

# HOW TO MEASURE

**All forms/manikins in this catalog are copyrighted. Any copying of these forms/manikins is prohibited and violators will be prosecuted. Pivot Pedestal manikins are patented (6,458,434).**

Before altering or prepping forms, please check hide's fit on form. Once a form has been altered or prepped there will be NO EXCHANGE OR REFUND GIVEN.

All measurements are made WITHOUT SKIN.

All measurements are taken with a 1/4" metal measuring tape. Using other tape measuring devices may give you measurements that may not match the measurements of Classics Manikins.

**Joe Coombs Classics sizing method for manikins may not be the same as other supply companies. Joe Coombs has sculptured his forms to match nature therefore we do not have unnatural swells in the neck to require additional measurements further down. Primary measurements should be Size A and Size B.**

**If your size A and size B are accurate, size C is irrelevant. Size C is given for your reference only and should not be the primary measurement when sizing our forms. Using size A and size C as primary measurements can result in a hide not fitting properly.**

**Size A:** Tip of nose to corner of eye as illustrated.

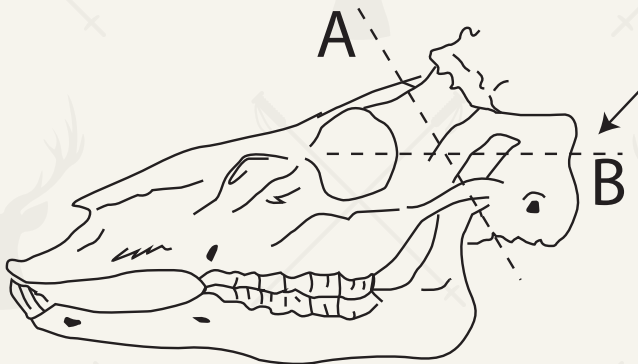

**Size B:** At beginning of swell from under chin as illustrated.

Approximately 2-3" down from small of neck around the atlas bone.

**Size C:** At small of neck as illustrated

URNS ARE DETERMINED BY THE ANIMAL'S RIGHT OR LEFT.

Use Size A and Size B measurements for Antelope and Caribou.

**AUTO-SET™ ANTLERS** - The quick and easy way to attach antlers to a Classics for a perfect fit.

**A-** Cut half-way between back of eye socket and base of burrs.

**B-** Cut 1" to 1 1/2" below back of skull.

Following these instructions will assure you a perfect fit on a CLASSICS.

**AUTO-SET™ EYES-** The eye sockets of these forms are preset at the proper angle forward and tilt downward, according to our study of live whitetails. The marks at the front and back of the eye socket allow you to line up the pupil with these marks and the eye is automatically set.

See **AUTO-SET™** eye instructions page 114

**PLEASE NOTE:** An Asterisk (\*) will be found by the form number and noted at the bottom of a description for

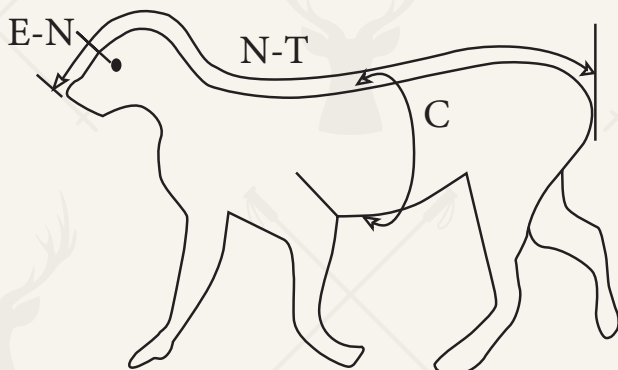

**AUTO-SET™** eyes.

Measuring Life sized Mammals

E-N = Eyes to Nose

N-T = Nose to base of the tail

C = Circumference around the largest part of the mid section.

