IAS-71MS10U-P

Pre-Assembled Bucket Seats

If you're thinking about having your original bucket seats reupholstered, consider these pre-assembled bucket seats from PUI instead! Seat backs, side covers and seat tracks are included. Just open the box and bolt them in. It's that simple. This saves hours of time and money over buying seat covers, foam and paying an interior shop a premium price to upholster your seats. Available in all factory PUI colors.

OER Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass and recycled plastics. These paints are designed to match our colored PUI interior products. 12oz aerosol can.

RTX-70C-CVL-X

Dakota Digital RTX Gauge Kits

The RTX series is the latest from Dakota Digital, focused on retaining that stock look without sacrificing the late-model features you love. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED back lighting comes on in your favorite color scheme, all doubts will be removed.

QuietRide AcoustiShield

The QuietRide AcoustiShield kit is a multi-stage automotive and sound dampening system to give your muscle car the quiet riding comfort found in today's new cars. AcoustiSHIELD kits are designed on current state of the art auto acoustic technology to insulate and control the noise, vibration and heat in the passenger cabin. Kits are pre-cut and come with easy to follow installation instructions: Everything you need to do the job right!

The first stage consists of pre-trimmed, self-adhesive sound damper pads which are bonded to strategically located trouble spots to control body panel vibration and noise. These spots are mapped and labeled in the detailed instructions.

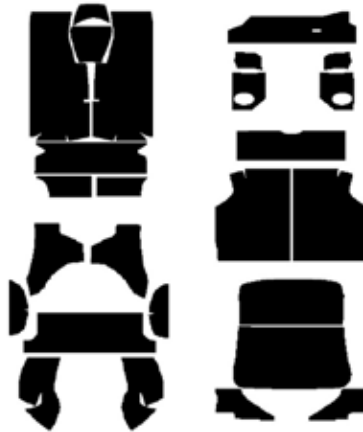

Complete Kits include Body, Cowl, Floor, Roof and Trunk Floor Kits.

Flatline Barriers

Flatline Barriers is the new leader in automotive thermal acoustic insulation products. Utilizing cutting edge technology and materials, Flatline is able to offer a solution that significantly reduces unwanted sound and heat. Did we mention that the product is ultra-lightweight as well? Extremely lighter than other insulation products, packing the same punch in sound and heat control properties. The material is offered in pre-cut kits and universal options. Our designs were created by in house automotive enthusiasts and DIYers. Making our kits easy to install, logical in layout and highly effective. Provided to you at an extreme value.

Looking to replace your Monte Carlo or Monte Carlo carpet with something that meets your quality and originality standards? Look no further than our ACC brand OEM carpet sets. We are proud to offer these carpets in several styles, from factory original 80/20 rayon and nylon looped blend (cut pile for 1974-77 models) to our new ESSEX Style for those who are looking for a "modern" auto style carpet seen in high end Mercedes or Porsche cars, to our "Mass Backing" carpet sets which offer factory installed sound deadening material built-in for an overall quieter, cooler and more comfortable interior. ALL of our ACC brand carpets are factory molded with correct heel pad & dimmer switch grommet for a model specific fit.

Hurst Shifter & Installation Kit

This complete Hurst Competition Plus shifter and linkage kit includes a famous Hurst Competition Plus shifter, chrome Hurst shifter handle and white shifter ball with 4 speed pattern as well as a complete Hurst installation kit with all rods, levers, swivels and hardware. This kit will provide you with that vintage muscle car look as well as provide reliable shifts every time!

HURST-KITA69M 1970-72 Muncie SEE WEB

Part Notes: Please verify that the year of your transmission matches the year of your car before ordering. 1970 to 1972 Muncie 4-speed transmissions can be identified from later models by the way the transmission arms attach. Early Muncie side covers had a stud and the shift arm attached with a nut on the stud while the 1970 and later model side covers had a hole and the shift arms attached with a bolt.

USA-74CH69

USA 740AM/FM 300 Watts

The USA-740 offers the same classic look that Custom AutoSound has always been known for with today's latest features. Now, with built-in Bluetooth (microphone included), answer calls and get Bluetooth streaming music from your Bluetooth capable phone or Bluetooth compatible device. A solid 300-watt peak power should be all the juice you need, yet the USA-740 has Hi 4 volt, 4 channel RCA pre-outs and a subwoofer RCA pre-out for additional amplifiers. The USB input allows you to plug in a USB flash drive for playback of MP3/WMA/FLAC/WAV song files. A front 3.5mm mini jack auxiliary audio input and a rear RCA auxiliary audio input provide versatility for options like satellite radio, iPod or any portable player you wish to use. Match the dominant color of your instrument cluster with user selectable multiple LCD color choices with LCD dimmer control. The AM/FM RDS tuner shows station, song and artist on the LCD display. For those of us committed to music collections on compact disc, the USA-740 fully controls the optional Custom AutoSound CD-1 CD player. Classic style with today's sound and performance taking every road and curve with you in your Monte Carlo.

USA-230 AM/FM 200 Watts

A great look and sound at an awesome price. This Concours series USA-230 radio has no cassette but comes with Auxiliary Input for iPod, MP3, Satellite radio, etc. Classic features with a classic look. These exciting features include:

- AM/FM Stereo - 200 Watts (4 x 50) - Auxiliary Input
- Digital Clock - Electronic Tuner - 30 Pre-sets (12AM-18FM)
- 4 Channel RCA Pre-Outs - 4 Way Fader - Power Antenna Lead

USA-230CH69	1970-72 All.....	SEE WEB
-------------	------------------	---------

Secret Audio SST

Secretaudio SST is a hidden audio system that offers great flexibility for mounting in any type of vehicle. The main receiver/amplifier unit is usually hidden under the seat or behind the dash. A 10ft cord from the Tuner/Amp plugs into a LCD display. The system can be operated from up to 40 feet away with the included RF (radio frequency remote.)

Included with the system is a flush mount bezel for console or dash mounting. The small dimensions of the flush mount system allow you to install the LCD display almost anywhere. The LCD also comes with a bracket mount for easy installation in the glove box, under the dash, in the ashtray, sunvisor, console or wherever you choose. Since its only 1" deep its especially handy for custom or streetrod applications where there may be wiring or ducting routed behind the panels you wish to utilize for mounting. When your installation is finished you'll be rewarded with a quality professionally installed look.

