from 1.00mm to 2.0mm.
Specify sizes when ordering.

Pearl Restraining is one of our specialties.
Beads and pearls are strung on nylon cord
with base metal tips unless otherwise speci-
fied. 14k bead tips and replacement clasps
are available upon request. We recommend
restringing frequently worn beads once a
year. Remember to value all customer's
pearls prior to sending them to Southeastern
Findings.

Allow 10-14 working days on all restringing
jobs.

Tuff Cord & Silk Alike Bead Cord

Tuff Cord & Silk Alike are American made synthetic cords that are stronger than their respective usual fiber, nylon & silk, because they are made of 3 strands of long fiber, not just 2. Neither will stretch and both are resistant to fraying and stretching.

Tuff Cord

See Our Tools Catalog For All Your Bench Needs

#1 Conner Curved Setting Plier

This plier will replace the common beading tool on a great many jobs, making them considerably easier. No longer will you need to hold items in the ring clamp and on the bench pin or fill a fragile item with shellac. Can be used to hold stones (culet to table) while being heat set into wax models. This tool will give you the support from the underside you need to do common, everyday tightening and setting in stone, plus many other applications. 4 1/2" length (115mm)

T-1128

#2 Conner Straight Setting Plier

This plier is especially helpful to set or tighten side stones in a basket setting as well as on other type mountings. One side of the plier has a slot for the wire under the stone and the other side has a beading tool cup on it. Also great for setting earrings - with or without underbezel wires. Simply slip the post through the slotted side and bring the beading tool down on the prong; it makes this type of work much quicker and easier. Perfect for setting and tightening accent diamonds surrounding color center stones. 4 1/2" length (115mm)

Replacement Parts

FFW - FREE Shank Replacement Wire
(wire is pressure fit, not soldered)

FFG - FREE Plastic multi-sizer Ring Gauge

Why Choose Finger Fit?

Finger Fit shanks easily attach to your original ring. No need to redesign or create a new ring. Installations are simple and easy.

Finger Fit shanks are die-struck and CNC machined for precision and quality. This makes our product stronger than a cast ring and more durable. Finger Fit rings can be heated and soldered without damaging any parts. Our rings have been tested and proven by over 5,000 retail jewelers and trade shops.

Finger Fit shanks do not require a "key" or pin to open, making it convenient and easy to use. Our cover catches give a guaranteed close with no mechanisms that can loosen tension over time.

Finger Fit shanks utilize a "guide wire" to bridge the gap when the shank is open. This adds an extra layer of security so that the ring will not fall off or fly open. We guarantee our rings to open 3 sizes, allowing sufficient room for larger knuckles to pass through.

All of the components of a Finger Fit shank are individually replaceable, extending the life of the ring. If one section or part of your ring wear away over time it can be repaired or replaced and prevent you from having to purchase a new ring shank.

The Lockshank Company

Lock Shanks

Available in 14k Y or W.

Opens fully to accommodate any size knuckle.

Opens easily with just a fingernail.

Stays securely locked until intentionally opened.

Keeps top heavy rings oriented correctly.

**18k & Platinum available by Special Order.

**Sizes 2, 5.5, 6.5, 7.5, 8.5, 9.5 & 10 available by Special Order.

Allow 10-12 working days for Special Orders.

Adjusto Shanks

Adjusto Shanks 14k Y or W Die Struck

Installation Instructions

Slide Adjusto Shank to the closed position.

Hold both shanks firmly against one another, preferably on a mandrel, and mark above the joint where to cut the shank. Cut the shank at an accurate angle and align with the Adjusto Shank. Then, solder the joint.

With the aid of a flex shaft and appropriate selected wheels, shape the soldered joint to the same width as the applied shank.

Lightly buff both the inside and outside of the soldered part. The sliding action of the Adjusto Shank can be opened or closed very easily by the person wearing the ring.

Slide to full open position. Slip onto finger sideways...then turn setting upright. Slide shank closed for a firm and comfortable fit.

T-536

Squeeze Bottle Dispenser

For dispensing flux, adhesives or epoxy.
2 oz plastic bottle comes with adapter cap
and 4 needle tips:
(18,20,22 & 26 Gauge)

T-983

Ring-Holding Soldering Tweezer

Saves time and makes soldering ring shanks together
easy, fast and simple. Rings are accurately positioned for
clean, quick jobs. A valuable aid for jewelers.

4 1/2" length.

T-1135

Blue Alcohol Gas Flux

Low foam, highly volatile jewelry gas flux. It forms a white
glaze on jewelry at low temperatures. The glaze formed
does not breakdown or fade away with heating during sol-
dering or annealing. Biodegradable and environmentally
safe to use.

T-54391

Self Pickling Flux

For hard soldering. Contains
boric acid and chloride.
Temp. range 1100°–1700°F.

16 oz. T-531

8 oz. T-532

3 oz. T-533

Sizers

**Matching Mandrel and Finger Gauge**

Mandrel marked with US Standard Sizes 1-16
Graduated in 1/4 sizes.

T-PE121GS Mandrel - Steel

T-PE174GS Gauge

**3.5mm Comfort Fit Finger Gauge**

Bright nickel-plated with colored numbers.
Inside of rings is beveled to slip on easily.
Sizes 1-15.

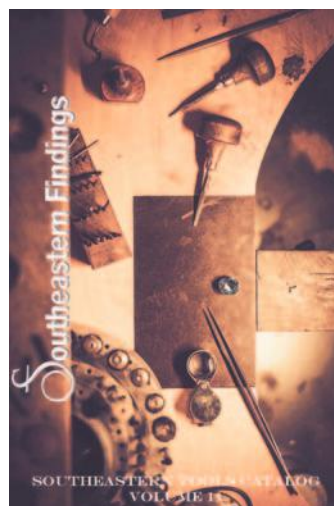

T-1285

**Wide Finger Gauge**

This wide finger gauge is perfect for fitting wedding rings, class rings and other wide rings. It prevents resizing due to improper fitting with smaller ring gauges. Graduated in U.S. standard half sizes from size 1 to 15.

Made of nickel plated brass.

T-695

**6 Piece Set Multisizer**

Ring sizes: 1-17 including 1/2 sizes

This Plastic Ring Band is the most accurate and cost effective customer finger sizer available.

T-125

**Plastic Finger Gauge**

Graduated in quarter sizes
from 1 1/4 to 12 3/4.

T-506

**Flat Finger Gauge**

Nickel plated for years of use
at the retail level.

Graduated in U.S.
standard half sizes from
size 1 to 15.

T-694
