Airshow Demographics

One of the best-kept secrets is now out. In the last millennium, airshows were the second most popular spectator sport in North America! Over 26 million people attend more than 400 airshows annually. During the past decade, airshows drew nearly twice the attendance figures of NFL football! Airshows deliver significant and measurable results for everyone, from mature product marketers with broad customer bases, to new product marketers and those with specialized or niche customer bases. Whatever your marketing objective - moving product, building recognition, or enhancing/positioning brand image, airshows can help you accomplish your goals.
