INTRODUCTION

First started in 2003 in Batam, Indonesia, as a HVAC contractor, then our second company in Surabaya, MasterCool has now become a trusted one-stop solution for HVAC services across five locations nationwide. With a focus on cutting-edge technology, energy efficiency, and IT integration, MasterCool delivers innovative solutions that prioritize sustainability and performance. Whether for industrial, commercial, or residential needs, the company is dedicated to enhancing HVAC systems while reducing energy consumption, positioning itself as a leader in the Indonesian market.

Batam | Surabaya | Cikarang | Bali | Jakarta

OUR IDENTITY

Planet

We promote products that are driven towards sustainable solutions that align with national and global green goals.

People

Through various CSR and growth programs, our network is committed to consistently contributing to society and making a positive impact.

OUR VISION

To lead Indonesia's HVAC industry through continuous business network expansion and technological innovation.

OUR MISSION

Quality

Provide quality products and services that are durable, sustainable and efficient for our customers.

Network

Grow a global network to interconnect our clients to collaborators that can help develop their business.

Innovation

Integrate IT in our business processes to enable client transparency and continuous collaboration with leading global partners to develop innovative products.

www.mastercool.id

OUR ADVANTAGE

We developed our proprietary **MasterSystem**, an IT-driven platform that provides transparent reporting, giving our customers real-time visibility into project progress at their own discretion.

OUR TEAM

With over 20 years of industry experience, our technicians are highly trained and certified in various disciplines:

- ✓ Certified by BNSP
- ✓ K3 Electrician Certification
- ✓ HSE Officer Certification
- ✓ Scaffolder certified by the Indonesian Ministry of Manpower
- ✓ Trained in Belzona product applications
- ✓ Daikin Official Service certification
- ✓ Panasonic Installation, Troubleshooting & Maintenance
- ✓ York Chiller Training Course
- ✓ VRV/VRF Engineering Training
- ✓ Certified Height Operator
- ✓ HSE Awareness

OUR SERVICES

Sales & Installation

Offering expert consultation on HVAC types and brands, ensuring the right system for your needs, followed by professional installation for optimal performance.

Home & Office Air Conditioning

Providing efficient, reliable air conditioning solutions tailored for homes and offices, enhancing comfort and energy savings.

Industrial Air Conditioning

Robust, large-scale cooling systems designed to meet the demands of industrial environments, ensuring optimal performance and productivity.

Preventive Maintenance Services

Regular upkeep to extend HVAC lifespan, improve performance, and prevent costly repairs.

HVAC Systems Design Assist Services

Collaborative design support to create efficient, innovative, and customized HVAC solutions for your needs.

Customer Education

Empowering clients with knowledge to maximize their HVAC system's efficiency and longevity.
