LockerWall by Bisley is the fully integrated, optimum storage and smart locker system that delivers dependable security, without dominating your space or sacrificing your style. Utilising the latest smart locking software, including networked and hard-wired locks, personal storage and facility management has never been simpler and safer.

The rise in personal stowage requirements is at the forefront of a modern, productive workplace. What was once banished to cloakrooms or basements is now a firmly established part of the front office landscape.

Our personal storage solutions can help free up space, promote productivity and give everyone a sense of belonging.

All doors, plinths and top panels in Fjorde Green 638.

# Why choose us?

## A greener Bisley

View the Bisley Green Book to learn about our sustainability achievements and commitments.

Over 80 years of award-winning design expertise

Europe's leading manufacturer of steel storage with a state-of-the-art wood plant

15,000 products leave our South Wales factory every week

### Manufacturing excellence that's engineered around you.

We're proud to be a full manufacturer that really is Made in Britain - we manufacture all our own steel and wooden furniture in our South Wales factory and export worldwide.

We practice Lean Manufacturing, and have recently invested over £2m in machinery, to ensure we are using the latest manufacturing processes and technologies, continually seeking to improve our products and designs.

Our knowledge and expertise is unrivalled and continues to grow. Our team is here to guide you through all the options - from dimensions and finishes, to putting together a precise design specification. Whatever the project requirement, we're on hand to ensure you achieve exactly what you want.

We create furniture that lasts a lifetime for our customers; made from the highest quality materials, using the latest innovative technologies and processes with minimum impact on our environment.

# Flexible solutions

## Wall space

A smarter use of your space.

Inspired by the traditional locker system, but re-imagined for the contemporary office, LockerWall does what it says on the tin; delivering optimum storage in a sleek, stylish system to suit your organisation's aesthetic. Connect locker and storage modules together to run along empty walls or fill existing alcoves, making the best use of your space and giving colleagues peace of mind while at work.

Left

- All doors specified in Olive Green BX6 painted steel.
- Plinth specified in Soft Black 621 MFC.

Right

- All doors, drawers, finishing panels and plinths specified in Front White 001 MFC.
- End panels specified in Verade Oak 002 MFC.

Open space

Storage that works harder.

LockerWall is not only a storage system - the lower height lockers can create zoning and space division, giving a workplace defined neighbourhoods. The standing height options double up as an impromptu work surface, or they can be accessorised with planters to bring in mood boosting biophilia.

Locker doors specified in Goose Grey AV4.  
Top and end panels specified in Natural Kendal Oak 018.

Below

Steel locker doors specified in Palest Pink CB2.  
All MFC locker doors, finishing panels and plinth specified in Verona Cherry 019.

### Third space

Designed to fit around you.

LockerWall is modular and entirely bespoke, meaning it can flex to create a variety of different workplace settings, outside of the desk. Each column is individual so you can select every unit with your colleagues' needs in mind.

Not only is there a huge choice of lockers, but you can mix and match with larger storage cupboards, coat cupboards, bookshelves and soft seating nooks. Whether you want to create a beautiful guest welcome area, dedicated spaces to catch up between meetings or pleasant, functional breakout zones, LockerWall delivers so much more than just storage.

# How to specify LockerWall

## 1 Select your modules

There are 3 heights of LockerWall modules available: 1900mm, 1540mm and 1180mm high.

- Storage cupboards, coat cupboards and bookcase modules are all available in 1900mm high only.
- All locker modules have a choice of 3 lock options as standard: AB, E4, or M3. Storage cupboards and coat cupboards are fitted with AB locks as standard.
- Other lock options including electronic locks are available and our team is on hand to find the best choice for your needs.

 [Visit our smart locking page.](#)

## 2 Select your finishing panels

Whether you are designing a freestanding bank of LockerWall or planning to scribe your configuration into an alcove, you will need to select MFC finishing panels.

 [Jump to our Finishing Panels guide.](#)

## 3 Customise your creation

When specifying your LockerWall finishes, there are 4 stages: module doors, carcass, finishing panels and perch pad material (if applicable).

- All carcasses and finishing panels including plinths, fascia panels, top, end and back panels are available in wood (MFC) only.\*
- All locker doors are available in either wood (MFC), CGL or the Vision painted steel palette.\*
- Z doors are only available in CGL.\*
- Coat cupboards and storage cupboards are only available in MFC.\*
- If you have included a perch pad, the carcass and fascia panel finish must be specified (MFC only).\*
- There are over 50 perch pad fabric colours to choose from.

 [Jump to our Finishes page.](#)

## 4 Add accessories

Add additional accessories to your storage to perfectly suit the needs of your workforce.

- Add MFC planter tops to your 1180mm and 1540mm high units.
- Additional internal shelves.
- USB power.
- A4 postal slot trays are available.
- Label holders for locker doors.
- Self-adhesive coat hooks.

[Thinking about adding a graphic to your LockerWall?](#)

Speak to our team about the options available to create something unique to your brand!

\*Surcharges may apply. Please refer to the LockerWall price list.

