Ready for another "performance"

The Olympiacos ONEX Men's Volleyball team is ready for another big challenge in Europe. The "Emperor" of Greek volleyball continues its European journey in the top intercollegiate competition, at the top level, with a great "battle".

Tonight (5/12, 19:00), the Greek double winners team will face Fenerbahce, which they will welcome at the "M. Mercouri" indoor arena in Renti, for the 3rd round of the group stage of the CEV Champions League.

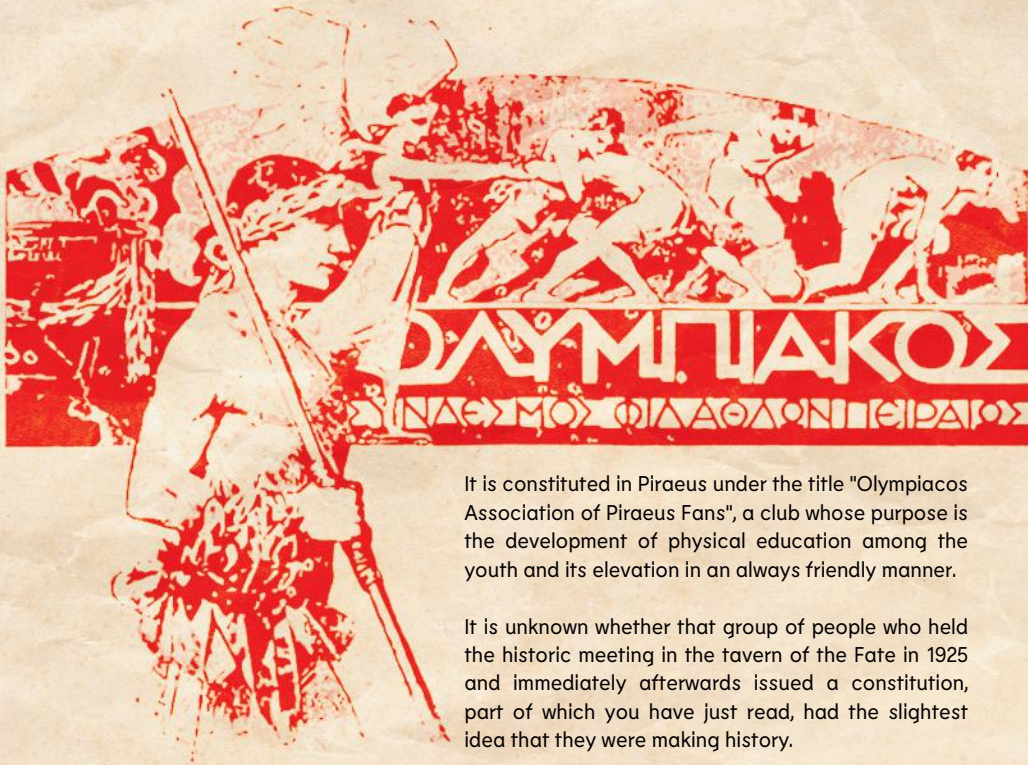

"The Legend" is in second place in its group, with four points, one behind the leader Monza (5) and one ahead of third-placed Fenerbahce (3). So, tonight's match is very important, very crucial for the Reds, but also for the second group of the CEV Champions League.

Olympiacos ONEX, with its fans as an extra player, at the renewed "M. Mercouri" indoor arena in Rendi. The best indoor arena for European games, of course after OAKA and the Peace and Friendship Stadium.

SEASON 2024 - 2025

It is constituted in Piraeus under the title "Olympiacos Association of Piraeus Fans", a club whose purpose is the development of physical education among the youth and its elevation in an always friendly manner.

It is unknown whether that group of people who held the historic meeting in the tavern of the Fate in 1925 and immediately afterwards issued a constitution, part of which you have just read, had the slightest idea that they were making history.

The aim, as Michalis Manouskos said, was to create an Association that would be an inspiration for all Greeks.

"Olympiacos" was the name and the laurel-crowned teenager was its emblem.

In the end, Olympiacos was not only a source of inspiration. It became much more than that. It was the reason why the economically disadvantaged walked down the street with their heads held high. Proudly. It wasn't just their team, it was a way of life.