Features:

- AM/FM Stereo 200 watts 4x50 - RF Remote Control (radio frequency no line of sight required, up to 40' range)
- USB MP3/WMA Flash Drive Player - iPod® Direct Control Interface (built-into tuner/amp unit) iPod Docking Cable Included
- Alpha Numeric LCD Display Shows Artist / Song Titles for USB, iPod® and Satellite Radio
- Satellite Radio Input (for optional Sirius® satellite radio tuner) - Direct CD Changer Control (CD changer optional)
- Auxiliary Audio Input - 4 Channel 3 Volt RCA Pre-Outs (for optional Amplifiers)
- Subwoofer Pre-Input (for optional Subwoofer (Amplifier)
- Electronic Volume, Bass, Treble, Balance, Fader - 5 Selectable iEQ Curves - pop/jazz/classic/beat/rock
- Zero Memory Current Draw (will not drain car battery when unit not in use) - 24 Station pre-sets (18FM / 6AM)
- 10 Foot Cable from LCD Control Panel to Black Box (tuner/amp unit) - Power Antenna 12V Trigger Lead
- Blue LED Illumination on Buttons and LCD Display with Contrast Control
- LCD Flush Mount Trim Bezel Included - LCD Swivel Mount Bracket Included

------------	---------------	---------

Custom Autosound USA-630 AM/FM 240 Watts

The USA-630 is the pinnacle of 30 years of evolution in Custom Autosound's quest for the perfect classic car radio. This radio has large OEM style push-buttons that give a perfect look in a classic dash. Although it looks classic it has the latest modern features. USB input on the back of the radio. This jack is on an 18" extension which allows you to place it in the glove box or ash tray for easy access (no unsightly wires or plugs hanging out of the front of the radio). The new alpha numeric display (30% larger than previous models) shows the song/artist/album (id3) titles during playback of MP3/WMA files. With the built-in CD controller you have complete control (no FM modulation) of CAS's 10 disc CD changer. This same CD controller also facilitates the optional iCAMKIT iPod® interface that turns your iPod on/off and charges it while giving you control to advance songs or playlist from the buttons on the radio. A great feature so you can keep the iPod hidden away in your glove box or console.

With 240 watts the radio should have all the power you may need, if you want more there are four pre-outs jacks on the back of the radio for optional amplifiers. The back of the radio also has auxiliary audio input for satellite radio or any portable player you may wish to use.

- AM-FM Stereo - USA/Euro Tuner - Power Antenna Lead - Alpha Numeric id3 Display for MP3/WMA files - Electronic Tuning and Volume Control - 4 way Fader - Left Right Balance - Digital Clock - 16 Pre-sets (12FM-4AM) - 4 Channel RCA Pre-outs
- Separate Bass and Treble - 2 Channel RCA Auxiliary Input for Satellite / iPod etc.

AAR-70-SS

Antique Auto Radios

If you are looking for a radio that sounds great and looks just like your original this Antique Auto Radio is perfect for you! Max power 180 watts RMS, 45W x 4 MOSFET on board power amplifier. Analog controls look and feel just like your original. AM dial scale in foreground looks original with an FM dial scale in background. All controls easily accessible. Volume, bass, treble, balance, fader and tuning from original looking controls. Digitally tuned AM/FM/Stereo front end provides stable, high quality reception. Shafts are the original size, for quick and accurate mounting just like your original. Also included are additional line outs and output options: 3 RCA jacks for left channel, right channel and sub-woofer, a 6 foot 3.5mm male-to-male auxiliary cable, 3.5 mm phone jack for input from iPod, satellite radio or MP3 player, switch selectable for 1,2,3 or 4 speakers, switch selectable for North America or Europe mode. Doesn't include a remote or a USB for a flashdrive or SD card port.

All Antique Automobile Radios now feature built-in Bluetooth 3.0 EDR compliance; Place and answer calls or stream your favorite programs while maintaining the original appearance! Includes a built-in microphone for HFP (hands free profile calling). HSP, A2DP, AVRCP profiles are also supported.

The System by Custom Autosound

The System solves the age old problem of where to put speakers in classics, customs and streetrods. The System allows you to keep the integrity of your vehicle intact yet enjoy quality sound like many of us have in our new cars. Satellite speakers look like AC vents and can be mounted under the dash, on the kickpanels or even the back package tray. The woofer is optionally mounted under the seat but can be mounted in the trunk if space requires it.

CAS-SYSTEM1

System 1

Flat active aluminum subwoofer enclosure with 3 channel amplifier. Two 3" mid-tweeter satellite speakers in die cast metal housings and 8" woofer. Wire remote for bass level. Amplifier installation kit included.
Amplifier power: 150 watt subwoofer / 2x50 watt mid/tweeter
Dimensions: Amp / Sub: 2.8" x 13.5" x 9.8"
Satellite: 3.2" x 3.75"

CAS-SYSTEM1 System 1..... SEE WEB

BSD-CHL-682

Backseat Driver

Add some bottom end power to your system with our custom bass speaker panel. This panel comes equipped with two Custom Autosound 8" subwoofers and the Boss 500 watt amp. Panel mounts to the back of the rear seat from the trunk. All cables & wires needed are included for a quick and easy install!

1970-1972 Monte Carlo Ground Up Exclusive 4 Wheel Disc Brake Conversions

Upgrading your Monte Carlo to four-wheel disc brakes is one of the easiest and most cost-effective things you can do for more driving enjoyment and increased safety. Classic Monte Carlos had great performance and styling from the factory but left a lot to be desired in the braking department. Upgrade your outdated braking system today with this convenient Ground Up Exclusive four-wheel disc brake kit and cruise with peace of mind. This kit is complete with a front brake kit and a rear brake kit.

HURST-1745000

HURST-5671510

Hurst Roll Control Line Lock

Used primarily in drag racing to provide positive locking action to the front wheels of race cars, reducing the chance of "Rolling the Lights" and producing more effective "Burn Outs" for heating up the tires. Rigorous testing has proved a 1/100,000 of a second release time and vibration tests have seen up to 30 G's applied without mechanical failure. Adaptable to most domestic and import hydraulic brake systems.

UMI Corner Max Handling Kit

UMI's Corner Max front end kits are a comprehensive system with our best corner carving parts under one easy to find part number. The Corner Max system combines geometry corrected a-arms with tall ball joints, higher rate springs, UMI rebound adjustable monotube shocks, heavy duty sway bar and a bump steer kit. The foundation of the kit includes our coilover-only lower a-arms featuring caster improvement, tall ball joints and the ability to remove the spring and shock without taking the spindle apart. The upper a-arm features rod ends for smooth operation and the ability to adjust without shims. The 1-5/16th inch sway bar upgrade complete with UMI's fabricated end links reduces body roll and helps speed transitions. Racing coilover springs are paired with UMI's rebound adjustable coilover monotube shocks. Fine tuning is accomplished with a UMI bump steer kit.

Insert color choice in __ R = Red B = Black

Tubular Control Arm and Forged Spindle Kit

The DSE spindle is 1-1/2 inches taller than the stock Monte Carlo spindle and provides 2 inches of drop from stock height. The taller spindle height improves handling by modifying the camber curve resulting in a negative camber gain during suspension compression. The stock steering arms mount in the optimal location to minimize bump steer. Detroit Speed's tubular upper control arms provide increased strength and additional positive caster. DSE's lower tubular control arms feature a robust tubular design with gussets and a cross brace. Uppers and lowers feature five axis laser cut tube ends and ball joint pockets for a precise fit.

DSE030105

DSE031714

DSE030105 1970-72 All..... SEE WEB

Installation should be followed by a professional alignment.

When using stock disc brakes, the stock caliper brackets will have to be notched out slightly to fit the DSE spindles. Ships Oversized. Not eligible for free shipping. No Volume Discount.

DSE Camber/Caster Kit

This kit allows you to adjust camber easily with our one-piece slotted camber shims. Each shim is machined from 6061 aluminum and is then anodized black for durability. Includes four 1/16" shims, four 1/8" shims and two 1/4" shims.

UCA6472-KIT

Economy Tubular Control Arms Upper/Lower

Economy upper and lower control arms come complete with ball joints and cross shafts and sway bar endlinks. Improve your front suspension with increased caster built-into the arm. Arms are made from large diameter DOM tubing. These specially made arms are designed to fix camber angle problems caused from using drop spindles or drop coils. This set is for the budget minded guy looking to install a set of upper and lower tubular arms without breaking the bank.