# 9500 FULL WALL PEDESTAL SEMI SNEAK

*A true staple in the Classics lineup. For record book and trophy whitetails, see why more taxidermists and hunters prefer the Classics 9500 Series.*

# 9500 FULL WALL PEDESTAL SEMI SNEAK

The 9500 series by Joe Coombs are a great alternative to traditional wall mounts. Joe expanded on that idea and created the full wall pedestal in the semi sneak position. With the extended back of the 9500 series, customers can now show off more of their trophy whitetails. The side profile also gives viewers a better appreciation of the actual size of the animal to go along with the antler display. Nothing on the market compares to the quality and uniqueness of the Classics 9500.

This new series features a side shoulder block for mounting as a Wall Pedestal and a receptacle inside the manikin for mounting as a Pivot Pedestal. It also has a wood block in the back for connecting it to a mounting stand. A ridged back allows for easy tucking of the hide. With this manikin, you can completely finish your mounting and then decide on the wall pedestal or pivot pedestal look.

Use 8" pipe kit CST38 if mounting as a Pivot Pedestal.

If mounting as a Pivot Pedestal, the circumference of your base must not exceed 6" if you want your mount to turn 360° on the 8" pipe. If your base is larger, you will have to use a longer pipe.

# WILD BOAR BY JOE COOMBS

*The Classics Wild Boar manikins are designed more for the feral variety of boars. Boars that are the result of pure bred boars who over the years have bred with domestic pigs. They display a broader head with a greater distance between the eyes and a shorter muzzle.*

## Features:

- Auto-Set™ Eyes
- Ear butts with deep canals
- Detachable lower jaw with a wood block and screws
- Classics jaw sets just drop in
- Muzzle lengths coincide with jaw sets
- Veins and nose tendons correctly depicted
- Deep nostrils molded in
- Anatomically accurate shoulder bulge to indicate shield
- Brisket, arm pits, and throat latch are anatomically accurate
- Lip lines are defined and the ear ducts are detailed

# EURO BOAR BY JOE COOMBS

*The Classic Euro Boar is for those Boars of a purer bloodline of European wild boar, Russian boar, or Razorback boar. These boars display a more narrow head with a shorter distance between the eyes. The muzzle is thinner and more elongated than the more feral variety of boar.*

by Joe Coombs*

CAB101

**Jaw Set Not Included with Attack Bear**

This is a fearsome looking form even before the skin is put on. This half wall mount is a great alternative to full body mounts. The character and expression of this form will produce a lifelike mount in a terrifying attack pose that is sure to please your customer. No need to saw out a mouth plug here. Joe Coombs sculpted this form with a detachable lower jaw so that the Mohr jaw set fits perfectly.

This is the finest shampoo for your mounts that you can get. This will leave your small mammal mounts with full and extra soft hair. Once you have shampooed a mount with Krow Soap and see the difference that it makes, we don't believe you will ever mount another small mammal without it.

## "DELUXE" MODELING TOOL

All purpose handmade tool. The curved end is used to tuck the skin around the eyes, lips, corners of the mouth, and inside the nostrils. The flattened end makes it easy to slot the lips, tear ducts, and do fine detail and finish work.

Joe Coombs Classics is proud to offer Bobcats by World Champion Brian Harness. These Bobcats are from his Divide & Conquer Series. With this series, all four legs and the head detach from the body. This allows for smaller incisions so that your sewing time is cut in half. Skin slots do not have to be cut into the arm pits because they have been molded into the manikin. These manikins also display exceptional anatomical detail.

**Please Note:**

- Manikins are sold by themselves. Reproduction noses, tails, and rocks sold separately.
- Only the manikins that are listed with Brian Harness as sculptor are from the Divide & Conquer Series.
- Brian Harness manikins do not come with tail wire.

## Bobcat Pedestals

These pedestals have been meticulously sculptured by Brian Harness. They are produced in state-of-the-art molds which yield exceptional detail, very small seam lines, and a light colored foam that is easy to sand. Put one in your shop and just see how well they sell themselves. Buy the manikin, rock, and base together and save.

