

Family Resource Guide

Your Guide to Family Resources in Charlevoix, Emmet, and Northern Antrim Counties

Welcome back! We are excited to introduce you to the new and improved Family Resource Guide for Charlevoix, Emmet, and northern Antrim Counties. As it often goes, we've learned a few things since first launching this project. With this in mind, you may notice we have made design element changes in an effort to make the guide more user-friendly, accessible, and hopefully relevant.

First and foremost, as the hub of early childhood, we know the challenges that exist in our community. We hope to reduce those barriers and lead you to available resources and supports to lift you up in times of need. We all need a helping hand, a kind word, and a listening ear from time to time and we hope you'll find those resources in the pages of this guide. If you don't find what you are looking for, call our Family Resource Coordinator at 231.308.0289 and we will do our best to connect you to the services and resources you need.

We are also keenly aware of the need to ensure sustainability, efficiency, and effectiveness of services and offerings to avoid unnecessary financial strain on the precious resources available to the many organizations filling gaps and serving individuals and families in our community. With this in mind, we have shifted the Family Resource Guide to an electronic platform. This shift drastically reduces printing and circulation expenses and creates a natural opportunity for the guide to be updated on a routine basis.

With this in mind, if you notice a resource that is not listed in our guide or if you come across a resource that needs to be updated, we strongly encourage you to submit a change request at: <https://bit.ly/frgrequest>. We will use this information to add resources to the guide, remove outdated information, and update changed information. We hope this change will allow us to keep the community informed of the many services available to support overall health and wellness and provide a more sustainable platform for the continuation of this valuable community resource.

Stronger together,

The Great Start Collaborative & Family Coalition: The Connection All Families Need

Great Start Collaboratives serve as the early childhood system-building bodies across Michigan. As one of 54 Collaboratives, we work in our local community to advance the four shared outcomes prescribed by the Michigan Department of Lifelong Education, Advancement, and Potential's Office of Early Childhood Education:

Outcome 1: Children are born healthy

Outcome 2: Children are healthy, thriving, and developmentally on track from birth to third grade

Outcome 3: Children are developmentally ready to succeed in school at the time of school entry

Outcome 4: Children are prepared to succeed in fourth grade and beyond by reading proficiently by the end of third grade

Great Start Collaboratives bring together parents and caregivers, community leaders, and organizations invested in the early childhood system. Together we explore the strengths, weaknesses, opportunities, and threats that either support or create barriers to all children having the opportunity to achieve these desired outcomes. To ensure our Collaborative is informed and responsive to the current needs of children and families, our Great Start Family Coalition provides a parent and caregiver perspective based on the lived experience of raising young children within our local early childhood system.

Tips to Navigate This Guide

This guide is organized into different categories. You'll see that certain resources might be in one section, while others are featured in multiple areas. At the bottom right corner of each section, you'll find a button that you can click anytime to go back to the table of contents. You can also use the search function in the flipbook to look for specific key words.

Every listing contains various contact details, information about the services they provide, and clickable links to their websites and social media profiles. While many of the organizations and businesses featured in this guide offer their services for free, some might have fees. It's a good idea to reach out to them directly for specific information.

We trust you'll find value in using this digital Family Resource Guide. Enjoy!