UMI Upper & Lower Tubular A-Arms

Improve the street and track performance of your A-body and achieve that precise Pro-Touring feel by adding a set of fabricated tubular A-Arms. The stock geometry lower a-arms, which work with most popular springs and coil-overs, feature tough tubular construction with greasable polyurethane bushings for precise handling and smooth suspension motion. Optional Delrin® bushings offer additional precision and decreased friction. The ball joint mount is angled slightly from stock to permit usage with lowered vehicles and the design offers additional wheel clearance. The tubular upper a-arms feature Delrin® bushings as well as billet chromoly cross shafts. The relocated ball joint mounting pad increases caster, steering feel and stability without excessive shims and can be loaded with 1/2" taller upper ball joints to improve camber performance. The ultra tough red or black powder coat finish guarantees your performance parts stay looking new. Included with each kit are recommended alignment specs along with detailed installation instructions.

UMI-3032-1-__ 1978-88 Tubular Lower Delrin Bushings .5" Taller Ball Joint SEE WEB

Tall Ball Joint Option: UMI is proud to offer a number of tall ball joint options. In addition to standard height ball joints, we offer 0.5" tall lower and both 0.5" and 0.9" tall upper. Additional ball joint height functions the same as adding a taller spindle at a fraction of the cost. Drag and cruising oriented cars work fine with standard height while tall ball joints optimize cornering ability. No Volume Discount. Not eligible for free shipping.

UMI Front & Rear Sway Bars

UMI Performance Monte Carlo solid sway bars are designed to reduce body roll, understeer and increase cornering capabilities resulting in a more balanced suspension. UMI Performance sway bars are manufactured from 4140 chrome moly steel and formed as one piece to ensure maximum strength and performance. The rear sway bar is heat treated to maintain longer memory than a cold bent sway bar. The front sway bar is CNC bent for a precision fit. Comes with poly end links and bushings. Available powder coated bright red or gloss black for a durable long lasting finish. Insert your color choice at the end of the part number in __. R = Red B = Black

UMI Performance Rear Control Arms

UMI's direct replacement lower control arms are designed to improve traction by replacing worn out factory bushings and weak stamped material. UMI offers a large variety of rear control arms designed for virtually any application. All control arms feature reinforced sway bar holes and are supplied with polyurethane bushings or Teflon® lined rod ends. Roto-Joints, which offer a good compromise between firm polyurethane bushings, soft rubber bushings and spherical rod ends are also available. The upper control arms are direct replacements to minimize wheel hop, improve cornering and help track consistency. They feature TIG and MIG welded construction and are assembled with polyurethane bushings, spherical rod ends or Roto-Joints.

UMI-4022-B

UMI-3020-R

UMI Lower Control Lift Bars

The UMI rear lift bars replace the factory rear control arms adding traction while not changing vehicle ride height. Lift bars work with axle torque to load the chassis of the car, forcing the rear wheels downward pushing the tires into the ground, resulting in harder launches and improved 60-foot times. Lift bars are designed to improve traction and reduce unwanted wheel hop. Lift bars feature greaseable polyurethane bushings which are designed to reduce bushing deflection while being street able. Lift bar kit features the correct provisions for adding a stock or aftermarket sway bar, the sway bar holes are placed in the correct pattern to maintain the sway bar level with the rear end while the lift bar is in the lowest hole. The rear mounting brackets feature three settings that allow the lift bar to be lowered 2, 2-3/4 or 3-1/4.

UMI-4012-B

UMI Lower Control Arm Relocation Kits

Optimize your Monte Carlo's instant center and improve forward traction by lowering the rear of the lower control arm 2, 2-3/4 or 3-1/4. These brackets are CAD designed to accommodate factory lower control arms as well as all popular aftermarket styles. Robust flanges inside the brackets add reinforcement and ensure factory bushings bolt right in. Brackets installed can provide an average 0.10 second (or better) 60-foot reduction and an overall improvement in launch consistency. Brackets are constructed of 3/16 mild steel and CNC laser cut for precision tolerances. Relocation brackets are designed to work on both lowered and non-lowered vehicles and feature multiple settings to optimize vehicle handling and traction.

UMI-4028-R

UMI Trailing Arm Reinforcements/Frame Braces

Trailing arm mount braces are designed to reinforce the upper and lower front control arm mounts on your classic Monte Carlo. The more power your ride makes the better chance of bending or breaking the rear control arm mounts. These tubular reinforcements tie the upper and lower control arm mounts together for added strength and driving performance. Control arm braces are manufactured from DOM steel; TIG welded and feature adjustment for a perfect fit on all Monte Carlos. Kit includes new longer Grade 8 hardware, nuts and washers.

DSE042201

DSE Tubular Rear Sway Bar Kit

Unlike the factory A body sway bar, DSE's rear sway bar attaches to the rear end housing and to the chassis crossmember as opposed to the stock lower control arm mounted bar. By using the chassis to stabilize the rear axle as opposed to the stock lower control arm, deflection is minimized as the car is placed under a heavy cornering load.

DSE Swivel Link Kit

DSE's unique A/G Body rear trailing links incorporate our patented Swivel-Link™ system. These Swivel-Links™ eliminate bind and allows the suspension to fully articulate without the use of noisy spherical rod ends. Swivel-Link™ Rear Links allow for easy pinion angle adjustment for improved traction and lower driveline vibrations.

Lakewood Bellhousing

The Lakewood 15000LKW bellhousing connects Monte Carlo small and big block engines to transmissions utilizing the standard GM pattern such as the Muncie, Saginaw, Borg Warner T10 and Tremec TKO transmissions. This bellhousing is hydro formed to fit '58-'87 GM full and midsized cars, 67-81 F-body vehicles and 68-79 Novas. This bellhousing is S.F.I. 6.1 certified which is required by many sanctioning bodies for cars running 11.49 or faster in the quarter mile. The Lakewood 15000 comes complete with engine block plate and Grade 8 mounting hardware.

Hurst Shifter & Installation Kit

This complete Hurst Competition Plus shifter and linkage kit includes a famous Hurst Competition Plus shifter, chrome Hurst shifter handle and white shifter ball with 4 speed pattern as well as a complete Hurst installation kit with all rods, levers, swivels and hardware. This kit will provide you with that vintage muscle car look as well as provide reliable shifts every time!

HURST-KITA69M 1970-72 Muncie SEE WEB

Part Notes: Please verify that the year of your transmission matches the year of your car before ordering. 1970 Muncie 4-speed transmissions can be identified from later models by the way the transmission arms attach. Early Muncie side covers had a stud and the shift arm attached with a nut on the stud while the 1970 and later model side covers had a hole and the shift arms attached with a bolt.

FHM-69K

Hurst/Muncie Shifter Kit

This Ground Up exclusive Hurst/Muncie shifter kit allows you to keep an original style Muncie shifter handle and mate it to a Hurst shifter and linkage. Original Muncie shifters performed very poorly, so we created this exclusive kit to keep your car looking original while utilizing the strength and reliability of a bullet proof Hurst Competition Plus shifter. Everything under the shifter handle is covered by your shifter boot so no one will be able to tell it isn't stock.

