BESPOKE

PRODUCTS AND SERVICE

PROVIDING YOU WITH GUIDANCE AND A PRODUCT PERFECTLY TAILORED TO YOUR UNIQUE SPACE

Over the years we have had an increasing requirement for residential and commercial bespoke products. From an individual item for residential, through to Hotel Lobbies and everything in between. This has led to us offering a bespoke service that includes site visit surveys and advice, product design, manufacture and presentation.

After the survey is complete, we then design the required products, create line drawings, renders and in some cases 3D rotational imagery along with best trade costs. We can even overlay our products into architectural CAD.

We can offer this service on behalf of our trade partners and can work directly with your clients if preferred, acting as your designer/manufacturer, to save you time. So we do all of the work for you, provide you with all of the information, imagery, specification and best costs, then you add your margin and present to your client.

ELECTRICAL INSTALLATION SERVICE

We now offer an Electrical Installation Service so that you can relax with the confidence of an experienced, qualified and certified electrician service backed with our in house technical support. Our Electrician service has over 10 years experience working with and installing our stocked and bespoke products.
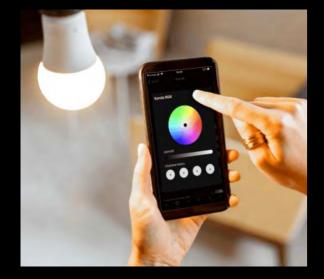

COMPLETE INSTALLATION SERVICE

STREAMLINE YOUR PROJECT WITH SEAMLESS INSTALLATION

After working for many years on bespoke products and for projects for Residential, Luxury Residential, Commercial, Hotels and even Castles we have found that the homeowner or project managers need to deal with several various trades and services.

We have seen that many of these trades and services tend to be individual separate companies, you might appoint an electrician to complete the wiring installation and a separate AV company that might deal with home automation smart control. The issue that we see time and time again is that these two separate companies don't communicate between each other enough and on many occasions are not even on site together at the same time. This can cause numerous problems and then the blame culture begins where one trade is blaming the other for the problems all due to lack of planning and communication between each of the services.

Another issue that we see regularly is that some electricians prefer to work on the hard wiring and don't like to spend the time on product installation as it can be complex, delicate and time consuming. We have seen many broken products, damaged by electricians that then need replacements, parts are sometimes thrown out with packaging and in some cases they might use a dimmer that is LED compatible but that then doesn't dim down low enough to function properly with our products, flashing, flickering and buzzing then occurs.

DIAMANTE EMBELLISHED

Due to the incredible success of our Diamante collection we have designed and now added our new Diamante Embellished Collection.

Rather than just adding different variants of the same Diamante single globes, we have added beautifully finished polished chrome and polished gold globes to our Diamante globes along with flush versions.

The unique way in which we form the crystal aspect globe in shape, angle and pattern creates stunning refractions in every facet. These powerful LED Pendants use both warm and cool light to create a dazzling effect and can also be dimmed for a beautiful ambient glow.

INTRODUCING OUR
STUNNING DIAMANTÉ RANGE

We are proud to introduce our Diamanté Crystal Aspect Pendants. We have been developing this globe over the last 18 months, with almost obsessive attention to detail. The unique way in which we form the crystal aspect in shape, angle and pattern creates stunning refractions in every facet. These powerful LED Pendants use both warm and cool light to create a dazzling effect and can also be dimmed for a beautiful ambient glow.

Terrene / Golden Egg

The Illuminati Terrene / Golden Egg is a contemporary collection complete with organic bubbles infused within pressed glass, dual light source and finished in chrome with clear or gold with champagne bubble glass. The collection comprises of pendants, wall lights, floor and table lights.

The Terrene / Golden Egg pendants have the ability to adjust each individual light vertically at any time, not just at point of installation.

