

WELCOME TO HABENERI INC.

Quarterly Newsletter

2026 ISSUE #1

FEB 1, 2026

A message from the President: Our Vision and Commitment for 2026.

Dear donors and sustaining members of HabenEri.

As we begin the new year, I want to thank each of you for your kind support, and dedication to HabenEri and its mission of supporting disabled Eritreans. Support from our donors and the selfless team of volunteers has guided us to a level of success that we are immensely proud. As reported in a separate section of this year's annual report, HabenEri (a non-profit organization) has accomplished a great deal since its inception three years ago. At the same time, we face, important challenges mixed with exciting new possibilities for 2026. The material, medical and financial needs of disabled people in the State of Eritrea are immense. Most of you recognize how challenging it is to support disabled population in wealthy nations let alone in economically less developed nations. Our goal is not to replace but to supplement the government's efforts to improve the health and quality of life of disabled individuals living in Eritrea. With your continued support, I am confident we will achieve even greater success in the coming years. I invite you all to share your ideas and new perspectives on how we can achieve our goal of helping other less fortunate than us by moving forward with energy, and a sense of shared purpose.

Q & A with Dr. Samuela

Our Vision and Commitment for 2026.

We need to significantly increase our membership and chapters. We need to recruit younger generation professionals to help navigate the donor community by creating a robust network and by preparing impactful proposals to potential donors. What we do in the coming year and beyond will have positive impact in the lives of many disabled people in Eritrea.

Let us work together, turn challenges into opportunities, and make 2026 a year of great

accomplishments for both our organization and the population that we serve.

Thank you for your ongoing commitment, donations, and support.

Haile M. Mezghebe, MD
President, HabenEri Board of Directors

FEATURE ARTICLE

Laying Foundations for Lasting Impact: Our 2026 Focus

As we enter 2026, we do so with renewed hope and an unwavering commitment to transformation. HabenEri was founded on the belief that every Eritrean living with a disability deserves dignity, opportunity, and access to quality care. Over the years, your generosity and trust have allowed us to move from vision to impact.

Today, we stand at a pivotal moment. one that calls us not only to reflect on how far we have come, but also to act boldly for the future. The needs of persons with disabilities in Eritrea remains urgent, yet together we have proven

that meaningful changes is possible when compassion is matched with action. In2026, our focus is on three projects that will create lasting, systemic change.

- We're committed to renovating and fully equipping the Denden clinic to ensure safe, modern, and accessible care for patients with disability.
- We will modernize the Adi Gadad Limb Manufacturing factory by introducing 3D printing technology to improve the quality, efficiency, and affordability of prosthetic production.

- We aim to provide a specialized ambulance designed specifically for persons with disabilities safe and dignified transportation to critical medical services. This initiatives reflect our belief that hope must be built into systems, not merely offered as words. we therefore call upon our donors, supporters, volunteers, membership, and your advocacy for disability rights so that together we may transform lives and build a more inclusive future for Eritrea.

Voluntarism: Serving with Purpose at HabenEri.

Dr. Aron Kefela MD

HabenEri Vice president

At the heart of life lies a simple yet powerful truth: we are here to serve one another and to do good. Voluntarism is not just an act of generosity—it is an expression of our shared humanity and responsibility to uplift those around us.

At HabenEri, the North America Support Group for Disabled Eritreans, voluntarism is the driving force behind everything we do. Our volunteers give their time, skills, and compassion to support disabled Eritreans in living with dignity, independence, and hope.

Whether through fundraising, outreach, professional expertise, or advocacy, every act of service creates meaningful change. with HabenEri is more than offering help; it is standing in solidarity with individuals who face daily challenges and affirming their right to opportunity and inclusion.

It is choosing empathy over indifference and action over silence.

To our current volunteers, we thank you. Your commitment embodies the spirit of service and inspires others to step forward. To those considering volunteering, know that your

contribution—no matter how small—has the power to transform lives, including your own., through service, we strengthen our community, honor our values, and give true meaning to the essence of life

Call to Action:

We invite you to answer this call. Whether you are already walking with us or considering taking your first step, your service matters. Join HabenEri as a volunteer—share your talents, your compassion, and your time. Together, let us turn faith into action, service into impact, and goodwill into lasting change.

HabenEri Atlanta Chapter Hosts Donor, Supporters, and Volunteers, Appreciation Day.