BGM Automatic Floor Shifters

From the originator of high performance manual shifters our line of performance, street and racing shifters for automatic transmissions won't let you down. With classic good looks and proven mechanical designs giving choices of either positive ratcheting actions or gated racing shifters, provide positive shifts guaranteeing you won't miss a shift when it counts.

Starshifter

Features include NHRA/ IHRA reverse lockout, backup light switch, neutral safety switch, polished T-handle. Cable operated for quick installation and accurate shifting.

BM-80675 All 2&3 SpeedSEE WEB

Megashifter

The BGM Megashifter has it all, form, function and classic style. This all adds up to bring you a quality shifter that's been one of the most popular automatic shifters of all time. First off let's talk function. The Megashifter's positive ratcheting function won't allow you to over shift and miss a gear at that critical moment, along with the reverse lockout feature meets NHRA/ IHRA safety rules for those weekend grudge races at the track. The look and feel of the T-handle and accordion style shift boot really shows off the racing heritage of the Megashifter.

BM-80690 All 2,3,4 SpeedSEE WEB

Quicksilver

The BGM Quicksilver features a ratcheting action for positive shifts, Chrome Knob, neutral safety switch, NHRA/IHRA approved reverse lockout.

BM-80683 All 2,3,4 SpeedSEE WEB

Hammer

The Hammer shifter may just be the most comfortable and versatile shifter available. The unique design of the shift handle easily fits all sizes of hands providing the best wrist angle and feel when shifting.

BM-80885 All 2,3,4 SpeedSEE WEB

HOL-19-444

HOL-526-10

1970-88 Sniper Fuel Injection Fuel Tanks

Converting the carbureted fuel system on your car or truck over to EFI can be a daunting task. We have made this conversion easy with our complete tank and fuel system kits! The heart of a fuel system begins with the fuel tank. When converting to EFI, it is crucial that you do not contaminate your new parts with dirt, rust, and sludge from an old fuel tank. Sniper fuel tanks are designed to meet or exceed the quality of your factory fuel tank. Sniper tanks are made from steel with a galvanized finish that are manufactured to the OEM specifications for your Monte Carlo.

- HOL-12835 Big Block..... SEE WEB

Note: Not compatible with methanol or alcohol. Cannot be used with fuel injection systems.

QF-30-350QFT

Quick Fuel Technology Fuel Pumps

For the street cruiser, it's tough to beat the simplicity and reliability of a mechanical fuel pump. Quick Fuel Technology's mechanical pumps flow 110 gallons per hour and utilize lightweight aluminum housings. They feature integrated shutoff valves that are preset at 6.5- to 8 psi, eliminating the need for a separate pressure regulator. For added installation flexibility, the pump casting can be rotated to accommodate various plumbing configurations. 3/8" NPT threads. Gasoline only.

Hooker Cast Iron LS Exhaust Manifolds

Hooker cast iron exhaust manifolds have been designed to hug close to the engine block so they fit into a wide variety of replacement and engine-swap applications. Their contoured design aims the exhaust directly at the exit port for improved flow. Being cast iron means they will provide years of leak-free performance with less under hood noise than traditional headers. Plus, their shorty design means you can route exhaust tubing close to your frame/floor pan for maximum ground clearance. "Hook" up your GM LS engine with Hooker cast iron manifolds today!

- Intended for all GM LS (except LS7 and LS9) engine swap applications where durability, quiet operation, emissions compliance and leak-free sealing is desired
- Cast from Hi-Silicon-Moly Ductile Iron to provide durability and corrosion resistance
- 2.25-inch outlet diameter
- Free-flowing for good performance and catalytic converter efficiency
- Recommended for strong performance on engines making up to 500 horsepower

Hooker Competition Headers

Hooker Competition headers offer the best value in the high performance header market. Designed for the value-conscious buyer who is running either a "stock" or "mildly-modified" engine, these headers offer premium features at a very competitive price. Made of durable 16 gauge mild steel tubing, header design utilizes a long transition collector to reduce back pressure and increase exhaust flow. A perfect sealing surface is assured with the 5/16" machined flanges, with welded O-ring seals. Experience has proven that this flange size is ideal to maintain header integrity and be pliable enough to seal each exhaust port. Tubing is mandrel-bent to maintain metal strength and provide consistent tube diameter at radii to maximize performance.

All necessary hardware included for a complete installation · Designed for easy, trouble-free fit · Industry's best welds for durability · Long transition collector for decreased back pressure · Tuned-length primary tubes for street performance

Aluminum Radiators by Champion Cooling Systems

These aluminum radiators are made to the highest of standards paired with unequaled quality precision and workmanship. The highest of aluminum grades available are used in all manufacturing processes. All Champion aluminum radiators are constructed using 100% welded seams brazed core technology and absolutely no epoxy. All Champion radiators come with a lifetime limited warranty and are made to install with little or no modifications using your original mounts giving you the confidence you deserve. Choose from the following series:

EC Economy Core Series - 2Row - Two Rows of 3/4 inch Tubes = Approx. 400-600+ Horsepower Cooling Capacity.
 CC Champion Core Series - 3Row - Three Rows of 5/8 inch Tubes = Approx. 600-800+ Horsepower Cooling Capacity.
 MC Monster Core Series - 4Row - Four Rows of 5/8 inch Tubes = Approx. 800-1200+ Horsepower Cooling Capacity.

Requires 2 - 14" fans +2 relays

Note: 10 and 12 inch fans require one relay, 14 and 16 inch fans require two relays.

1970-72 Aluminum Radiator

This new high quality aluminum radiator is a great light weight alternative to a traditional brass and copper radiator. This 2 core aluminum radiator provides excellent cooling for all engines from mild to high performance. It is made for automatic transmissions and also includes plugs so it can be used with manual transmissions.

AKY-6872A-KIT

1970-72 Aluminum Radiator Kits

If you are planning to upgrade your Monte Carlos cooling performance, look no further than this Ground Up exclusive kit! All the essentials are included, such as a 2 core aluminum radiator, chrome fan, fan shroud and thermal kit. Aluminum radiators are a great lightweight alternative to traditional brass and copper radiators, with increased cooling efficiency via dual high flow aluminum tubes, suitable for mild to high performance applications. This radiator can be used for either automatic or manual transmissions with the included stoppers. Inlet is 1-1/2 inch, while outlet is 1-3/4 inch.

COLD-42M

COLD-42MFK

Cold Case Radiators

These COLD-CASE radiators are TIG welded 100% aluminum. These radiators have dual oversize 1" cooling rows making them more efficient than four 1/2" rows seen on 4 row models. Cold Case aluminum radiators cool 20% better than OEM copper radiators and are more than 50% lighter. They are original in appearance with OEM style stamped tanks for strength and that OEM original look. Once painted, they look like originals to all but the concourse fanatic. Each radiator is pressure tested, direct fit and carries a Lifetime Warranty!

K&N Air Filter Kits

K&N's custom air cleaner assemblies are designed with the racer in mind. They incorporate good looks as well as the superior air flow that you expect from K&N. These custom air cleaner assemblies are designed for use with any engine that uses a round element air cleaner housing. They incorporate K&N Air Filters and provide more air flow than other assemblies of this type. Each complete assembly comes with base, element and top plate. Provides more air flow to the engine, designed to increase horsepower, washable and reusable air filters.