A club that comes from the people, walks with them and ends up with them. Olympiacos is not a team yet. It is above the game itself. More intense than the excitement of victory. A way of life. An example for everyday fighters. He doesn't give up. He overcomes obstacles. He is Olympian. He is Greece itself. He is Ideal. It is a legend.

He was born in Piraeus, the 2nd largest port in the Mediterranean. It was sung in: "no matter how hard I look, I can't find another port". He travels the world with the Olympic ideals. It inspires the Greeks. It is in the mind something magical.

The legacy is great. It is our duty to keep the legend on the road to success. The responsibility to pass on the Olympic ideals to future generations is also great. Olympiacos is a legend. Our Olympiacos family.

We are winners. We never stop. We never give up.

We keep dreaming!

Fenerbahçe Men's Volleyball, currently known as Fenerbahçe Mediana for sponsorship reasons, are the men's volleyball department of Fenerbahçe SK, a major Turkish multi-sport club based in Istanbul, Turkey.

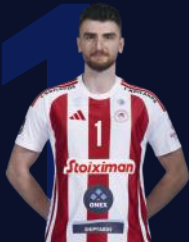

Founded in 1927, they are one of the most successful volleyball teams in Turkey, having won five Turkish Volleyball League titles, four Turkish Cups, and four Turkish Super Cups, among others. In Europe Fenerbahçe have won two Balkan Cups and the CEV Challenge Cup in the 2013–14 season, thus writing volleyball history as the women's team won another continental title, the CEV Cup, the very same day.

By achieving this unparalleled feat, Fenerbahçe became the first and only sports club in Turkey and one of a few (with Olympiacos) in Europe with European titles won in both the men's and women's volleyball departments.

The club play their home matches at the 7,000-seated TVF Burhan Felek Sport Hall.

THE LEGEND OF EUROPE!

Olympiacos. The team of legends. The team of triumphs. The Legend of Europe! Olympiacos is the "Emperor" of Greek volleyball. 31 Championships, 17 Cups, 6 League Cups. And of course, countless victories, countless moments of glory and pride!

Last season (2022-23), Olympiacos reached the Challenge Cup final, winning its third European title. A "magical" night at the Peace and Friendship Stadium. The Peace and Friendship Stadium, filled with 15,000 "red and white" fans, experienced another great moment. The department's third European title was won in the best possible way. Team and fans were 'one', a 'fist'.

Olympiacos returns to the Champions League, to the elite of European volleyball. In the sport, in which it has celebrated countless successes in its glorious history! Olympiacos is the most successful Greek team in European and international competitions, a legendary team.

The only team in Greece that has won a European title, three of them, the 1996 and 2005 European Cup Winners' Cups and, of course, last year's Challenge Cup. Also, in 1992, they won third place in the world at the 1992 Club World Cup, held in Treviso, after a 3-0 win over Messagero Ravenna.

Olympiacos is ranked among the top teams of the European Cups. This is because they have participated in 12 Final-4 of European competitions, seven times in the Champions Cup, four times in the Cup Winners' Cup and one in the European Super Cup.

A team that counts eight European finals (two in the Champions Cup in 1992 and 2002, four in the Cup Winners' Cup in 1996, 1997, 1998 and 2005 and two in the Challenge Cup in 2018 and 2023). Also a notable achievement is seven consecutive appearances in European Cup Final-4s, four in the Champions Cup (1992, 1993, 1994, 1995) and three in the Cup Winners' Cup (1996, 1997, 1998). The relevant record is held by Italian club Modena with 11 consecutive appearances in Final-4s.

A team legend, Olympiacos! The legend of Europe! The "reds", with Daniel Castellani on the bench, are once again in the "salons" of European volleyball. On the big stage. In the elite. In the stars.

"WE HAVE ACTED IN ACCORDANCE WITH WHAT OUR CLUB STANDS FOR"

"We can only compare ourselves with the best in Europe"

Olympiacos invested in the "M. Mercouri" indoor arena in Renti and transformed it into a "jewel".

The investment of the "reds" in the stadium is huge. In a stadium, which does not belong to the club! And yet, the management of the "Legend" made a great financial excess and improved, in many - and important - areas, the indoor stadium of Renti.

