

# OPTIMIZING TIRE PERFORMANCE, DRIVING BUSINESS EFFICIENCY

## OUR VALUES

Tirematics empowers logistics companies and transporters with greater control, efficiency, and savings.

- Comprehensive Tire Stock Tracking**  
 Monitor tire inventory in real time, track tyre positions cross vehicles, and manage transfers between trucks. Includes detailed tracking of monthly tyre purchases and usage for better cost control.
- Lifecycle Management**  
 Track the full lifecycle of each tyre, from its first use as a new tyre through multiple retreading cycles.
- Cost-Per-Kilometer Analysis**  
 Accurately assess tyre-related expenses to enhance cost efficiency and fleet budgeting.