HOL-0-1850SA

Holley Carburetors

Holley is one of the most trusted carburetors of all time! Its 600 CFM of airflow, vacuum secondaries, single fuel inlet and mechanical or electric choke makes it amazingly universal. The 4160 carbs are constructed from aluminum which compared to its zinc counterpart equates to a weight savings of 40%! Being aluminum also means it will hold its shine and can be hand polished for a custom look! Don't trust your performance to just anyone, Holley is the only modular carburetor company that has been in business for over 100 years and has powered every NASCAR champion since the 60's.

"Innovators in fuel systems" is more than just a by-line. Quick Fuel Technology, since it's inception in 1998, has grown exponentially in its 21 years of business culminating into the benchmark by which performance carburetors are measured.

Quick Fuel Technology Carburetors

QF-HR-600

QF-SS-650

QF-Q-750

The Hot Rod Series is a versatile performer designed for the most discerning street enthusiast. Featuring lightweight die-cast aluminum components, the HR-Series offer all the tunability you would expect from more expensive racing carburetors, including changeable bleeds, idle feed, power valve channel restrictions, and four-corner idle. Offered in either vacuum or mechanical secondary models, all Hot Rod Series carburetors feature electric chokes and dual metering blocks for added performance. Now available in a 450 cfm model for applications with small displacement engines.

- All models feature a fully adjustable electric choke for easy starting
- Dual metering blocks w/4-corner idle for smooth and efficient idle quality
- Screw-in air bleeds and idle feed restrictions for quick unsurpassed tuning capability
- Dual inlet fuel bowls with sight glass windows for safe, easy float adjustment
- Universal throttle lever with sealed throttle shafts for smooth operation
- Tunable secondary opening rate
- Tumble polished for long lasting shine

Super Street Series carburetors combine street-friendly drivability and track-capable performance in a single value-oriented package. Setting them apart from ordinary street carbs, they feature billet dual metering blocks and throttle-bodies that offer tighter tolerances and eliminate porosity. Not only are Super Street Series carbs available with both vacuum or mechanical secondaries, QFT™ also offers models designed and calibrated specifically for E85 fuel and blow-through forced induction applications. Running alternative fuel or boost no longer requires an expensive custom carburetor. All SS-Series carburetors are equipped with universal throttle levers to accommodate a variety of models. Bolting on the ultimate street/strip carburetor has never been easier.

- Red billet dual metering blocks & silver billet throttle bodies for improved durability
- Changeable idle, high-speed air bleeds & power valve restrictions
- Dual inlet fuel bowls with dual sight glass windows for easy float adjustment
- 4-Corner idle for precise idle and smooth transition
- Fully-adjustable electric choke with easy one wire hookup
- Race-ready with notched secondary floats and jet extensions
- Polished or Black Diamond™ finish available (some models)

Q-Series Race carburetors are purpose-built for the dragstrip. To combat the g's experienced during hard launches, Q-Series carbs are equipped with notched floats and secondary jet extensions. The high-flow aluminum main body isn't just lightweight, but it also features recessed air bleed cavities for improved air flow. Die-cast venturi are machined to exacting tolerances for outstanding throttle response. Billet metering blocks ensure a uniform fuel curve, while throttle-bodies enhance durability. For those days when track conditions vary from one pass to the next, QFT's QuickLink system makes adjusting the secondaries easy on models equipped with mechanical secondaries. The Q-Series is our most comprehensive line of carburetors, with applications available for use with gasoline, methanol, and E85 fuels, forced induction, drag race, circle track, and comes in both vacuum and mechanical secondary models.

- Lightweight aluminum main body
- Mechanical secondary
- Aluminum fuel bowls with dual sight glass windows
- Billet metering blocks with 4-corner idle system
- Changeable idle feed and power valve channel restrictions
- PTFE coated and sealed shafts that have been slabbed for added air flow
- Red anodized billet metering blocks and throttle plate

Street-Q carburetor is intended to deliver legendary Q-Series performance to hardcore street enthusiasts at a reduced price. The major differences between the Street-Q and the race-bred Q-Series is the substitution of cast metering blocks and a cast throttle body in place of fully-machined billet components. All of the critical functionality is retained - 2-circuit metering, downleg boosters, changeable idle and high-speed air bleeds and 4-corner idle. A universal throttle lever to accommodate a variety of models.

- Lightweight die-cast aluminum components
- Changeable idle and high-speed air bleeds
- 2-circuit metering - 4-Corner idle system
- Downleg boosters
- 700-R4 mounting holes

QFX-Series stands as the flagship model in QFT's lineup. Raised air horns improve entry angle into the venturi while ensuring undisrupted flow over the air bleeds. Annular boosters with CNC-machined billet aluminum inserts provide increased air flow, a stronger signal, and less turbulence. QFX carbs offer unparalleled fuel atomization with annular boosters specific for either gas, methanol, or E85 fuels. Five-emulsion billet metering blocks and four-corner idle circuits offer flexible tunability that today's high-horsepower engines demand. Ready to run out of the box, the QFX-Series carburetor will help you get to the winner's circle.

- QFX aluminum main body w/ raised venturi
- Billet aluminum metering blocks with screw in restrictions
- Aluminum fuel bowls with dual sight windows and fuel inlets
- Viton .130" Needles and Seats
- Billet Aluminum annular booster inserts
- QuickLink™ adjustable secondary opening adjustment
- Hand assembled and engine tested

Tuff Stuff Performance Thermostats

These thermostats flow up to 56 gallons per minute, as compared to ordinary thermostats that flow 37 gallons per minute, to maintain stated temperature. The 50 percent increased coolant flow reduces the delay in engine warm-up times, allowing trapped air in the cooling system to escape and stabilize the pressure of the cooling system. The stainless steel construction with an extra-large center port assures increased coolant flow and bridge design increases strength, stability & reliability and incorporates a bypass valve that allows a small amount of coolant to circulate before fully opening, assuring a fast warm-up. Ideal for high performance muscle cars, street rods and customs.

MSD-8362

MSD HEI Distributor

For value conscious enthusiasts, the Street Fire HEI is a great choice! We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). Another area that you cannot afford to scrimp on is with a distributor gear. The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions

- MSD-8362 All, Red Cap 4 Pin* SEE WEB
- MSD-8365 All Billet, Red Cap 4 Pin* SEE WEB

Note: Standard deck height blocks only. Will not fit gen 5 and 6 big blocks. *Refers to the amount of terminals on the ignition module. No Volume Discount.

MSD-8360

MSD Pro Billet Distributor

The Pro-Billet Ready-to-Run distributor is the perfect upgrade for outdated points distributors or bulky HEIs. Simply install the distributor in the engine, connect three wires, the coil, and fire it up!

- MSD-8360 Monte Carlo V8* SEE WEB
- MSD-85551 Monte Carlo V8** SEE WEB

*Does not have nor can accept a vacuum advance canister.

**Must be used with a MSD 6,7, or 8 ignition box.

Note: Standard deck height blocks only. Will not fit gen 5 and 6 big blocks. No Volume Discount.

Mallory Unilite Distributor

A legend returns - the tried and true Mallory Unilite Distributor line is back! The easy three wire hookup of the Unilite makes running a stock coil, a Mallory performance coil and even a Mallory HyFire CD ignition a snap. Supplied with a quality cap and rotor, the Mallory Unilite also provides a fully adjustable mechanical advance to dial in the perfect timing curve for a multitude of engine combinations. The Unilite features a compact housing that lends itself well to applications where space is a premium due to tight firewall clearance or blower applications.

