

# ReCircle's Textile Takeback Program

## From Closet Clutter to Circular Solutions

ReCircle's Textile Takeback Program helps individuals responsibly recycle their old clothes.

**For just ₹199**, you can purchase a specially designed Takeback Bag from our partner stores, fill it with around 5–6 kg of used clothing, and schedule a doorstep pickup.

By filling up the bag you are diverting clothes from landfills, thus making a positive environment impact.

### Items you can put in the bag

Men's  
Clothing

Women's  
Clothing

Home  
Linens

Uniforms &  
workwear

### Please avoid sending these items

Undergarments  
& Socks

Cushions

Cloth  
Scraps

Note: All clothes must be washed and dried.

# Frequently Asked Questions

## What can I put in the ReCircle textile takeback bag?

You can put any type of old clothing—tops, shirts, trousers, dresses, ethnic wear, jeans, skirts, jackets, and more. We accept both gently used and worn-out clothes, as long as they are clean and dry.

**Note:** Please avoid putting in wet clothes, undergarments, heavily soiled garments, or non-textile items like shoes, bags, and toys.

## How do I schedule a pickup after I fill my bag?

It's simple:

- Step 1: Scan the QR code printed on the bag flap using your smartphone.
- Step 2: Fill in your pickup details such as address and preferred date and time.
- Step 3: Confirm your booking — and you're done!

Our friendly collection team will come to your doorstep as scheduled.

## What happens to the clothes after ReCircle collects them?

After pickup, your clothes are sent to ReCircle's ethical sorting and recycling facility.

- Reusable clothes are cleaned and circulated back into the economy through resale or donations.
  - Non-reusable clothes are responsibly recycled into new materials such as industrial rags, insulation, or upcycled fabrics.
- ✔ No dumping. No burning. Only conscious reuse and recycling.

## What if my bag is not full yet—can I still schedule a pickup?

We encourage you to fill the bag fully (around 5–6kg) to maximize the environmental benefits. However, if you are unable to fill it completely, you can still schedule a pickup — no worries!

## Why is there a ₹199 charge for the bag?

The ₹199 covers:

- Cost of producing the sturdy, recyclable takeback bag
- Collection and transportation
- Ethical sorting and recycling operations

This small fee ensures that the entire process remains transparent, sustainable, and impactful.

## How long will it take for my bag to be picked up once I schedule it?

Once you schedule your pickup, our team will collect your bag within 3–5 working days, depending on your location and availability.

## What are the environmental benefits of using this program?

Every bag you fill contributes to:

- Diverting textile waste away from overflowing landfills
  - Saving water and energy used in producing new garments
  - Reducing carbon emissions generated by manufacturing and incinerating textiles
- 🌍 One small bag = One big step toward a cleaner, greener planet!