Golden Egg / Terrene

Splendida collezione in vetro pulegoso rifinitoa mano ,
con montatura in metallo cromato o dorato.
La doppia illuminazione led,
verso il basso per l'ambiente e verso
l'alto per valorizzare la bellezza del vetro pulegoso,
ne aumenta il pregio, mentre la grande scelta di montature,
permetterà, anche al le persone più esigenti, di trovare
agevolmente la propria composizione: sia con
montatura in linea o rotonda, sia cromata o dorato.
Tutti questi fattori fanno si che Golden Egg
possa essere usata come grande composizione
sia sul tavolo da pranzo che nella hall di un grande albergo,
sia nella showroom che nella boutique.

Jewel

The Illuminati Jewel collection has been increased
due to its popularity. Jewel is an elegant and
contemporary collection, finished in chrome
complemented by a diamond dust effect diffuser.
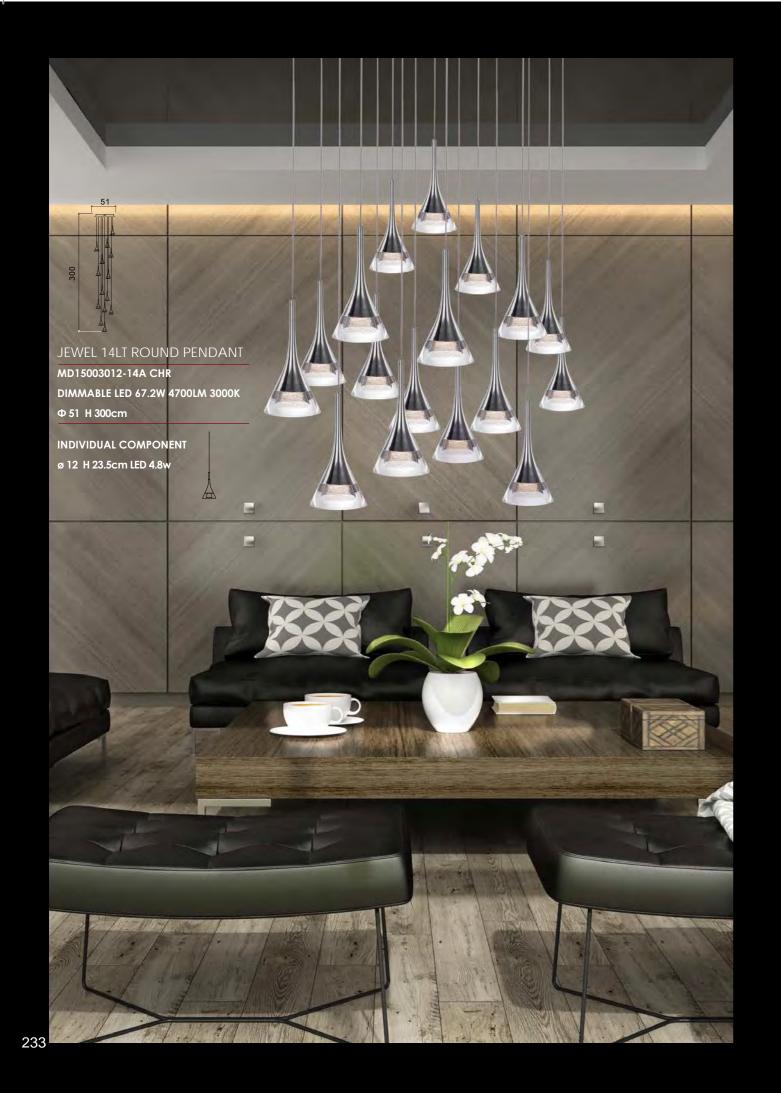

Each pendant has the ability to adjust each individ-
ual light vertically at any time, not just at the point of
installation.

Jewel
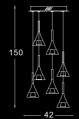

Collezione di lampade in un bellissimo
vetro, lavorato e lucidato a mano, abbinato
ad una montatura in metallo cromato,
che ne esalta la silouette, e che ben si
adatta, nella molteplicità delle scelte, ad
interpretare e personalizzare qualsiasi
ambiente: tipo salotti, cucine, camere
da letto, bagni. Ma Gioiello, con le sue
belle e importanti composizioni ben si
presta anche ad illuminare nel pubblico:
showroom, negozi, studi, hotel, ristoranti,
ecc, ecc.
Collezione in vetro lavorato a mano e
metallo cromato.