The HabenEri Atlanta Chapter proudly hosted a Donor Appreciation Day to honor the generous supporters who make the organization's mission possible and to warmly welcome both current and future members. The event brought the community together in a joyful and welcoming atmosphere, featuring cookout food, refreshing beverages, and music—all provided free of charge to everyone who attended.

Dr. Haile Mezgebe, President of HabenEri, joined the gathering virtually and was the first speaker to address the attendees. He opened his remarks by expressing deep appreciation for the continued support of donors, members, and volunteers.

Dr. Haile shared highlights from his recent successful visit to Eritrea, where he held productive discussions with various stakeholders, including the National Association of Eritrean War

Disabled Veterans (NAEWDV). He also reported the delivery of \$25,850 toward previously agreed-upon projects aimed at alleviating the challenges faced by people with disabilities in Eritrea, reinforcing HabenEri's commitment to turning generosity into tangible impact. During the program,

Dr. Aron delivered an inspiring address highlighting HabenEri's past accomplishments and outlining its future projects. His remarks underscored the organization's ongoing commitment to empowering individuals with disabilities through meaningful programs and long-term initiatives.

The program also included a presentation by Mr. Filmon, HabenEri's Financial Officer, who provided a clear and informative 2025 financial update. His report demonstrated HabenEri's dedication to accountability and responsible stewardship of donor contributions, reinforcing trust and confidence among members

and supporters. The gathering was further enriched by the presence of distinguished guests joining virtually. Mr. Abraham Kiflezion, Vice Chairperson of the National Association of Eritrean War Disabled Veterans (NAEWDV), who was visiting a Scandinavian country at the time, joined the event virtually and addressed the members. His message emphasized solidarity, collaboration, and the shared responsibility of supporting people with disabilities across communities and regions.

Additionally, Mr. Tekest Fisaye joined the gathering via Zoom and shared valuable insights and experiences from HabenEri's sister organization in Sweden, highlighting successful initiatives and lessons that could further strengthen HabenEri's work.

The event also featured remarks from Mr. Kidane Rusom, Chairman of the HabenEri Atlanta Chapter, who expressed heartfelt gratitude to members and supporters for making the gathering a success.

FROM MARATHONER TURNS TO SUPPORT DISABLED ERITREANS

By Dr. Solomon Ghide MD

Solomon Ghebredingle Ghide, MD, is an infection diseases specialist out of Houston.

Dr. Solomon, a dedicated, proud Eritrean American has always been supportive of and proud of his heritage. He has now embarked on a campaign to advocate on behalf of disabled Eritreans through HabenEri. He did this by running the Houston Marathon on January 11, 2026, with a single purpose highlighting and supporting HabenEri mission of raising funds for disabled Eritreans.

Dr. Solomon stated, "I am at the peak of my best health and physical fitness at age 67". He has competed in five full marathons and in IRONMAN race (170.4 miles in less than 16 hours). He wants to use his blessings of physical fitness to motivate and inspire the rest of us to remain fit by committing ourselves to regular exercise. Most importantly Dr. Solomon is using his fitness to raise money on behalf of disabled people in the country of his

birth. He is challenging all of us to contribute to the campaign by donating any amount that our budget allows. Dr. Solomon has contacted his colleagues, staff, friends, and family to challenge them to sponsor his Houston Marathon runs. By doing so he is able to raise more than \$28,785 USD from his marathon campaign.

We at HabenEri are grateful to Dr. Solomon for his dedication and support of this worthy cause. Dr. Solomon will continue to support HabenEri in his role as a member of the Board of Directors.

HabenEri is not-for-profit 501 (C) organization registered in the state of DE.

There are many non-profit organizations working to support victims of war, hunger, diseases, etc. in many parts of the globe. HabenEri is the only non-profit organization that advocates and works on behalf of Eritreans who become disabled due to war,

landmines, road accidents, etc.

We have no paid staff. HabenEri is fully run by volunteers. 100% of any donated goes for the intended purpose of supporting disabled people in Eritrea. Please reach into your pockets and help Dr. Solomon and the rest of HabenEri members accomplish our mission of helping others less fortunate than us.

CELEBRATING AN EXEMPLARY HABENERI SUPPORTER MR. PAWLOS AFWERKI.

MS, EDEN ASEFAW HANDING CERTIFICATE OF APPRECIATION.

