experience, design and creativity allow us to partner in creating bespoke, iconic pieces at any scale, starting with just a sketch, inspirational photo, or idea. We can handle any size order. There are no minimum quantity requirements. We meet all ADA requirements. And we utilize our international partnerships and logistics expertise to bring additional sources of materials and value-engineering to meet your specific design and budget needs.

As an international company serving more than 70 countries, we offer international wiring certifications including: UL/ETL (US), CSA (Canada), CE, SASO, and GOST.

Contact Customer Service or Territory manager to start your next custom project.
