Schwarzwolf® outdoor

Schwarzwolf are planting trees

During the production and transport of goods, greenhouse gases are released into the air. Examples are Carbon dioxide CO_2, Nitrous oxide N_2O, Ozone O_3, Methane CH_4, Freons CFC and many others. The concentration of these gases in the atmosphere negatively affects the environment. It is expressed as the mass of Carbon Dioxide converted = gCO_2e.

Trees store CO_2 in the wood • Trees humidify the air
Trees improve soil quality • Trees filter dust
Trees provide shade • Trees are beautiful…
SCHWARZWOLF COMPENSATE FOR THE CARBON FOOTPRINT!

How do we achieve this? First, we calculated the carbon footprint of each product separately. This is a number expressed in gCO_2e. We used the Life Cycle Assessment (LCA) methodology of the worldwide organization ECOACT. We decomposed each product, including packaging, into the individual materials from which it was made, and weighed each one separately. We also measured on maps how many kilometers Schwarzwolf products has to travel either by boat, train, car or plane. Taken together, the data determined the predicted amount of gCO_2e per piece. The carbon footprint is compensated using offset programs such as the promotion of renewable energy sources as well as planting programs. When a tree grows, it creates its mass through photosynthesis while consuming carbon dioxide from the atmosphere. We decided to plant trees with sazimestromy.cz.

The basic philosophy of Schwarzwolf outdoor brand is to offer the best possible combination of modern design and sophisticated functionality and provide quality to all outdoor enthusiasts, travelers, tourists and cyclists since 1999.

SAJAMA

gCO$_2$e
6142

The Schwarzwolf inflatable mat with an integrated pillow is packed in a practical nylon case with a drawstring. It will certainly be an indispensable helper when camping. It takes up a minimum of luggage space thanks to its small size and low weight of 540 g. It is equipped with two valves for easy inflation of cushions and pads. It helps with thermal insulation and provides a comfortable rest. The material is waterproof. The inflated mattress has a length of 190 cm, so it will allow comfortable sleeping even for taller people. For even easier inflation, it is advisable to add a Schwarzwolf KASAI inflatable bag.

Weight: 540 g
Material: 40D nylon + TPU
Recommended printing technology: silkscreen printing S3 on the case
Maximum print size: 100 × 50 mm
Dimensions: mat 65 × 190 × 6.5 cm, package 11 × 27 cm