At HabenEri, our mission is strengthened by the generosity, creativity, and dedication of individuals who believe deeply in uplifting people with disabilities. One such exemplary person is Powlos, whose recent contribution has made a truly meaningful impact on our organization.

What makes Powlos's contribution so unique is the time, care, and artistic talent he devoted to it. Powlos personally designed and handcrafted 50 beautiful women's handbags, each one a work of art. Rather than keeping or selling them himself, he generously donated all of them to HabenEri so they could be sold in support of our mission.

The handbags were featured at Festival Eritrea 2025, where they received tremendous admiration and support from the community. Thanks to Powlos's creativity and generosity, the sale of these handbags raised \$1,500, directly benefiting HabenEri's programs and the people we serve.

Powlos did not simply give a donation—he gave his time, skills, and heart. His contribution is a powerful reminder that HabenEri values all kinds of support, not only monetary contributions. Whether through voluntarism, helping to promote our cause on social media, or sharing our mission with family and friends,

every effort makes a meaningful difference. We are deeply grateful to Powlos for his outstanding generosity and commitment to HabenEri. His example inspires all of us to give in ways that are meaningful, creative, and rooted in service to others.

Thank you, Powlos, for turning artistry into hope and support for our community.

I DEDICATED MY BIRTHDAY FOR HABENERI.

My name is Fitsum Baire from Atlanta I recently celebrated my birthday on Sep 12, 2025. The day was more than just my birthday—it became a day of purpose, reflection, and collective impact.

This year, instead of celebrating with gifts and parties alone, I decided to use my birthday to support a cause that is close to my heart: HabenEri, (North America Support Group Of Disabled Eritreans) an organization dedicated to helping disabled Eritreans in Eritrea live with dignity, independence, and hope.

Why HabenEri? HabenEri Inc. is a 501(c)(3) non-profit organization, officially authorized by the

National Association of Eritrean Disabled (NAEWDV) to raise funds in support of individuals with disabilities in Eritrea. Disabled Eritreans face daily challenges that many of us never see or experience.

HabenEri works to bridge that gap by providing support, resources, and advocacy for individuals who are too often overlooked. Their mission is rooted in compassion, inclusion, and community—values that deeply resonate with me. I realized that my birthday could be more than a personal milestone. It could be a platform to raise awareness and inspire action. I used Facebook to Spread the Message On my birthday, I shared a Facebook....

post explaining why HabenEri matters to me and how people could turn my celebration into an act of giving. Instead of asking for gifts, I made a simple request:

“If you want to celebrate my birthday, please consider donating to HabenEri to support disabled Eritreans.” Facebook allowed me to reach Eritreans and friends of Eritrea around the world. The post sparked conversations, shares, and messages of encouragement. Most importantly, it led to meaningful donations—each one a reminder of the power of using social media for good. My Message to All Eritreans and Friends of Eritrea This experience reinforced something important: we don’t need to wait to make a

I DEDICATED MY BIRTHDAY FOR HABENERI.

difference. each of us has something valuable to contribute. We already have powerful tools—our voices, our networks, and platforms like Facebook. A single post, combined with a personal story, can inspire others and create real impact. Imagine the difference we could make if more of us dedicated a birthday, anniversary, or personal milestone to supporting HabenEri Inc.

You Can Donate:

Supporting HabenEri is easy and secure. You can donate in the following ways:

1. Via Zelle

Send your donation to:
470-559-2936

2, Via Secure

Website

www.HabenEri.org.

Every contribution—big or small—helps improve the lives of disabled Eritreans.

How You Can Get Involved in addition to donating, you can:

- Create a Facebook birthday fundraiser or post for HabenEri
 - Share HabenEri's mission with your family, friends, and community
 - Encourage others—Eritreans and friends of Eritrea alike—to join you
- Together, through HabenEri, we can make a lasting difference for disabled Eritreans.

Ohio State University Eritrean Students Association Endorses HabenEri's Mission.