CRACKLE COLLECTION

" THE BEAUTY OF REFRACTION
REFLECTION & DISPERSION "

EN: We are proud to introduce our new Crackle Crystal collection. Continually innovating we have developed and finally realized our long term ambition of a crystal that refracts light. Creating not only a beautiful ambient glow but also a stunning focal point within the crystal itself, with every colour of the light spectrum. As the light moves through crackled facets it is scattered and fractured, creating a wonderful sparkle. Our craftsmen handwork each and every piece to get the optimum light refraction meaning no two crystals are the same.

SINGLE LIGHT PENDANT SUGGESTED SET UPS

For ease of adjustment, the Crackle is designed with a clutch mechanism to raise or lower the light, even after the product has been installed. Suitable for low and high ceilings, the simple single Light Pendant is perfect for illuminating smaller or larger spaces.

QUARTZ HALO COLLECTION
THE NATURAL BEAUTY OF QUARTZ CRYSTAL IN ELEGANT LINES

The innovative combination of natural mined quartz crystal and modern clean line frames, is at the core of this iconic collection. As stunningly beautiful as it is unique. The quartz crystals have been utilised in their most natural form with organic inclusions - a poignant reminder that they have come directly from the earth. Each crystal has been hand bonded to miniature magnets that hold them in to the slick lines of the modern frame, in a choice of satin gold or satin nickel.

LUCCIOLA EMBELLISHED
MODULAR LIGHTING SYSTEM

After the success of our newly introduced Lucciola collection we have now developed the Lucciola Embellished collection. The original Lucciola design has been embellished with sporadic Polygons, each polygon creates interesting shades of light against walls or ceilings.

MODULAR

INNOVATION IN LIGHTING

INFINITE POSSIBILITIES

A Modular system that puts lighting design into your hands. Limited only by your imagination. We have developed two distinctive styles MOLECULAR & TUBULAR and both can be configured to fit small intimate areas or cover huge expanses, you can build up any number of lights in any conceivable shape in any room or space.

The simple push lock mechanism transitions power from module to module with no need for extra power cables. These low voltage lights are made from a lightweight aviation grade aluminium and stainless steel, allowing the most ambitious installations to hover effortlessly with minimum suspension points.

MOLECULAR
MODULAR LIGHTING SYSTEM

Molecular is a contemporary globe and rod system that utilises Illuminati's Modular technology to give limitless options. Quality has been designed into every aspect of the system. The globes are cast in aluminium and the unique polymer based lenses filter the light creating a beautifully defused glow and further controll is added with all ceiling lights being dimmable. Available as pendants, wall lights, Foor lamps and table lamps.

The push lock mechanisms open up a world of options to create limitless combinations with minimum effort. A satisfyingly snug fit connects all modules that can then be locked in place with the grub screw.

TUBULAR
MODULAR LIGHTING SYSTEM

The tubular lighting system combines sleek modern design with elegant sharp lines to create statement lighting. It can be configured in grid-like architectural forms or incredibly organic shapes that become the focal point in any interior.
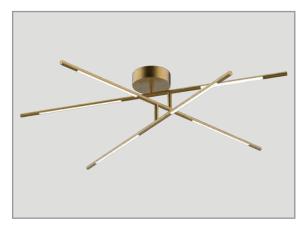

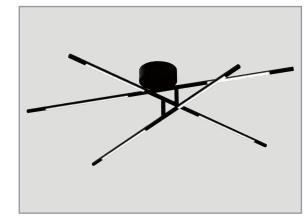

The push lock mechanisms open up a world of options to create limitless combinations with minimum effort. A satisfyingly snug fit connects all modules that can then be locked in place with the grub screws.

Oberon

The Illuminati Oberon collection is a Modern design in 4 finish options, clear glass, chrome, Multi-Colour and copper.

Each of the finishes also boasts 3 options of diameter, small, medium and large.