On the occasion of the big game against Fenerbahce, for the 3rd round of the CEV Champions League group stage, Alekos Adamantopoulos, member of the Board of Directors of Olympiacos, spoke about the "transformation" of Renti and stressed:

"We don't stop here".

-What are the changes that have been made to the stadium?

"To get the whole world talking about a small palace, we simply acted in accordance with what our club stands for. To be first everywhere and even if we don't own the facilities. We chose to invest in the stadium rather than win another championship by building a better team in one of our team sports.

Without the slightest help. In two and a half years, we literally revamped the entire stadium to enable the club to participate at the top level and attract high quality coaches, athletes and athletes.

From the replacement of the lighting, the tafflex, the screens (two), the modernization of three changing rooms, the renovation of the toilets for the fans, the creation of the Press Room, the creation of stands to increase the capacity, which was necessary for the club's participation in the top European competition, the construction from the beginning of fire safety, modern changing rooms for the referees, also we proceed in optical fibre installation, up to the murals that have warmed and beautified the whole area and on them was written the history of the club with domestic and European trophies".

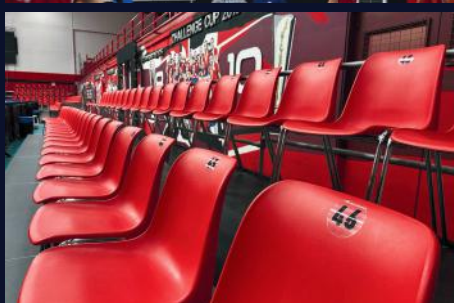

-Will work continue? What is in the plans?

"Of course, we don't stop here. We will continue, every year, to add touches until we completely revamp it. Our first order of business is to completely remodel the gym, change the flooring, new modern air conditioners, murals and there. Replacing old cut windows, insulating the roof, installing photovoltaic panels, building a parking lot to accommodate people, since mostly people can only come with their own transportation. It is a bet for us, to create the right conditions, so that our people are proud to participate in this whole effort as a member, but also to be able to fill it, feeling safe and especially to have a good time with their family. It is important to us that the volleyball teams work in the best conditions. To have nothing to envy from any other European club. Because we can only compare ourselves with them. With the best, as the Emperor of Greece and in this sport".

-We see that people who come to Renti are impressed. Do you also receive this?

"Yes, it is. The reward for our efforts is the recognition and exclamations of admiration from everyone who comes to compete here, but most of all the comments from our fans, for the work done, above all, with passion. Recently, we have given the stadium to Theitis Voulas to play in Europe, as it is the only stadium in the whole of Attica, except for the Peace and Friendship Stadium and OAKA, that can host European games with dignity".

For the second consecutive season, the Olympiacos ONEX Men's Volleyball team is in the "big leagues", in the group stage of the CEV Champions League. The Greek champions in the "stars", in the 20 best teams of European volleyball.

"Thrylos", after all, is the most successful Greek team, both in Greece and in the European / International Men's Volleyball competitions!

Olympiacos ONEX is the only team in Greece with three European titles, the 1996 and 2005 CEV Cups and of course, the recent (2023) CEV Challenge Cup. Also, in 1992, the 'reds' won third place in the world at the Club World Cup in Treviso, after a 3-0 set victory over Mesagero Ravenna in the bronze final.

"Thrylos" is ranked, over time, among the top teams in the European Cups, with participation in 12 Final-4s and specifically, seven times in the Champions Cup, four in the Cup Winners' Cup and one in the CEV Super Cup. At the same time, Olympiacos ONEX counts eight European finals in its history (two in the Champions Cup, in 1992 and 2002, four in the Cup Winners' Cup, in 1996, 1997, 1998 and 2005 and two in the CEV Challenge Cup, in 2018 and 2023).

In the past, the Reds have been present in seven consecutive European Cup Final-4s (record 11 by Modena), the Champions Cup (1992, 1993, 1994, 1995) and the Cup Winners' Cup (1996, 1997, 1998).

A group of... Olympiacos ONEX is a legend, which last year, in the group stage of the CEV Champions League, was ranked third and then continued its European journey in the CEV Cup.

The target of the "reds" this year as well is to achieve the best possible course in the CEV Champions League and in general, in the European Cups...