# LockerWall range overview

No power

Standard locks available AB, E4 & M3

# Finishing panels

Whether you are designing a freestanding bank of LockerWall or planning to scribe your configuration into an alcove, you will need to select a variety of MFC finishing panels.

This guide illustrates the panels needed for each LockerWall setting e.g. freestanding, against a wall or scribed into an alcove.

Please contact your Bisley representative for all finishing panel sizes.

### Scenario example one: Scribed LockerWall bank

For this scenario we recommend specifying:

- End panels
- Top fascia panel/s
- Plinth/s
- Infill panel/s if required

### Scenario example two: LockerWall bank against a wall

For this scenario we recommend specifying:

- Top panel/s
- End panels
- Plinth/s

### Scenario example three: Freestanding LockerWall bank

For this scenario we recommend specifying:

- End panels
- Top panel/s
- Plinth/s
- Back panel

Please note  
All additional panels (plinth, infill panels, top fascia panels and end panels) are available in MFC only.

# Accessories

LockerWall helps you reinvent how your office looks, works and flows. And once you've specified your bespoke configuration, you can accessories with all the essential amenities to provide your workforce with everything they need to be comfortable, organised, and productive while at work.

## Planter boxes – for 1180mm and 1540mm lockers

Let us know if you would like to add a planter box to your configuration and we can build one to perfectly suit.

## Additional internal shelves

Available in three widths: 300mm (11.8”), 400mm (15.7”) & 500mm (19.7”)

## A4 steel postal slot tray \*

\*Please refer to the range overview to find out which modules are compatible.

## USB power within lockers \*

Please note that USB power cannot be retrofitted.

## Self-adhesive coat hook

## Label holder

# Locking technology

We design and manufacture the highest quality personal storage lockers, but we also have the knowledge and expertise on hand to advise you on the best lock choice.

Our wide range of secure locking options for LockerWall gives all employees – whether permanent, mobile or nomadic – a sense of control, peace of mind and belonging.

Utilising our many years of experience, we can recommend a selection of the highest quality options, but we will always accommodate customer specific security requirements, working with a variety of trusted lock providers.

Our range of lockers and lock partners, both electronic and mechanical, can meet even the most challenging privacy and security needs of modern workplaces and beyond.

## Hard-wired smart locks

The latest locking technology comes in the form of hard-wired smart lock software. Take away the hassle of key management, on-site presence, and sub-par security with smart lock software that puts you in complete control.

Control tablets can be embedded into your storage, or for an even slicker application with maximum efficiency, some locks can now be linked up to real-time smart locking wireless networks. Controlled via an app on your phone or device, you can control storage from anywhere in the world.

Managers can even remotely control access, limit contact, and allow for personalised features to be added. Hard-wired locking systems can be configured to permit and deny access for users and to switch the control of the locker from private to public to sharing mode when required. They also offer the highest level of security with automatic anti-theft alarms.

Keynius

DigiLock®

RFID locks

As personal storage solutions advance, the security element is following suit, and touch free, RFID locks are becoming increasingly popular for workspace installs as well as leisure and hospitality environments. Trading in lock and key entry for hassle free RFID access brings control and peace of mind to flexible workforces.

Gantner

ojmar

Combination locks

Combination locks seamlessly integrate with many Bisley products while providing enhanced security and protection. With both shared and assigned user options, combination locks are a reliable, cost-effective solution for personal storage.

LockerWall gives you the scope to create an efficient, stylish storage system for any kind of environment.

It can be customised to fit entirely with you and your aesthetic. And with its vast range of materials and finishes, including premium wood and CGL palettes and steel paints, LockerWall is entirely bespoke, allowing you to design a sleek system that suits your space.

Steel paint finishes

Choose from an extensive range of 37 steel paints for your LockerWall. Design your storage to suite with your existing office aesthetic or introduce a bold addition and focal point to your space.

Black, Light Grey and Traffic White are also available in Biocote, which is an anti-microbial paint that works actively against microbes with the aim of preventing them appearing by up to 99.99%. Other colours available on request. Please note there is a surcharge for these finishes.

# Our commitments

As a proud British manufacturer, we take our responsibilities towards the environment very seriously, ensuring that sustainability runs through everything we do. Our dedicated Sustainability team ensures that our facilities are as sustainable as possible, while making sure that our products last and are sustainably sourced.

Bisley products are designed for functionality, durability, and a long service life. They are all tested rigorously to British and European harmonised standards for safety, strength and stability.

We have also invested in the undertaking of Life Cycle Analyses (LCA) for much of our steel product portfolio, to fully understand their environmental impacts in terms of global warming, acidification, eutrophication, ozone depletion and other indicators across all phases of a product’s life cycle - from cradle-to-grave. Our wood products are also FSC™ and PEFC certified which supports responsible forestry management.

As for electricity, we source all of the electricity that powers our manufacturing activities through renewable energy tariff. We also participate in the Energy Savings Opportunity Scheme (ESOS), which has led to substantial investment in procurement and installation of energy efficient machinery and equipment.

The team is constantly reviewing how we do things and how we might improve.