MSD-6201

MSD Ignition

An MSD Ignition will improve the overall performance of your engine thanks to its high output capacitive discharge sparks. Below 3,000 rpm the ignition delivers multiple sparks that will clean up the idle, improve starting and throttle response. If you're looking to improve the performance of your modified mill, we have the answer. Whether you've done a cam swap, or bolted on a carb, intake and headers the 6A is a surefire way to harness all the ponies under your hood. Step up to the 6AL to have an engine saving rev limiter.

Flaming River Single Wire Timing Light

This self-powered timing light is designed to work without an auxiliary power source, which makes it ideal for use with magnets, rear battery mount race cars and all spark ignition systems for hassle-free timing. The Light is equipped with a xenon bulb which generates a bright strobe as well as a convenient work light. Durable construction includes a rubber encased lens and 48 degree pickup lead. State of the art single wire design is operated by two D-Cell batteries. Accurate timing up to 14,000 RPM.

K&N Oil Filters

K&N Performance Oil Filters have been specially designed for professional installers and service providers. Their high flow design can help to improve engine performance by reducing oil filter restriction. Performance Gold Oil Filters have a Premium Wrench-Off design and have become a favorite among consumers for its durability and easy removal. Our Performance Silver Oil Filters have a fluted canister shape so they can be removed with a traditional oil filter wrench commonly available to commercial installers. These Performance Silver Oil Filters provide outstanding filtration and engine protection throughout their service life. They are engineered to handle all grades of synthetic, conventional and blended motor oils. The pleated media provides high capacity making them suitable for extended oil change intervals when, used in accordance with the vehicle and motor oil manufacturers recommendation.

OEM Bolts - They Just Make Sense!

It makes sense to use new bolts on new or restored parts! From bumper to bumper, we cover your entire vehicle. We have made our name and reputation on providing those hard to find detailing parts that separates your classic from the rest. All of our bolts are either original, OEM parts from original GM manufacturers or top quality reproductions. Manufactured with original head markings and correct plating (zinc, black phosphate and oiled, gold cadmium and silver cadmium), these bolts make assembly a breeze! Like our OEM paints, new bolt sets are what make a top flight restoration!

RQE-70MR

1970-1972 Quarter Panels Extensions

Reproduction of the original 1970-1972 Monte Carlo quarter panel extension (or drop off) which connects the inside lower rear of the quarter panel to the outside of the trunk. It is recommended to replace this piece when replacing a trunk or a quarter panel. Odds are high your trunk floor extensions (drop offs) will need replacement or repair if your quarter panels and wheelhouses contain rust. It's very common to need all three items since they are all connected. Our trunk floor extensions are direct replacements of originals and feature correct flanges, tabs, holes and bends.

Eddie Motorsports Billet Trunk Hinges

These billet trunk hinges are CNC machined from high quality 6061-T6 aluminum. They utilize Nitrogen filled gas struts that replace the stock torsion springs and high quality Delrin bushings for smooth reliable operation. The hinges are designed as direct fit, "bolt on" parts with some minor drilling required for fastening of the strut mount. The hinges come complete with mounting hardware, brackets (where required) and gas struts.

American Autowire Classic Update Series Kits

Classic Update complete wiring kits are made for the restoration enthusiast who wants some modern amenities in their classic vehicle. These kits include everything you need to modernize your classic vehicle: Headlight, Dimmer and Ignition Switches; Boots, Tubes and Grommets; Fuses, Relays- and Flashers; Original Connectors, Terminals and Disconnects.

1970-72 Monte Carlo

- Replacement headlight switch with internal 30 amp circuit breaker included. Retention collar nut, adjustable length shaft and custom knob are also included.
 - Standard turn signal flasher, hazard flasher and horn relay mounted on fuse panel.
 - Fuse box designed to fit in original location. All required hardware supplied. New ATO fuse allows easy fuse and circuit breaker accessibility. Harness is laid out and formed to allow for nearly all aftermarket accessories such as; gauge packages, wiper systems, heat and air conditioning systems, etc.
 - Original switch connector bodies! (Exclusive to American Autowire)
 - Original Dash Panel instrument cluster connector.
 - Steering column connectors can plug directly into most aftermarket steering columns or stock 1968-1970 GM columns that use stock GM turn signal switches.
 - Under dash courtesy lamps for use in addition to your original dome/interior lighting.
 - Instrument Cluster wiring has a "cluster harness disconnect" system for easy service and assembly. Original terminals and connectors (another American Autowire exclusive) are provided for stock cluster connections. Connects into most popular aftermarket gauges such as AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL, STEWART WARNER, VDO and others.
 - Rear body harness assembly plugs into the main harness in the stock location. Longer leads allow for stock/custom routing of the wires. Rear body wiring has backup light lead wires with correct lamp sockets, stop and tail light lead wires with correct lamp sockets, terminals to mate with the license plate connection wire, side marker lead and ground wires with lamp sockets and fuel tank sender wire with trunk grommet and tank connection.
 - GM bulkhead connectors for the engine and front light wiring (another American Autowire exclusive) and allow for easy installation with original or custom routing.
 - Engine wiring includes connectors for original points type as well as H.E.I. distributors. Power and Tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internally regulated alternators. GM "CS" series alternator adapter is available separately.
 - Original style light sockets, switch body connectors, terminals, etc.
 - Front lighting includes extra long leads that can be routed for stock or optional appearances.
- All headlight, parking and directional light connectors (lamp socket pigtails are also provided for 1971-72 applications) and terminals are provided along with a switched trigger wire for an electric fan relay (usually recommended with AC).

510105 1970-72 SEE WEB

American Autowire Highway 22 Wiring Kit

The Highway 22 Complete Modular wiring system wiring kit includes all the necessary wiring for headlights including: a three position headlight switch; a 40 amp electric fan or fuel pump relay; heavy duty power and accessory expansion; micro-relays for horns and turn signals; an accessory harness for radio, electric wipers, heater, air conditioning, fuel pump and interior lighting. This kit also contains a floor mounted dimmer switch; an ignition switch that has been designed for either dash or column mounting and includes all the connectors and terminals. The Highway 22 was designed to promote complete mounting flexibility and creativity in specialty electrical systems. These kits are perfect if you plan to do a LS/EFI swap as this kit includes dedicated battery and ignition circuits for electronic fuel injection (EFI).

Wiring Harnesses

When you are looking to restore your electrical system, look no further than Ground Up! All of our harnesses are hand assembled in the USA and are guaranteed exactly as original. Our harnesses always match the factory color code and gauge sizes using correct connectors, terminals and non-adhesive and cloth tape. Our restoration harnesses are simply the best in the industry.

Dash Harness Classic Auto Fuse Series

Our new Classic Auto Fuse Series dash harnesses allow you to maintain the easy plug and play function of original factory type harnesses, while converting the entire fuse block to an Auto Fuse Series (ATO Type) fuse block. This gives you the flexibility to add additional power circuits without the installation headaches normally associated with this type of fuse box conversion. There is no cutting or modifying of any sort. Just plug it in and turn it on. It is completely compatible with the other original harnesses in your car.

