

Hikvision Advanced Walk-Through Metal Detectors

Unlock advanced protection against safety threats

With exceptional sensitivity and robust anti-interference capabilities, these detectors guarantee **precise metal detection**, effectively identifying prohibited items in real time.

Elevate your security standards with Hikvision's **cutting-edge walk-through metal detectors**.

- 33 Detection zones
- Adjustable zone sensitivity (levels 0-999)

- Configuration via web access and the remote controller

- Networking with the HikCentral Professional Platform

- Equipped with a camera for visual recording and event tracking

PRODUCT SHOWCASE

ISD-SMG533L

Display	7-inch LCD
Zone indications	33 Detection zones
Sensitivity	0-999 Sensitivity level range
Working frequency bands	20 Options
Pre-loaded settings	30 Pre-loaded settings
Power	100-240 VAC, 50/60 Hz
Consumption	11 Watts
Operating humidity	≤95% (No condensation)
Working temperatures	-20° to 55° C
Output interface	1 RJ45 network port and 2-channel alarm output port
Overall dimension	2287 mm x 872 mm x 665 mm (H x W x D)
Passageway dimension	2005 mm x 727 mm x 600 mm (H x W x D)
Weight	84 kg

29-inch large screen

ISD-SMG533LC-I

Display	7-inch and 29-inch LCD
Zone indications	33 Detection zones
Sensitivity	0-999 Sensitivity level range
Working frequency bands	20 Options
Pre-loaded settings	30 Pre-loaded settings
Power	100-240 VAC, 50/60 Hz
Consumption	40 Watts
Operating humidity	≤95% (No condensation)
Working temperatures	-10° to 55° C
Output interface	1 RJ45 network port and 2-channel alarm output port
Overall dimension	2287 mm x 872 mm x 665 mm (H x W x D)
Passageway dimension	2005 mm x 727 mm x 600 mm (H x W x D)
Weight	89 kg