Oberon
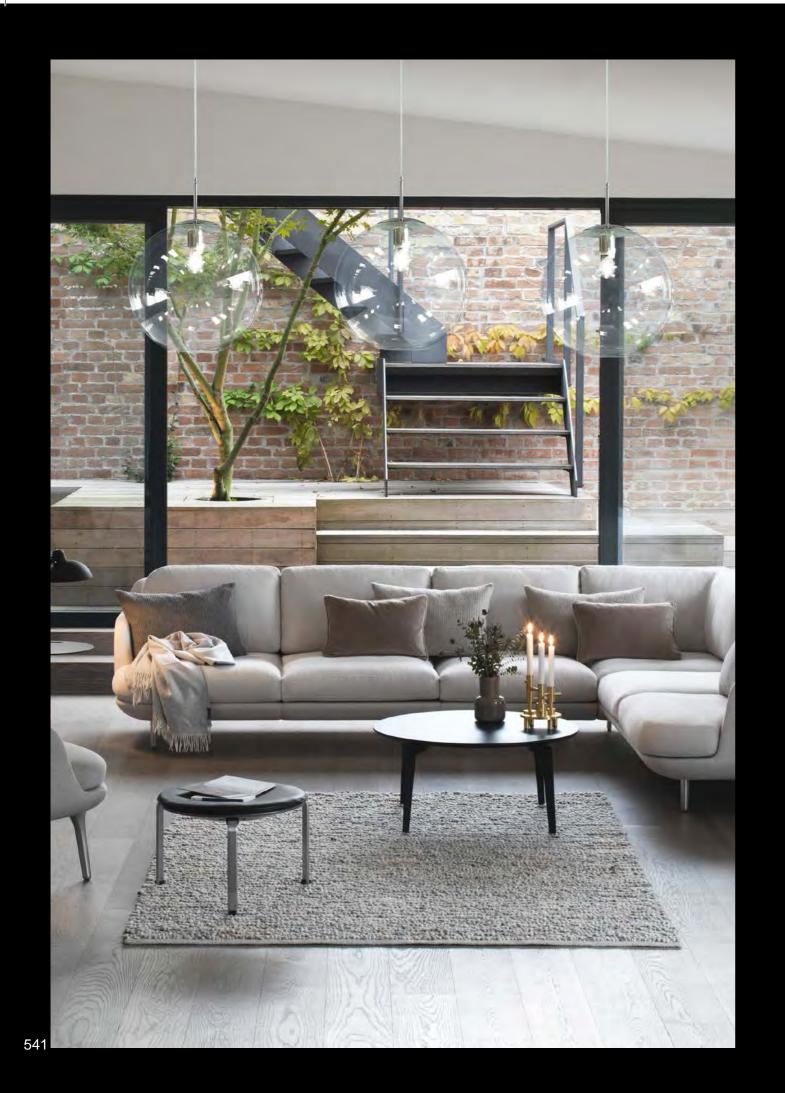

La sfera. Il vetro soffiato. La finitura cromo o bianco satinato. La più elementare delle sospensioni ha sempre e comunque il suo fascino. Elegante nella sua semplicità, Oberon può arredare con discrezione ogni ambiente, che sia da sola o in composizione con più diffusori. La casa tutta, ma qualsiasi locale pubblico può essere arredato con queste lampade, e sempre sarà elegante e luminoso.

Collezione di lampade in vetro soffiato in bianco satinato o finitura cromo.

Pearl

Pearl is inspired by the finest and most natural jewels from the ocean. Each of the opaque globes are available in a variety of sizes along with colour options. Pearl transforms the way we think of lighting. Innovation is about transforming the familiar into the extra ordinary.

Perla

PERLA è un gioiello di vetro candido e luminoso di forma regolare ma diversa nei diametri.

Il Bello di PERLA è che trasforma i tuoi desideri in solide realtà il tuo "vissuto" nello straordinario.

Tre sfere di diverso diametro elettrificate rispettivamente con 2 e 3 watt led dimmerabili consentono infinite soluzioni.

Il risultato finale è incredibilmente elegante perché coniuga la bellezza al lusso.

La fluidità delle linee simile ad una collana di perle arreda ogni tipo di spazio in maniera elegante, opulente ci viene In mente un aggettivo
