# IMPORTANT TERMS

**DIGITAL MARKETING** - Digital marketing, also called online marketing, is the promotion of brands to connect with potential customers using the internet and other forms of digital communication.

**DIGITAL PRODUCTS** - A digital product is a digital good that is created, sold, and purchased online. It's any product that is transferred electronically to the customer.

**PRIVATE LABEL RIGHTS (PLR)** - is a licensing agreement that grants someone the right to sell an asset like a document, video, software, eBook, audio, or other files. As the seller of these rights, you're granting someone else permission to copy your work and resell it with their name on it