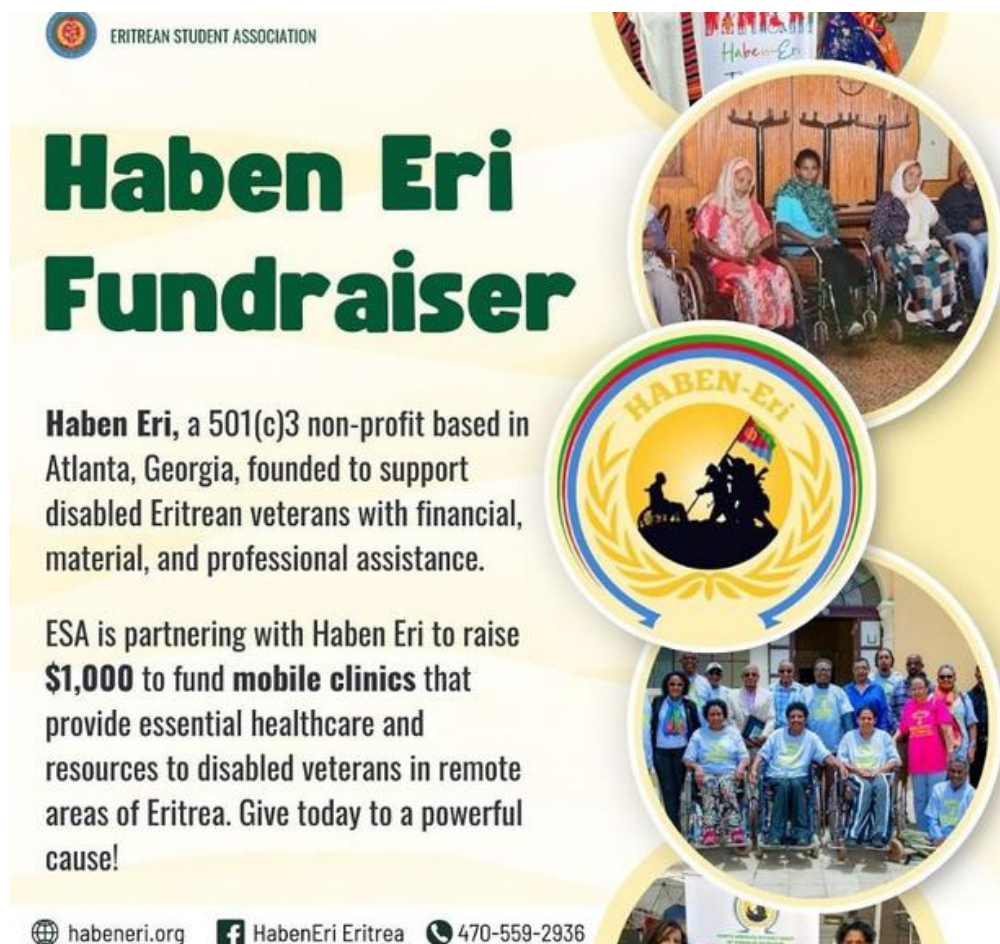

HabenEri is pleased to acknowledge the notable generosity and sense of social responsibility demonstrated by **ESA**.

Through exemplary youth leadership and active community involvement, ESA students provided a significant monetary contribution in support of HabenEri's initiatives befitting individuals with disabilities in Eritrea. The funds were generated via a well attended cultural event, "**Night by the Red Sea**" organized by ESA. The gathering highlighted Eritrean heritage through cultural activities, unity, and engagement, while also advancing a philanthropic objective assisting those living with disabilities. The association effectively integrated cultural celebration with purposeful action, illustrating how tradition can complement service.

This commendable donation exemplifies the increasing role of youth in humanitarian endeavors. more than hosting a cultural event, ESA Students utilized the occasion to foster tangible impact. the approach underscores the potential of young individuals to drive positive change when combining strategic organization, vision, and dedication to service.

HabenEri expresses sincere gratitude to the ESA members for their commitment, initiative, and solidarity. The support with aid ongoing projects aimed at enhancing the quality of life for people with debilities in Eritrea delivering hope and meaningful assistance where it is critically needed.

HabenEri encourages young students and professionals to follow ESA's lead in supporting people with disability in Eritrea.

The poster features a yellow background with a large green title 'Haben Eri Fundraiser'. To the right, there are two circular inset photos: the top one shows three women in traditional Eritrean dress, one in a wheelchair, and the bottom one shows a group of people, some in wheelchairs, standing together. A circular logo with a rainbow border and the text 'HABEN-ERI' is positioned between the photos. At the bottom, there is a row of social media icons and contact information.

 ERITREAN STUDENT ASSOCIATION

Haben Eri Fundraiser

Haben Eri, a 501(c)3 non-profit based in Atlanta, Georgia, founded to support disabled Eritrean veterans with financial, material, and professional assistance.

