Release Summary

1.2.10 – April 3, 2025

Dash's Bazaar Box has arrived, introducing new accessories, set bonuses, and abilities. White Mage and Bard receive spell adjustments, while a major bug fix prevents mid-battle accessory swaps. Mobile optimizations improve gameplay, and the Titan roster now better reflects available units.

1.2.11 – April 16, 2025

The Titan Arena has been updated with a new 400 Blue Voxite entry fee, raising the stakes for every match. Potions are now re-enabled, allowing players to use consumables during battle for added strategic depth.

1.2.12 – April 23, 2025

The Toxic Forge Event has arrived, unveiling fresh forge goodies through both the Smelting and Identify recipes! We've cleaned up some mobile bugs, including those pesky quality setting issues and mysterious login errors. Combat got a shake-up too—Stop no longer stops you cold, just bumps you back a few spots. Class tweaks are sizzling: Knights and Necros now pack extra punch with Sunder and Erode, while Chemists join the Erode party with their potent brews. Robos save some juice with a cheaper Spark Blast, and Undeads get a revamped Horrify that hits harder, dazes more, and fears... well, a bit less.

About The Author

Moonscaper here! I'm a Voxies and Voxie Tactics Items NFT holder and I've been a part of the Voxies community since June 2021.

Another episode of my attempts on getting Unidentified-exclusive items:
• I failed to get Giga Power Pendant (Titan Forge) on Feb. 28th after 16 attempts, then tried again on Apr. 10th, finally getting the item at the 3rd attempt (total 19 attempts)
• Tried my luck for the Venomfang Cleaver (Toxic Forge), winning it after 18 attempts.