## Gray & Red Fox Pedestals by Brian Harness

These pedestals have been meticulously sculptured by Brian Harness. They are produced in state-of-the-art molds which yield exceptional detail, very small seam lines, and a light colored foam that is easy to sand. Put one in your shop and just see how well they sell themselves. Buy the manikin, rock, and base together and save.

These bird heads are crafted with exceptional detail and molded to prevent shrinkage or pinholes, providing a smooth, consistent surface ready to paint before installation—eliminating overspray on feathers. Each form includes an integrated windpipe cutout and anatomically accurate skull proportions. With no neck incision required, there is no sewing, and the design creates a strong, secure head-to-neck connection. The bug-proof materials ensure long-term durability, and the nostril openings are cast completely through the bill for realistic accuracy. For best results, wipe with acetone, lacquer thinner, or a suitable prep solution before painting.

## How To Measure

**Length:** Eye to base of tail. Fish 15" or less, the form should not be over 1/2" shorter or 1/4" longer. Fish over 15", the form should not be over 1" shorter or 1/2" longer than actual fish measurement.

**Girth:** Largest part of belly. Fish 15" or less you may use a form up to 3/4" smaller for the girth. Fish 15" or more up to 1" smaller. NEVER exceed girth measurement.

Anthony Eddy's freeze dried chase fish will make a great addition to your fish mounts. They will add another dimension of depth and realism to your finished projects that your customers are sure to appreciate. The eyes are already installed, the fins are backed, and the show side is glossed. The fish are approximately 4-5 inches long.

# MOUNTAIN MIKE'S REPRODUCTION SKULLS

Put your prized antlers on display with the Skull Master Mounting Kit from Mountain Mike's Reproductions. Ground-breaking digitizing techniques and injection mold-making processes enabled the creation of this universal reproduction deer skull. Now you can remove the antlers from your deer and leave the skull behind, eliminating the need to boil or bleach. Designed to fit harvested and naturally shed whitetail and mule deer antlers, this mounting kit includes a detachable antler mounting top section and antler mounting screws.

A tradition re-visited as Mountain Mike's brings to market a patent pending, 2-piece antler cover that's easy to use and looks great on this classic, knotty pine finished panel. This kit works great for antlers connected to their skull plate or detached antlers and sheds mounted on Mountain Mike's Shed Spreader reproduction skull plate. No more cumbersome-to-use red or green velvet plaques! 2 piece cover easily adjusts to any size antler bases. Kit includes Plaque Master with 2 piece cover, brass nameplate, pre-installed hanger, & screws.

A quality alternative to traditional, cumbersome velvet covered antler mounting plaque kits. Materials are extremely high quality and feature a genuine leather, embossed antler cover. Each kit contains all the hardware to get your rack on the wall in no time! A shed spreader reproduction skull plate is included. The Rack Plaque offers 2 different methods for mounting your buck's antlers. For the best results we recommend using the included Shed Spreader reproduction skull plate. This will be faster and make a much cleaner look. It will work beautifully with your harvested animal's antlers or equally well with shed antlers. However, you can also mount your harvested antlers with its original skull plate intact, if you prefer.

# WAYNE COOPER FLEX EYES

It is not necessary to paint these eyes but color can be added to the scleral band. Any over spray can be cleaned from the rubber with a Q-tip and lacquer thinner. Any haze on the eyes will be removed and the shine will return when you gloss the fish.

Water fowl eyes and lids are color matched for each species, but the lids can be painted for a two-tone blend. The eyes and lids are specifically fitted and sold as complete units.

# AUTO-SET™ EYE INSTRUCTIONS

All Classics manikins have an Auto-Set™ eye feature. The eye socket has been preset at the proper angle forward and tilted downward according to our study of live whitetail deer. By aligning the Auto-Set™ marks at the front and back of the eye socket with the pupil, the eye is automatically set.