ESA is partnering with Haben Eri to raise **\$1,000** to fund **mobile clinics** that provide essential healthcare and resources to disabled veterans in remote areas of Eritrea. Give today to a powerful cause!

Dr. Berhe Habte-Giorgis delivered remarks to the youth at the event as a representative of HabenEri.

A Heart Of Service: Dr. Samuela Zerai's Journey at Denden Clinic Asmara, Eritrea

Q & A

1, What motivated you to volunteer at Denden Clinic, and what was your role during the four months you spent in Eritrea serving people with disabilities?

A: My background is as a critical care nurse in the private sector for over 15 years. I have since continued my career as a board-certified advanced Family Nurse practitioner working in the federal government. The experience and exposure I gained from working with a population of diverse medical problems gave me the experience, confidence and motivation to help disabled Eritreans in my native country of Eritrea. When I first visited the Denden clinic in Asmara, I was fortunate to have been introduced to the then Director of the National War Disabled Veterans Association, Gebrebrhan Eyassu

who has since passed on. I was also fortunate to meet the medical director of the association, Dr. Rezene Mebrahtu. I am grateful to both for introducing me to the Denden Clinic, its staff, the patients and for helping me navigate the system.

The Denden Clinic is located at the former Kagnaw station, and this is where many of the seriously disabled veterans and their families live. The Clinic treats several war veterans with extensive disabilities including quadriplegia and paraplegia. There are also children with blindness, deafness and autism living within the community. I got involved in participating in the care of the disabled population at this location and in outlying rural areas as well.

2, Can you share one or two moments from your time at the clinic that were especially meaningful or satisfying for you, and why they left a lasting impression?

A: the hospital is really like a gathering of family members who share similar experiences, disability, and challenges. This group and their extended families laugh together tell jokes and share their experiences and try to enjoy life to their best ability. They consider themselves physically disabled but remain very motivated to fully remain active and live life.

They don't seem to harbor any bad feelings or regrets and don't feel sorry for themselves.

One event that stuck in my mind was at the time of the famous Eritrean cyclist, >>>>>

Biniam Girmay approaching the finishing line at the Tour de France where a large group of disabled veterans and their family's watching television erupted with cheers, screams of joy and dancing (lying in bed or on their wheelchairs).

The disabled veterans live in groups. Each room has either two occupants or up to six in the larger rooms. Each room is equipped with TV with access to local, regional, and international news/activities. There is a strong camaraderie and sense of community within the group. To my surprise I did not find anybody on psychiatric medications, and I did not observe anybody with any signs of PTSD. This is a large part due to the fact that they are proud of the cause they fought for and take pride in having participated in the liberation of the country.

3,What were some of the main challenges you encountered while providing care to disabled patients at Denden Clinic, and how did you and the local team work through them?

A: there are many challenges that are facing the disabled people. There is lack of modern equipment to facilitate mobility. They need equipped ambulances and there is shortage of trained healthcare workers. The recreational areas also need rehabilitation and improved equipment. The need for material support is very long. As you can imagine, when you have paraplegia or some form of spinal cord injury, there always a need for three-way and straight Foley catheters. There is need for topical antibiotics, skin antiseptics, Daykin's solution, and other supplies for wound care related issues. There could benefit from activities from computer training, handcrafting, reading and language skills and other activities that can keep them busy that may even help them generate income. There's also need for visiting vascular surgeons, urologists and other healthcare providers including experienced nurses to provide bedside nurse and teaching.

4,What key lessons—professional or personal—did you take away from this experience that you believe will stay with you for life?

A:There is a need for material and financial support to improve the quality of life of the disabled. I came away very impressed by the positive attitude, lack of self-pity, the motivation to get better and to improve quality of life and their ability to get along with one another despite the challenges they face. They can benefit from any goodwill persons willing to help financially for purchasing essentials meds and supplies. There is also a need for teaching be it by physical therapists, nurses, doctors or any other healthcare provider. Anyone who is interested to engage either personally or to support the disabled people in Eritrea (indirectly or directly) can contact HabenEri either through its website (HabenEri.org) or by contacting one of its volunteers. HabenEri is a 501-C not-for-profit organization that is legally registered in the US. Its mission is to help support the various needs of the disabled veterans and civilians in Eritrea with special emphasis on health care.

Thank you, Dr. Samuela, for taking the time to share your experience and reflection. Your dedication, compassion, and service at Denden clinic continue to inspire our community.