AC Delco Spark Plugs

This is a brand new set of 8 spark plugs for your Monte Carlo. These high quality reproduction AC Delco spark plugs feature the correct green AC and number markings as original.

AC43	1970 #43SEE WEB
AC44	1970 #44SEE WEB
AC45	1970 #45SEE WEB

Note: The number on the plug refers to it's operating temperature. The lower number is a cooler running plug which is typically found on the SHP high performance engines. A hotter, higher numbered plug would be used in engines where plug fouling may be or is a problem.

PACKARD RADIO TVRS LR 3-

Dated Spark Plug Wires

New reproduction wire set correctly dated for your specific car, pre-cut and ready to install! Each set features correct colored wires and correct angle "cut" boots. The date coding identified the quarter and year in which the wires were produced. As an example, a wire date coded as 1-Q-67 would have been produced in the first quarter of 1970. Research has shown that most cars had spark plug wires installed that were dated from 1 to 4 quarters prior to the build date of the car.

Flaming River Single Wire Timing Light

This self-powered timing light is designed to work without an auxiliary power source, which makes it ideal for use with magnetos, rear battery mount race cars and all spark ignition systems for hassle-free timing. The Light is equipped with a xenon bulb which generates a bright strobe as well as a convenient work light. Durable construction includes a rubber encased lens and 48 degree pickup lead. State of the art single wire design is operated by two D-Cell batteries. Accurate timing up to 14,000 RPM.

OER Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass and recycled plastics.

Company Policies

Hassle Free Returns

Products may be returned for a full refund, credit, or exchange within 30 days of receipt, provided that the product is in its original shipping condition and has not been modified, altered, painted, installed, or damaged. Products returned after 30 days can only be returned for exchange, store credit, or refund check. All returns after 30 days are subject to a 25% restocking fee. Ground Up Motors - SS396.com will not accept returned goods without prior authorization, any returns without prior authorization will be subject to a 25% restocking fee. The customer is responsible for shipping charges on returned merchandise unless otherwise indicated by Ground Up Motors - SS396.com.

Ground Up Motors - SS396.com always recommends professional installation for all the products we sell. Any item that has been altered, painted, installed, or deemed non-resalable by Ground Up Motors - SS396.com will be returned to the customer at the customer's expense. If the customer does not want to pay for return shipping, the item will be field destroyed. Ground Up Motors - SS396.com is not responsible or liable for any labor fees associated with the installation, removal, modification, or repair of any product purchased, regardless of the circumstances. Additionally, Ground Up Motors - SS396.com is not responsible for any damage or discoloration incurred in relation to chemical products, including cleaners, waxes, polishes, paints, and/or similar items.

Product Availability & Pricing

The availability of all items on SS396.com and in our print catalogs is subject to change without prior notice. Ground Up Motors - SS396.com reserves the right to discontinue products, services, accessories, and substitute products of a similar nature (i.e., different manufacturers/brands) without notice. While Ground Up Motors - SS396.com strives to maintain accurate pricing, please note that prices are subject to change due to factors such as increased costs in manufacturing and materials. For the most up-to-date pricing information, please visit our website 24/7 or contact a Ground Up Motors - SS396.com customer service representative by phone or email.

Backorders

Ground Up Motors - SS396.com will try to notify you in the event backorders are present on your order. While back orders are often beyond the control of Ground Up Motors - SS396.com, most out of stock items are shipped within two (2) to six (6) weeks. We generally ship back ordered items as soon as they arrive at our warehouse, without notification. If one of your items has been out of stock for more than 90 days, we will try to contact you before shipping. If you wish to cancel a back order, please contact us as soon as possible to avoid return shipping charges and restocking fees.

Ground Up Motors - SS396.com will keep track of all backorders on products that are "out-of-stock" or unavailable at the time the order is placed. The pricing on a back-ordered product is not guaranteed due to labor, manufacturing, materials, shipping costs, and other unforeseeable issues that may arise requiring a price adjustment. We will maintain the price on any backorder product for 60 days after the order is placed. After 60 days, the product may be subject to a price adjustment. If a price adjustment is necessary on a particular product, we will do our best to inform the customer before the product is shipped.

Kit Products

Our Parts and Accessories catalogs, as well as SS396.com, offer kits that include a variety of products to provide you with the best value. Please note that most of these kit items are exclusive to Ground Up Motors - ss396.com and are not eligible for further discounting or price matching against our competitor's kits.

Occasionally, we may run out of a specific item that is included in a kit. In such cases, we will generally ship the items that are in stock and backorder the ones that are currently unavailable. You can contact our sales department by phone to verify which items are out of stock at the time of placing your order. As our customer, you have the option to accept a partial kit delivery or choose to have the entire kit backordered until it is ready to ship in its entirety, be sure this is either verbally communicated over the phone or specified when placing an order online. Please note that additional freight fees may apply for multiple shipments, if applicable.

Color Matches

Please note that due to multiple manufacturers of products provided by Ground Up Motors - ss396.com, color variations may occur. Slight color variations, especially among interior products, are common and do not constitute a defect. These products are not eligible for return shipping solely based on color variations.

Additionally, there are products noted online and, in our catalog, as non-returnable. This primarily includes colored products such as interior items, as well as special order or built-to-order products like date-coded glass and custom gauge clusters. If you are unsure whether a product is non-returnable, please contact a us via phone or email for clarification. Please be aware that colors displayed on computer monitors and, in our print, catalogs may differ slightly from the actual color of the product. If precise color matching on interior items is a concern, we recommend ordering black and color matching using interior paint or dyes. Returns of colored, special order, or non-returnable items are not permitted and will be subject to 25% restocking fee.

Sales Tax Information

If you live in a state that requires sales tax, Ground Up Motors - SS396.com will collect the appropriate sales tax for your shipping location. Most states currently require sales tax and Ground Up Motors - SS396.com is compliant with all the latest laws associated with state sales tax. Due to regular variations in state sales tax, rates are subject to change without notice based on state and zip code. State sales tax is applied to products as well as shipping fees, handling fees, etc

Ordering Lefts and Rights

Items in this catalog are presented as right hand (RH) or left hand (LH). RH and LH sides are determined by sitting in the vehicle. RH = passenger and LH = driver.

Trademark and Copyright

The content of Ground Up Motors - SS396.com, including the Ground Up Motors - SS396.com Parts and Accessories catalog is copyright 2024, all rights are reserved. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Ground Up Motors - SS396.com.

International Orders

Ground Up Motors - SS396.com is happy to ship parts to international customers via International Economy shipping. Shipping can also be arranged per the customer and the packages will be boxed at our dock. Please call our sales department or send an email to logistics@ss396.com to get a shipping quote for the parts that you wish to order.

Oversize Items

We offer shipping for items that are considered Oversize. These items can be shipped via UPS Ground at an Oversize rate, which entails a minimum dimensional weight fee of 30 lbs. for Oversize or 70 lbs. for Oversize 2.

It's important to note that Ground Up Motors - SS396.com reserves the right to charge an Oversize fee on any item that is deemed Oversize, even if it is not explicitly indicated as such. This ensures that the shipping costs associated with handling and transporting these larger items are adequately covered. If a shipping adjustment is necessary on a particular product, we will do our best to inform the customer before the product is shipped.

Truck Freight

Ground Up Motors - SS396.com recognizes that certain products are too large or heavy to be shipped via Ground freight and must be shipped using truck freight. Efforts are made to clearly indicate these items in the print catalogs and website, but there may be instances where an item not specifically marked for truck freight may still require or benefit from this shipping method.