We will use the 1-2-3 clay method to break down the steps of eye setting to enable you to understand the basic structure of the whitetail eye.

**PAY CLOSE ATTENTION TO YOUR REFERENCE MATERIAL WHILE WORKING**

Place a piece of oblong clay about the size of a marble in the center of the eye.

Simply push the eye flush to the back and line up the pupil to the Auto-Set™ marks and the eye is automatically set.

1. Shape the front part of the eyelid.

2. Place the top of the eyelid making it a little heavier than normal to allow for shrinkage.

3. Last comes the lower eyelid. Be careful not to put too much clay and leave room for the nictitating membrane in the front of the eye.

After clay work is done, use a modeling tool to make a slot between the glass eye and clay to tuck the inner eyelid in.

After final clay work is done, use your reference photos to do the final detail work.

# TANNING & CHEMICALS

## TANNING INSTRUCTIONS

By Joe Coombs

**Step 1:** Skin out the head. Turn lips, nose, eyes and ears - remove any excess flesh from skin.

**Step 2:** Salt hide and drain overnight.

**Step 3:** Put in Pre - Tan solution overnight (as directed on label).

### Advantages of the Pre - Tan:

- A. Puffs up skin.
- B. Makes shaving easier.
- C. Next day shaving can be done.
- D. Pickles in 24 hours.

*Do not soak cape more than 24 hrs. in solution*

**Step 4:** Beam or flesh cape.

**Step 5:** Put cape in Washing Oil solution for 15 minutes (as directed on label.)

**Step 6:** Towel dry or tumble with saw dust.

**Step 7:** Apply Liqua - Tan to hide, hang to dry for four to six days. (Mr. Coombs uses a fan in room where capes are drying.)

**Step 8:** To relax cape use 4 gallons of water and 2 capfuls of Kemal. Use Protex Pre - Soak (as directed on label.)

**Step 9:** Soak cape in Kemal solution for 1 ½ to 2 hours. The cape should be completely relaxed.

**Step 10:** Remove hide from solution of Kemal and place in a plastic bag or damp towel to sweat overnight in refrigerator.

**Step 11:** Hide should now have a stretch and is ready for mounting

*\*After step six, you may mount cape right away by doing the following steps:*

- A. Use Protex Pre - Soak (as directed on label).
- B. Apply Liqua - Tan.
- C. Roll up cape, put in refrigerator.
- D. Mount the next day.

Mr. Coombs prefers to dry cape completely.

### PRE TAN #110

Pre Tan #110 is used in the salt brine solution to help set hair, retards bacteria growth, and pre tans the skin. This product helps make shaving easier and produces better and softer leather. It does not require neutralizing and will not reduce stretch.

Item no.	Size	Price
CK01QT	Quart	\$32.25
CK01G	Gallon	\$86.70

### KEMAL - 4

Kemal-4 is a relaxer, skin prep, detergent degreaser, and cleaner all in one. Concentrated and safe to use, it can be used in all soak solutions. Prepares the skin to accept tanning. Relaxes the skin for easier shaving. Softens such skins as African and grease burned skins. Will not cause hair slippage like ordinary soaps because its low pH is about ten times stronger than most dish detergent.

Item no.	Size	Price
CK04QT	Quart	\$22.00
CK04G	Gallon	\$60.25

### DEODORIZER WASH

Deodorizer Wash is a concentrated wash that removes and masks unpleasant odors in skins such as bear, antelope, domestic sheep, fox, coyotes, goats, etc.

Item no.	Size	Price
CK06QT	Quart	\$31.60

### WASHING OIL

Washing Oil preps the skin for tanning, degreases and oils at the same time, relaxes, cleans, washes out salt residue, and helps to make softer leather. This product also makes shaving the skin easier. Can also be used in the fur drum.

