

SATELLIET° ORIGINALS

Satelliet Originals is a European hospitality furniture collection with a distinctive character and a unique signature. Every product created by the Originals designers is edgy and embodies toughness, boldness, diversity and individuality. Satelliet Originals is not only an idiosyncratic label with a versatile collection, it also has a very diverse team of national and international designers behind it. In addition to individual customisation and originality, the eye, hand and heart of the designer, makes all the difference. Satelliet Originals design revolves around character, feeling, emotion and is characterised by a 'touch of hospitality'. Be an original is our core brand statement and stands for being yourself. Unapologetically.

Touch of hospitality

been established in 1971 in The Netherlands and has become an authority in the field of hospitality furniture. Hospitality is on the rise in more and more markets. Atmosphere goes above and beyond pure functionality, but comfort and quality will always be in style. With Satelliet Originals we want to offer creatives in the hospitality interior sector the tools to deliver our promise on a larger scale. We believe that sharing our creativity and expertise in the form of a contemporary furniture collection will contribute to the creation of unique hospitality locations: places to remember.

Tailored design

Satelliet Originals' collection is unique and responds to the ever-changing needs of users and guests. Each piece of furniture in the Originals collection has its own character, its own face, and in this way supports the identity of a concept or interior. We know that every project is unique and that this requires a wide and broad range of possibilities. The real strength of Satelliet Originals therefore lies in customisation. Due to the extensive choices in material and design, the possibilities with Satelliet Originals are unprecedented. Models, materials and colours must fit like a tailored suit.

Sustainable Originality

By continuously making sustainable decisions and deploy SUM - Still Usable Materials - for the creation of bespoke new products, we work hard on the future of sustainable hospitality furniture. At Satelliet Originals we strongly believe that contemporary and sustainable designs should be included in every interior concept because of their distinctive, beautiful and comfortable characteristics. In doing so you unconsciously, yet consciously, contribute to a sustainable future, without compromising on quality and charisma. In striving for sustainability, beautiful collaborations emerge. Together we make a difference.

Meet our brand new Originals

Through years of experience in the hospitality furniture industry we are fully aware that trends follow each other at lightning speed. For this reason we are always searching for the latest developments and trends to inspire us. All with the aim to offer a qualitative and up-to-date collection. By being at the basis of every product within the Satelliet

Originals collection, we are able to respond quickly to the continuously changing wishes and needs of the market. Together with the versatile team of designers and our knowledge of the market trends, technical developments and materials we created Brand New Originals. All available to you to realize on point hospitality interiors.

Unique signature

This versatile collection, under the unique Originals label, is crafted by a diverse team of both local and international designers. Designer Jesse Visser, speaking about his work on Arcadia, says, 'Satelliet has a fantastic product development department, ensuring that top-quality products are always created. As a designer, it's wonderful to work this way.' Beyond custom work and originality, it's the eye, hand, and heart of each designer that truly makes the difference. Designer Elise Luttik, known for Chester, adds: 'Being part of the Satelliet Originals design collective inspires me in terms of sustainability and hospitality. Everyone's unique signature is so clearly visible within the brand. I feel a strong sense of teamwork when collaborating with Satelliet, which means a lot to me as an individual designer.' At its core, Satelliet Originals design is about character, emotion, and an unmistakable 'touch of hospitality'. Their brand ethos? Embrace who you are, unapologetically: Be an original.

Collaboration

What makes our collection truly original? The designers behind the unique designs. Satelliet Originals is not just a label with a versatile collection, there is also a very versatile team of progressive designers behind it. All of them believe that together you can achieve more than alone. These collaborations are unique and give an extra dimension to the brand and the products. The eye, the hand and the heart of the designer, that's where Satelliet Originals makes the difference. It is a feeling, an emotion. Meet the designers and their Originals here.

Take it personally

The unconventional artist Toshy is the embodiment of 'Be an original'. His journey reads like a storybook: from an underground street and graffiti artist, he evolved into a creator known for personal texts with a message of love and connection as his signature.

Toshy explains: 'You & Me is about recognising and celebrating uniqueness and individuality. The interaction between different individuals sparks inspiration and connection. By staying true to yourself – authentic and original – you showcase true character and make an impact. This concept illustrates that a chair, bar stool, or pouffe is functional on its own – 'Me' – but gains connective value when a second item is added, creating interaction with 'You'. You & Me symbolises bringing people together and highlights the functional role a piece of furniture can play in this process.'