To ensure we are providing our customers with the best possible shipping rate all orders are subject to review by our Truck Department for adequate freight quoting. When placing an order online or over the phone you will not be charged any shipping, and a quote will be provided for your approval which is valid for 10 days from the date it was provided. Orders will remain as a quote until the order has been approved by the customer. Note that products are not reserved until the quote has been approved. Due to the quoting process PayPal payment is not accepted for truck orders. It is crucial to provide us with accurate information regarding the delivery destination. Any fees or charges resulting from the provision of false information or failure to comply with Ground Up Motors - SS396.com's policies are the sole responsibility of the customer and may be applied without notice.

Expedited Shipping

Ground Up Motors - SS396.com provides various expedited shipping options for customers' convenience. To ensure timely delivery, orders must be placed by 2:00 pm from Monday to Thursday, and by 12:00 pm on Fridays. Please note that weekends and holidays are not considered shipping days. It is important to mention that we recommend contacting our sales department to obtain the expedited shipping rates for your order. They will be able to provide you with accurate pricing information based on your specific requirements to ensure you are receiving your expedited order in a timely manner.

APO/FPO Shipping

Please note that for APO or FPO addresses, USPS is the only available shipping method. If you are military personnel with an APO or FPO address, it is important to contact Ground Up Motors - SS396.com prior to placing your order. This will allow them to verify that the desired parts do not exceed the size limit and ensure a smooth shipping process for you. You can reach out to our customer service team by writing, calling, or emailing, be sure to also ask about our Military discounts which we are honored to offer to both active and retired military personnel.

Product Damages & Shortages

We understand that errors and issues can sometimes occur during the fulfillment, shipping, or manufacturing process. If you receive a product that is damaged, missing, or incorrectly shipped, it is important to notify us within three (3) business days of receiving the order. You can do so by contacting us via phone or email. If you are present at the time of delivery and notice any carrier damage it is recommended that you refuse the shipment with the reason of carrier damage. If this is the case notify our customer service team so we can rectify this issue in a timely manner and ensure you are not charged any additional fees.

To ensure a prompt resolution on a damaged or missing claim, we may request additional information, such as images or details about the damaged, missing, or incorrectly shipped product. In most cases, we will provide you with a pre-paid shipping label to return the damaged or incorrectly sent product. Once we receive and inspect the returned item, we will issue a refund or send a replacement, depending on your preference.

Please note that if you report damage, missing items, or incorrect shipments after the 3-day window, you may still be able to make a claim, but will not be eligible for a pre-paid shipping label.

Refusals

In the event of a refused delivery, please note that a restocking fee of 25% will be applied, along with applicable return shipping charges, unless the refusal was due to damage that occurred during shipping (refer to our Damage Claim policy).

For more policies and information on discounts/eligibility please see ss396.com for more information.

Company Policies

Hassle Free Returns

Products may be returned for a full refund, credit, or exchange within 30 days of receipt, provided that the product is in its original shipping condition and has not been modified, altered, painted, installed, or damaged. Products returned after 30 days can only be returned for exchange, store credit, or refund check. All returns after 30 days are subject to a 25% restocking fee. Ground Up Motors – SS396.com will not accept returned goods without prior authorization, any returns without prior authorization will be subject to a 25% restocking fee. The customer is responsible for shipping charges on returned merchandise unless otherwise indicated by Ground Up Motors – SS396.com.

Ground Up Motors – SS396.com always recommends professional installation for all the products we sell. Any item that has been altered, painted, installed, or deemed non-resalable by Ground Up Motors – SS396.com will be returned to the customer at the customer's expense. If the customer does not want to pay for return shipping, the item will be field destroyed. Ground Up Motors – SS396.com is not responsible or liable for any labor fees associated with the installation, removal, modification, or repair of any product purchased, regardless of the circumstances. Additionally, Ground Up Motors – SS396.com is not responsible for any damage or discoloration incurred in relation to chemical products, including cleaners, waxes, polishes, paints, and/or similar items.

Product Availability & Pricing

The availability of all items on SS396.com and in our print catalogs is subject to change without prior notice. Ground Up Motors – SS396.com reserves the right to discontinue products, services, accessories, and substitute products of a similar nature (i.e., different manufacturers/brands) without notice. While Ground Up Motors – SS396.com strives to maintain accurate pricing, please note that prices are subject to change due to factors such as increased costs in manufacturing and materials. For the most up-to-date pricing information, please visit our website 24/7 or contact a Ground Up Motors – SS396.com customer service representative by phone or email.

Backorders

Ground Up Motors – SS396.com will try to notify you in the event backorders are present on your order. While back orders are often beyond the control of Ground Up Motors – SS396.com, most out of stock items are shipped within two (2) to six (6) weeks. We generally ship back ordered items as soon as they arrive at our warehouse, without notification. If one of your items has been out of stock for more than 90 days, we will try to contact you before shipping. If you wish to cancel a back order, please contact us as soon as possible to avoid return shipping charges and restocking fees.

Ground Up Motors – SS396.com will keep track of all backorders on products that are "out-of-stock" or unavailable at the time the order is placed. The pricing on a back-ordered product is not guaranteed due to labor, manufacturing, materials, shipping costs, and other unforeseeable issues that may arise requiring a price adjustment. We will maintain the price on any backorder product for 60 days after the order is placed. After 60 days, the product may be subject to a price adjustment. If a price adjustment is necessary on a particular product, we will do our best to inform the customer before the product is shipped.

Kit Products

Our Parts and Accessories catalogs, as well as SS396.com, offer kits that include a variety of products to provide you with the best value. Please note that most of these kit items are exclusive to Ground Up Motors – ss396.com and are not eligible for further discounting or price matching against our competitor's kits.

Occasionally, we may run out of a specific item that is included in a kit. In such cases, we will generally ship the items that are in stock and backorder the ones that are currently unavailable. You can contact our sales department by phone to verify which items are out of stock at the time of placing your order. As our customer, you have the option to accept a partial kit delivery or choose to have the entire kit backordered until it is ready to ship in its entirety, be sure this is either verbally communicated over the phone or specified when placing an order online. Please note that additional freight fees may apply for multiple shipments, if applicable.

Color Matches

Please note that due to multiple manufacturers of products provided by Ground Up Motors – ss396.com, color variations may occur. Slight color variations, especially among interior products, are common and do not constitute a defect. These products are not eligible for return shipping solely based on color variations.

Additionally, there are products noted online and, in our catalog, as non-returnable. This primarily includes colored products such as interior items, as well as special order or built-to-order products like date-coded glass and custom gauge clusters. If you are unsure whether a product is non-returnable, please contact us via phone or email for clarification. Please be aware that colors displayed on computer monitors and, in our print, catalogs may differ slightly from the actual color of the product. If precise color matching on interior items is a concern, we recommend ordering black and color matching using interior paint or dyes. Returns of colored, special order, or non-returnable items are not permitted and will be subject to 25% restocking fee.

Sales Tax Information

If you live in a state that requires sales tax, Ground Up Motors – SS396.com will collect the appropriate sales tax for your shipping location. Most states currently require sales tax and Ground Up Motors – SS396.com is compliant with all the latest laws associated with state sales tax.