Item no.	Size	Price
CK02QT	Quart	\$21.95
CK02G	Gallon	\$63.35

### LIQUA TAN

Liqua Tan is a complete and permanent tan. It is fast drying and compatible with all hide paste. It has excellent stretch and sets hair with no oily mess. It reduces shrinkage to almost zero. It is used by many of the leading taxidermists because of its ease of use. The skin can be mounted the same day or dried and handled as a tanned skin.

Item no.	Size	Price
CK03QT	Quart	\$27.60
CK03G	Gallon	\$75.10

### ANTLER IN VELVET TAN

Antler in Velvet Tan is a fast acting permanent tanning solution specifically designed to set and tan velvet on antlers. It will not wash out.

Item no.	Size	Price
CK09QT	Quart	\$18.00

### KEMSOL DEGREASER

Kemsol Degreaser acts as a solvent. Mixes with up to 20 parts water. No odor and safe to use. Can be used over again. Works well on mammals, birds, and fish. Can be used in conjunction with Kemal-4. Compatible with tanning agents.

Item no.	Size	Price
CK05QT	Quart	\$18.90

### STOP SLIP

Stop Slip will permanently set hair that is loose or starting to slip. Also works excellently for setting the velvet on horns. Spray from an atomizer or sponge on.

Item no.	Size	Price
CK08QT	Quart	\$12.50

### SOFT FINISH

Soft Finish will soften leather considerably whether old or newly tanned. It contains no water and leaves no oily feel. It is brushed on and/or used in the fur drum. It helps soften hard spots.

Krowtann 2000		
Enough for 4 Deer Capes or 8 Lifesize Bobcat Capes.		
Item No.	Size	Price
K2000	32 oz	\$29.50
Krowtann Whitetail		
Enough for 4 Deer Capes		
Item No.	Size	Price
K2000W	32 oz	\$29.50

\*Krowtann Whitetail formula contains an additional softening agent which makes the skin more pliable.

### Instructions For 1 Deer Cape

1. Rough flesh the skin, turn the lips, nose, ears, and eyes.
2. Shake up the Krowtann and add 8 oz of Krowtann to 2.5 gallons of water and 64 oz of salt. If the cape is an extra large cape, increase the mixture by 50% and use a larger plastic container. Always keep a lid on the mixture.
3. Leave the skin in the tan, flesh side out for 1-4 days until the skin turns white. Each day lift the skin out of the tan and stretch it out, and return it to the tan in a new position to insure that the tan is reaching all parts of the skin. Keep the skin submerged with a water filled milk jug.
4. Pull the skin out of the tan and wash the skin in clear water.
5. Neutralize the skin in 2 gallons of water and 10-12 oz of sodium bicarbonate for 15 minutes. Agitate the skin every 5 minutes during the process.
6. Wash the skin, hair side out, in Liquid Tide and rinse well in clear water.
7. Do your final fleshing at this time.
8. (optional) Shampoo your skin at this time.
9. The skin is now ready to mount or can be frozen to mount at a later date.
10. Slowly add sodium bicarbonate to the tanning mixture until pH of 7 is obtained before disposing of it.

This is a very good oil that works very well in conjunction with Krowtann 2000. If you are wanting to do rug or flat tanning with Krowtann 2000, we highly recommend using Krow Oil. Good results can be obtained without any breaking for your rugs or wall hangings. Krow Oil can also be applied to a cape or skin to give even more stretch and to make the skin even more soft.

This is the finest shampoo for your mounts that you can get. This will leave your small mammal mounts with full and extra soft hair. Once you have shampooed a mount with Krow Soap and see the difference that it makes, we don't believe you will ever mount another small mammal without it.

