ABOUT THE BIO-JEWELRY

BRAZILIAN FLORA PRESERVED IN 18KT GOLD AND IN SILVER.

The bio-jewelry manufacturing facility filters and recycles the water used in the production, saving thousands of gallons of water.

Each piece from the CARLA SHAW jewelry collection is handmade with real leaves and seeds coated in 18-karat gold or in silver.

Because it's made from real plants, each piece is unique.

- The jewelry is produced using ethical and sustainable practices to minimize environmental impact.
- The harvesting of the leaves is timed so as not to harm the plants or the ecosystem. In some cases that happens only once a year.
- The bio-jewelry manufacturing facility filters and recycles the water used in the production, saving thousands of gallons of water.
- The 18-karat gold used in our collection does not contain nickel or cadmium.

THE PLANTS

Coffee Beans

Grace Herb

Quina

Parsley

Cerrado

Cypress

Fern

Rose Leaves

Sempre Viva

Rosemary

Lemon Cypress

Magnolia

EARRINGS

Lemon Cypress Earrings

*Measurements Approx. 1" h x 3/4" w
Available in Gold and in Silver*

Lemon Cypress Mini Hoops

Measurements Approx. 3/4"
Available in Gold and in Silver

Coffee Bean Earrings

Measurements Approx 1/2"
Available in Gold and in Silver

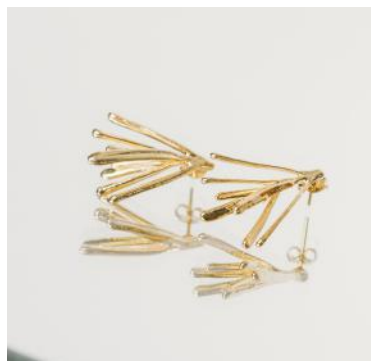

Grace Herb Earrings

Measurements Approx. 1" h x 3/4" w
Available in Gold and in Silver

Fern Earrings

Measurements Approx. 1" long
Available in Gold and in Silver

ABOUT CARLA

Carla was born in Brazil - one of the most beautiful tropical countries in the world and home of a rich, lush and exotic flora. The Brazilian girl always had her heart set on one day being an ambassador and advocate for the preservation of this gift to humanity. After 35 years mostly in the financial industry, Carla decided it was the right time to embark on her lifelong project and CARLA SHAW Sustainable Fashion was born. Carla lives in Cambridge, Massachusetts, with her husband, Bill, and their spoiled dog, Liam Edward.