Item No.	Size	Price
CSD17 30	30lbs	\$41.40

### Instructions:

1. Turn the ears, split the lips and around the eyes. Remove large chunks of fat and meat.
2. Apply a moderate amount of Sodium Sulfate to skin side of the cape.
3. Soak for 30 minutes in 3 gallons of water mixed with 2 capfuls of Washing Oil, 1 capful of Kemal-4, and 1 capful of Skin Prep. After 30 minutes, rinse well in clear cool water.
4. Squeeze out excess water and towel dry or tumble cape in saw dust for easier fleshing and completely flush cape.
5. Spray on a moderate coat of Classics Spray Tan on skin side of cape. Roll up cape and let it set for 10 minutes. The cape is now ready to mount or freeze for mounting later. The cape may be left in a refrigerator for next day mounting.
6. After mounting, apply a small amount of Liqua Tan to the nose and around the eyes to eliminate shrinkage and the loss of natural color.

# REPRODUCTION ROCKS & BASES

These realistic rocks are constructed of solid foam. There is a 1/2" backboard molded into the rocks for easy hanging or screwing into a base. Each rock is individually painted so some color variations will occur. These rocks are sure to save you hours of time in base work.

ROCK1 is used with all the small game pedestals except the coyote. By turning it horizontal and hanging it on the wall, you can use it as a perch for ducks and game birds.

Item No.	Width	Height	Depth	Price
ROCK1	6	6	7	\$25.45

ROCK2 is used with the coyote pedestals and mink forms MK6110 & 6122. It can also be used in all your habitat work with other small mammals and birds.

Item No.	Width	Height	Depth	Price
ROCK2	9	6	10	\$31.80

ROCK3 fits the raccoon RC4110 as seen on page 80 but can be used with many other small mammals, birds, or fish.

Item No.	Width	Height	Depth	Price
ROCK3	22	14	11	\$83.40

ROCK4 fits gray fox GF3110 and turned upside down it fits the bobcat BC1233. All sides of this rock are formed and it has no back board. ROCK4FB has a flat back with a back board.

Item No.	Width	Height	Depth	Price
ROCK4	23	11	12	\$83.40
ROCK4FB	23	11	12	\$83.40

ROCK5 is the classic base to depict an animal climbing up or down. ROCK5 is shown with several mammals throughout the catalog.

Item No.	Width	Height	Depth	Price
ROCK5	28	18	13	\$98.50

ROCK6 is ideal for turkeys, small mammals and pairs of ducks and pheasants. It features a 3/4" recessed bottom to accommodate the leg wires.

Item No.	Width	Height	Depth	Price
ROCK6	20	4	12	\$53.50

ROCK7 fits fisher FR7110 and also works well with fish or birds because of its ledges and overhangs.

Item No.	Width	Height	Depth	Price
ROCK7	14	19	9	\$70.35

ROCK8 works well with the Brian Harness walking forms. Fits Bobcats BC1422-1455 & BC1622-1633, Red Fox RF2644, & Coyote CY6477. It can also be used for a large array of other small mammals and birds.

Item No.	Width	Height	Depth	Price
ROCK8	28 1/2	8 3/4	17 1/4	\$107.00

ROCK9 with BC1333R

ROCK9 is our latest rock base, it includes a piece of driftwood coming out of one side, as shown above. This rock works best with Brian Harness forms BC1322 right turn and BC 1333 right turn. It can also be used for fish, birds, and other small mammals.

Item No.	Width	Height	Depth	Price
ROCK9	25	14	14 1/2	\$99.40

Item No.	Price

## ORDERING

### ORDERS BY PHONE 1-800-722-2327

Orders are taken from 8 AM to 5 PM (Central Time) Monday-Friday. Voice mail orders are accepted after hours and on holidays. When placing an order by phone, customer accounts are retrieved by their first and last name. We do not use business names, as many taxidermy shops use the same names. Please inform us of any address or telephone number changes at the time of the order. Please have all item numbers of the products you wish to order at the time you call. Joe Coombs Classics representatives adhere to the strict policy of repeating all orders back to customers. Orders are keyed into the computer directly from the phone. The items that are read back and agreed upon are the exact items that print out on the customer invoice. It is strongly advised that customers are prepared with complete item numbers and pay close attention to the items that are read back to you. Our representatives will patiently review your order as many times as necessary to ensure accuracy.

### FAX ORDERS 1-985-542-1083

Be sure to include payment method & accurate ship to address

### ONLINE ORDERS WWW.JOECOOMBSCOM

Safe and secure online ordering is available 24 hours a day. Orders placed after business hours will be processed and shipped the next day. Email orders will also be accepted but it is strongly advised that you do not send credit card information via e-mail. Email: INFO@JOECOOMBSCOM

### PICKUP ORDERS

Pickup orders are highly recommended and welcomed, especially if you are within reasonable driving distance to us. It saves on shipping and allows us to meet and get to know our great customers personally. We suggest all pick up orders be called in, in advance before pickup. Just to insure we have everything ready to go when you arrive. If we must ship you an item we do not have readily available at the time of pickup, we can ship that item, however the customer will be responsible for the shipping charges. We can have most pickup orders ready in an hour or two.

## PAYMENT TYPES

### CREDIT CARDS

We accept Visa, Mastercard, American Express, and Discover cards.

### CHECK BY PHONE

Save on COD charges. Provide us with checking info and the funds are drafted out of your account. No extra charges. Telecheck® processes our checks. What they require is all the numbers at the bottom of a check and a driver license number. If you are not on good terms with Telecheck®, your transaction will be declined. Funds need to be available the same day the order is placed.

### COD

Currently the cost of a COD is \$17.50 plus shipping. All COD shipments will be sent by UPS only.

## CHECKS

Pay to: Joe Coombs Classics, Inc.

NSF checks will have a \$50.00 service charge

Customers with NSF checks will be subject to paying for future orders with credit card or money order only.

No checks will be accepted from outside the U.S.A.

## DISCOUNTS

5% Discount \$500.00-\$999.99

10% Discount \$1000.00-\$4999.99

12% Discount \$5000.00 +

## BACK ORDERS

Every effort is made by Joe Coombs Classics to carry an extensive inventory on all of our items to avoid back orders. If an item is out of stock that Joe Coombs Classics does not produce on site, an attempt to contact the customer will be made. If that attempt is unsuccessful by the end of the business day, items will be removed from the order. If a customer would like something put on backorder, they must pay for all additional shipping charges.

## SHIPPING

### DOMESTIC

Joe Coombs Classics offers the services of UPS & FED EX for all of our domestic ground and freight shipments. For oversize boxes, the freight is calculated according to the size of the box rather than the actual weight. This process is known as dimensional weight. Further information regarding dimensional weight or rates can be obtained by visiting UPS or Fed Ex websites. Every attempt is made by warehouse personnel to cut down box sizes and save the customer on shipping. Forms that are not routinely cut can be cut only at the request of the customer. Small items may be sent through USPS at the request of the customer. USPS shipments may be delayed because of pick up time. There is a minimum shipping charge of \$8.00 for all USPS Priority shipments. Shipping quotes are available upon request.

### INTERNATIONAL

Joe Coombs Classics only uses USPS Priority Mail for international shipping. Rates can be viewed at the USPS website.

### DAMAGES

Be sure to check for damage upon receipt of your package. Damage claims will not be accepted beyond 10 days of the ship date.

## RETURNS

All returns must be made within 30 calendar days of the order date on the invoice. Absolutely no refunds will be given for products returned after 30 days. Customer is responsible for return shipping charges. All products returned must be in salable condition and unaltered. This includes no drill holes, no markings, no glue residue, no sanding, or any other alterations. No returns on special request forms. Include a brief note with your return explaining the action that you want taken. Shipping charges are non refundable.

## CLASSICS MANIKINS & FORMS

Every manikin & form listed is copyrighted. Pivot Pedestals are patented (6,458,434). Unauthorized copying of these forms will be prosecuted to the fullest extent.
